Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary
One dose will remove all bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirits distressing load and painful feelings will be removed.

One dose will remove the most distressing pains of colic, either in the bowels or stomach.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are constantly afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headache, sickness at stomach, weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities, from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

If the proprietor asks, as trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qt. $1.

General Depot, 48 Water street, New York.

Weeks & Potter, and M. S. Burr & Co., Boston. General Agents for New England.

For sale in Portsmouth, by PRESTON and THACHER, and B. HUTCHINGS. Sold by all country dealers. lydmsy1

Morning Chronicle.

☞ A letter in the Atlas, from Bethlehem, N. H., Jan. 31, says, there are strong suspicions of a recent murder by a man, of his wife, in Bethlehem, N. H. John Scannon, an Irishman living at Gale River, has been on a drunk for a few days past, and had a quarrel with his wife last Saturday, and acknowledged that he "stove up his wife" pretty badly. Many drops of blood were found on the floor, and her whereabouts is not known. Many men are now scouring outbuildings, the woods and river near by, to find the murdered woman. Scannon is now under arrest.

DUCK IN DEMAND.—the duck factory at Lawrence is kept running on extra time, and yet is unable to supply the orders received. California takes a large quantity of heavy duck cloths from this company.

It has been observed by keen philosophers that an eel is displeased at being skinned, begin at which end you may.

☞ Eider-down petticoats are now worn by English ladies, in consequence of the cold weather.

☞ The *secession* conventions all make short work;—but the Southern *confederacy* convention makes haste very slowly.

☞ Jenny Lind Goldschmidt, on the 5th inst., while in England, presented Mr. Goldschmidt with another son.

CONCENTRATED LEAVEN,
FOR MAKING
Broad, Tea Cakes,
All kinds of Pastry, &c., &c.,
MANUFACTURED BY
EDW. CHAMBERLIN & CO.,
Proprietors of Shawmut Chemical Works,
NO. 83 INDIA STREET, BOSTON.
CONCENTRATED LEAVEN is the result of careful chemical researches. All its ingredients are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process, and the manufacturer is thus left with entire confidence to the judgment of discriminating house-keepers, bakers, &c., &c.
Bread made with this, made by using CONCENTRATED LEAVEN, is lighter, more digestible and nutritious; has an agreeable, natural taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.
It is not perishable, because it is not perishable, and may be rendered available in places and at times when yeast is not within reach, as at sea. In all climates, and under all circumstances it may be adopted, thus obviating all difficulty of procuring yeast or other ferment, which is frequently of an inferior quality, rendering the bread more or less unwholesome.
It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. In the common process, much of the saccharine of the flour is lost by being converted into carbonic acid gas, or spirit, and the waste is incurred solely for the purpose of generating gas to raise the dough. By using CONCENTRATED LEAVEN, this waste is avoided, and the gas obtained in a manner equally efficacious. Fermentation, as has been stated, destroys a part of the flour or meal, and, in consequence, a barrel of flour weighing 196 pounds, which by the common method ordinarily makes about 250 lbs. gives by this process 290 lbs., thus effecting the very important saving of 16 per cent. in the quantity of flour. By conformity to the directions on each package, any person capable of ordinary attention may conduct the process, and the result will invariably be highly satisfactory.
CERTIFICATE FROM DR. HAYES,
Assayer to the State of Massachusetts.
"I have analyzed the Concentrated Leaven manufactured by Messrs. Edw. Chamberlin & Co., with regard to its purity and efficiency of action in producing the effect of yeast in distending dough and thereby rendering it fit for making bread. This article is skillfully compounded, from perfectly pure materials, which leave nothing but a vegetable salt, which is essentially a desirable food in the bread. It raises the dough without consuming the sugar or any other principle in the flour, perfectly; and the same weight of flour will produce more sweet, palatable bread than can be obtained by the use of the yeast; while for cakes and pastry it is invaluable, as it saves all risk, and much time of the pastry cook.
The experiments made by me confirm the statements of the manufacturers, and prove this compound worthy of public approval and extended use.
A. A. HAYES, M. D., *State Assayer.*
16 Boylston st., Boston, Sept. 25, 1860."

HOW TO USE IT.
We append a few recipes, but it may be used with great advantage in all other kinds of cake, also in fruit puddings and other pastry.
BREAKFAST AND TEA ROLLS.—Two or three teaspoonfuls of Leaven (according to the quality of the flour,) to one quart of flour; mix thoroughly by passing two or three times through a sieve; rub in a piece of butter of half the size of an egg, and make the paste the paste with cold milk or water, (milk is preferable,) barely stiff enough to permit rolling out. Much kneading should be avoided. Cut into desired form, and place immediately into a hot oven, and bake quickly.
LOAF BREAD.—The same proportions of Leaven and flour sifted together as above; omit the butter, and make the paste stiff enough to knead into a loaf, and bake immediately in a slow oven.
GRAHAM BREAD.—Three teaspoonfuls of Leaven to one quart of wheat meal, sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake slowly.
BUCKWHEAT CAKES.—Flour and milk sufficient to make one quart of batter; add one egg, then dissolve two teaspoonfuls of Leaven; beat to a froth, and cook quick.
DUMPLINGS.—Sift together one quart of flour and two teaspoonfuls of Leaven; rub in a piece of butter half as large as an egg; mix with cold milk or water, and boil ten minutes.
CHAMBER STREET CAKE.—Sift together two large cups of flour and two teaspoonfuls of Leaven; put in half a cup of butter and a cup and a half of sugar; mix with cold water or milk to a stiff batter, and spice to suit the taste, and bake immediately.
CINCINNATI SPONGE CAKE.—Two cups of white sugar, beaten with the yolks of six eggs—the whites of six eggs beaten to a froth; then beat all together; add three cups of sifted flour, one cup of water, and three teaspoonfuls of leaven; flavor with two teaspoonsful of essence of lemon, and bake in a quick oven.
JUMBLES.—Sift together one quart of flour and three tea spoonfuls of Leaven; rub in one teacupful of butter; add a cup and a half of white sugar, and spice to suit the taste; mix stiff enough to roll out, and bake quick.
ELECTION CAKE.—One quart of flour and three teaspoonfuls of Leaven sifted together; add a cup of butter, one pound of currants, two cups of white sugar, and one teaspoonful of cinnamon; mix with cold milk to a stiff batter, and bake in a slow oven.
CORN CAKE.—One pint each of flour and Indian meal, and three teaspoonfuls of Leaven, well sifted together; add one gill of molasses, two eggs; mix thin with milk and bake in a slow oven.
CUP CAKE.—Five cups of flour and three teaspoonfuls of Leaven, sifted together; add one cup of butter, two of sugar, and two eggs, all well beat together; mix with milk; then add a cup of currants, and spice to suit the taste. Bake about half an hour.
LADIES' CAKE.—Three quarters of a pound of flour and four teaspoonfuls of Leaven sifted together; one pound of sugar and six ounces of butter beaten to a cream; the white of eight eggs well beaten, and the juice of one lemon; mix with milk.
WEBSTER CAKE.—Five cups of four, three teaspoonfuls of Leaven, three cups of sugar, one of butter, one of milk, and two eggs; fruit and spice to the taste. Bake about half an hour.
For Sale by Grocers Generally.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is not one be any better general remedy.
One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Boston, Sept 1, 1860.—s3 3awly

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,
is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all, that chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, but by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Fainting, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Lassitude, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and Liver Complaints Looseness of the Bowels, Scalding or Burning of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the functions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; and those travellers should take a bottle with them, and all should take a table-spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not untouched by much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it—this Cordial is all we claim it,—Mothers, try it!* And to you we appeal to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known; in time the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, FEBRUARY 8, 1861.

MR. HILLARD ON NIBBLES.— In the great Compromise meeting at Boston, on Tuesday, Mr. *Hillard* said :—

For my *own* part, I hope that we never shall have any more acquisition of territory. I am sorry that the Democratic party should keep nibbling as they do at Cuba. I think it is exceedingly bad taste towards a high spirited nation like Spain, to be constantly talking about the acquisition of Cuba. It is to me like making love to a man's wife before his face, and saying to him—"In case you should ever be divorced from your wife, I want to have spoken first for her affections." And I don't like to see the Republican party nibbling at Canada. I for one would not take Cuba or Canada, one or both, if each stood ready with open arms to come into our embrace.

It is very true that the democratic party, including Mr. Buchanan, have nibbled at Cuba;—but who, before this orator, ever saw the present republican party nibbling at Canada?

We very well remember when the *old* republican party, led on by two ambitious young southern politicians, Calhoun and Clay, made a desperate nibble at Canada, but were caught on the hook and lost the bait. Hull's army was surrendered, the Bladensburg *races* took place, and the British army burnt *Washington city*, and menaced New Orleans and Baltimore, which were happily preserved, though neither of the two young men ever got to be President.

The present republican party, we believe, has never coveted Cuba, or nibbled at Canada.

Their neighbors however, covet the White House and its fixings, and make a dreadful howl because they have had legal notice to leave; they rebel, and fight, and steal, and threaten to destroy everything, if they (less than one fifth of all the nation,) cannot do exactly as they please, in nibbling Cuba and everything else. There is some prospect that they will be gratified, on paper, and by statute,—but in their fight, they have given their own system a deadly wound.

Parties may rise and fall;—but the progress of the *world* is towards liberty, and not towards slavery.

Compromise meetings, and unfair statements, and state equalities, and rebellions and treasons, cannot prevent the victory of freedom. Her march may be impeded in one road, but she will soon cut another.

EXPULSION OF THE GOVERNMENT TROOPS AND THEIR FAMILIES FROM FLORIDA.—The United States storeship Supply, Henry Wacke commander, arrived at New York Monday morning in nineteen days from Pensacola. The Supply brings as passengers the officers and marines lately stationed at the Warrington Navy Yard, and the Marine Barracks at Pensacola, but who were expelled by the Florida rebels when those posts were seized. The families of these men accompanied them on board the Supply.

The whole number of men, women and children, is about 100. Among them is Mr. Lewis Holmes, U.S.N., a native of this city, has arrived here.

The force to which they surrendered was a very numerous organized band of rowdies, loafers and boys—who would willingly pull down a house, or set fire to it, at the suggestion of their leaders; but who would not be at all formidable in attacking any fortress with a proper garrison. The decent people of Pensacola had no hand in the matter. Secession does not consult them.

EUROPE.—The steamer Anglo Saxon, from Liverpool 24th and Londonderry 25th, arrived at Portland Wednesday evening.—Her advices are three days later. Hostilities had re-commenced at Gaeta. The menacing aspect of Germany towards Denmark has created an apprehension of coming hostilities. The Manchester cotton-spinners are trying to devise means to relieve them from dependence on America for a supply of cotton. It is asserted that some American vessels have been registered in England, to enable them to sail under the British flag to South Carolina. All was quiet in China at last accounts. The first instalment of the indemnity had been paid. Lord Elgin has gone to Japan.

In the English markets cotton maintained previous week's prices. Breadstuffs slightly declined. Consols closed at 91 1-2 and 91 5-8.

☞ Nineteen-twentieths of the delegates to the Virginia State Convention, says the Richmond Enquirer, will require equality and safety in the Union, or independence out of it. Perhaps not a dozen will be either unconditional Unionists or unconditionally secessionists. Gov. Wise was elected from Queen Anne county by a decided majority. Douglas himself says, in a private letter to Petersburg, Va.:

"If the border States secede under the fatal delusion of a reconstruction, I fear that all is lost. Save Virginia, and we will save the Union."

WASHINGTON CORRESPONDENCE

U. S. HOUSE OF REPRESENTATIVES, Feb. 2.

The Clerk of the Senate has just reported to the House that the former body has passed a resolution appointing a committee to count the votes for President and Vice President of the United States, and to notify the persons elected of their election, and requesting that a joint committee of the House be appointed to act in conjunction with the Senate committee. Mr. Washburn of Wisconsin moved that a committee of five be accordingly appointed. Several voices upon the Southern side objecting, the matter was not pressed.

The twenty-five million appropriation bill is now before the House. It is amusing to witness the conduct of the refractory minority, in their attempts to stave off this bill. Every parliamentary obstacle is pertinaciously interposed, and the yeas and nays are demanded at every turn. They know the utter impossibility of defeating it, yet they exhaust the patience of everybody by their factious opposition. This bill, when reported by Mr. Sherman of Ohio, chairman of the Committee of Ways and Means, was violently opposed by Mr. Phelps of Missouri, on the ground that it was a war measure. Mr. Sherman briefly informed him that the appropriation was to pay the debts of the present administration.

It takes thirty-five minutes to call the yeas and nays. If they can be called often enough to occupy the entire time before the hour appointed for the consideration of the special order, which is at present the consideration of the report of the Committee of Thirty three, action is postponed for one day, and perhaps may be crowded out for several days. The necessity for activity on the part of the Republicans is therefore apparent.

But Mr. Sherman is not the man to be delayed by parliamentary manœuvres. He stands at his desk, and coolly directs the battle to a successful issue. The "reading clerk" understands as well as any Member, when opposition is ill-founded, and hastens through the dry list of names with railway speed. The other day, when the bill providing for the better protection of the District of Columbia was before the House and was on its passage, Southern members called loudly for the reading of the "engrossed bill." But the bill was not engrossed, no time having been allowed for that purpose. Then the mover of the bill, Mr. Stanton of Ohio, demanded a re-consideration of the vote ordering it to a third reading, and remarked, "By the time the roll is called I *think* the bill will be engrossed, and we shall be able to accommodate you." The roll was called, but by no means hurriedly, and at the same time the engrossing clerk discharged his duty with great rapidity.—Thus every obstacle was removed, and the bill passed.

The roll is called alphabetically, and it is curious to watch those whose initials are not very far down the alphabet. It may be that the yeas and nays have been sprung upon them unexpectedly. If they have not watched the proceedings carefully, they are at a loss how to respond. They look around confusedly for some friend to help them out of their dilemma. Hon. Charles Francis Adams, whose name is always first called, is naturally the oftenest thus involved, and is therefore compelled to watch the proceedings most carefully.

The selection made by Gov. Goodwin of Messrs. Tuck, Fowler and Chamberlain as Commissioners to Washington on the part of New Hampshire, is entirely satisfactory to all. Opinions of prominent Republicans differ in regard to the usefulness of the proposed Convention, but I think the general feeling is that its action will have but little weight. Time is a great solvent, and this knotty problem of the right of States to defy parental authority must resolve itself very shortly. If the South maintains her masterly inactivity until after Lincoln's inauguration, and his enunciation of policy, we may look for a reconciliation. If she precipitates bloodshed, the two million whites of the seceding States will find themselves contending against twenty-five millions of opponents. With weakness and guilt on the one hand, and power and humanity on the other, who think you shall conquer? F. P.

☞ James Varney of Haverhill was sentenced to the House of Correction at Ipswich four years ago, for larceny, and escaped from the prison. He was afterwards arrested for another crime in New Hampshire, for which he served out a sentence of three years in the New Hampshire State Prison, and was taken from the latter institution and carried to Ipswich to serve out his unexpired term, to which six months in the House of Correction has been added.

SCOTT AND STEWART.—The statement that Gen. Scott and Commodore Stewart will ride together on inauguration day, next to the President and President elect, reminds us that these two veterans were in early life suitors for the hand of the same lady—the present Mrs. Scott. Stewart afterwards married Miss Tudor of Boston—and by a singular coincidence Mrs. Stewart and Mrs. Scott are now both residing in Paris.

CONGRESS—WEDNESDAY, Feb. 6.

SENATE.—Mr. Seward presented a memorial from New York merchants, protesting against the abolition of the warehouse system.

Mr. Pearce reported the deficiency bill with the House amendments, recommending that the Senate insist upon their amendments and asked for a committee of conference. Agreed to.

Mr. Douglas moved to reconsider the vote by which the bill was passed to organize a government for the Territory of Colorado. After a long discussion, the motion was not agreed to.

The President's message was then taken up.

Mr. Johnson of Tennessee resumed his speech. He contended that a reign of terror existed in the seceded States. He did not believe that Tennessee was going to be lashed to the car of South Carolina, and thought that even if the Tennessee convention should pass a secession ordinance, it would have to take the State out at the point of the bayonet.

Mr. Wigfall got the floor, when the Senate adjourned.

HOUSE.—The Senate's amendments to the loan bill were taken up.

Mr. Phelps of Missouri advocated concurring, in the repeal of the act of June, 1860, authorizing a loan and providing for the redemption of Treasury notes.

Mr. Sherman of Ohio opposed concurring, as it would leave no security for retiring Treasury notes, authorized by the act of December.

The amendment was rejected—59 against 101.

A Conference committee on the part of the Senate was asked for on motion of Mr. Sherman.

Mr. Colfax of Indiana called up the bill to suspend the mail service in the seceding States. After some debate it was passed—121 against 26.

☞ It is rare that we have an exhibition of such merit as will admit of being repeated night after night before crowded houses, and the enthusiasm still be maintained. But it appears from the notices of the press in relation to the "Panorama of a South Sea Whaling Voyage," advertised in another column, that we are to have an exhibition of no common order, but an interesting life-like representation of the manner of harpooning the whale, and a glowing description of a whaling voyage. The following, from a Boston paper, speaks for itself:—

A high functionary of Boston went in with his child, intending to leave in a few moments after the rising of the curtain.—But he did not, for, as he afterwards said, "he was pinned to his seat." "What!" our readers will exclaim, "a painting pin a man two hours to his seat, against his will?" No. It was Capt. Williams.

He is a remarkable platform delineator. When he commences with the departure from Nantucket, one is not prepared for the outbursting, thrilling, and touching descriptions and delineations, which pour and ripple from his lips, after he has doubled Cape Horn, and has entered the exciting scenes of old—scenes which we witness and live in, body and soul, as we sit in our seats, while many have actually been on a whaling voyage for merely the same enjoyment—scenes which bring war ships and merchant vessels down to their vicinity in hot haste, under every stitch of canvas, all the available spars filled with eager spectators. We rarely listen to anything so affecting as his description of the death and burial at sea of a boy—the only son of a widowed mother—beloved by all on board the ship.

The Captain is admirably sustained in his performances by Capt. Phelon, whose bold and vigorous harpooning, exultation at his success, dejection at his defeat, and capital song, sung, bye the bye, with a superior voice, and supported by an excellent chorus—add greatly to the effect of the exhibition. The remainder of the crew deserve commendation for the manner in which they perform their parts.

The painting itself is a superb specimen of art; rich and beautiful in color, bold and vivid in effect, and in a high degree faithful to nature.

This beautiful exhibition will open at the Temple, in this city, this evening. See advertisement.

THE SECEDING TRIBES.—Senator Hale of New Hampshire, in his remarks on Monday, thus refered to a historical allusion made by Senator Clingman:

"The honorable Senator referred to the going out of the Ten Tribes. So they did go out, but left the ark of covenant of the living God with the tribe of Judah. The tribes did go out, and God only knows where they are gone. He hoped that such would not be the fate of the tribes now endeavoring to go out."

☞ It will be seen that Capt. Williams's "South Sea Whaling Voyage," an exhibition that has met with unbounded success in every place where it has been exhibited, will open in Portsmouth on Friday evening. "It could have been run in Boston a year, provided a hall could have been obtained; as it was, it was run nine weeks."

NEW ORLEANS, Feb. 5.—The convention to-day passed a resolution in favor of appointing commissioners to visit all the southern States that have not seceded, and invite them to join a southern confederacy —58 to 47.

RALEIGH, N. C., Feb. 4.—The House has unanimously passed the resolution declaring that in case reconciliation fails, North Carolina goes with the *other slave* States. The Legislature has adjourned, perhaps to await results.

☞ An ordinance of secession was passed by the Texas Convention on the 1st inst.—It is to be submitted to the people, and if adopted by them, will go into effect on the 2d of March.

FLAX NO SUBSTITUTE FOR COTTON.—An intelligent writer in the Boston Transcript says:

"Next in importance to those farm products that furnish man his daily food, are those textile crops, flax and cotton, which supply materials for clothing more than nine-tenths of the human race. The flax crop of Russia is to the linen manufacturers of Great Britain, what the cotton crop of the United States is to that industrial empire. Flax is the leading article of exportation in Russia. Thus, it would seem, that Russia and England are mutually dependent on each other in the flax trade, as is England and the United, or New England and the Southern States, in the cotton trade. Dr. Engel said "that England and the United States are commercially and politically bound together by a single thread of cotton, which, fragile as it may appear, is nevertheless stronger than an iron cable; ay, with links more enduring than links of steel." So it may be said of England and Russia, they are bound together by a linen thread. Thus does commerce make friends of differing and otherwise conflicting nations.

The United States supply England annually with about three and a half times as much cotton as all the other cotton growing countries; and nearly a thousand times as much cotton, as Russia does flax. That "bread is the staff of life," that "coal and iron govern the world," and that "cotton is king," are proverbs whose significance cannot be gainsaid What the potato is among the exoterics, cotton is among the textiles. Leave me the potato, though you take away all the other culinary vegetables, and I shall deem myself rich; and poor indeed, though you leave me all the others, but take away the potato. So of cotton; you may take all the other textile plants, and they would be but as the drop of the bucket, as compared with cotton.

It cannot but be readily admitted by all, that however important flax is to civilization, it can no more be brought into successful comparison with cotton, or as a substitute therefor, in an industrious and commercial point of view, than Indian corn can be with sugar cane, for the production of sugar and molasses. Neither can one be substituted for the other, for both are wanted—each being indispensable. So of cotton and flax. It is folly, commercially and industrially speaking, to talk of substituting flax for cotton in Massachusetts or anywhere else, unless commerce shall first be paralyzed by wars and non-intercourse between States and nations.

ART UNION.—The disturbed state of the country, and the consequent absorption of the public mind in the momentous events of the day, have so restricted the operations of the agents of the Cosmopolitan Art Association, as to impel them, quite generally, to ask of the Directory an extension of the fiscal year. The Directors had made all arrangements for closing the books (and Drawing) at the regularly advertised time, Jan. 31st, but finding that a large number of old subscribers have been, as yet, unable to renew their memberships, their solicitations, united to those of the agents, for further time, induced the Directory to prolong the year to April 18th, up to which time the books of the 7th year will remain open to receive subscriptions.

WASHINGTON, Feb. 6.—In the Peace Convention to day, a resolution was introduced proposing to conduct the proceedings with open doors. An earnest debate followed, which resulted in a vote restricting the commissioners from communicating their doings to outside parties. The commissioners are socially harmonious, but have as yet discussed no measure looking to political results.

A number of the Republican members of the New Jersey Legislature are here urging their Representatives in Congress not to agree to any compromise which will in any way invalidate their principles.

The steamer Mohigan on Lake Erie will be put into commission on the first of March.

The artillery company which recently left the arsenal at Augusta, Ga., has been ordered here.

☞ The new Constitution of Deseret will be submitted to Congress this week by Mr. Hooper, delegate from Utah. It is the same instrument that was adopted by the Constitutional Convention of Utah in 1856, and has been before presented to Congress. It is Mr. Hooper's intention to move it as an amendment to the Adams proposition for the admission of New Mexico.

☞ The Washington correspondent of the Philadelphia Press says it is understood that Senator Douglas of Illinois and Senator Latham of California will oppose Judge Black's confirmation as Judge of the Supreme Court, and their votes, united to those of the Republican Senators, will defeat him.

☞ The first Congregational Society in Keene, dedicated their re-modeled meeting-house Jan. 29, and on the same day settled Mr. J. A. Hamilton, as colleague pastor with the Rev. Dr. Barstow.

☞ Republicans in Congress threaten to stop the mails in Louisiana and repeal the sugar duty, in consequence of the seizure of the Mint and Custom House at New Orleans.

NEW YORK, Feb. 6.—Steamer Marion arrived from Charleston this afternoon, with the wives and children of the officers and men at Fort Sumter.

☞ The Temperance Address at the Temple, next Sunday evening, is to be given by Rev. D. P. Leavitt. Services commence precisely at 8 o'clock.

☞ The U. S. sloop-of-war Dale, which has been lying at the Portsmouth Navy Yard, condemned, sunk at her moorings, on Thursday.

☞ In the City Council on Thursday evening, both Boards met in Convention, and elected BENJAMIN NORTON as Superintendent of the City Farm. The vote was as follows:—Wm. Moses 8, Wm. Shannon 11, Benj. Norton 16.

No other business of importance was transacted.

DR. HOLLAND.—In answer to numerous inquiries as to the religious tenets of the lecturer of last week, and the author of "Miss Gilbert's Career," we are enabled to state that Dr. Holland is a member of the North Church, (Orthodox,) Springfield, Mass.

Dr. Holland's lecture on Work and Play was an admirable performance, agreeing, in its main ideas, with Dr. Bushnell's oration on the same subject, delivered before the P. B. K., at Cambridge, in 1848;—though the two essays were written for very different audiences, and each is strongly marked with the characteristics of its own author.

☞ The Portland Advertiser states that the master of a brig just arrived at that port from Havana, reports that on the day previous to her sailing, about 10 A.M., a small brigantine from Charleston came in past the Moro Castle, with the Palmetto flag flying, or rather the stripes with one star; but immediately, by order of the officer in command at the Moro, was brought to anchor under its guns, and kept there till about 3 P. M., when the flag of the Union was hoisted, and she was permitted to proceed up the harbor.

FATAL ACCIDENT.—On Monday afternoon, Mr. Edward Morton, a confectioner from Manchester, called to see a friend at Mr. Norris's Bakery in Concord, and after having conversed with him a few moments, in the back room of the building, he started to go out, but opening the cellar door on the left instead of the one on the right, which led into the store in front, he was suddenly precipitated to the bottom of the stairs, striking his head on the hard cemented floor of the cellar. He was taken up insensible, in which condition he remained till his death, which took place on Tuesday morning. He was 45 years of age and leaves a wife at Manchester.—*Congregational Journal.*

☞ Gen. Scott sent a dispatch to Fort Columbus, New York, on Tuesday, ordering a detachment of 30 men for Fort Delaware, to leave forthwith, and one hour after the order was received they left the fort en route for their destination.

☞ The Rockingham County Temperance Society will hold its Annual Meeting at Hampton, on Friday, Feb. 22, at 11 o'clock. All friends of temperance are respectfully invited to attend.

T. H. MILLER, Sec.

☞ Rev. T. H. Miller is to preach at Nottingham, Sunday Feb. 24th.

If you have a Sore Throat, go to WM. R. PRESTON, Druggist, Portsmouth, N. H., and get the HAMMOND LINIMENT, which is sure to cure. G. L. BEAN & CO., Proprietors.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov25 dawtm

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Weariness, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate the most obstinate obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent. One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail.

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the supe ior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of Coughs—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, ME., Aug. 4, 1860.

MESSRS. S. W. FOWLE & CO.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

CAPT. WILLIAMS'S

SOUTH SEA WHALING VOYAGE.

WONDERFUL AND THRILLING SCENES

in the Life of the

AMERICAN WHALE-FISHERMAN!

Will open

Friday, Feb. 8th; Saturday Afternoon and Evening, 9th; Monday, the 11th; Wednesday Afternoon and Evening, 12th; Thursday Evening, the 13th.

TICKETS 15 cents; Children 10 cents.

Doors open at 6½ o'clock—commence at 7½. Afternoon Exhibitions at 3 o'clock.

☞ Please read the following letter:

"Having witnessed an exhibition of Capt. Williams's representation of a South Sea Whaling Voyage, we take great pleasure in bearing testimony to its great artistic merit—to the fidelity with which the ocean, under its various aspects, is depicted; to the accuracy which marks the representations of the various places visited by whalemen on both sides of the continent; and to the valuable information imparted by the graphic and eloquent description given by Capt. Williams, who was an actor in the scenes so beautifully portrayed on the moving canvas. But the most interesting feature of this exhibition is a practical illustration of the manner of capturing the Sperm Whale, by means of a large whale-boat, manned by a well-trained crew. The excitement and danger incident to this hazardous employment are vividly brought before the spectator, who thus witnesses what scientific voyagers have sailed many hundreds of miles to see." RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA

COMPOUND,

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

DR. SWETT'S

COUGH DROPS

—FOR—

Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above-named complaints.

Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:

Canaan, Sept. 4, 1848.—"Dear Br. Swett, I consider it a duty I owe to the public, as well as to yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."

SAMUEL R. DENNETT.

New Castle, Jan. 10, 1841.—"Elder Swett:—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as on myself I feel confident that it is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.

Exeter, Feb. 12, 1858.—"I have been recently cured of a very painful and dangerous cough, in the space of four days, by taking Dr Swett's Cough Drops." J. BATCHELDER.

Newton, N. H., May 7, 1841.—"I am confident that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. Within the last year I have sold $200 worth of his medicines; and I have known them to remove many diseases that have resisted the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines, and then using his Panacea." DAVID CAMPBELL.

Exeter, May 15, 1844.—"I hereby certify that this Spring my daughter had a severe fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until her bowels swelled, and she was so pressed at the lungs that she groaned at every breath; and those who saw her thought that without some speedy remedy she could live but a few days. At this stage of the disease, we obtained some of Dr. Swett's Cough Drops, and commenced giving a teaspoonful every half hour, and dispensed with giving her any other medicine. It relieved the cough and distress of the lungs, and by using two phials she has been entirely cured."

DAVID LANG.

Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use them freely." MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effects of Dr. Swett's Cough Drops, to be correct.

CHARLES C. RICKER.

Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." FANNY MINER.

"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge."

ELIZABETH CURRIER.

Exeter, March 3, 1841.—"Many of my brethren in the ministry frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to others affected, that the Cough Drops prepared by Dr. Swett, of this town, are a valuable remedy. I have found nothing that gives relief so quick.—Let every suffering preacher take a phial and try it." Eld. EDWIN BURNHAM.

Exeter, July 30, 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for Coughs, and for any other complaints of the lungs, with which I am acquainted."

NANCY F JONES.

Canaan, Aug. 29, 1850.—"This certifies that we have found greater relief from Dr. S. Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than all other medicines put together." THEOPHILUS CURRIER,

SALLY CURRIER.

Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I would say that last winter I was confined by a severe cough and spitting of blood, which much alarmed my friends, and I found a sell and speedy cure by the use of only two or three bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town.

I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the application of one bottle of Jewett's Stimulating Liniment, prepared by Dr Swett."

J. C. BURNHAM.

Morning Chronicle.

☞ Geo. T. Brigham of West Boylston obtained a writ of habeas corpus last week to get possession of his wife, alleged to be restrained of her liberty by her father. The wife was produced, a young lady of fifteen, who declared that she voluntarily absented herself from her husband after a brief honeymoon, being but fourteen years old when she married.

Dr. Ester, of Chelsea, Tenn., has discovered that a superior quality of gas can be made out of cotton seed, with the addition of a little rosin. His church and dwelling are lit up with it at a trifling cost. Cotton alone, without the seed, furnishes a great deal of gas, even in this State, but a singular effect of it in the churches, is to diminish rather than increase the light thereof.—*Bath Times.*

☞ Among the acts of the traitor Floyd, was an order to charge the name of Fort Wolster to Fort Floyd.

AYER'S
Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Swelling, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co.: *Gentlemen*—I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a scrofulous infection, I have suffered from it in various ways for years. Sometimes it broke out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I went to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin began to form under the sores, which soon after dried up and fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has used your Sarsaparilla in his *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by the use of the same, says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me of a bronchocele—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. Not unfrequently my interest case of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured, and the patient, while my knowledge equals it for these female derangements."

Ulcers.

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ulceration broke out on one of the legs of a lady which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physicians thought nothing but amputation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

Dr. J. C. AYER: Sir, I observe that you advertise, at the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have used with my patients, for many, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Diseases*. One of my patients, who had taken silver in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. The ulcerations and secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach the brain and destroy him. He yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfigurations to his face. I have, in other cases, had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that one a cloudy day would excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from his firmness, after your agent gave me to, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 4th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic Rheumatism for the past five years, despite the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and I have had good health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

John Y. Gotshall, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for years from my disease, more than from any other part of the *Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was a blessing. By the blessing of God it has cured me, and has so purified my blood as to make me a new man of us. I feel young again. The best that can be said of you is not half enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the medical world, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtile and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the efficacy of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

CONSUMPTIVES.

As equal and normal circulation of the blood is health, and abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood; that organ is diseased. So of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for those diseases, the first great inquiry is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make the grand discovery also

Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life is governed for certain ends by laws, so animal life is traceable to a fixed cause, which removes or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.

We air we breathe we know to contain a very large proportion of Electricity.

Oxygen, brought in contact with metal, evolves or emits electricity.

Electricity, brought in contact with a muscular fibre, causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power of propelling the blood, and sending tingling through the remotest arteries. What, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, SYNCOPE, PLEURISY, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.?—a deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes pale, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fever may be traced to this deficiency in the blood, or the corpuscles or red globules.

Old age is caused by a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir of life," we do say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the red globules and the normal circulation. Consumption is a disease of consumptives! Sufferers from any organic disease! Unfortunates, who have by excess of the body or mind, reduced the quantity of the blood, and diminished the red globules! Ladies suffering any of the distresses known as female complaints, be persuaded that "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up. Do not reject it, do not throw away your money on the vile "Blood Food." is an unfailing remedy; give it a trial.

As elaborate treatise, carrying out and fully proving the foregoing, with testimony, be forwarded, will be mailed to any interested party, on the receipt of two 3 cent postage stamps. Blood Food is sold by all druggists, price $1 per bottle, or six bottles for $5. If sent by express, or in large quantities, I will send 6 bottles, free of expense, for $4. Price, single bottle, $1. It is put up in 8 oz. vials, in yellow wrappers, with my name blown in small bottles, in red wrappers, having been done away with; and bears the fac-simile signature of Church A. Dupont upon the face of the wrapper. Beware of counterfeits and imitations.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common, that a genuine article is the exception; it is of vital consequence to those requiring it, for family use and invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling receivable quantities of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character. Put up in pints and quart bottles, in case containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz: Eighth and Quarter Casks.

THE ONLY PREPARATION

Having Proof as Strong and Direct

as to

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases, weakness, and diseases of the nerve and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, any from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I need, and desire to use, no prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicates to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription used.

These and no circumstances induced me to resort to your worthy "Hair Restorative," which I have ever reason to believe, produced very happy result; two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you the highest praise. Rest assured, dear Sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself is not small, in its favor.

You can publish this if you think proper.

Yours, very respectfully,

M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; and, much as that he was proud to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and is well known in this and in our adjoining counties, many persons can testify to the truth of this statement. I give this to you at his request. Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair, which became thin and bald at the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon regained its original color. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three size viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds a pint and retails at one dollar and a half; the large holds a quart, and retails for in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these complaints, the following:

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for the complaints, and its success alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation and Relieving all Pain. FOR DISEASES ATTENDANT ON TEETHING*, such as *Diarrhœa, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic, and Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect cannot be sufficiently estimated.

IN CONVULSIONS,

From which more infants are said to die than from any other disease, the little sufferer is relieved immediately upon its use. It is in this dread complaint alone, its intrinsic value is such that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL has become "familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we emphatically endorse as a rating commendation of other preparation for infantile diseases, at this time before the public. We find that throughout the country, families are learning to recommend, as well as to truth, and of the sad and blighting consequences which are certain to result from the use of narcotics, administered in the form of opiates, which their continued administration being invariably followed by stupefaction and constipation of the bowels, ending oftentimes in convulsions. Here in DR. EATON'S INFANTILE CORDIAL all fears from every other remedy. It

CONQUERS AND CONSPIRE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, thro' its rare medicinal qualities, by removing all pain and causes of death. We earnestly commend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail, to relieve your child in case of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take no but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts per bottle.

New Photographic Establishment.

Having fitted up and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with such pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street**, opposite the New Custom House.

J. E. SMALL.

Dyspepsia Remedy

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Headache, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance, Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other disarrangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE:—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaint, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts. $1.

General Depot, 48 Water street, New York.

Weeks & Potter, and M. S. Burr & Co., Boston, General Agents for New England.

For sale in Portsmouth, by PRESTON and THACHER, and B. HUTCHINGS. Sold by all country dealers. lydmay1

Morning Chronicle.

BABIES.—At infancy, the healthy body, incapable of progressive motion, demands rest; give then perfect quiet. Man's early life is a mere vegetative existence; the brain, gently pulsating beneath the unformed bone, is not yet the seat of reason, but instinct; while nature then demands entire repose, or at the most passive action, why should a barbarous nurse and ignorant mother array the little form in improper clothing; display it to the admiring multitude; dandle it with thumping vibration, or spin it like a boomerang in the air? Why seek the most noisy promenade, to confuse it with the uproar? Why pound it up and down over hundreds of miles, in the midst of smoke, effluvia, and all the rattle, noise and screams incident to railroad travel?

Avoid those abominations called cradles; flee from the rocking of the crib, and all those swinging motions which cannot fail to produce, in a minor degree, those very agreeable sensations, that pleasant lethargy, which seizes upon one when he is taking his first lesson in drunkenness. What a renown would that agriculturist win for himself who should first invent a patent, portable, double action, self rocking cradle, for sucking calves; what an advantage to the bovine race!

Let the child play one, two, three; what, says some one—four years! and not know a letter! Yea, my good madame, until it reaches the age of seven years, would we have the little mind free and unpuzzled; at liberty to observe, to desire, to construct; to play, to make out its own individuality. This is the great attribute of men—play; this divides him from the brute creation; men alone can laugh. Remember that the longer the period of youth,—the period of formation,—the better, the more healthful, enduring, and longer-lived the man. Of all created beings, man is the most helpless at infancy.—*Scalpel.*

BLINDERS ON HORSES.—Mr. Barey recommended the doing away with blinkers or winkers, in a letter to the London Times, and the system is being very slowly carried out. The owners of horses in general, and veterinary surgeons and horse dealers in particular, are slow to ameliorate the treatment of horses. Horses' eyes were given them to see with, not to be blindfolded. Men have got the prejudice in their heads that their forefathers used blinkers, or winkers, over horses' eyes, and they must do the same. I affirm that there is not the slightest danger in giving up winkers at once, either with cart or carriage horses. I am convinced that, by removing the shades from the horses' eyes, they would suffer less and do their work better, and people would soon get used to the naked eye of the horse, and admire it infinitely more than winkers or blinkers, though ornamented with a silver crest.—*English paper.*

☞ The Nashville Banner of the 26th ult. reports the disappearance of Samuel Jones, Deputy Sheriff of Maury county, with $100,000 of the county funds. Mr. Jones abandoned his wife and six children. His wife, it is stated, is absolutely deranged on account of the affair.

The events of to-day are more interesting to most, than those of yesterday. So men are fast giving up books for newspapers.

Some graceless wag has suggested a new reading of Shakespeare, to suit the times: "Help me, Cash us, or I sink."

The saying "that there is more pleasure in giving than receiving," is supposed to apply to kicks, medicine and advice.

For sale by S. L. RUSSELL,
30 Water Street.

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,
Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, refurbishes and renovates the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all, who chemically and skillfully combined and put up the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can cause no injury. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and already all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities*, Menstrual Derangements or Torpidity, and Liver Complaints Diseases of the Kidneys, Scalding or Inconvenience of the Urine, or any general derangement of the Urinary Organs, Pains in the Back, Side, and between the Shoulders, predisposition to Slight Chills, Hacking and Continued Cough, Kanchus, Hoarseness, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the disease at once, if already attacked. And as it acts upon the urinary system, bracing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following a change of climate and water; hence all travellers should take a bottle with them, and all should take a table-spoonful at least before retiring. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the dreaded period with perfect ease and safety. *There is no mistake about it—this Cordial is all we claim it.—Mothers, try it!* And to you, who feel so depressed the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known; in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is at every vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator, as the remedy which should always be on hand in time of need.
O. J. WOOD, Proprietor, 444 Broadway, New York, and 1 Market street, Boston. Also, and sold by all good Druggists. Price $1 per bottle.
Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D cow ly

ATWOOD'S
QUININE TONIC
BITTERS.
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, but combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pints as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, FEBRUARY 9, 1861.

PARTIES NOT WORTH MUCH.—Hon. Geo. S. Hillard, in the course of his speech at the Boston Union meeting the other night, said:

I do not put my trust in parties. I do not put my trust in partizans. We are meeting with the difficulty encountered in all democratic countries—the ebullitions of party spirit, and the fact that men prefer their party to the country. But yet the great heart of the country is sound on this subject. I do say that the great heart of the North beats in sympathy and in affection towards our brethren of the South. I believe that the mind of the South is poisoned towards the North, and the mind of the North is poisoned towards the South, by designing men, for selfish ends.

There is no doubt of it. A man certainly can neither be better nor worse, for being North or South of Mason & Dixon's line. Worth alone makes the man, anywhere—and party names are of little real value.

EXPULSION FROM ARKANSAS.—The St. Louis Democrat relates the circumstances of the expulsion of Mr. Joseph Powell, from Fayetteville, Ark. He was originally from Pittsfield, Mass., and went to Fayetteville two or three years since to rebuild a flour mill. A year ago he purchased a third interest in the establishment, for which he paid $3000. Recently, in the course of conversation with some of his neighbors, he declared that he could not take up arms for the South, and for this expression he was compelled to leave Fayetteville without having time to take the first step towards arranging his affairs.

TREASON IN MISSOURI.—The St. Louis Democrat says:

The office-holders in this State are among the most malignant disunionists. They eat the bread of the government they are plotting to destroy. They call themselves the "chivalry," and we don't know but that they are as good specimens as any that can be found. The clerk of the United States District Court is head devil. The physician of the Marine Hospital is another; the postmaster and surveyor of the port—the clerks of the latter being the principal source from which the ranks of the "minute men" are recruited—enter the same category. The gentleman who fills the office of assistant is the only one who has the decency to regard the spirit of the oath by which their fidelity is pledged to the government which employs and feeds them.

☞ Strangers in Boston should not fail to visit the Aquarial and Zoological Gardens on Washington Street—and examine the beauties, curiosities and monstrosities there displayed at all times. Among the wonders just now, are an African Sphinx, or Sacred Monkey; and a New Hampshire Ox, twelve feet long and six and a half high, and weighing 4500 (forty-five hundred) pounds, and quite thin at that! They are to have a young live Whale there next Spring.

☞ An extraordinary case of polygamy has just been developed at Dublin. Kate Collins, a ballet dancer, who has for some time been bewitching the residents in the Irish capital, suddenly vanished to escape the clutches of the law, the gentle Kitty being charged with marrying no less than five husbands, each of whom has been remitting weekly sums for her support. The discovery was made by the unexpected meeting of three of the duped Benedicts at her residence.

A SCHOOL FOR CRIME.—The Cincinnati police have discovered what may be termed a school for crime. It is kept by a woman named Mrs. McLaughlin, in Rat Row. This wretched woman has been engaged for years in training boys to steal.—Vagabond children find out her abode, go to her, and she offers them food, liquor and lodging, for articles which they steal.

UNCERTAINTY OF TELEGRAMS.—The Boston Daily Advertiser, a standard authority in commercial reports, had three reports from New Orleans Thursday morning, arranged under each other. The first dated Feb. 4, quotes freights to Liverpool firm at 1d asked. The second, also dated Feb. 4, quotes freights to Liverpool 5-8d; and the third, dated Feb. 5, gives the rate to Liverpool as 3-4d. Which is the correct report? Probably the last. We have had no New Orleans mails for several days.—*Traveller.*

WASHINGTON, Feb. 7th.—There were about ten members and twelve listeners in the House this evening.

Commissioners from Missouri have arrived.

The Peace Conference adjourned to-day, to visit the President.

Mr. Corwin's object in delaying the question on the report of the Committee of Thirty-three, was to see what the peace conference would do in the meantime.

The resignation of Capt. Ingraham is accepted. Com. Shubrick will probably retain his commission.

FATHER KEMP'S OLD FOLKS' CONCERTS.—The entertainment so popular in this country was brought out at Liverpool, Eng., Jan. 22, before a crowded audience and with complete success.

AFFAIRS IN ALABAMA.—The following is an extract from a private business letter from a gentleman of wealth, influence and respectability in Northern Alabama:

ALABAMA, Jan. 28.

You will have heard before this reaches you, that this State is out of the Union, not, however, by the vote of the people, but by the act of hot-headed, corrupt-hearted traitors, with the Governor at the head. If the action of the convention had been submitted to the people, as it ought to have been, the decision would have been set aside. A majority of the people are for the Union as long as there is any hope of obtaining our rights, and if they cannot be secured to us in the Union, then for the whole South to go off in a body.

My land is in the market. If I could obtain a fair price, I would sell to morrow. The course pursued by South Carolina and the leading set in this State is ruinous, and will get worse the further it goes, unless things change. I hope they will become aware of the folly and rashness of their proceedings, and that matters will be yet so arranged as to preserve the Union in peace and quiet. It would be better for the whole, however, if South Carolina would set off by herself. If there is a southern confederacy, and she is in it, she will be a pest and eventually a curse to it. If the Union is to be torn to pieces, may the Lord in his great mercy, preserve the country from war and bloodshed. Money is more scarce and times harder than I have ever known them. All are meat buyers and almost all corn buyers, and no money to buy with.

The crop of corn in North Alabama is an average of a half crop. Property is falling in value.

AN ABUSED WIFE DETERMINED ON SUICIDE.—Early on Saturday morning, Mrs. Mary Bradley was discovered by a policeman at Walnut street dock, Philadelphia, disrobing herself preparatory to a plunge. She informed the officer who discovered her, that a relentless brutality on the part of her husband had rendered life a burden, and she only asked the privilege of leaping into the river. The officer of course refused, and took her to the station house. He placed her in a cell for safe keeping, and returned to his beat. The turnkey at the station soon after heard a gurgling sound in the cell, and tearing open the door found the poor wretch black in the face, deliberately strangling herself with a garter. So resolute was she in her aversion to life, that the turnkey saved her with difficulty. She was then guarded closely, but continued to declare that if forced by the authorities to return to her husband, her blood should be on their heads.

GRUMBLINGS AT CHARLESTON.—A Charleston correspondent of the Philadelphia Press, writes:—

There is a very general dissatisfaction amongst the trading community respecting the military arrangements. The merchants, with a magnanimity worthy of a better cause, have been for the past four weeks paying the salaries of their clerks, nearly all of whom are doing duty in the harbor. They have had to do their own work, and forego making their usual January collection, (nobody in Charleston thinks of paying a bill till it is applied for.)—This has been fine amusement for the boys, but their employers begin to feel it to be a very severe tax, and do not hesitate to hazard the opinion, that the sons of the *elite* who are daily and nightly promenading King street, in military attire, should, one this, have relieved the clerks and salesmen from garrison duty, that they might retire to attend to the business of their employers and the earning of an honest living for themselves. There is an evident desire to establish an aristocracy in Charleston, and nothing has shown it more strongly than the military arrangements of Colonel Jamison.

WASHINGTON, Feb. 6.—[Special dispatch to the N. Y. Tribune.]—The news telegraphed from New Orleans that a truce has been concluded between Lieut. Slemmer and the State forces at Pensacola, is false. The revolutionists have simply backed out. They have not dared to attack Fort Pickens, and they will not dare to attack Fort Sumter.

The Virginia election amounts to nothing practically. The difference between the two parties is, that one proposes to secede to-day, and the other to-morrow. The Union party is pledged all over the State to insist upon enthroning slavery in the constitution, and this is about what the secession convention assembled here will aim to bring about. There are men in it who have acted with the Republican party, just as full of this treason as anybody.

The Virginia delegation to the "Peace Congress" are desirous of obtaining some declaration against coercion. They propose to conciliate the cotton States by deposing the general government, and encouraging war upon it without resistance.

Kentucky commissioners conferred last night, and agreed upon the outline of a new proposition for compromise, which they believe will be acceptable to both sides, and involve no surrender of principle.

☞ Capt. Robert G. Scott of Virginia, who has been spoken of as a member of Mr. Lincoln's cabinet, has been elected a member of the convention in that State. He proclaims his allegiance to the South; says he is for the Union, if justice is done the slave States; if not, why he is where all the Southern Union men and co operationists are—for secession.

ST. LOUIS, Feb. 7.—At a Union meeting to-night, fifteen delegates were nominated to the convention. Addresses were made by F. P. Blair and others. Three hundred and fifty troops arrived here to-day to reinforce the arsenal, where nearly six hundred troops are stationed.

☞ In the U. S. Senate, Feb. 7, Mr. Wigfall replied to Mr. Johnson, and said that the tone of Mr. Johnson's first speech indicated that he was in favor of coercion, and it was too late now to deny it. The Senator from Tennessee complained that his great argument had been unanswered, but he (Wigfall) had not heard any great argument. Mr. Wigfall referred to the treaty ceding Louisiana to the United States, contending that Mr. Johnson did not give a fair construction of it, nor in regard to the admission of Alabama. He said Jacksonian doctrines have been perverted by the Black Republicans. He argued against coercion and war. Helper's book was not so slanderous against the South as were the sentiments uttered by southern Senators. He asked what Black Republican ally told the Senator that the south wanted to make war on Mexico. It was a slander, it would have enough to do to take care of itself. He then eulogized Mr Davis of Miss., saying that Mr. Johnson had attacked him in his absence. If Mr. Davis had been present he would have answered, "Lord Angus thou hast lied." (Applause in the galleries.)

He said the South had no desire to make war, but intended to live under such government as they saw fit. Six States had revoked the treaty called the constitution, though they might be willing to make another. He claimed that the South had a mine of wealth in its cotton, and pictured the destruction that would ensue to northern commerce if the ports were blockaded, and concluded by saying that a vessel would be fired into if it should carry the flag of thirty-three stars into a port where they have plucked the stars from it.

A WILD CAT KILLED BY A WOMAN. The St. Croix Herald states that Mrs. Weeks, wife of Joseph Weeks, killed a wild cat at Meddybemps on Monday, Jan. 21.—The animal was discovered near the house about mid-day, and the noise he made in slaughtering a goose attracted Mrs. W.'s attention. On her going to the place the animal fled, followed by the dog belonging to the house. Mrs. Weeks brought up the rear with an axe in her hand, prepared for an "irrepressible conflict." The dog being unequal to the emergency, the lady, with great presence of mind, picked him up and threw him at his stronger antagonist, and while the latter was uppermost in the fight, Mrs. W., by a judicious use of the axe, dispatched the wild cat by a few blows.

TERRIBLE INUNDATION IN HOLLAND.—A correspondent of the London Daily News, writing from Rotterdam on the 15th of January, describes a terrible inundation which had occurred in Holland:—

Fresh intelligence arrives from the inundated districts, detailing additional scenes of wretchedness—people dying from hunger and cold; their houses cut away by the ice, as corn is mown down by the harvester's scythe; a church which has stood hundreds of years swept down, as a puff of wind sweeps down a house of cards; and the prospect is even yet more fearful. Holland has often suffered much from inundations, but never within the memory of living man has an inundation been accompanied with so much heart-rending grief and despair.

THE GREAT "SALVE" CERTIFICATE.—Hall's Journal of Health has the following:

Dear Doctor: I will be one hundred and seventy-five years old next October. For ninety-four years I have been an invalid unable to move except when stirred with a lever. But a year ago last Thursday, I heard of the Granicular Syrup. I bought a bottle smelt of the cork, and found myself a new man. I can now run twelve and a half miles an hour, and throw nineteen double somersets without stopping.

P. S.—A little of your Allcumstone Salve applied on a wooden leg, reduced a compound fracture in nineteen minutes, and is now covering the limb with a fresh cuticle of white gum pine bark.

Twelve negroes, belonging to Charles Friend, Esq., of Prince George, came to the city on Tuesday, and informed their master that they did not intend to work for him any longer, and desired to be sold.—They had no reasons to give for this extraordinary move as they had been treated with most commendable kindness all their life. Only two of them had ever given occasion for correction, and that was some two years ago. They were lodged in jail, and will probably be accommodated in their desire to go South.—*Petersburg Express.*

NEW YORK, Feb. 7.—A heavy gale is raging here, and signs, awnings and chimneys have been blown down, trees broken, &c.

Accounts from Oswego, Ogdensburg, Watertown, Rochester, and Buffalo, state that a terrific gale prevailed in those places to-day, with a heavy snow storm. The thermometer ranging from 1 to 16 degrees below zero. Railroad trains have been delayed and in some instances were unable to proceed.

At Toronto, there was the severest snow storm ever known. Trains on the Grand Trunk Railroad are entirely stopped, and one on the Great Western Road stuck in a drift a few miles from the city.

WASHINGTON, Feb 7.—The Senate bill, which passed the House to-day, provides that there shall be no extension of any patent when the commissioner is satisfied that the net profits are $100,000; and the commissioner is authorized to dispense with models where drawings will be sufficient.

☞ The inauguration of Mr. Lincoln as President of the United States will take place in three weeks from next Monday, the 4th of March coming on that day.

☞ The U. S. frigate Macedonian was spoken Jan. 30th, bound for Tortugas.

MEMPHIS, Feb. 6.—There was an immense Union torch-light procession here to-night.

PROPOSED AMENDMENT TO THE CONSTITUTION.—*New York, Feb. 7.*—Special dispatches from Washington aver that Senator Hemphill of Texas will offer an amendment to the Constitution, that when a State secedes, Federal laws shall cease, and the forts and other public property be vacated, but the mail service shall continue until a postal treaty is entered into.

A ludicrous proposal, equivalent to saying the Union is a rope of sand, and not a government.

NEW YORK, Feb. 7.—The Chamber of Commerce this afternoon agreed on a protest against the new tariff bill, on the ground that it abolishes the warehouse system which is intended to promote foreign commerce; also that it initiates a system of double duties, thus augmenting the cost of collecting the revenue, and impairing the source of revenue by exercising a depressive influence on foreign commerce, and that its passage when a part of the southern States are not represented would present a serious obstacle to reconciliation.

BALTIMORE, Feb. 7.—A tremendous gale is raging to-day. Thirty houses were unroofed, trees were uprooted, and walls and chimneys demolished. The tide was lowered three feet.

PHILADELPHIA, Feb. 7.—There is a furious gale here.

WASHINGTON ITEMS.—Dispatches of Feb. 8 speak of a desire in the peace convention for harmonious action—and go on to say:

Senators Johnson and Wigfall are said to be arranging the preliminaries for a duel.

Dispatches from Montgomery, Ala., say that objection is made to the adoption of the U. S. Constitution, on the ground that it will lead to a re-construction of the Union.

A company of dragoons and another of marines arrived Thursday night.

WASHINGTON, Feb. 8.—[Dispatch to the Traveller.]—Pensacola advices represent that a large fleet is there, and the Southern rebels have fled.

It is reported that two or three malcontents among the Charleston forces at Fort Johnson have been shot.

Sherman and other Republicans assert that everything can be adjusted without bloodshed or humiliating concessions.

☞ The steamship Canada brings European dates to the 27th ult.

The Sardinians entered the Roman territory on the 22d, dispersed the reactionary bands, and burnt the convent of Carmelia.

The bombardment of Gaeta continued.

Sales of cotton at Liverpool on Saturday 6000 bales; all qualities slightly declined, the market closing dull.

Breadstuffs have a declining tendency.

☞ Ash Wednesday, the commencement of Lent, comes next week.

Also can be had with the above, if wanted, 18 acres of pasturing, about half covered with young Pine growth. For further information and terms, apply at the Chronicle Office. jan26

AT THE TEMPLE, PORTSMOUTH.

CAPT. WILLIAMS'S

SOUTH SEA WHALING VOYAGE.

WONDERFUL AND THRILLING SCENES

in the Life of the

AMERICAN WHALE-FISHERMAN!

Will open

Friday, Feb. 8th; Saturday Afternoon and Evening, 9th; Monday, the 11th; Wednesday Afternoon and Evening, 13th; Thursday Evening, the 13th.

TICKETS 15 cents; Children 10 cents.

Doors open at 6½ o'clock—commence at 7½ Afternoon Exhibitions at 3 o'clock.

☞ Please read the following letter:

"Having witnessed an exhibition of Capt. Williams' representation of a South Sea Whaling Voyage, we take great pleasure in bearing testimony to its great artistic merit—to the fidelity with which the ocean, under its various aspects, is depicted; to the accuracy which marks the representations of the various places visited by whalemen on both sides of the continent; and to the valuable information imparted by the graphic and eloquent description given by Capt. Williams, who was an actor in the scenes so beautifully portrayed on the moving canvas. But the most interesting feature of this exhibition is a practical illustration of the manner of capturing the Sperm Whale, by means of a large whale-boat, manned by a well-trained crew. The excitement and danger incident to this hazardous employment are vividly brought before the spectator, who thus witnesses what scientific voyagers have sailed many hundreds of miles to see." Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' per severance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawsm

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, which consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions* from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet with the Agent.

One dollar and six cents in stamps enclosed to any authorized agent, will insure a bottle, by return mail. nov28 dawdm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma,* or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam.* So generally acknowledged is the superiority of its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

MESSRS. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial, and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took from me the use of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

To All Weak-Kneed Republicans!

LOOK AT THIS!

STRENGTHENING PLASTERS for all those RIPUBLICANS who at this time have got a weak spine, and whose knees are weak, owing to the Slavery agitation. Any person using these Plasters, and not feeling benefited from bowing his knees to the Slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be found in the Senators or Representatives in Congress from New England troubled with the Slave weaknesses,—I will supply them without pay. These valuable strengthening Plasters are for sale at 12 and 17 cts. each, according to the size, by

B. HUTCHINGS, 4 Market Street

Diaries for 1861 at Reduced Prices,

J. F. SHORES, JR., No. 1 Congress Block, has on hand a large variety of Diaries, which he will sell at reduced prices.

Local.

☞ As Mr. E. Washington Brown was driving in a sleigh to Newcastle, early Thursday evening, with a little brother, the horse was frightened by the falling of a drunken man in the road, just at his head, and jumped violently, so as to capsize the sleigh, and threw the riders out, dragging and bruising both considerably. The accident occurred just before reaching the lower bridge, and in the extreme cold, caused no little inconvenience and suffering. The horse ran down through Newcastle; and turning, again crossed all the bridges, and ran through the toll-gate, (the keeper having been paid his return-toll, and flinging open the gate so as to cause no delay in the cold,) clear to the livery stable in State street, where he belonged—dragging the broken sleigh. Rather a poor "turn-out" for a sleigh-ride, on the coldest and most windy night of the season—to have to foot it home after your team, thanking your stars, and not your horse or your tipsy traveller, that you have any legs left to stand on.

☞ The old U. S. ship Dale, which sunk at the Navy Yard wharf here, on Thursday, had leaked badly for a long time; and when "examined" a few months since, holes were bored so near the water-line, that with the other leakage, they caused her to fill and sink, in spite of all efforts of the workmen to prevent it.

☞ Col. Delaney, U. S. A., who has recently taken command of the Marine Barracks at this Naval Station, lost a valuable horse on Thursday night. He has several horses; and one, a mare, received from another, a kick which broke her leg, and she was killed next morning.

COINCIDENCES.—At a recent wedding in this city, one of the groomsmen was son of a gentleman who officiated in similar capacity at the marriage of the bride's father; and one of the bridesmaids was also daughter of a lady who assisted the bride's mother to assume the silken tie.

CITY AFFAIRS.—*Messrs. Editors:*—We see by your "daily visitor," that the City Government in convention have elected Mr. Benjamin Norton as Superintendent of the City Farm. Mr. Norton, when City Marshal, won for himself a popularity and character for efficiency, not exceeded by any City Marshal since we have been a city; and we think it will be the same in regard to the City Farm—for he is thoroughly acquainted with farming, is industrious, honest and capable of attending to the various duties pertaining to the responsible position. A. B.

☞ In the City Council, Thursday evening, Messrs. John N. Frost, George T. Vaughan and Wm R. Martin were appointed Port Wardens for the ensuing year.

☞ The Portsmouth Cornet Band are to give one of their popular Promenade Concerts, at Jefferson Hall, Monday evening next.

☞ Remember the South Sea Whaling Voyage, this afternoon and evening. Tickets for sale at the stores of Messrs. J. F. Shores, Jr., N. P. Thacher and at the door Single Ticket, 15 cents; package of four tickets, 50 cents; children, 10 cents.

☞ Copies of the Congregational Journal, containing Rev. Mr. Gage's sermon suggested by the death of the King of Prussia, may be had of J. H. Locke & Co.

☞ The Whaling Voyage Exhibition, now being presented at the Temple, is an entertainment of high repute, and has always attracted the largest and best audiences, wherever seen. See the inducements, in the advertisement.

☞ Ship Orion, Capt. Libbey, from Liverpool for Calcutta, with a cargo of salt, reported wrecked in the Hoogley river, was a good ship of 1297 tons, built at East Boston in 1856, by Paul Curtis. She is owned by Messrs. Minot & Hooper and others, and is insured in Boston.

STABBING AFFRAY AT SEABROOK.—On the evening of Wednesday, the 30th ult., at the close of a concert in the town hall at Seabrook, an affray occurred, in which William Willey and Robert Butler were badly stabbed by one Charles Berry. Berry was arrested, and on Monday evening last was examined at Exeter, on a complaint for stabbing Willey, who was present. Butler is as yet unable to appear against his assailant. About twenty witnesses were present, and further proceedings were postponed until the 23d inst., the accused giving bonds in $400 for his appearance.—*Ballot.*

☞ The schooner Kossuth, Capt. Lee, from New York for Newburyport and Portsmouth, on Friday, Feb. 8th, was reported ashore on Cape Cod, two miles northeast of Pace Point. We know no further particulars.

☞ The Richmond Enquirer now publishes a portion of its edition in German—nearly the whole of its outside pages, reading matter and advertisements, being printed in that language.

☞ In the Supreme Judicial Court, at Exeter, the trial of the Betsey Farmer will case will hardly be concluded this week, and the jurors not drawn to try it have been discharged until Monday next. The trial, as before, excites great interest in that vicinity, and the court room is crowded daily, a large number of ladies availing themselves of the opportunity to attend. Betsey Farmer, whose will is the subject of contest, was a miserly old woman, who lived in Newton, N. H., in apparent poverty, rags and dirt, and died in 1855, leaving property to the amount of $60,000; which those who cared nothing for her while living, are now quarreling about, as is often the case.

FLAT-BOATS INTERCEPTED UPON THE MISSISSIPPI.—An Iowa correspondent of the Chicago Tribune says that, a little below Memphis are "*several acres of flat boats,*" loaded with produce, but are forbidden by an armed force to proceed further. The chivalrous interceptors of commerce refuse to buy them out, or allow them to go on.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,

—FOR—

RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA

COMPOUND,

is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

From the Gazette.

INHARMONIOUS STILL.—Our present Black Republican City Fathers seem to be no improvements upon their predecessors in the qualities of agreement and concord. The troubles last year were all charged to the stubbornness of the Democratic Mayor, but this year, with all the branches of the city government Black Republican, things seem to be quite as badly out of joint.

They have succeeded in doing the city an injury in removing Mr. Walker, the gentlemanly and competent City Messenger and assistant clerk.—They have also, after much tribulation, made choice of a City Marshal—bestowing this somewhat important office upon a gentleman who is supposed to be a citizen. But they have failed—or had up to Thursday evening, when another attempt was to be made—to appoint a Superintendent of the City Farm—the difficulty in this case arising from the question between the Mayor and the Aldermen, whether the competent and experienced Democratic incumbent should be reappointed or be superceded by an incompetent and inexperienced Black Republican. There is little doubt that the Mayor will be overruled in the City Council, which now makes the choice, the Mayor and Aldermen having failed to appoint within the prescribed time, and that the city's interest will be made to further suffer in this appointment.

The Black Republicans of this city when out of power, and it is true to say too weak to succeed, always manifest a great desire to have party politics discarded in the management of the city affairs, but no sooner by any accident or streak of luck do they get power than they instantly forget all their professions of no-partyism and become most utterly and vindictively proscriptive. They are acting out their true character now—doing as they have done many times before and always do when they possess the power—in making the city government thoroughly partizan in all its departments, to the injury of the city's interests. Well, let them go on. They are doing the Democratic party a good service. It is some years since they have been permitted to have full swing in our municipal affairs, and we think it will be an equally long period before they will enjoy the privilege again after next November.

The action of the City Council on Thursday evening has realized our anticipations. It will be seen by their proceedings that they have elected Benjamin Norton, Esq., late City Marshal, Superintendent of the City Farm. Such an appointment to this office cannot be considered one "eminently fit to be made," but was evidently intended as a measure of retaliation on the Aldermen for not re-appointing Mr. N. to the office of Marshal.

From the Journal.

ANOTHER COLD FRIDAY

COLD—TREMENDOUS COLD.—On Thursday last, we had the warmest day since December. The thermometer at noon was at 42 degrees—rain was falling, and the streets sloppy. About 3 o'clock the wind changed from the south-west to the north-west, and Boreas piped up his forces with a shrill and piercing whistle. In the evening the mercury had descended 45 degrees—being 3 below 0! The violence of the wind sent the cold with extra force into every corner.

On Friday morning there was a descent still further down, to 23 degrees below zero! There has been but one time in the last fifty years when the descent has been so low in Portsmouth—and that time was on the morning of the 24th of Jan. 1857, when the mercury, for a few minutes only, was 25 degrees below. That was the time when the Piscataqua was frozen over. The high wind has prevented its freezing over on this occasion—there is, however, ice formed from the North mill-bridge to Noble's Island.

On Friday noon, the mercury stands at 13 below 0. This is the coldest noon of which we have any record here.

On the ever-memorable cold Friday of Jan. 19, 1810, the mercury in Portsmouth was 12 below zero at noon, and the next morning at 16 below. For 15 years previous it had not been colder than 11 below.

On Friday, Feb. 14, 1817, the mercury descended to 13 below.

On Thursday, the 25th of January, 1821, the mercury was 19 below.

On Sunday, the 4th of Jan. 1835, the mercury was 18 below zero in the morning, and 13 below in the evening.

There need be but a slight change in the nomenclature of the Southern confederacy. A transposition of two letters, and the old name will suffice for both sections. *United* States for the North—*United* States for the South.

Mr. Gangooly when visiting Rome, before his departure for India, in company with an English clergyman, visited the Pope, and was well received, without any Popish ceremony.

THE SAVAGES.—At a meeting of the "Savages," Co. B., of Byfield, Mass., on Monday evening, fifty-five members out of sixty-two responded "yes" to the call of the commander-in-chief, and passed the following resolution:

Resolved, That in the opinion of this Company the leaders in the secession movement of South Carolina deserve the fate of John Brown, and at the call of the commander-in-chief we will help to carry the same into effect.

The French Post office returns for 1860 have been made up, and from them it appears that on an average every inhabitant of France writes eight letters per annum. In England (with Wales) the average is 24, just three times the number; it is less in Scotland; still less in Ireland, where the Post-office does not pay its own expenses.—*Paris Cor. Globe.*

A wag seeing a lady at a party with a very low-necked dress and bare arms, expressed his admiration by saying she out stripped the whole party.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with no severe pain to compel and your feelings uncomfortable? These symptoms are often the prelude to disease. A little bit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors; purify the blood, and let the fluids move on unobstructed in health and vigor. They stimulate the functions of the body into vigorous activity, purify the system from the effects of disease, and expel from the blood the putrescent humors which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, beset themselves as a nest in the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the burden, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true in this case is equally true in many other complaints, also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the digestive functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them in cases arising from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of obstinate sores upon her head and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After one bottle of your Sarsaparilla had cured her, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are bland, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR SIR, AYER: I cannot answer you what complaints I have cured with your Pills better than to say all those in *your treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache by your Pills, and now have to give me your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PRESLEY, *Clerk of Steamer Clarion.*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but they have wrought most happily the Liver very marked indeed. They have in my practice the proved more effectual for the cure of *bilious complaints* than any one medicine I have used. Conscientiously I believe that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., Feb. 20, 1857.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. I have used them in my own family in *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Gunn, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. They have proved invaluable in my hands for them as excellent remedy, when given in small doses to *bilious dysentery and diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those to whom I minister in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever found. They I can confidently recommend them to my friends. Yours, J. V. HIMES.

WILLSIN, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the *system and purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Medical, Canada.

Too much cannot be said of your Pills for the cure of costiveness. Hundreds of our fellow-citizens have found their efficacious and I have, they informed me, no hesitating in for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the prolific parent of other and worse ills. I believe no treatment originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Sweet, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are exceedingly promotive of the purpose for which they are intended, namely, to prevent suppressed, and also very effectual to throw the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hendee, of the Methodist Episc. Church.

PITTSBURG HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on severe rheumatic pains, which continued to increase in severity for months. Nothing satisfactory I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Blackwood, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured by your Pills of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the deceitful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass

CONSUMPTIVES.

An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the blood to stagnate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery also.

Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which, when removed, or destroyed, said death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounded of iron, sulphur and phosphorus.

The air we breathe is known to contain a very large proportion of oxygen.

Oxygen, brought in contact with metal, develops—we—electricity.

Electricity, brought in contact with a muscular fibre, causes it to contract.

These facts being indisputable, we have now the cause and the antecedent effective power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, will electrify, and, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling to every part of the system. Hence, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, NYSTAGMUS, HYSTERICS, PERTUSSIS, &c., &c.—a deficiency of the red corpuscles containing the iron, sulphur and phosphorus, which causes a deficiency of electricity, and consequent in abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, or the corpuscles or red globules.

Old age causes a deficiency of corpuscles, and hence the pains of old age, and yet that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the red globules, and the normal circulation. Consumption for years has been supposed to be a hopeless disease, and so it is, when the lungs are so far gone as to be in a state of suppuration. But even in this case, if the patient can be induced to use the Blood Food, he can live. Its effects are so wonderful in curing cases of Consumption, that it seems almost a miracle to those who have seen the dying sufferer, who, a few weeks before, could not walk across the room, now able to walk a mile. The Blood Food is a certain cure for Dyspepsia, Liver Complaint, Nervous Debility, Fits, Spasms, Palsy, St. Vitus' Dance, Hysterics, Nystagmus, Pertussis, Rheumatism, Neuralgia, Dropsy, Female Weakness, Nervous Irritability, Sleeplessness, Loss of Appetite, Pain in the Side, Back, Limbs, Dyspepsia, Costiveness, Piles, Fistula, Ringworm, Tetter, Salt Rheum, Scurvy, Erysipelas, Scrofula, Cancer, Tumors, Dropsy, Gravel, Diabetes, Stone and Gravel in the Bladder, Kidney Complaints, Dysentery, Diarrhœa, Cholera Morbus, Cholera, Cholera Infantum, Nausea, Vomiting, Costiveness, Dyspepsia, Jaundice, Fever and Ague, Fever, Typhoid Fever, Typhus Fever, Scarlet Fever, Measles, Whooping Cough, Croup, Asthma, Bronchitis, Neuralgia, Rheumatism, Gout, Palsy, Paralysis, St. Vitus' Dance, Hysterics, Fits, Epilepsy, Convulsions, Nervous Debility, Nervous Headache, Female Weakness, Irritability, Sleeplessness

LOSS TO THE SOUTH BY THE FLIGHT OF SLAVES.—In the year 1850, as appears by the census, the number of slaves that escaped from the South was 1011, viz.,from

Alabama	29	South Carolina	41
Missouri	60	Mississippi	64
Arkansas	21	North Carolina	16
Delaware	26	Tennessee	70
Florida	18	Texas	29
Georgia	89	Virginia	83
Kentucky	96		
Louisiana	90	Total	1,011
Maryland	279		

Since 1850 it is believed that the number of negroes who have taken French leave has not been less than 1500 per annum, and that the Cotton States have suffered their full proportion from the stampede. The average value was probably $600 each.

THE ARCHDUKE MAXIMILIAN of Austria was nearly burned to death in a railroad car on the 15th ult. He with his suite had left Berlin but half an hour, when the saloon carriage caught fire through the overheating of the hot air stove. The flames, fed by combustible materials, spread rapidly, and the connection with the other carriages of the train was cut off. Count de Bombelles, at the peril of his life, clambered on to the roof of the carriage, and his cries were at last heard by the engine driver, who immediately brought the train to a stand still. With some difficulty the velvet hangings were torn down and the furniture thrown out of the window, and the fire was extinguished with the aid of water and snow.

A GOLIAH IN THE SECESSION CAMP.—They have some "tall" men in the secession army at Pensacola. One is a "professor" named Day, serving as a private in the Lauderdale rifles, is master of six languages, a superior mathematician, and a learned man in every respect. He is moreover six and a half feet high in his stockings. His weight is three hundred and ten pounds, and he measures seven feet in the girth.—He has been known to shoulder a six hundred lb. bale of cotton, and has frequently taken a whisky barrel by the chimes, raised it at arms length and drank at the bung-hole. On one occasion he threw a mustang pony and his rider over a ten rail fence, for which offence he was tried and convicted in the Circuit Court of Lauderdale county, and fined $500.

KILLED BY A COW.—Thomas Laverty, an Irish laborer, met with a sad and fatal accident, in Springfield, Monday evening. While leading a cow, the animal attempted to break away, and threw her leader so violently upon the ice that he lived but a few minutes. Mr. Laverty was a married man, and leaves several children.

The fraternal advice of the Providence Journal to Kansas is—"Now, young sister State, don't you go and secede before we have had a chance to spend a few millions on you."

—FOR—
Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above-named complaints.

Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:

Canaan, Sept. 4, 1848.—"Dear Br. Swett, I consider it a duty I owe to the public, as well as to yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends thought was the first stage of an incurable consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."
SAMUEL D. DENNETT.

New Castle, Jan. 10, 1841.—"Elder Swett:—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as on myself, I feel confident that it is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.

Exeter, Feb. 12, 1858.—"I have been recently cured of a very hard and dangerous cough, in the space of four days, by taking Dr Swett's Cough Drops." J. BATCHELDER.

Newton, N. H., May 7, 1841.—"I am confident that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. Within the last year I have sold $200 worth of his medicines; and I have known them to remove many diseases that have resisted the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines, and then using his Pauacea." DAVID CAMPBELL.

These, with other of

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,
Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, rejuvenates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet *so perfectly adapted, as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach,* and tone up the digestive organs, and stay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetable, and thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility, for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and the ever Complaints, Diseases of the Kidneys, Scalding or Incontinence of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following a change of climate and water; hence all travellers should take a bottle with them, and all should take a bottle at least at first before visiting, as it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not untomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it—this Cordial is all we claim it.—Mothers, try it!* And to you we appeal to detect its illusions or decline not only of your charms, but before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known; in time, the latter are often so mixed up with the excitement of business that if it were not for you to do so, would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal, for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator, as the remedy which should always be on hand in time of need.
O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.
Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D eow 1y

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with a *tonic* and *aromatic*, and, can not fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhoea, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

MONDAY, FEBRUARY 11, 1861.

WASHINGTON CORRESPONDENCE

U. S. House of Reps., Feb. 6.

The weather to day is resplendent, under the bright sunshine, and the mild spring-like atmosphere. Windows are thrown widely open, — the streets are dotted with equestrians, and the sidewalks are crowded with well-dressed people. No climate could be more genial than this, during the clear days of winter. Overcoats are scarcely needed, and fires can be very easily dispensed with. An inch or two of snow, the other day, attracted much attention, but quietly and unceremoniously withdrew next day.

Mr. Tappan made a powerful speech last night. The House was well filled, and the galleries crowded. Every word uttered by the New Hampshire gentleman was listened to with attention, and was distinctly understood. He spoke with but slight reference to his notes, and his delivery was graceful and effective. The telegraph will have furnished you with an abstract of his speech. I need not therefore report it. He deprecated dissolution, but he did not believe it utterly fatal to future progress, and remarked:

"But if such is to be our fate, the 'United States of America' will still exist, with a territory and people teeming with all the elements of greatness and of freedom, of unsurpassed progress and of future glory! If that shall speedily come, then I say,

'Let us press the golden cluster on our brave old flag
In closer union, and, if numbering less,
Brighter shall shine the stars that still remain.'"

I may add that Mr. Tappan's speech should be largely circulated in New Hampshire. It takes the right ground in view of the present emergency.

A bill has just been reported by Mr. Colfax, and passed by the House, empowering the Postmaster General to suspend the mail service in the seceding States. Mr. Branch of North Carolina opposed the bill; and Mr. Sickles of New York favored it in an able, clear, logical and convincing speech. It was carried by a large majority—several Southern members voting for it. If put in force, letters will have to go by express, in stamped envelopes, until some other arrangement is made.

Your compositors make such havoc with my manuscript, that I expect to be compelled to suspend my correspondence. I can excuse reasonable errors, but when utter nonsense is made of a tolerable sentence, and the offence is repeated, I must be allowed to expostulate mildly, and if this is unheeded, to withdraw gracefully. F. P.

From Alabama.—*Montgomery, Ala., Feb. 4.*—There have been unusually heavy rains within the past few days throughout South Carolina, Georgia and Alabama, and as a consequence some of the rivers mark a higher stage of water than has been known for many years.

The regular passenger train from West Point, due here at noon to day, when within about three miles of this city, met with a serious accident to cars and wheels, but no person was injured. The track was broken up for about fifty feet. The baggage and express cars were badly smashed. On the train were several delegates, including the Hon. A. H. Stephens, Robert Toombs, James Chestnut, S. J. Withers, and Thomas R. Cobb. All escaped unhurt, but were more or less excited, and consequently not entirely "insensible to fear."

There are not, so far as I can learn, more than twenty of the delegates now present. Like all other conventions, there is much speculation as to the gentleman who will be elected permanent President to day, but it is generally conceded that the Hon. Howell Cobb will be chosen.

I do not pretend to be able to state what the convention will do; but I am confident that a provisional southern government will be formed. But the convention meets to day, and I am writing only a few hours before its session commences.

Some few, perhaps a dozen, of the soldiers who were stationed at Pensacola are now here on furlough. They say there are a few United States armed vessels off the port and more are expected there. On Saturday the Mississippi regiment numbering 800, were about to leave for their homes.

It is true that the Postmaster General has abolished the Post Office at Pensacola, but there has been no material trouble experienced in consequence of it. Mails are made up and forwarded independent of the Post Office department, and so it will be whenever the Post Offices are abolished.

☞ The Newburyport Herald says that on Tuesday morning, a country damsel, with mighty large hoops, was occupying more than half the street, when a sleigh coming along at full speed caught her skirts over the runner, and stripped her of all her superfluous gearing in a trice. The hoops were on the bows of the sleigh, and she was landed in the stern.

☞ The Wisconsin Legislature has chosen Senators Doolittle and Durkee and Representatives Washburn and Potter to represent the State in the Washington Convention.

Portland, Feb. 8.—Thermometer 23 degrees below zero this morning, 14 below at noon, and 12 below at sunset. Coldest day on record.

Dangerous Dreams of a Nervous Man.—A citizen of Troy, N. Y., excited by the late robberies in that place, has for some time slept with a loaded revolver under his pillow. In a dream, recently, he found himself among murderers and assassins, and grasping his weapon, aimed it at some person whom he fancied to be walking stealthily about the room, and narrowly missed shooting his own wife, who had risen to attend to the wants of a child. Since that alarming adventure, the good woman has revolutionized the war department of the household, and seized the pistol and ammunition, after the example of the seceding States, and without the least regard to the obligations of the union, by which her husband became commander-in chief.

Outrages in Smithfield, R. I.—The Pawtucket Gazette states that Mr. Asa G. Burdick, keeper of the Town Asylum in Smithfield, R. I., was assaulted on Saturday evening, Feb. 2, by a person armed with iron knuckles. Mr. B. drew a revolver, when his assailant fled, dropping his hat and knuckles as he went. On the same evening, Mr. Joseph Barker, a neighbor of Mr. Burdick's, was assaulted, and probably by the assailant of the latter or a confederate. He was struck with a club and stunned, and pursued to his house, through a window of which an iron weight was thrown into the room occupied by the family.—These attacks were made, probably, in revenge for efforts made by Messrs. Burdick and Barker to break up a groggery in the vicinity.

☞ The new great-coat in the British army is thus described: Double over the shoulders, no cape, partly down the back and in the sleeves to below the elbows, two capacious pockets behind, the edges piped with red, a band, also piped, confining the coat to the wearer's back at pleasure; shoulder straps for the belts are also piped, and the fore part of the skirts made to loop back to the waist when on the march.

Death of Dr. John W. Francis.—The telegraph announces that the venerable John W. Francis, M. D., of New York city, died yesterday morning. He was a learned and skillful physician, a man of wide literary attainments and associations, and one of the most genial of companions and friends. He was born in New York in 1789.

☞ A much esteemed clergyman, living in Warnock, Alabama, having tasted liquor for the first time, on a recent festive occasion, became intoxicated, and on becoming sober, was so terribly mortified that he committed suicide.

☞ Lord Caithness, a Scottish nobleman, has been creating a sensation in London with his new steam carriage. He is said to have driven through the most crowded parts of the city without frightening the horses, thickly strewn as they are.

☞ The indictment against Mr. Floyd, says a Washington correspondent, charges him with accepting drafts to the amount of seven million nine hundred thousand dollars for Russell & Co., knowing that the government owed them nothing.

☞ In Worcester, on Wednesday, Esther M. Peck, of Lyme, Conn., was knocked down in the street by a boy who was coasting, and rendered insensible, in which state she remained for several hours. Serious injury to the brain is feared.

☞ The Lowell News says a large flock of geese were seen Thursday morning, quietly wending their way to the north in search of more peaceable quarters. They probably did not like the smell of gunpowder at the South, and were fearful the people there were not "sound on the goose."

☞ On Wednesday last sixty-three free negroes from Edgecourt county, N. C., crossed the Ohio river at Belleaire, on their way to Zanesville. An old negro acted as the leader of the party, holding the tickets, disbursing the funds, &c.

☞ The Pennsylvania Legislature has passed a bill guaranteeing twenty-eight hundred thousand U. S. bonds, under the new twenty million loan. A letter from Major Anderson, in response to the resolutions of the Legislature, was read in the House. It was well written, and was brief in the expression of his profound gratitude.

☞ The Michigan Democratic State Convention met on Wednesday. Resolutions were adopted, expressing devotion to the Union, opposing coercion, and favoring compromise. The Convention adjourned to the 7th of March, without nominating a Judge of the Supreme Court.

☞ The Springfield, Ill., correspondent of the St. Louis Democrat says that prominent Republicans in the Illinois Legislature are in favor of a remonstrance against Mr. Seward's being a member of Mr. Lincoln's cabinet.

☞ The parading of United States troops on Pennsylvania avenue every morning, by order of General Scott, causes deep indignation in minds of Southern delegates to the Peace Congress.

The New Postal Bill.—The postal measure which passed the House of Representatives by a large majority on Wednesday, authorizes the Postmaster General to discontinue the mail routes when in his opinion the postal service cannot be safely continued, or the post office revenues collected, or the postal laws maintained, by reason of any insurrection or resistance to the laws of the United States, and until he deems it safe to re-establish such routes. Of course, whenever the Postmaster General finds it necessary to act upon the authority here given him, some inconvenience will be felt without as well as within the "infected district." If the bill becomes a law, however, the seceded States will probably take measures to establish postal communications on their own account.

Washington, Feb. 7.—[Special dispatch to the N. Y. Tribune.]—Another company of artillery arrived here to day. The force now collected is about 900 in all.

All of the Pennsylvania delegation to the "Peace Congress," but Mr. Wilmot, is here. Messrs. Pollock, Franklin, and White are inclined to compromise. Others await developments.

Other outrages have been committed at New Orleans besides the seizure of the revenue cutter and the Mint, and the robbery of public money by the secessionists, which will be laid before Congress for legislation.

The impression now obtains here that the Convention of Commissioners was devised at this time with the view of restraining the President from taking decisive measures for the protection of public property, and securing non-action, by which the treasonable schemes of the secessionists could be better carried out.

The secession of Texas will arrest the passage of the bill for a mounted regiment to protect her frontier, and interfere materially with the Pacific Railroad. Her postal service costs the country half a million of dollars yearly above the receipts.

Imperial Project for a Tunnel from Calais to Dover.—It is said that the Emperor Napoleon has given his sanction to the project of building a railway between Calais and Dover. This undertaking, probably the most stupendous in the history of the world, contemplates the tunneling of the British Channel between the points above named—a distance of twenty miles. It is intended, we believe, to build a number of stations, or islands, along the route. The bed of the channel along the proposed route has been ascertained to be of solid rock, which will render the proposed tunnel, when completed, impervious to water. Contractors are busy preparing their estimates of the probable expense of the work.

Sad Case of Destitution.—In Boston on Thursday evening, officer True of the third station found a woman named McDonald, with five children, in a house rear of No. 18 Cypress street, in a suffering condition from the cold. It appeared that the landlord had taken out the windows because the woman could not pay her rent. The officer procured some gunny bags and nailed them up at the windows, made a good fire, and did other kind service, which rendered the family comparatively comfortable for the time, but they still need assistance.

No Reconstruction for the Gulf States.—The Charleston correspondent of the New Orleans Delta writes as follows, in repudiation of the exploded idea of "reconstruction:"

The opinion is steadily gaining ground here that the southern confederacy must be a Gulf confederacy. There is danger that the border States will be continually chasing the phantom of "reconstruction." This, the people of Georgia, Florida and South Carolina—for I see enough to know the current of public opinion of these States—will never agree to. We shall know all, however, in two months from this time.

Montgomery Convention.—An official copy of the act of Alabama, appropriating half a million dollars to support the provisional government has been forwarded to Congress. It is reported that in secret session the constitution of the United States, with some additions, including free trade with all the world, was adopted.

☞ Gov. Morgan, of New York, has replied to the command of Gov. Brown, of Georgia, for the guns seized at New York, by saying that as he (Gov. Morgan) has taken an oath to support the federal government, he cannot permit arms to pass through the State destined for the subversion of that Government or arms that may be turned against citizens of New York.

A Life Sentence for Arson.—In the Supreme Court, criminal term, sitting at Worcester, Wednesday, Clark Fairbanks of Harvard was found guilty of arson and sentenced to imprisonment for life in the State Prison.

☞ The report that the arsenal at Little Rock, Ark., had been seized, is false. A party went to take it, but on being told by citizens that they would be resisted, they abstained.

Tallahassee, Fla., Feb.—The Legislature has resolved to adjourn on the 14th inst. A bill for carrying the mails has passed the Senate and will pass the House. The negro expulsion bill was indefinitely postponed in the Senate.

New Orleans, Feb. 8.—The convention passed an ordinance continuing as laws of Louisana the old federal laws relating to the U. S. District Court. A resolution was offered, instructing the Committee on Finance to report upon the expediency of a modification of the revenue laws, so as to admit India bagging and other articles used by dealers in cotton, free of duty; also as to the expediency of imposing a specific instead of an ad valorem duty on foreign sugar, with a view to the protection of the sugar interests of Louisiana. A resolution that the criminal laws of the federal courts remain as now, was ordered to be printed. A resolution will probably be offered tomorrow to abolish the Legislature.

Washington, Feb. 8.—Col. Hayne and Lt. Hall left this morning for Charleston.—They came together, by agreement, and so return together.

The Postmaster at Mobile denies that letters passing through his office have been violated.

Washington, Feb. 9.—The Peace Congress will not transact any business to-day, but wait for the report of the committee appointed to draw up the plan of adjustment, which will be ready on Monday if possible. Mr. Guthrie, Chairman of the Committee, has a plan of adjustment which meets the approval of many. The great stumbling block is the right of secession, which the border States claim, and which prevents coercion.

The President returned Col. Haynes last letter as insulting. He fears an attack on Fort Sumter.

Major Chase left Pensacola in disgust when the Brooklyn arrived, making the capture of Fort Pickens impossible.

☞ At Washington, it is declared by many that war will be declared by South Carolina against the United States, and an assault made on Fort Sumter, on the 17th.

Herrick Allen's Gold Medal Saleratus has not its equal in the world, as all who have ever used it will testify. If you would preserve health in your families, and good sound teeth, and at the same time be economical, make an investment in a pound of it, and you will ever after use it. Do not be put off with any other. Most all of the grocers have it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

MARRIAGES.

In Newburyport, Mr. James Booth of South Berwick, Me., to Miss Sarah Ann Whitehouse of Dover.

DEATHS.

In this city, on Friday evening, Feb 8th, James W. Tuckerman, aged 24 years, only son of Mr. William Tuckerman.

In Dover, Feb. 2, Mr. John Mann, aged 78. He was the oldest printer and editor in the State, with the exception of Hon. John Prentiss of Keene.

Dancing to commence at 9 o'clock—music by J. S. Turner's Quadrille Band.

AT THE TEMPLE, PORTSMOUTH.

CAPT. WILLIAMS'S
SOUTH SEA WHALING VOYAGE.

WONDERFUL AND THRILLING SCENES
in the Life of the
AMERICAN WHALE-FISHERMAN!

Will open
Friday, Feb. 8th; Saturday Afternoon and Evening, 9th; Monday, the 11th; Wednesday Afternoon and Evening, 12th; Thursday Evening, the 13th.

TICKETS 15 cents; Children 10 cents.

Doors open at 6½ o'clock—commence at 7½. Afternoon Exhibitions at 3 o'clock.

☞ Please read the following letter:

"Having witnessed an exhibition of Capt. Williams's representation of a South Sea Whaling Voyage, we take great pleasure in bearing testimony to its great artistic merit—to the fidelity with which the ocean, under its various aspects, is depicted; to the accuracy which marks the representation of the various places visited by whalemen on both sides of the continent; and to the valuable information imparted by the graphic and eloquent description given by Capt. Williams, who was an actor in the scenes so beautifully portrayed on the moving canvas. But the most interesting feature of this exhibition is a practical illustration of the manner of capturing the Sperm Whale, by means of a large whale boat, manned by a well-trained crew. The excitement and danger incident to this hazardous employment, are vividly brought before the spectator, who thus witnesses what scientific voyagers have sailed many hundreds of miles to see." Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

If you have a Sore Throat, go to WM. R. PRESTON, Druggist, Portsmouth, N. H., and get the HAMMOND LINIMENT, which is sure to cure. G. L. BEAN & CO., Proprietors.

Bryan's Pulmonic Wafers!
THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are pleasant to the taste, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawSm

☞ We call the attention of our readers to an article advertised in another column, called Blood Food. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this Blood Food and be restored to health.

The Great English Remedy!
Sir Jas Clarke's celebrated Female Pills
Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of Sir James Clarke's Female Pills, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a box, by return mail. nov28 dawSm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.
In the whole history of medical discoveries, no remedy has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Colds*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.
Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

Norway Village, Me., Aug 4, 1860.
Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as Dr. Wistar's Balsam of Wild Cherry, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.
Prepared by SETH W. FOWLE & CO., Boston;
SOLD BY
Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; James F. Packer, Greenland; S. Hanson, Jr., New Market; Porter & Tripp and Wm. B. Sap Exeter; J. W. Green, Hampton Falls; and by dealers everywhere. s25 4w

YOU CAN'T FIND
AN ARTICLE THAT SUITS AS WELL
HEIMSTREET'S INIMITABLE
HAIR RESTORATIVE
Apothecaries and consumers all testify that IT IS THE ONLY RELIABLE ARTICLE FOR THE BALD AND GREY
Read the testimony from Kentucky.

Paducah, Ky., July 27, 1860.
Mr. W. A. Bell.—Dear Sir:—I have used Heimstreet's Inimitable Hair Restorative, and am satisfied from my experience in all other preparations for the like purpose, that *it is the only article ever before the public worth purchasing.*
Yours truly, John G. Daly.

Paducah, Ky., July 27, 1860.
Messrs. W. E. Hagan & Co., Troy, N. Y.
Gents:—Above please find statement of Mr. John G. Daly, merchant of our city, in regard to Heimstreet's Inimitable Hair Restorative. This testimony is given after having used most of the preparations now before the public, *claiming* to be Hair Restoratives, and *must be considered conclusive* as to the merits of the *Inimitable*. Am out of the large size. Forward by railroad double the quantity we had before. Very truly yours
W. A. Bell.

To All Weak-Kneed Republicans!
LOOK AT THIS!
STRENGTHENING PLASTERS for all those Republicans who at this time have got a weak spine, and whose knees are weak, owing to the Slavery agitation. Any person using these Plasters, and not being relieved from bowing his knees to the Slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be either of the Senators or Representatives in Congress from New England, troubled with the Slave weaknesses,—I will supply them without pay. These valuable strengthening Plasters are for sale at 12 and 17 cts. each, according to the size, by
B. HUTCHINGS, 4 Market Street

Diaries for 1861 at Reduced Prices,
J. F. SHORES, Jr., No. 1 Congress Block, has on hand a large variety of Diaries, which he will sell at reduced prices.

Local.

☞ We learn that the Independent Christian Society, of this city, which for several years has worshipped at the Temple, has leased the elegant Hanover Street Chapel, and held services there last Sabbath.

The venerable Elder Moses How, of New Bedford, who for the past few months has occupied their desk, has fulfilled his engagement with the Society, and returned to his home. His genial and fatherly presence among his old fellow-citizens, has been welcomed like a pleasant memory of the happiest past. Long may it be ere we shall have *only* the precious remembrance left.

☞ On Friday afternoon, a boy employed on board the ship Judah Touro, at Pier Wharf, was sent aloft to perform some duty, and although there but a few minutes, the weather was so intensely cold that before the task was finished, all of his fingers were badly frozen.

The vessel sailed Saturday morning, for Savannah, Ga.

MERCANTILE LIBRARY LECTURES.—The lecture before the Mercantile Library Association to-morrow (Tuesday) evening, will be delivered by Grace Greenwood, of Philadelphia. The name of this lady is enough to excite a strong and general desire to listen to her on the present occasion. And there is no risk in assuring those who may compose the auditory, that they will have offered for their enjoyment an intellectual treat of rare excellence. *

☞ If you wish to witness a good exibition, one well worthy of patronage, go to the Temple this evening, and see the panorama of the "South Sea Whaling Voyage."

Tickets for sale at the stores of Messrs. Shores, Jr., N. P. Thacher and at the door Single Ticket, 15 cents; package of four tickets, 50 cents; children, 10 cents. *

A PRIVATE BANK ROBBED BY RATS. A St. Louis paper says Mr. Carl Kleinman, of St. Louis, lately deposited $300 in Missouri Bank bills in his cellar. This, he thought, would be safer than a bank, and he let the money rest until Friday, when he proceeded to examine it. His astonishment was great when he found the rag, in which he had wrapped it, empty, and it was still greater when he found his money in fragments, and used to adorn some rat nests near by. After gazing mournfully at the remnants for a few minutes, he procured assistance and caught every rat in the cellar. These he placed in a box, and will take them before the Recorder for examination. The small rats are supposed to be guilty of devouring the two or three dollar bills, and will come under the head of petit larceny. The older and larger vermin will have to account for the twenties and tens, and their punishment will probably be severe. Mr. Kleinman states that, out of the $300, he was only able to recover $148, —making his loss from the rats $152.

A MODEL SLAVER.—The slaver Manuelita, alias Sunny South, of Boston, was at the Island of Ceylon, December 5, a prize to Her Majesty's steamer. Her model is beautiful, and her great speed attracted Admiral Keppel's notice. He purchased her for government purposes. On dit that after using the Sunny South as a cruiser, the Admiral intends to send her to England, so that the naval architects may have a superior model to copy from. The Manuelita had over seven hundred negroes when captured. She showed Mexican colors.—*Boston Courier.*

☞ Dr. B. C. Perry, the celebrated Dermatologist, (Doctor of the Hair,) now has his office in the fine spacious rooms No. 29 Winter street, between Washington and Tremont streets, Boston—where he will be happy to meet his former patients, and all others who wish information or relief concerning the hair, or the lack of it. Dr. Perry's book on "The Hair and its Diseases," is a valuable and exceedingly interesting work.

☞ The smartest young butcher in New York is named Gorman. He can kill and dress a sheep in four minutes and twenty-four seconds, and did it on Wednesday for a wager. His competitor, a veteran butcher named Darby, occupied six minutes and and twenty-six seconds in performing the same operation.

COTTON IN NICARAGUA.—Maj. John P. Heiss, formerly of Tennessee, has returned to Nicaragua to settle there permanently. So satisfied is he with the cotton-raising experiments made upon the high and healthy interior lands of that region, that it was his purpose immediately to put a hundred acres under cultivation for that staple.

☞ The Macon (Ga.) Telegraph says that a negro preacher in that State has written a work in defence of African slavery, which is now in course of publication.

☞ The wife of Mr. Jerry Fenton, of Rutland, on the 26th of January, gave birth to triplets,—two boys and a girl,—each weighing six pounds, and are all doing well.

NOTICE.

All persons are hereby forbidden to cash a BANK CHECK for $150, payable to Robert Lefavour. LEONARD COTTON.

☞ The Washington correspondent of the Morning Star says:—

This whole difficulty could be settled in three hours if Messrs. Toombs, Rhett & Co., could have the nomination of all the officers and the direction of all the salaries of the government, as heretofore. Every anti-slavery measure of the Republicans could be endured, if the South, with half the population of the Free States, one-third the wealth, and one tenth of the shipping and commerce, could still have two-thirds of the officers and three-fourths of the salaries. * * * * *

All these forces are brought to bear in continued fierceness, and the North will yield. The three hundred thousand square miles of territory south of 36 deg. 30 min. will be given to slavery; the Fugitive Slave Law will be apparently modified, but really made more efficient; the Personal Liberty laws will be repealed—slavery guaranteed in the District of Columbia, and a *large number of offices* given to the good, *faithful*, Union-loving men of the South.—Such will be the end of this excitement, in my opinion.

N. H. SENATE.—It will be seen that the Republican ticket of this important branch of our State Government is now filled up, and that among the candidates are many men well qualified for the important station. Of the nomination of the candidate of the first District, the Concord Statesman, whose editors have a better knowledge of the value and standing of the Representatives sent to the capitol than many of their constituents, says:—

NOMINATION EMINENTLY "FIT TO BE MADE."—At a Convention of Republican delegates from the several towns in Senatorial District No. 1, WM. H. Y. HACKETT, Esq. of Portsmouth, was nominated for Senator. The Republican majority in the District is not so large that the friends of Mr. Hackett can afford to sleep upon it, but with a candidate whose election would be a source of satisfaction throughout the State, they will see to it that his nomination is ratified on the 2d Tuesday of March. The presence of a gentleman of the legal ability, practical talent, and sound judgment of Mr. Hackett, in either branch of the Legislature, is an abundant guarantee to all the people, that some good measures may be adopted, and—what is equally important—that some decidedly bad ones will be defeated.

From the Gazette.

WHAT THE EFFECT WOULD BE.—We make the following extract from a private letter from an intelligent gentleman in Virginia, formerly a resident of this State, who though never in active political life, has heretofore been inclined to cast his influence against the Democratic party. The present troublous times have led him to seriously consider the duty of every patriotic citizen in the present crisis, and the conclusion to which he has arrived is briefly expressed as follows:

"I hope that Marcy will be elected to Congress; it would be a good sign and if it does no good can do no harm, as I think Mr. Marston, or even the fact of his election would do. If I were at home, I would do everything I could to elect Marcy, and in addition, every other Democratic candidate to Congress."

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA

COMPOUND,

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

DR. SWETT'S

COUGH DROPS,

—FOR—

Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above-named complaints.

Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:

Canaan, Sept. 4, 1848.—"Dear Dr. Swett, I consider it a duty I owe to the public, as well as to yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."
SAMUEL R. DENNETT.

New Castle, Jan. 10, 1841.—"Elder Swett:—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as on myself, I feel confident that it is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.

Exeter, Feb. 12, 1858.—"I have been recently cured of a very hard and dangerous cough, in the space of four days, by taking Swett's Cough Drops." J. BATCHELDER.

Newton, N. H., May 7, 1841.—"I am confident that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. Within the last year I have sold $200 worth of his medicines; and I have known them to remove many diseases that have resisted the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children, in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines; and then using his Panacea." DAVID CAMPBELL.

Exeter, May 19, 1841.—"I hereby certify that this Spring my daughter had a severe fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until her bowels swelled, and she was so pressed at the lungs that she groaned at every breath; and those who saw her thought that without some speedy remedy she could live but a few days. At this stage of the disease, we obtained some of Dr. Swett's Cough Drops, and commenced giving a teaspoonful every half hour, and dispensed with giving her any other medicine. It relieved the cough and distress of the lungs, and by using two phials she has been entirely cured."
DAVID LANG.

Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use them freely." MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effects of Dr. Swett's *Cough Drops, to be correct.*
CHARLES C. RICKER.

Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." FANNY MILLER.

"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge."
ELIZABETH CURRIER.

Exeter, March 8, 1841.—"Many of my brethren in the ministry frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to others affected, that the Cough Drops prepared by Dr. Swett, of this town, are a valuable remedy. I have found nothing that gives relief so quick.—Let every suffering preacher take a phial and try it." Eld. EDWIN BURNHAM.

Exeter, July 30, 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for Coughs, and for any other complaints of the lungs, with which I am acquainted."
NANCY F. JONES.

Canaan, Aug. 29, 1859.—"This certifies that we have found greater relief from Dr. S. Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than all other medicines put together." THEOPHILUS CURRIER,
SALLY CURRIER.

Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I would say that last winter I was confined by a severe cough and spitting of blood, which much alarmed my friends, and that I found a full and speedy cure by the use of only two or three bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town.

I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the application of one bottle of Jewett's Stimulating Liniment, prepared by Dr. Swett."
J. C. BURNHAM.

These, with other of
DR. SIMEON SWETT'S MEDICINES

WEDDED.—A young couple were sitting together, undoubtedly in some remote spot, with birds and flowers around them—at least the reader is led to infer that they had all these "appliances and means to boot," when the following conversation ensued:

"My dear, if the sacrifice of my life would please you, most gladly would I lay it down at your feet."

"Oh, sir, you are too kind; but it just reminds me that I wish you would gratify me by discontinuing the use of tobacco."

"Can't think of it. It is a habit to which I am wedded."

"Very well, sir; since this is the way in which you sacrifice your life to me, and as you are already wedded to tobacco, I'll take care that you are never wedded to me!"—*Anti Tobacco Journal.*

ROCKING-CHAIRS are an American invention, and a correspondent of the Historical Magazine asks when they were introduced into use? Twenty-five years ago they were sent to Europe as presents, and in France were then regarded as great novelties.

AYER'S
Sarsaparilla
FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OAKLAND, Ind., 6th June, 1858.

J. C. AYER & CO. Gents: *I feel it my duty, to my knowledge, what your Sarsaparilla has done for me.* Having inherited a Scrofulous infection, I have suffered from it the various ways for years. Sometimes it would out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and troublesome beyond description. I tried many medicines and medical physicians, but without much relief from any thing, the last, the disorder grew worse. At length I was advised to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I went to Greenfield and got it, and used it till it cured me. I took it, as you advise, in small doses at a time, gradually over my mouth, and used almost three bottles. New and healthy skin soon began to form under the scab which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I am yours to be one of the trophies of the age, and remain ever gratefully. Yours,

ALFRED R. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Erysipelas* with Hostetter's Stomach Bitters, and by the preserving use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same: says he cures the common *Erysipelas* and all humors with it.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured my wife of a severe and hideous swelling on the neck, which I had suffered from ever two years."

Leucorrhea or White, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female complaints."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous eruption appeared on one of the females of my family, which I defied all the remedies we could employ, but at length been completely cured by your Extract of Sarsaparilla. Our physicians thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual, after taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and bear testimony to the cure of myself I have realized with your Sarsaparilla.

I came with it, in my practice, to use it most of the compounds for which it is recommended, and have found its effects truly wonderful in the cure of Venereal and Mercurial Disease. Some of my patients had suffered years in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in a few weeks. Others I have cured by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disease in his head would have soon reached his brain. It yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some scarring of his face, but his health and life had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the touch that to use a knife to dig the dead bone out, excruciating pain in her joints and body. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know others, whom I have not seen for years, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 4th July, 1859.

DR. J. C. AYER: Sir, I have been long afflicted with a painful form of Rheumatism, which yielded to no remedy but the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me for a long time, and I have enjoyed my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules V. Gerhardt, of St. Louis, writes: "I have been afflicted with a Liver Complaint for years, which whole destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for years. Hearing of your Sarsaparilla, I resolved to try the last hope. My beloved pastor, the Rev. Mr. Engy, advised me to try your Sarsaparilla, because he could be benefited by it, and thus I made one trial. By the blessing of God it has cured me, and has so purified my blood that my health is now that of one. I feel young again. The best that can be said of you is not too good for such a remedy."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them in full. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Sleeplessness.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes diseases which would be supposed beyond its reach. Such a remedy has long been required by the numerous ills of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so extensively known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivaled excellence has caused it to be resorted to by the unwearied zeal of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the wonderful fidelity of these disorders, and as they know, too, the efficacy of this remedy, we need not do more than to assure them that it has now and the only unrivalled claim to be the best medicine for the cure of these dangerous ills it has done and the cures which have won its strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

CONSUMPTIVES.

An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; disease of the Bowels, Kidneys, Lungs, Skin, Brain, Disease of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much time expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery.

Acknowledging that life is the gift of the Creator and that to Him we live and move and have our being," we still venture the assertion that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which cause, more or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.

The air we breathe we know to contain a very large proportion of oxygen.

Oxygen, brought in contact with metal, evolves one mode of electricity.

Electricity, brought in contact with a muscular fibre, causes it to contract.

These facts being indisputable, we have now the solution as to the motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, evolves electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling to the remotest extremities of the frame, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, KIDNEYS, FEVER & AGUE, &c.:—a deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of the vital or motive power, is an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensues—the functions of the body are subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, or the corpuscles or red globules.

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vita," we do say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the red globules and the normal circulation. Consumptive friends of consumptives! Are you afraid of any organic disease? Unfortunates, who have by excess of the body or mind, reduced the standard of the blood and diminished the red globules? Ladies suffering from any of the diseases known as female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases, when all hope had been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is a tonic, and a mild one, too. It gives a healthy appetite, and gives a healthy tone to the system.

An elaborate treatise, carefully got out and fully proving the theory advanced here to be correct, will be mailed to interested parties, on the receipt of two 3 cent postage stamps. Blood Food is sold by all druggists, or where it cannot be had, it will send a bottle, free of carriage, for $5. Price, single bottle, $1. It is put up in 8 oz. vials, in yellow wrapper—the old Red, in small bottles, in red wrapper. Each bottle has a stamp with and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.

C. T. DUPONT, Sole Proprietor,
409 BROADWAY, NEW YORK.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception, it is of vital importance to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to satisfy the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is either commended by the Medical Faculty as a nourishing stimulant, when all other remedies fail, we are now bottling and selling a reliable article of Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, and contains two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and wine agents.

The above is also for sale in original packages, viz: Eighth and quarter Casks.

THE ONLY PREPARATION

Having Proof so Strong and Direct

as to

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the highest ability, have given their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and skin, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown violently against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of inflation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered your Hair Restorative up to the time of its total disappearance, I employed every thing I could think of, being a professional man myself, and as I thought, succeeding the nature of the disease, but was finally defeated in every prescription advanced.

These and the numerous testimonials received serve to convert to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy effect in my case, and I feel it my duty to recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself is not of a little.

You can publish this if you think proper.

Yours, very respectfully,

DR. M. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can publish if you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew in quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, I feel authorized in entitle to the truth of this statement; I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

Yours, &c.,

THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival at the age of twenty-five I was a pretty decided gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as very somewhat invaluable, quite of cacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes. Sold by all druggists, and by the small bottle is put, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion, and retails for $1 50 per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway New York, and 114 Market St., St. Louis, Mo

Sold by all druggists everywhere.

Wholesale agents for Boston, George C. Goodwin & Co.; Potter & Weeks; M. S. Burr & Co.; and J. P. Holman, 22 Cornhill, Boston.

Sold, wholesale and retail, in Portsmouth, J. H. THACHER, W. R. PRESTON, and by all good Druggists and Fancy Goods Dealers.

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from a disordered condition of the Stomach and Bowels, and we present to your notice, for the alleviation and cure of these diseases, a remedy known as

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince any one of its efficacy over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in allaying the *Inflammation* and *Relieving all Pain. FOR DISEASES ATTENDING TEETHING, such as Diarrhea, Dysentery, Griping in the Bowels, Convulsions, Wind, Colic, and Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and, in short, DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE.

Of any kind, or of whatever nature, a fact which we are fully convinced cannot be said of any other preparation for infantile diseases, at this time before the public. We find that throughout the country, Mothers are fully appreciating the truth, and of the sad and blighting consequences which are certain to result from the use of narcotic preparations in the form of quieting medicines, their continued administration being invariably followed by stupefaction and constipation of the bowels, ending in convulsions. Here is what in DR. EATON'S INFANTILE CORDIAL differs from every other remedy. It

DOES NOT CONSTIPATE.

The Bowels rather it has a tendency to regulate the sensibilities of your children, but naturally, thro' its rare medicinal qualities, by removing all pain and causing a healthy action of the bowels. Mothers, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your little ones when need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take no but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts per bottle.

New Photographic Establishment.

Having fitted up and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for durability and finish. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day and equally well as early in the fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street**, opposite the New Custom House.

J. E. SMALL.

Portsmouth, August 6, 1860.

SUPERIOR BOOTS,

Fishermen and others in want of a truly good and faithfully made BOOT, will please call and see them.

Will be sold for a small advance on first cost.

HILL & CARR,

Dyspepsia Remedy

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium, Tremens, Intemperance. Its Stimulates, Exhilirates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible disease, Delirium Tremens, or Shaking Palsy, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are severely afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION:

Personswho, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

All the proprietor asks, is trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, in 81.

General Depot, 48 Water street, New York.

Weeks & Potter, and M. S. Burr & Co., Boston. General Agents for New England.

For sale in Portsmouth, by W. R. PRESTON and THACHER, and B. HUTCHINGS. Sold by all country dealers. lydmay1

Morning Chronicle.

ABOUT DOGS.—The World has an interesting article about dogs in New York.—That city is the centre of canine trade for this continent, many persons being engaged exclusively in buying and selling, and breeding and training dogs of all descriptions. The leading dog-vender in that city does a very extensive business. At his city store he keeps a select assortment constantly on hand for sale, and at his country residence he generally has seventy or eighty animals, besides, perhaps thrice that number boarded out in the vicinity. Many of his dogs are of rare breed and beauty, and proportionately valuable. Among the rare dogs is a Siberian blood hound, Sultan, a nephew of the celebrated dog Prince, which cost $1000, and after his exhibition in England, was sold for twice his original cost. Sultan is 14 months old, weighs 160 lbs., and girths 39 inches. Prince at the same age weighed 220 lbs., stood 36 1-2 inches in height, and measured from nose to tail 7 feet 9 inches. There are not more than a dozen of this breed of dogs owned in New York, and none of them are valued at less than $100 each.

The Bruno breed was originated by this dealer, and was obtained by crossing the Newfoundland with the St. Bernard mastiff and the Alpine shepherd dog. These animals are highly prized by Southerners for watch dogs, and pups readily bring $100 each. They are large dogs, sometimes attaining the length of 7 feet, and 34 inches in height, and a weight of 130 lbs.

The St. Bernard mastiff is very rare, and of course bring high prices. The Newfoundland is the most popular with all classes, and large numbers of them, both pure breed and mongrels, are sold annually. Perfect blackness of color is the American test of purity of breed, and pups answering this demand will sell at $10 to $25 each.

The Shepherd dog, or Scotch colly, is in large demand, and when well trained will bring $50 to $100.

Of terriers there are many varieties, the black and tan being the favorite, and probably the most fashionable dog in existence. When finely bred and well cared for this is an elegant animal, quick, sharp and intelligent, an excellent "ratter," and capable of being trained to hunt anything. They vary in weight from one to twenty-five pounds, having, of late years, been greatly refined by crossing with the Italian greyhound.—When persisted in, this produces very elegant animals, but their proportions generally lack symmetry, and they become delicate, and unfit for active service. The black and tan terrier is valued in proportion to his diminutive size. In price they average from $20 to $100 and upward.

The black and tan terrier we believe to be the best dog for farmers. They are not large enough to injure sheep, and they are fine watch dogs, the best of ratters, gentle and affectionate playmates for children, and at home both in the barn and the house.

The Scotch terrier is one of the hardiest of dogs, very courageous and the enemy of all vermin. He is at present very fashionable, and his price ranges from $10 to $30.

For sporting and hunting dogs—beagles, harries, pointers and setters—there is always an active demand, and when well trained they bring high prices. The black and tan German beagle sells in great numbers at $15 to $40, for shooting and hunting purposes. Setters and pointers when well bred and broken bring from $75 to $100.

Spaniels are in but moderate demand. Of pet spaniels, the King Charles stands at the head of the list. Hosts of them are sold every year, of impure breed and inferior points, at prices varying from $25 to $200. A perfect King Charles possesses seven distinguishing points of beauty—round head, short nose; long, curly ears; large, full eyes, black and tan color, without speck of white; perfect symmetry of form; and of weight not exceeding ten pounds. The genuine are rarely found. One dealer in New York has one for which he paid 44 guineas, and not long ago one was sold in England, at auction, for the enormous sum of 525 guineas, or $2600.

THE EMPRESS DOSEN'T STRIKE OUT. They think in Paris that Mme. the Countess of Morny leads the aristocratic crowds of lady skaters in point of grace and skill. She comes the Russian very captivatingly. The Empress, it is said, makes a poor figure as a skater, in spite of her handsome costume and her handsome feet and ankles.—She got herself up in an exquisite costume, and her skates were miracles of workmanship, but finding some difficulty in striking out, she soon retired, disgusted.

☞ Two Englishmen, father and son, by the name of Weeks, were frozen to death, off Round Beach, near Norwalk, Conn. on Thursday night.

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,
Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and then so invigorates and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted, *as to act in perfect accordance with the laws of nature, and hence soothe this weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Jaundice, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and Liver Complaints Diseases of the Kidneys, Scalding or Incontinence of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, pronounced to be Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influence, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system; it will infallibly prevent any deleterious consequences following upon change of climate, or drinking water; hence all travelers should take a bottle with them, and all should take a table-spoonful at least before eating. As it pre-eminently invigorates, strengthens, the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not unused to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a great Mother's Relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about this Cordial; it all we claim it.—Mothers, try it!* And to you we appeal to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known; in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your nerves failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need.
C. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.
Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D eow ly

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities,
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *aromatic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

STATE & COUNTY RIGHTS FOR SALE BY
A. B. CLIFFORD, Epping, N. H.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, FEBRUARY 12, 1861.

AN IMPORTANT QUESTION. — The Charleston Mercury, in speaking of the Montgomery Convention, says:

It now remains to be seen whether, with *slave institutions*, the master race can establish and perpetuate free government. Shall the white man *here* enjoy liberty protected by law, and be free from impertinent interference with private rights—secure under his vine and fig-tree. This is the problem to be solved—this is the task of the Montgomery Convention. It is a question in the determination of which the human race is not indifferent—the civilized world is deeply interested—the North agitated. To us it is an issue of prosperity and success, or disaster and ultimate ruin—a question of life and death.

The civilized world, including the North, settled this question in their own minds, some time since;—and Brazil and Russia are settling it now in favor of freedom.—The Montgomery Convention will probably settle it in their minds, the other way, viz. in favor of slavery.

Mr. Jefferson considered slavery a tyranny on the one hand, and degrading submission on the other; and regarded the conflict as irrepressible. He said, many years ago:—

The whole commerce between master and slave is a perpetual exercise of the most boisterous passions, the most unremitting despotism on the one part, and degrading submission on the other. * * The parent storms, the child looks on, catches the lineaments of wrath, puts on the same airs in the circle of smaller slaves, gives loose to his worst passions, and thus nursed, educated, and daily exercised in tyranny, cannot but be stamped by it with odious peculiarities. The man must be a prodigy who can retain his manner and morals undepraved by such circumstances. And with what execration should the statesman be loaded, who, permitting one-half the citizens thus to trample on the rights of the other, transforms those into despots, and these into enemies; destroys the morals of the one part, and the love of country of the other.

The Montgomery Convention cannot annul the laws of nature, nor efface the divine image of freedom stamped on the human soul.

☞ In the U. S. *Senate*, on Saturday, Senators Seward and Crittenden presented Union petitions. A bill was introduced to pay Franklin Haven and others $12,000 for moneys deposited with the Post Office Department in the matter concerning the removal of the Boston Post Office. The Indian Appropriation bill was discussed, and the Navy Appropriation bill was passed.

In the *House*, Mr. Cox of Ohio moved an amendment to the Senate bill for a temporary government in the Territory of Colorado, similar to Mr. Douglas's substitute. A bill was reported to remunerate the soldiers for their removal to Fort Sumter.—Mr. Cochrane of New York offered a resolution of inquiry as to the seizure of vessels at Savannah. The vote on the report of the Committee of Thirty-Three was postponed until Thursday. Speeches on the crisis were made by Messrs Hutchins and Cox of Ohio, and Simms of Ky.

SLAVE STATE CONFEDERACY.—In the Montgomery convention, on Friday, a committee was appointed to report upon a flag, seal, coat of arms and motto for the Southern Confederacy. Several other committees were appointed to make preparations for the establishment of a permanent government for the proposed confederacy.—Jefferson Davis of Mississippi was elected President, and Alexander H. Stephens of Georgia, Vice President.

It is understood that a tariff will be laid on all goods imported from the United States. A constitution for a provisional government was adopted by a unanimous vote, late on Friday night, to continue *one year* from the inauguration of the President, or until a permanent constitution shall be put in operation.

☞ The Washington correspondent of the Journal of Commerce says:

Such orders have been given at the New Orleans State Custom House, in regard to the shipment of goods to certain ports of delivery, as will no doubt cause much irritation at the Northwest, and show those who dwell on the upper Mississippi and its tributaries that they must, sooner or later, prepare for war against foreign, hostile and aggressive States on the lower Mississippi. I hear the most moderate Northwestern men declare that they will not submit to such aggressions as are contemplated and perpetrated.

They say that they want no other force for offensive warfare than their own waters of the Mississippi, with which they will flood the enemy States and cities, overwhelming everything in destruction. All they have to do, they say, is, when the river is full, to open the sluices through which the overmastering deluge will be poured. They are in no haste, they say, to make military preparation, because when the war shall begin, it will last long enough for the entire generation of military ardor.

PARDON OF CAPT. HOLMES.—*Portland, Feb. 9.*—Capt. John A. Holmes, who was sentenced to the State Prison for life, for murder on the high seas, has been unconditionally pardoned by the President.

COTTON MUST BOW TO FLAX.—"Flax no Substitute for Cotton," is the title of an article in Thursday's Transcript; but its author presents neither facts nor reasonings in support of his assertions, beyond such as these: "What the potato is among the esculents, cotton is among the textiles.—Leave me the potato, and I am rich; but poor, indeed, if you leave all the rest, and take away the potato. So with cotton, take away all other textile plants, and they would become as a drop in the bucket as compared with cotton."

Now as to the esculents, undoubtedly the great majority of mankind would side with the Irishman, rather than with the Spaniard or the Dutchman, and prefer to be confined to the "potato" rather than to sour-crout and garlics; but it is *not* "so with cotton." Irish linen, like Irish "murphies," takes the lead; for who would not prefer a linen to a cotton shirt, at the same cost? Linen fabrics are both stronger and handsomer than cotton goods; so the question of preference cannot be raised against flax becoming a substitute for cotton.

As to the quantity now used in manufactures, flax may be a drop (rather a large drop though), in the bucket, compared to cotton; but this is not because the former cannot be so easily raised, but because it has heretofore cost so much to perfect flax; linen yarn now rates at about three times the price of cotton yarn. As to the *production* of flax, the State of Illinois alone can raise as many pounds of flax as the whole South now raises of cotton; and flax can be raised all over the United States; in fact, all over the world. The humblest husbandman can raise it; so lack of productions cannot be brought to bear against flax becoming a substitute for cotton; for where King Cotton could show one child, Farmer Flax could turn out a hundred tow-heads.

If, then, the world prefers linen to cotton fabrics, and mother earth, in consequence of its universality of adaptation, can be made to produce on the scale of ten bales of flax to one of cotton, it is manifest that if flax fabrics can be reduced to the price of cotton fabrics of the same relative fineness, then cotton will have to "cotton" to flax.—

Now, flax fibre can be, and is now being, delivered in Boston, from the West, at from three to three and a half cents per pound; the sale of the seed enabling the farmer to part with the fibre at a low price. By the patented process, now in operation at Roxbury, and in course of being perfected, through the use of improved and enlarged machinery in process of construction elsewhere, flax can be cotton-ized—or reduced to an article the patentees term Fibrilla, and which is capable of being mixed with and spun upon the same machinery as cotton and wool, or by itself upon that machinery—at a cost to our manufacturers, including a royalty to the patentees, of about eight cents per pound. Now, can King Cotton maintain his regality, and sell himself at eight cents the pound? and even if he could, as linen is preferable to cotton, would not the monarch be left out in the cold? The world moves, and it is to be hoped righteousness and justice still reign.

King Cotton was a poor drivelling creature, until Whitney lifted him to a throne, and got rewarded with spurns and kicks, being denied even a "compromise" for his pains. What one Yankee has done, another Yankee seems likely to undo. At all events, the inventive genius of the world is now turned to this subject, and as the prayer of nine-tenths of the civilized world is, that King Cotton may be "unseated," it is to be hoped so reasonable a petition may be speedily granted despite all cavillers.—*Boston Transcript.*

SIGNIFICANT.—The Charleston Mercury of the 5th of Feb. says:

"When Virginia comes to our side, she will bring with her the landward-pointing guns of the fortress Monroe and the intrenched city of Washington. The question, we believe, is becoming—on account of the weak position we occupy—a military one."

This paragraph has this significance, that notwithstanding the insulting and repulsive attitude assumed by South Carolina toward Virginia, the expectation is to force Virginia into the humiliating position of being dragged by South Carolina against her will. The admission of weakness shows that South Carolina has never anticipated separate action, and by this we have further evidence of the well understood plan of seizing the city of Washington.—*Atlas.*

☞ Col. Judge of Alabama had an interview with the President on Saturday.—He was received as a distinguished citizen, the President refusing to recognize his official position or to enter upon a discussion of the object of his mission, which was to treat for the surrender of the public property in the State.

POPULATION OF THE GRANITE STATE.—By the census of 1860 it appears that the present population of New Hampshire is 376,072, an increase of 3,096, since 1850.

DOUGLAS IN VIRGINIA.—The Philadelphia Press says so far as heard from, every Douglas elector in Virginia, who announced himself a candidate, has been chosen a member of the Convention by a large majority.

☞ As the President has made over the business of saving the capital to Secretary Holt and General Scott, the public mind is tolerably easy on the subject.

☞ Mrs. Burch of Junius, Seneca county, N. Y., died on the 16th ult. at the advanced age of one hundred and twelve years.

☞ The Montgomery convention has appointed ministers to represent the interests of the Southern Confederacy in Europe.

☞ A despatch received at Charleston from Savannah says the New York vessels have been released.

MOHAMMEDANISM TO BE INAUGURATED IN PARIS.—A travelled Turk, Hadji Abed-el-Hamid by name, has become sufficiently cosmopolitan in his tastes to be willing to take up his permanent abode among "dogs of infidels." He has established himself, with his family, in Paris, and, being still a good Mahomedan, he proposes to erect there a mosque, and, in connection with it, an Eastern inn, or caravanserai, baths, *a la* Turk, and a school for instruction in the Koran. As his countrymen will thus be enabled to eat, lodge, bathe and pray, in the manner most agreeable to the prophet, he expects to attract crowds of them to the French capital. The Parisians are, of course, delighted at the prospect of seeing minarets outside an engraving, and of hearing the muezzin call the faithful to prayer.

ANGELICAL DELICACY OF A PASSPORT OFFICIAL IN PARIS.—The last "Leisure Hour" devoted by Edward Everett to the New York Ledger contains the following on passports:

"Difficulties sometimes occur at the police office in foreign countries in making out the personal descriptions. It is said, particularly, that the record of the age of the better part of creation would not always be found to correspond with that of the baptismal certificate. Lord Macaulay once mentioned, at my breakfast table, that when Madame Sontag applied for a passport at the police office in Paris, the chief, instead of filling out the personal description under the separate heads, gazed a few moments at her with respectful admiration, and drawing a line down the column of particulars, wrote *angelique* (angelical) against them all.

SUICIDE OF COMMANDER TILTON.—A painful sensation has been produced at Washington by the announcement of the death, by suicide, of Commander Edward G. Tilton of the United States Navy, who shot himself through his head at his residence in that city on Friday afternoon. He left the table where he was dining with his family, and without the slightest warning retired to an upper room and committed the fatal act.

Commander Tilton was a native of Delaware, and entered the naval service as long ago as 1822. He had been for some time suffering with softening of the brain, and was about fifty years old at the date of his untimely death.

AN AMERICAN NOTION.—The Liverpool Daily Post publishes a private letter from Mobile, in which there occurs the following extract:—

"I hope Queen Victoria will lend us twenty or thirty of her men-of-war ships to assist our commerce. If she keeps good faith with us there is no telling what might happen. I would not be surprised to see a good constitutional monarchy here in three years. We are a republican aristocracy already; and sooner than allow the country to be destroyed by the emancipation of the negro, we boldly look to a strong government, and who would suit so well as one of Queen Victoria's sons. You would then be our friends out and out. Our eight states are as large as all Europe, save Russia, and here is the foundation of a great people, negroes and all. We want foreign commerce, the establishment of the useful arts, and we want liberalism, and we have riches enough for all this."

WASHINGTON, Feb. 11.—The opinion is gaining ground that the Peace Congress will recommend a national convention for settlement of our political troubles.

Gen. Scott has received advices that the troops ordered here from Texas are on the way, which will make the garrison here 2000 strong.

Good news has been received from Arkansas by Senator Sebastian, who never joined the secessionists.

☞ Father Griffin, a catholic priest, whose horse died under him on the great moraine plains, British Columbia, and who lay freezing and famishing for five days before he was found and conveyed to a place of safety, has since had one of his legs amputated below the knee, but he is now rapidly recovering.

STEAM FIRE ENGINES.—The Amoskeag Manufacturing Company, at Manchester, N. H., have contracted to furnish the city of Halifax, Nova Scotia, with two steam fire engines. This company now has orders for building thirteen engines, or enough to give employment to their present number of hands for one year.

Parson Brownlow of Tennessee says he has discovered the reason for the hostility of South Carolina to Lincoln; in 1780, Gen. Lincoln refused to surrender Charleston to the British forces, although the Charleston people went for surrender, "and the South Carolinians have hated the name of Lincoln ever since."

A private letter from Savannah says that the outrage perpetrated on Capt. Vaughan, of the British ship Kalos, now lying in that port, consisted in treating him to a coat of tar and feathers for allowing his negro stevedore to sit down at the dinner table in his own cabin with himself. The Savannah Republican may well conclude that this furnishes good material for a foreign difficulty.

It is with deep regret that we have to announce that information was received last evening from the Hon. W. Preston, of the U. S. Legation in Madrid, Spain, of the death of William J. Maltby, Professor elect of Languages in Bowdoin College, Brunswick. This sad event occurred in Madrid, on the 31st of December last.—*Bangor Whig* 7th.

NEW YORK, Feb. 11.—A dispatch to the World says it is reported that the War Department has received news that Fort Sumter will be attacked on Tuesday.

A dispatch to the Herald says that the War Department has dispatches from Major Anderson of the 7th inst. He expects to be attacked immediately on Mr. Hayne's return.

Letters from Charleston say the impression is general among military men that Fort Sumter cannot be taken.

The government has made the necessary arrangements to reinforce Fort Sumter as soon as possible after an attack.

The government troops will not take part in the procession on the day of inauguration, but will be stationed where they can be immediately concentrated.

It is stated that the President has had offers of half a million of men to protect the public property and preserve the Union.

The Times' correspondent says the Tennessee delegation have dispatches showing an overwhelming Union victory in that State.

Secretary Floyd will be here next week to submit himself to the criminal laws of the district. He pronounces the charges against him frivolous and malicious, and instigated by Secretary Thompson.

WASHINGTON, Feb. 10.—The question of attacking Fort Sumter has been referred the Montgomery Congress, South Carolina deferring it until action has been taken by the new Southern Confederacy upon the matter. This will prevent hostilities for the present.

The Union victory in Tennessee gives the Commissioners to the Peace Congress the greatest hope of a peaceable settlement of the present troubles, and the election of Davis and Stephens as President and Vice President of the new Southern Confederacy, is regarded as a certain preventive to hostilities, and is viewed as favorable for a reconstruction of the Union.

TORONTO, Feb. 9.—The Anderson case was argued at great length to-day. No decision probably till next week, but the general opinion is that the Court will liberate the prisoner on a technicality in the commitment.

MARRIAGES.

In this city, Sunday evening last, by Rev. A. W. Bruce, Mr. JAMES M. GOODRICH to Miss MARTHA A. AYERS, daughter of the late Mr. James Ayers, both of this city.

In Epping, Mr. A. W. HAM LITTLE to Miss LIZZIE BLACKLER, both of Epping.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

If you have a Sore Throat, go to WM. R. PRESTON, Druggist, Portsmouth, N. H., and get the HAMMOND LINIMENT, which is sure to cure. G. L. BEAN & CO., Proprietors.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawâm

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will be found a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawâm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma,* or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superiority of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

MESSRS. S. W. FOWLE & CO.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Prepared by SETH W. FOWLE & CO., Boston;

Diaries for 1861 at Reduced Prices,

J. F. SHORES, JR., No. 1 Congress Block, has on hand a large variety of Diaries, which he will sell at reduced prices.

Local.

OBITUARY.—Mr. James W. Tuckerman, whose death, at the age of 24 years, was chronicled in our columns on Monday, was a most estimable young man, and his early loss will be much felt by a large circle of friends and acquaintances. He was a printer, and one of the most esteemed disciples of the "art of arts." He learned his trade at the Journal Office in this city, and has since worked in Portland and Cambridge—his good qualities as a workman and companion, and his gentlemanly deportment, winning numerous friends every where, both among the craft and those whom he met outside business relations.—He had also, on occasions, been employed in the Chronicle office, and our own associations with him were of the most pleasant and friendly character, for years.

A year or two ago, he had an attack of hemorhage of the lungs, but with little interruption, has continued diligent as usual at his business, until two or three months since, when he returned home from Cambridge, and from that time has failed rapidly—until death has opened to him the gates of that better land, where sickness, and sorrow and partings are unknown.

☞ Grace Greenwood lectures before the Mercantile Lyceum, this evening; and will fail to interest, instruct and amuse every hearer. Her lecture last winter was one of the most enjoyable and satisfactory evening's entertainments we ever attended; and with her present theme of "Home and the Homeless," she cannot do less. Tickets only 15 cents.

☞ We are informed that Rev. Moses How has not closed his connexion with the Christian Society of this city; but yet remains their pastor—having only returned home temporarily, for the winter.

☞ The Temple having been previously engaged for the Mercantile Lyceum lecture, the "South Sea Whaling Voyage" will not be exhibited this evening. On Monday evening the Captain was greeted by a full audience, every one seeming to enjoy the entertainment much.

☞ Rev. Mr. Leavitt's temperance lecture, on Sunday evening, was an able, energetic performance, and was well received by the great congregation. Prayer by Rev. Mr. Eddy.

☞ The Annual Meeting of the Portsmouth Gas Light Company, is advertised to be held to-day.

☞ Saint Valentine's Day occurs on Thursday next. Young folks, "Are you prepared for *the* question?"

☞ The Freewill Baptist Sabbath School announce an Exhibition, at the Pearl Street Church, tomorrow evening.

☞ The steamship Canada, which arrived in Boston on Sunday, brought £53,130 in specie; among the consignees are Wm. Jones & Son of this city.

☞ The Calcutta Englishman gives the following details of the loss of the ship Orion, Libbey, before reported:—

We regret to learn that there is little doubt but the Orion, reported on shore below a few days since, must become a total wreck. The Orion is an American ship of 1300 tons register, and had on board about 1800 tons of salt. On the morning of Dec. 6th she took her pilot on board, at the Sandheads, after a passage of 115 days from Liverpool, and at the Reef Buoy was taken in tow by the Phœnix Steam Tug, and from that day, misfortune seems to have followed on misfortune. That afternoon, whilst still in tow, drawing about 21 1-2 feet of water, the ship took the ground off the Shipgunge Shoal, it being then about two-thirds ebb. When the flood made, late in the afternoon, the steamer succeeded in towing her off, without any apparent injury, the ship making no water; but, about half-past six o'clock, in turning the ship to her anchorage, after having cast off the hawser, she grounded on the flats about half way between Hog River and Fisherman's Point. Finding her hard and fast, in spite of every effort, an anchor was got out astern to prevent her shifting higher up, and Captain Libbey came up to town for assistance. When he got back to his ship with another steamer and a number of cargo boats to lighten her, he found that the pilot had, meanwhile, succeeded in getting her off the flats, but, when she floated, and before he could succeed in bringing her up with the two anchors at command, the strong tide set her right on to the back side of the Hog River sand, where she was lying when this account of her reached us, athwart the stream, but being a well built ship, she made very little water for a long time, only two or three inches per hour, though lying so very badly with such a cargo on board. Her position and her chances may be judged by the fact that she drew 21 ft. 6 in., and at high water she had two fathoms on one side of her and about half a fathom more on the other.

We are told that this is Capt. Libbey's thirteenth or fourteenth voyage to this port without any previous mishap, but certainly fortune has declared against him this time. We are assured that when the ship was on shore on the flat, though she lay across and heeled over, and the man at the Semaphore at Hooghly Point was quite visible from the ship with a glass, the ship was not visible to the man, or at least he did not report her—a case of defective vision worth inquiring into. As to the loss of the ship herself, that will of course be a subject of judicial inquiry, pending which, we state the bare facts as reported to us.

☞ The Raleigh (N. C.) Standard predicts that if the difficulties between the North and South should not be settled within the next six months, war will be the result, three or four confederacies will be formed, and the consequences to slavery will be fatal. The Standard says:—

If war once breaks out, it will rage in the interior, on the seacoasts, on the high seas, and on our frontiers. One section will let loose the Indians on another section. Twenty millions of Northern people will at once become our enemies. They will war upon us along a line of three thousand miles from the Atlantic to the Pacific. One section will call in foreign troops against another section. One confederacy will humble itself before the powers of Europe to get better commercial terms than the other confederacies. Meanwhile war will rage. Negro property will cease to be valuable, because the products of slave labor and of all other labor will be in a great degree cut off from the markets of the world. The negroes will know, too, that the war is waged on their account.—They will become restless and turbulent.

Heavy taxes will result from these wars. These taxes must be paid mainly out of slave labor. Strong governments will be established, and will bear heavily on the masses. The masses will at length rise up and destroy everything in their way. State bonds will be repudiated. Banks will break. Widows and orphans will be reduced to beggary. The sword will wave everywhere paramount to all law. The whole world outside the slave holding States, with slight exceptions is opposed to slavery; and the whole world, with slave labor thus rendered insecure, and comparatively valueless will take sides with the North against us. The end will be—Abolition!

S. J. COURT, EXETER.—The evidence in the Farmer Will case was closed on Saturday, and on Monday Judge French made the closing plea in behalf of the appellant. Mr. Christie followed in support of the will, and the case is to be given to the Jury this morning.

WASHINGTON, Jan. 11.—The resolution of Mr. Craige, of North Carolina, offered in the House to-day, to acknowledge the Southern Confederacy, will be referred to the Committee on Foreign Relations, and will not again come before Congress.

It is positively asserted that Fort Sumter has been reinforced.

Mr. Lincoln left Springfield Monday morning for Washington.

The Burches, who seceded from one another, are about to go back into their union again. They will present a queer appearance on their first interview, much as would South Carolina and the United States, should they ever be reunited. A copy of the Trial might be read by one to the other on rainy days.—*Traveller.*

Rev. H. W. Beecher says the Prodigal Son was a scripture case of secession. He commenced with arrogance and ended in a pigpen!

Herrick Allen's Gold Medal Saleratus has not its equal in the world, as all who have ever used it will testify. If you would preserve health in your families, and good sound teeth, and at the same time be economical, make an investment in a pound of it, and you will ever after use it. Do not be put off with any other. Most all of the grocers have it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND,
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1855, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

DR. SWETT'S
COUGH DROPS
—FOR—
Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.
☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above-named complaints.
Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:
Canaan, Sept. 4, 1848.—"Dear Br. Swett, I consider it a duty I owe to the public, as well as to yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."
SAMUEL R. DENNETT.
New Castle, Jan. 10, 1841.—"Elder Swett:—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as on myself, I feel confident that it is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.
Exeter, Feb. 12, 1858.—"I have been recently cured of a very hard and dangerous cough, in the space of four days, by taking Dr Swett's Cough Drops." J. BATCHELDER.
Newton, N. H., May 7, 1841.—"I am confident that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. Within the last year I have sold $200 worth of his medicines; and I have known them to remove many diseases that have resisted the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines, and then using his Panacea." DAVID CAMPBELL.
Exeter, May 19, 1844.—"I hereby certify that thy Spring my daughter had a severe fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until her bowels swelled, and she was so pressed at the lungs that she groaned at every breath; and those who saw her thought that without some speedy remedy she could live but a few days. At this stage of the disease, we obtained some of Dr. Swett's Cough Drops, and commenced giving a teaspoonful every half hour, and dispensed with giving her any other medicine. It relieved the cough and distress of the lungs, and by using two phials she has been entirely cured."
DAVID LANG.
Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use them freely." MARY N. RICKER.
I know the above testimony of my wife with regard to the salutary effects of Dr. Swett's Cough Drops, to be correct.
CHARLES C. RICKER.
Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." FANNY MINER.
"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge."
ELIZABETH CURRIER.
Exeter, March 3, 1841.—"Many of my brethren in the ministry frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to others affected, that the Cough Drops prepared by Dr. Swett, of this town, are a valuable remedy. I have found nothing that gives relief so quick.—Let every suffering preacher take a phial and try it." Eld. EDWIN BURNHAM.
Exeter, July 30, 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for Coughs, and for any other complaints of the lungs, with which I am acquainted."
NANCY F. JONES.
Canaan, Aug. 29, 1859.—"This certifies that we have found greater relief from Dr. S. Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than all other medicines put together." THEOPHILUS CURRIER,
SALLY CURRIER.
Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I would say that last winter I was confined by a severe cough and spitting of blood, which much alarmed my friends, and that I found a full and speedy cure by the use of only two or three bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town.
I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the application of one bottle of Jewett's Stimulating Liniment, prepared by Dr Swett."
J. C. BURNHAM.

Morning Chronicle.

CHINESE TOLL BRIDGE.—Is a late London Times there is a curious reference to the Chinese. It is a letter addressed by the Bishop of Columbia to Miss Burdett Coutts, and the passage is as follow:—

"I meet many Chinese (says the Bishop.) They are flowing in by thousands. They are well conducted at present, and are an advantage as pioneers and as consumers. They are a funny people, and are full of good humor and very friendly. They respect the English much. At one place I came to a pretty bridge over a river. It had been built by a Chinaman named Ah Soo. He takes the tolls. On our approach he ran forward with cool water to drink, and told us we were free of the bridge. 'No Englishee pay over fle bridge, and no poor Chinaman. Me makee no chargee to de English. Me chargee Boston man, (American). Boston man chargee Chinaman very high in California; Chinaman now chargee Boston man—ha! ha!"

A New York magistrate said to a little boy witness: "Say boy, can you repeat the Lord's Prayer?" "Yes, sir," was the reply of the smart youth; "can't you?"

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some sort of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed to health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding parts, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her face, and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you what complaint I have cured with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and I believe as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1854.

DR. J. C. AYER, SIR: I have been repeatedly cured of the worst headache any body can have, by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find that in addition to their effects upon the Liver very marked indeed. They have in my practice proved more effectual in the cure of bilious complaints than any remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., Feb. 18th, 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have cured many cases of bilious disease so obstinate that it did not readily yield to them. Evidentally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative qualities further make them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Hines, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity will have them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the precursor of others that are worse. I believe one firmness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Sweet, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and regulate the bowels. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PLEASANT HOME, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my head and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured by your Pills, of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SIDDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or other poisonous substance.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

CONSUMPTIVES.

An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men, and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make the grand discovery also

Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the physical world is governed by laws we breathe, so this life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removed or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorus.

The air we breathe we know to contain a very large proportion of oxygen.

Oxygen, brought in contact with metal, excites or emits electricity.

Electricity, brought in contact with a muscular fibre, causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen we inhale we breathe, combine in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest arteries. What, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.?—a deficiency of the red corpuscles, rendering the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to hysterics, and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, or the corpuscles or red globules.

Old age causes a deficiency of corpuscles, and while we cannot prevent old age, we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the red globules and the normal circulation. Consumptives! friends of consumptives! you who have tried every remedy in the fortunates, who have by excess of the body or mind, reduce the standard of the blood and diminished the vital fluid, to the extent that some of the distresses known as fema c complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases, where all hope had been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is a unfailing remedy; give it a trial. It is elaborate treatise carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent stamps. Remember, "Blood Food" is sold by all druggists; or where it cannot be had, I will send it bottles, free of expense, for $1 Price, single bottle, $1; six bottles, $5. Address, Box 1, Station D, New York City.

O. J. WOOD & CO., Proprietors, 444 Broadway New York, and 114 Market St., St. Louis, Mo

Sold by all good Druggists.

Sold in Portsmouth by retail, in Rochester, N. H., J. H. THACHER, W. R. PRESTON, and by all good Druggists and Fancy Goods Dealers.

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from a disordered condition of the stomach and bowels. We therefore, we present to your notice, for the alleviation and cure of these diseases, a remedy known as

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

AS YOUNG CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation and Relieving all Pain. FOR DISEASES ATTENDING TEETHING,* such as *Diarrhœa, Dysentery, Convulsions, Disorder of Stomach and Bowels, Wind, Colic, and Cold in the Head,* we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are said to die than from any other disease, the little sufferer is relieved *instantaneously,* as if by magic; and in this trouble, and in those of a bilious character, it is such that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL is a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering children. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE.

Of any kind, or of whatever nature, a fact which we challenge the world to disprove, in regard to any other preparation for infantile diseases, at this time, or for the public. We find that throughout the country, and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

A. M. BININGER & CO.
SOLE PROPRIETORS,
No. 19 Broad Street, ... New York.

For sale in Boston by M. S. BURR & CO., SETH E. PRESTON, WEEKS & POTTER, D. GOODLOW & CO., G. C. GOODWIN & CO., REED, CUTLER & CO., T. L. SMITH, S. PIERCE & CO., STEPHEN WEEKS, C. S. DAVIS & CO. 26 TuThsA5y

BININGER'S OLD DOMINION WHEAT-TONIC

FOR FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself as presenting in a concentrated form, all the nutritive properties of Wheat, and has received the highest encomiums from eminent medical authorities, as possessing qualities that render it invaluable to those who are suffering from *Consumption, Lung Complaints, Impaired Strength, Lack of Vital Energy,* and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing tonic.

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The established popularity of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristic which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1849, and manufactured expressly from the pure, sound, mellow grain, it is used as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *restore and strengthen;* while to aged, long confirmed invalids, it is a gentle, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health through the agreeable medium of a well relished palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO., (Established 1778,)
Sole Proprietors, No. 19 Broad St., N. Y.

THE ONLY PREPARATION

Having Proof so Strong and Direct

as to

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified testimony, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being grey, stop from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test.

During the year 1854, I was so unfortunate as to be thrown from my saddle against a rock near the meeting house in which my hair received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the disease, but it baffled and finally defeated in every prescription advanced.

These and no other circumstances induced me to procure your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result; two months after the first application, I had a beautiful head of hair as fine as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your excellent preparation; moreover, I shall use my influence, which I flat ter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,
M. J. WRIGHT, M. D.

Jeffersonian Office, Phillips, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the efficacy of the extract. I gave this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c.,
THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the timely restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming grey, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very scientific invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds a pint, the medium holds a pint and a half, while the medium holds at least twenty per cent. more in proportion than the small; retails for two dollars per bottle, the large holds more than a quart, more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway New York, and 114 Market St., St. Louis, Mo

Sold by all good Druggists.

Wholesale agents for Boston, George C. Goodwin & Co.; Potter & Weeks; M. S. Burr & Co.; and J. P. Holman, No. 2 Tremont Temple.

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Costiveness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens,* will, almost immediately, find the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite,
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidneys, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Personswho, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

General Depot, 48 Water street, New York.

Weeks & Potter, and M. S. Burr & Co., Boston.

General Agents for New England.

TEMPERANCE IN IRELAND.—The following gratifying statement from a newspaper published in Belfast, shows how powerful and permanent have been the effects flowing from that marvelous display of Divine grace of which last year we heard so much:

An extensive distiller in the north of Ireland has given us some interesting information with respect to the effect of the revival movement on the spirit trade. He mentions that, some time ago, there were no less than twenty-two public houses in Brushmill—that that number had been reduced to eight—and that these eight shops put together have not now as large a trade as any one of the twenty-two during former years. Referring to the effect of the revival movement on his own trade, he mentioned it was so serious, that if he had not made extensive sales in England, on the Continent, and in America, the business of this establishment must have been brought to a close.

A wholesale merchant in Coleraine had stated to him that it was customary, in former years, for farmers to send to town for two, three, or five, gallons of whisky, in order to celebrate the harvest-home; but this year he had not received a single order from this class of his former customers; and that for every ten gallons he sold before the commencement of the revival movement in 1859, he did not dispose of one gallon at present. Referring to a particular street, he remarked that, as an evidence of the influence of the work, one publican had closed his shop believing that the traffic was demoralizing; and yet that person at one period sold more spirits than any ten of the trade in the locality. These statements convey their own moral

LIBERIA LOOKING FOR RECIPROCITY. President Benson in his recent annual message to the Legislature, complains much about the treatment of Liberia by our Government, and makes the following suggestion:—

It is for you to determine th's session if, after its close, it can be regarded any longer polite or even just for this Government to accord such commercial privileges to citizens of the United States as are accorded to citizens of the most favored nations with which we have treaties of friendship and commerce, based upon principles of reciprocity, when the United States Government refuses to accord to us similar privileges.

Perley says Gen. Scott will not relax his efforts for the protection of the capital; that he does think any State troops will be needed.

BININGER'S OLD DOMINION WHEAT-TONIC
—FOR—
FAMILY AND MEDICINAL USE.
This natural product of the most nutritious grain, recommends itself as presenting in a concentrated form the nutritive properties of Wheat, and has received the highest encomiums from eminent medicinal authorities, as possessing qualities that are absolutely PATTERING; this tenderature renders it invaluable to those who are suffering from *Consumption, Lung Complaints, Impaired Strength, Lack of Vital Energy*, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing stimulant.
Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents
A. M. BININGER & CO.
SOLE PROPRIETORS,

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"
The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.
Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.
As a curative agent it has a tendency to *recruit and strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.
Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,
(Established 1778.)
Sole Proprietors, No. 19 Broad St., N. Y.

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,
is precisely what its name indicates, for, while pleasant to the taste, it is revitalizing, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, but by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and Liver Complaints Diseases of the Kidneys, Scalding or Inflammation of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence all travellers should take a bottle with them, and all should take a tablespoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. When a mouth or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it—this Cordial will all we claim for it. Mothers, try it!* And to you we appeal to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing motto will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need. W. O. WOOD, Proprietor, 493 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.
Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D eow ly

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, combining all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*s, and cannot fail to meet the wants of the invalid.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*but it is the best pr paration of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, FEBRUARY 12, 1861.

DISUNION.—The Boston Herald, it is well known, was the leading paper of the Douglas democrats, in the late presidential campaign.

In a late article on "disunion," the Herald expresses the confident belief that disunion will fall off and die out, from this time, and says:—

But this amending the Constitution to gratify political knaves and to enable them to return to their seats in Congress, to keep alive strife, punish their enemies, and to have their revenge, is more than the people in the free States can stand. The disunion traitors are about played out, and if left to themselves, will accomplish their own destruction, while the country will have got rid of these disturbers of the public peace, and all the people will respond in a loud voice, *Amen*.

We believe that the whole secession movement is a game of brag, gotten up to frighten the free States into submission to the demands of the Slave power; and that nothing will make them half so uncomfortable as to let them alone severely, and tell them to go ahead with the team, and try their hands in a new and separate system of government. The Senators and Representatives who have gone out are dying to get back, only they want *urging*; but if the North declines to urge, the people of the South will give them permission to stay at home, and in due time, elect honest Union men in their places, who will appreciate the blessings which the Union confers upon the South as well as the North.

This matter is not to be settled in a day, but will work itself out in due time. It is not necessary to fire a single gun.

The Herald exults over the defeat of Cobb, Floyd and others, and says:—

How humiliating it will be to the *slave power* to be obliged to ask for favors at the hands of those they have so often derided, and how humiliating it is to every man in the North, who has an American heart under his jacket, to witness the abject submission of those who have been the blind followers of Cobb, Floyd, Slidell & Co., down to the present time, and who now declare their readiness to accede to any measure which will bring them back and place them in control of the Government, to rob and plunder, and to outrage decency again, as they have in times past.

The resignation of several Supreme Court Judges will *change* the complexion of the highest tribunal in the land, and we imagine the disunion sheets and orators will have less to say about the *Dred Scott decision* than they have been accustomed to heretofore. Never did a party succeed in committing suicide so quickly as have the ultra slave party. They are now prostrate in the mud and mire of their own creating, and their allies in the North crushed. It should be a warning to all public men never again to trifle with the people, for it cannot be done with impunity or safety.

☞ The ship "Charger" of Boston, from Calcutta, Nov. 7, for Boston, was on Monday reported ashore on Pollock Rip. The steamer S. R. Spaulding, from Baltimore, arrived at Boston, spoke the ship, at 11 A. M., aground in 12 feet of water; offered to assist in getting her off, but she refused unless a bargain was made at $200 per hour for services of the steamer. She had an anchor out on the shoal. The sea was quite smooth at the time. Several boats were along-side. The S. R. Spaulding came through large quantities of drift ice on Nantucket Shoals.

The ship Charger was got off without assistance, and she is now on her way to Boston.

☞ Mr. Lincoln arrived in Indianapolis Monday, and was welcomed with a salute of thirty-four guns. He was received by Governor Morton, and was escorted from the train in which he arrived, to his hotel by an immense procession. He addressed the multitude who assembled in front of the Bates House. In the evening Mr. Lincoln was welcomed by the members of the Legislature.

☞ Rev. Phineas Stowe, of Boston, has received information of the recovery of the body of his daughter, Mrs. Staples, and her husband, Capt. Staples, master of the ship Golden Star, recently wrecked on the coast of Ireland. They were found locked in each other's arms, and the Captain had in his hand a rope, which he had tried to use for their safety.

☞ The latest style of dress worn by New York lady skaters is described as the Polish costume, with short blue skirts, fur-trimmed basques and hats, and tight fitting ankle boots, trimmed also with fur. Others have a semi Zouave costume, with a short skirt of a bright red, and pantelets of the same ruddy hue, fastened tightly around the ankle; the basque and hat both trimmed with fur; and neatly fitting skating boots. These are picturesque and comfortable.

☞ Messrs. Simon and John Brown, of Hampton, have slaughtered two hogs, eighteen and a half months old, one weighing 675 lbs., the other 730 lbs. Beat this if you can.

☞ The ship Orion, Libbey, reported aground near Calcutta, is now discharging and throwing overboard her cargo, and is expected to float on the coming Spring tides.

For the Chronicle.

THE CRISIS.

"If you have whispered, whisper no longer;
Speak as the tempest speaks—clearer and stronger.

We have reached a crisis in our national history which will test our theory whether men are capable of self-government—whether free institutions can be maintained. We have devoted the most careful attention to the proceedings of the present Congress, to the debates and speeches of Southern and Northern members respecting the Secession movement, from which we may predict some of the events that will follow. Seven States have already seceded, and if we may believe the declarations of their Representatives, all the other slave States will secede from the Union, probably by the 4th of March next, unless the free States should immediately comply with the imperious demands—which are that the Federal Constitution shall be amended by guaranteeing the right of *property* in slaves, and protecting such right in the slave states and also in the territories of the United States, with a proviso that the Constitution shall hereafter never be altered in any manner to impair such constitutional rights. Such is the nature of the demands. A majority, perhaps all, of the slave States would agree that a divisional line should be run from the Atlantic Ocean to the Pacific, north of which freedom may be enjoyed by all, but slavery shall be guaranteed by the Constitution, south of the line. Such is the ultimatum offered, by which the border slave States will stay in the Union, and the States which have seceded would perhaps return to their allegiance to the government.

Senator Crittenden's Resolutions for a compromise amount to the same thing. Is it not, therefore, surprising that his Resolutions find numerous advocates in some of the free States? Perhaps many of the petitioners subscribe, ignorant of the purport and meaning of his deceptive resolutions. If such divisional line should be agreed upon, the sections north and south of it would, virtually, constitute two distinct nations, each hostile to the other, with a diversity of interests, manners, habits, pursuits, institutions, moral and political principles. The South would struggle to expand its empire over Cuba, Central America and Mexico, and have the advantage of the three-fifths representation in Congress. The Southern representatives tell us that all they require to them are but mere "abstractions," and that a compliance with these requirements, and that only, can save the Union and avert the horrors of a civil war! If their requirements are mere unimportant abstractions, why should they involve themselves in a fraternal war on account of such abstractions? In most of their speeches they depict in glowing colors, all the horrors of a civil war, in order to intimidate the North, when they well know that the calamities of such a catastrophe would fall chiefly upon themselves. They would risk no battle in the free States, which could call to the field, if required, over two millions of brave troops, to repel a small Southern army.

Mr. Clark, Representative of Missouri, in his speech on Jan. 26, says that "unless something is done, the border States, when they assemble, by their commissioners, in convention, will co-operate with their Southern brethren, unless they can have secured to them the right of protection to our peculiar property in slaves, without which we cannot live with you." "The border States will confederate with the States with which they are homogenous in population and institutions." Again, he says that "while all his constituents deprecate disunion, and would do everything not dishonorable to avoid pestilence, famine, anarchy, fratricidal war, indeed all the horrors of civil war,—yet we are resolved to save our rights." We might extract many other threats of the kind, even to the conflagration of our cities and preying upon our commerce. But all such threats cease to alarm or frighten our free population of twenty millions, the bone and muscle of the Union, with abundant resources, and over twenty-six hundred millions in value of the annual products of the whole country. We repel all such defiant language and threats with the stern declaration that the liberties of our country will still be maintained unimpaired, and the Constitution will not be reconstructed in order that slavery shall be its basis, instead of freedom. A compliance with their demands would be a virtual concession that we are undeserving of the blessings of freedom—indeed, that we have become the degenerate sons of patriot sires.

The union of the free States, and the federal government must be preserved; its strength must be put to the test. The seceders can be made to repent of their rashness and folly, without raising Northern armies to invade their soil. Congress can, and probably will, repeal the laws establishing ports of entry within the seceding States, and blockade their ports, and collect the revenue outside their custom-houses, should any entrance be permitted. How can they live without commerce, especially in their present deplorable condition, and without credit or capital to support standing armies, or their newly constituted arbitrary governments. The government can protect the public property, ceded to and paid for by the United States, and this could not be construed into an *offensive* war. Should the seceders forcibly resist the execution of the laws, they must take the consequences. The public revenue would of course be withheld from them, and no more appropriations be made for the transportation of their mails.

Would not such measures be ample punishment for their treasonable revolt? But they have meditated the capture of the city of Washington, the seizure of the public records and treasure, and thus to defeat the inauguration of the President elect. There is not yet a sufficient repelling force in the city, but we trust there soon will be, in order to prevent such an attempt. But should the capture of that city be attempted by a military force, a civil war, terrible to the South, would be the consequence.—Should the city be captured, by stratagem or by arms, the next attempt would be to get the command of the navy, or any part of it under Southern commanders. PAX.

CONGRESS.

In the Senate, on Monday, Feb. 11, the naval appropriation bill was taken up.—Several appropriations for the Pensacola Navy Yard were stricken out.

Mr. Hale offered an amendment to build seven steam sloops-of-war.

Mr. Hunter opposed the amendment.

Carried—yeas 30, nays 18.

A debate ensued on the question of concurring in the amendment to build seven ships of-war.

Mr. Mason opposed it as a measure for coercing the seceding States

Mr. Fessenden defended the measure, as coming from Democratic precedent, and eminently necessary at the present time.—If the time ever comes when it is necessary to execute the laws, he was quite ready to do it. But this is intended as a measure of peace, and nobody dreamed of making this appropriation for the purpose of war.

Mr. Mason said he would never vote a dollar for such a purpose until it was announced whether the incoming administration intended to coerce the seceding States.

Mr. King believed now that as treason was abroad in the land it was necessary to increase the power of the country. He would put the country in a position to defend itself against foreign or domestic enemies. He would use all forbearance and make every effort for conciliation, but he would never admit the right to divide the country, and peaceably break up the government. He would tell gentlemen that treason must come to an end; peacefully he hoped, but never by the submission of the honor of the government.

In the House, Mr. Craige of North Carolina offered a preamble and resolutions acknowledging the formation of a Southern Confederacy, and its independence. Referred to the Committee on Foreign Affairs.

Mr. Palmer of New York introduced two resolutions, the first declaring that neither the federal government, nor the people or government of any of the non-slaveholding States have a purpose or the constitutional right to legislate on or to interfere with slavery in any State of the Union.

Mr. Sherman of Ohio offered a substitute, so as to enable southern gentlemen to vote conscientiously, as they would not be expected to vote on the purposes of the northern States, as follows:

Resolved, That neither Congress nor the people or governments of non-slaveholding States have the constitutional right to legislate upon or interfere with slavery in any slaveholding State in the Union.

Passed—yeas 161; no nays.

The Pacific Railroad bill was made the special order for to-morrow and Wednesday.

Mr. Grow of Pennsylvania indicated that he should propose the repeal of certain portions of the bill giving certain privileges to Texas.

Mr. Branch of North Carolina—If that State secedes.

The deficiency and diplomatic appropriation bills were acted upon and again returned to the Senate.

A bill was proposed, providing for a committee of inquiry whether the consent of the people of the border slave States can be obtained to a plan for the purchase of their slaves, to prevent their following the example of the seceding States.

Resolutions were passed, calling for information as to the obstruction of the collection of the revenue, the seizure of revenue cutters, the cause of concentration of troops at Washington, &c.

☞ Those about to take a voyage to the South Pacific, with Capt. Williams, this afternoon and evening, are advised to purchase tickets during the day, at the stores of Messrs. Shores and Thacher. It will save them trouble and delay at the ticket office. Citizens may rely upon the strictest order being maintained on Board, as well as in passages and at the Door. Packages of 4 tickets, 50 cts.; Single tickets, 15 cts.; Children, 10 cts.

☞ Mr. Lincoln has accepted an invitation to visit Trenton, N. J. Despatches from the Presidential party report them in fine spirits. Mr. Lincoln has addressed crowds at the railroad stations.

THE WHALING VOYAGE this afternoon, at 3 o'clock; this evening at 7 1-2 o'clock. Tickets for sale at Thacher's, Shores', and at the Door.

☞ It is thought the Peace Conference will recommend the reference of the questions in dispute to a National Convention.

☞ E. N. Banks, Republican, was elected Mayor of Biddeford, on Monday.

WASHINGTON, Feb. 11.—The resignation of Captain Morrison of the Revenue Cutter Lewis Cass, lately surrendered to Alabama, has been tendered to the government, but was not accepted. The President has ordered his name to be stricken from the rolls of the service. No resignations under such circumstances will be accepted.

Capt. Brushwood's resignation, when received, will be treated in the same way.

Some postmasters, recently appointed in the seceding States, decline to take the oath to support the constitution of the United States. The offices will be discontinued unless persons are found to take and hold them according to law.

CHICAGO, ILL., Feb. 11.—Seven persons were drowned, yesterday, while attempting to cross a stream, in Mercer county, in a sleigh. The party consisted of an old man named Minty, Mrs. Mary Hodges and two children, Mrs. Elizabeth Hodson and two children, and Mrs. Bargo and two children. Minty saved himself and one of Mrs. Hodson's children by swimming. Mrs. Hodson remained in the sleigh, holding the other child, about an hour and a half, holding on to a sideboard. She was taken out alive, but died shortly afterwards.

FROM HALIFAX.—The Mayor and Aldermen had returned from a visit to Boston and Manchester, having engaged two steam fire engines in the hope of preventing any more such disatrous fires as had recently occurred.

The Chronicle says forty thousand newspapers now pass through the Halifax Post Office weekly. Three weeks ago the number amount to only 28,000.

☞ Capt. Williams will sail for the Pacific this afternoon, at 3 o'clock; and this evening at 7 1-2 o'clock. Strict discipline on board this ship. Tickets for sale at Shores', Thacher's, and at the Door.

BIRTHS.

In this city, Feb. 10th, to GEORGE W. PLUMER, a daughter.

DEATHS.

In Newington, on Monday, Feb 11, Mr. JOHN O. FOYE, aged 25, son of Mr. Thos. F. Foye.

In Hampton, Feb. 4th, JACOB MARSTON, aged 64.—Feb. 6th, LAURA MARSTON, aged 14, daughter of Col. David Marston.—A child of David Stevens, aged 1 year.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawâm

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawâm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superiority of its remedial powers over all other preparations for excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted virtues as WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to get it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Diaries for 1861 at Reduced Prices,

J. F. SHORES, Jr., No. 1 Congress Block, has on hand a large variety of Diaries, which he will sell at reduced prices

Local.

ANOTHER FRIEND GONE.—Hardly had our ink dried upon a brief tribute of friendship to one young acquaintance, on Monday; ere we were startled and grieved by the receipt of the following note, from Hampton:

HAMPTON, Monday Eve, Feb. 11.

Dear F.,—It is with sorrow I inform you of the death of our friend MORRILL M. COFFIN. He died this day at about one o'clock, after a sickness of only five days. His sufferings were fearful to behold. His death casts a gloom over the the whole town. I am truly yours, L.

Mr. Coffin was a very prominent citizen of Hampton, and a most estimable man.—We knew him chiefly as one of the publishers of the Map of Rockingham County, and Secretary of the County Agricultural Society—and a most efficient, devoted, faithful officer he was. He will be greatly missed in the Board—and also in his native town, where he has been active in all enterprises projected for the good of the place—the building of the new Town Hall, getting up the Lyceum, &c. But most severely among his friends, who best knew his worth, and especially in his own family circle, does this unexpected blow from "the last enemy" fall. To us, it almost seems as if we had lost a brother—so intimate and pleasant have been our relations for a year or two. How bitter, then,—how irreparable and almost "too grievous to be borne," the sudden loss of her, to whom is left only his memory and his orphan babe—a boy of a few months.

We learn that his disease was Diphtheria; and his sufferings, which were terrible to behold, were borne with calmness and resignation to the end. His age was 36 years.

The funeral services will take place at the church in Hampton, this (Wednesday) afternoon at 2 o'clock.

SHEEP AND DOGS.—At a meeting of the Massachusetts Agricultural Society, in Boston, the other night, instead of discussing sheep, the time was mainly taken up with 'cussing dogs. Well, this is no more than the place the curs actually occupy, for there are more dogs than sheep in Massachusetts or New Hampshire. And we all have to pay higher for wool and mutton too, on account of this folly. We like a *good* dog, as well as any reasonable man should; but we don't want to be over-run by a horde of worthless curs, at so great a cost. JR.

P. S.—A "rich" man in this city—that is, one who "can shew dollars to our cents," (be careful how you spell this last word, O compositor,)—and who although too—too economical to take and pay for the Chronicle, yet always seems to know what is in in it—told us, not long ago, that he should take our paper, but for our silly opposition to dogs. Well, this is a new reason for "stopping the Chronicle;" but it isn't *stopped* just yet—though it will be, before it becomes the organ of anybody but the editors, and their opinions.

A CAPITAL ENTERTAINMENT, INDEED,—is the "South Sea Whaling Voyage," now being exhibited at the Temple. A letter in another column, "tells the story" pretty well; and the highly respectable endorsements in the advertisement, are conclusive as to its merits. Besides, large numbers of our best citizens have now seen for themselves—and "seeing is believing," here, sure.

The paintings are very fine, and Capt. Williams, the proprietor and "delineator," is the most satisfactory man we ever heard in that position, and a most excellent actor—for he acts as well as talks, and does both admirably. He is well seconded by Capt. Phelon, and a boat's crew; and, for better illustration, has an actual whale-boat about thirty feet long, with implements and instruments of whaling, and various bones and other relics of the monsters of the deep.

Capt. Williams' lecture is exceedingly entertaining, and no less interesting for leaving the impress of truth and accuracy—and our word for it, if you visit his exhibition once, you will want to see it again. His audiences here are large and orderly, for he entertains all too well for any to wish to disturb.

☞ The annual meeting of the Portsmouth Gas Light Co. was held on Tuesday, and the old Board of Directors were chosen for the ensuing year. John Trundy, Esq. was re-elected as Agent. A dividend of 8 per cent. from the net earnings of the fiscal year, was declared.

☞ The Louisiana Convention has adopted a State flag, and passed an ordinance making it a penal offence for pilots to bring over the bar any U. S. war vessel. The Texas convention has passed an ordinance favoring the formation of a Southern Confederacy, and elected delegates to the Montgomery convention. A communication from Judge Robertson, commissioner from Virginia to the seceding States, says that the Governor of Georgia accepts the mediation of Virginia. He also says it is believed the Governor of Alabama will give a favorable answer.

Capt. Williams' Whaling Voyage.

A correspondent of the Springfield Republican writes as follows:—

To the Editor of the Republican:—

HARTFORD, October 9, 1860.

I am not a penny-a-liner, neither do I lend my pen or voice to bolster up the pretensions of quacks or their humbugs. Uninfluenced by obligations either of interest or friendship, I wish to introduce to your citizens and readers a writer not merely an adventurer, but one who has won the respect and lasting esteem of the best men in Hartford and other cities and towns in Connecticut—one whose modesty and simplicity is equaled only by his merit—Capt. E. C. Williams, proprietor of the "South Sea Whaling Voyage. His exhibition is a series of paintings representing the life of a whaleman; and in those parts especially relating to the capture of the monsters of the deep, it is unrivalled for exciting interest, as well as pleasing information. I am free to say, however, that the pictures, excellent as they are artistically, as well as for naturalness, would be only half so engaging but for Capt. W's inimitable explanations and impersonations. He is the artist of the exhibiting fraternity, not only thoroughly understanding his subject—being a practical whaleman—but throwing the whole force of his enthusiastic and impulsive nature into his delineations, and thus taking captive the attention and interest of his audience in a manner seldom witnessed. In his boat scenes he uses a real whale boat, which belonged to the bangers of Oregon of New London, and has repeatedly been used in the capture of whales, having been several times round the globe. In his exhibition this boat is placed directly in front of the stage, and is used by him and his assistants as a means to illustrate the whale fishery. The excitement of these scenes must be seen to be appreciated. No descriptive powers can convey an adequate idea of their moving force. The boat is provided with tub, line, irons, lances, drags, oars, and all the paraphernalia of the whaleman's outfit. The captain manages the boat through the varied incidents so faithfully as to leave little room for the imagination. Old whalemen who have witnessed his representations, have repeatedly called and voluntarily at the close of one of these scenes have taken captive their sense of conventional etiquette.

Let me feebly sketch a scene occurring last night. The hall, notwithstanding the popular attractions of the Draytons, was literally crowded, and that too by Capt. Williams has exhibited here in all about eight weeks. The boat is approaching, for the first time in a voyage, a whale, almost every one of the crew being "green hands!" who have never pulled an oar in presence of the leviathan. With face and manner full of anxiety and earnestness, his head bare, one hand grasping the steering oar, and the other assisting the after oarsman, the captain looks the personification of intense but repressed excitement. With hoarse voice, in scarcely audible whispers, he talks to his crew. "O, my boys," says he "pull, pull; I'll give you all you want; tobacco, rum, fruit—anything; only put me on to that whale. Don't cramp your oars. Carefully, carefully. Still, still, not a whisper. Do pull, my boys, pull; he's an eighty-barrel whale. There he blows again." [Here one of the greenhorns, in his excitement and fear, misses with his oar and tumbles over his seat, his heels kicking indicriously in the air. With the application of a rope's end the young sailor's wits and seat are restored, and the boat proceeds.] The captain whispers again:—"Now, boys, pull handsomely; make no noise. You shall have everything you want when we get back to the ship. There! there! he is close to." [To the harpooner.] "Stand up! Here he is, boys, close to us! Be ready!" [Here one man or a boy, getting frightened, leaps overboard, and is got in with difficulty, just as the irons are thrown.] The harpooner, excited, not only throws his irons—one and two—but scales his lat after them. "Stern all!" shouts the captain, all necessity for silence being gone. The boat backs off from the monster, and like lightning he clears his flukes and "sounds" or dives, taking, the line whizzes round the loggerhead, or post in the stern, and through the leaded groove at the bow, with lightning-like velocity. A man at the stern, with pads of quilted canvas called "nippers," holds the line, and the strain causes the bow gradually to sink till the gunwale is within an inch of the surface. "Let go, let go," cries the captain, and the line runs with a velocity inconceivable around the loggerhead till the bow comes up. "How many flakes are there left in the tub?" inquires the captain, with the most intense anxiety in his countenance and manner.—"Three flakes, sir." "Lay aft, lay aft, every mother's son of you;" and the men leave the bow and body of the boat, and crowd together in the stern. The bow is lifted to a dangerous hight, but soon the strain of the line attached to the diving whale, in spite of the additional weight in the stern, brings the point of the boat lower and lower toward the engulphing waves "How much line is left, asks the captain, nearly mad with intense anxiety. "Only two turns," answers the seaman. "Tell me when there is one turn." "One turn" is the almost immediate answer, and the word is given to "out!" and the whale, with 2000 feet of line, is gone.

But sometimes such deplorable luck does not wait on the efforts of the whaleman, and the crew, taking advantage of the hold of the "nippers," bend on a number of drags,—square pieces of plank with handles mortised in them, having attached a bit of line,—and tying them on, they exert a great retarding influence on the downward progress of the whale. The line slides out, in spite of all their efforts, and anxiously the crew looking for the coming of the following boat, the crew of whale-mare working with all the energy of which the human body is capable.—With agonizing suspense the captain awaits their coming. He shouts, "Come, boys! O, come, we've only three flakes! Come, for heaven's sake! Make your oars snap! speed her along!"—All the time the other boat is fairly leaping over the waves. "O," says the captain, "if they should not arrive in time! How much line is there left?" "Only two turns," is the answer.—"Good God, what shall we do? Lay aft, every man. Let her sink till the water runs over the gunwale." The other boat approaches, and just as the crew of the fastened boat are about to cut the line, the "bight" of the other line is thrown—is caught—bent on—cast loose, and the other boat has the whale, while the captain and his exhausted crew fall back on the thwarts in an almost fainting condition, and the intensely interested audience, some of whom have half risen from their seats, draw a long breath of relief, and the agony is over.

Such, briefly, is a tame description of one of Capt. Williams' boat scenes, and if the real representation does not far exceed this rough sketch, deny me forever the appellation of TRUTH.

Herrick Allen's Gold Medal Saleratus has not its equal in the world, as all who have ever used it will testify. If you would preserve health in your families, and good sound teeth, and at the same time be economical, make an investment in a pound of it, and you will ever after use it. Do not be put off with any other. Most all of the grocers have it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,

—FOR—

RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA

COMPOUND,

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and per sons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, *Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.*

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

DR. SWETT'S

COUGH DROPS

—FOR—

Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases o the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above-named complaints.

Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Bennett, of Vt.:

Canaan, Sept. 4, 1848.—"Dear Br. Swett, I consider it a duty I owe to the public, as well as to yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."

SAMUEL R. DENNETT.

New Castle, Jan. 10, 1841.—"Elder Swett:—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as on myself, I feel confident that it is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.

Exeter, Feb. 12, 1848.—"I have been recently cured of a very hard and dangerous cough, in the space of four days, by taking Dr. Swett's Cough Drops." J. BATCHELDER.

Newton, N. H., May 7, 1841.—"I am confident that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. Within the last year I have sold $200 worth of his medicines; and I have heard them to remove some diseases that have resisted the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines, and then using his Panacea." DAVID CAMPBELL.

Exeter, May 19, 1841.—"I hereby certify that this Spring my daughter had a severe fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until her bowels swelled, and she was so pressed at the lungs that she groaned at every breath; and those who saw her thought that without some speedy remedy she could live but a few days. At this stage of the disease, we obtained some of Dr. Swett's Cough Drops, and commenced giving a teaspoonful every half hour, and dispensed with giving her any other medicine. It relieved the cough and distress of the lungs, and by using two phials she has been entirely cured."

DAVID LANG.

Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use them freely." MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effects of Dr. Swett's Cough Drops, to be correct.

CHARLES C. RICKER.

Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." FANCY MINER.

"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge."

ELIZABETH CURRIER.

Exeter, March 3, 1841.—"Many of my brethren in the ministry frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to others affected, that the Cough Drops prepared by Dr. Swett, of this town, are a valuable remedy. I have found nothing that gives relief so quick.—Let every suffering preacher take a phial and try it." Eld. EDWIN BURNHAM.

Exeter, July 30, 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for Coughs, and for any other complaint of the lungs, with which I am acquainted."

NANCY F. JONES.

Canaan, Aug. 29, 1850.—"This certifies that we have found greater relief from Dr. S. Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than all other medicines put together." THEOPHILUS CURRIER,
SALLY CURRIER.

Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I would say that last winter I was confined by a severe cough and spitting of blood, which much alarmed my friends, and that I found a full and speedy cure by the use of only two or three bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town.

I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the application of one bottle of Swett's Stimulating Liniment, prepared by Dr Swett."

J. C. BURNHAM.

Morning Chronicle.

STILL LOVES THE UNION.—The La-grange (Ga.) Reporter, says:—

The deed is done! Our rights are—*not secured!* We have been *fifed and drummed*—and *rotted* out of the Union. We still love the Union. We loved our old government, because it was established by the strong arms and the blood of as true men as the world ever saw. We never did have any *war* to make on the government, but always regarded it as a priceless inheritance bequeathed to us by our Revolutionary fathers, and we have adored the Union of the States, because that Union was formed and cemented by their blood. We have given them up and have now left the sacred chambers of our fathers. The action of Georgia *may be right* and *it may be wrong.*

In this age of speed, when we travel thirty miles an hour, are we less impatient to be at the end of our journey than when we travelled ten? In this age of cheapness are we more satisfied with our bargains, or more benevolent with *our surplus*, than formerly!

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gentlemen: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Some years ago I lost an eye in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my face and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was advised to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I went to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. Now and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system for ever. No one will believe that I feel what I am saying when I tell you, but I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED R. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy* with which promised to be fatal, and a long, *persevering use of our Sarsaparilla*, and also a dangerous *Malignant Erysipelas* by large doses of the same: says he cured the common complaints with it *daily*.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I must cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous cases of complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by the use of some bottles, the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these complaints."

Edward S. Marrow, of Newbury, Ala., writes, "A dreadful ovarian tumor on one of the females in my family, which had defied all the remedies we could command, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved curative. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and respond to your inquiries of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and the decided effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were healing under your Sarsaparilla, the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another one attacked by secondary symptoms from the use of Mercury, in his entire array a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla, the ulcers healed, and he is well again, not of course without the disorder had some

THE POPE'S ADVICE TO FREDERIKA BREMER.—When Frederika Bremer was in Rome, not long ago, she visited the Pope, and conversed with him. As she left, Pius IX—she tells us in her recent book—gave her this advice:

"I will tell you something. Pray! pray for light from the Lord, for grace to acknowledge the truth; because this is the only means of attaining it. Controversy will do no good. In controversy is pride and self-love. People in controversy make a parade of their knowledge, of their acuteness, and, after all, every one continues to hold their own views. Prayer alone gives light and strength for the acquirement of truth and grace. Pray every day—every night before you go to rest—and I hope that grace and light may be given to you. For God wishes that we should humble ourselves, and he gives his grace to the humble. And now, God bless and keep you, for time and eternity!" This pure preistly and fatherly admonition was so beautifully and fervently expressed, that it went to heart, and humbly and from my heart I pressed the hand paternally extended toward me. That it was the hand of the Pope did not embarrass me in the slightest degree; for he was to me really at this moment the representative of the Teacher who, in life and doctrine, preached humility, not before men, but before God, and taught mankind to pray to Him. The Pope's words were entirely true and evangelical. I thanked him from my entire heart, and departed more satisfied with him than myself. I had stood before him in my Protestant pride; he had listened with patience, replied with kindness, and finally, exhorted me, not with Papal arrogance, but as a true Gospel teacher. I parted with more humility of spirit than I had come."

☞ The Legislature of Tennessee has refused to appropriate any money for arming that State. Accordingly a Nashville paper proposes to New York to come on and have a fist fight.

☞ The Congressional delegation of Maine, have been appointed by the Governor to represent that State in the Virginia Peace Convention.

☞ The New York Superintendent of Police reiterates the assertion that the arms claimed by Georgia have not been given up.

☞ A messenger at Washington, Monday, from Pensacola, announced the arrival of the Brooklyn. The Wyandotte was coaling at the Navy Yard.

One of the oldest citizens of Mansfield, Ohio, who has done the State some service in times past, proposes the formation of a military company of old men. He says he wants *real old fellows, who can't run.*

CHURCH MONTHLY,
Edited by
REV. GEORGE M. RANDALL, D. D.
REV. F. D. HUNTINGTON, D. D.
The first number of this new religious periodical, "established for the purpose of publishing the Doctrine and promoting the Advancement of the Protestant Episcopal Church, irresponsible of all party names and associations," may be seen at the bookstore of J. F. SHORES, Jr., who will receive subscriptions for the same.

Portsmouth, Jan. 3, 1861.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.
With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as
"Bininger's Genuine Cognac Brandy."
It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pints and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.
The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,
Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Fading Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and Liver Complaints Diseases of the Kidneys, Scalding or Incrutiness of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continuous Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once, if already attacked; and as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence all travellers should take a bottle with them, and all should take a teaspoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not untomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it—this Cordial is all we claim it,—Mothers, try it!* And to you we appeal to relieve the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known; in time, the latter are often so taxed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need. O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.
Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D cow 1y

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*s, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous organs after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said *"that it is the best preparation of Bitters that has ever been offered to the public."*
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, FEBRUARY 14, 1861.

SLAVES DEFENDING SLAVERY.—There are several significant points in the following paragraph, copied from the Macon (Ga.) Telegraph, which we would commend to the attention of abolition philanthropists: "Rev. Mr. Warren, of the Baptist church in Macon, in his sermon last Sunday, stated that a negro preacher in Georgia, who had been trained by his master to assist him in his law office, had written a work in defence of African slavery, which was now in course of publication at Atlanta."

These points are exactly in Uncle Toby's line of discussion. One point is, that the defence of slavery, though written by a black man, is to be read by *white* masters, those who *can* read. They will not spread it among slaves.

Another is, if the defence is able, the negro author must have talent, genius, mental power, and so not be very much below his white neighbors.

A third is, if it is very thoroughly convincing, Georgia should print a large edition and send it to Canada, where it might convert those foolish negroes who have run away from the blessings of slavery into the cursed condition of freedom. Perhaps they would all rush back.

FLAX.—The friends of flax are earnestly laboring to show that it can be made a competent substitute for cotton. So says a paper. Still, we are friends of flax; but though it *might* be a substitute for cotton, we don't believe it will be—any more than silk is a substitute for wool, or beef for mutton.

We do believe, however, that the culture of flax, which used to be common all over New England, but which has gone out of fashion, is about to come in again, and be larger than ever.

The *only* reason, that we know of, why flax has not been raised all along, is, that it cost too much labor to get the flax ready to spin; and as cotton, by the ginning process, was fitted to spin very cheap, cotton became the substitute for flax.

Now it is said that a machine has been perfected, which will prepare flax for spinning, very quick, and very cheap. If so, our farmers will surely add flax to the number of their crops.

THE TREASURY.—The Secretary of the Treasury states that the liabilities are, on the fourth of March, ten millions, and the revenue accruing is about two millions, leaving eight millions to be provided for.—The amount in the Treasury is about half a million, while drafts to the amount of two millions remain unanswered. The Secretary thinks it is absolutely necessary to advertise for a loan.

Northern capitalists decline taking any portion of the twenty-five million loan in the present distracted condition of the country. They complain that the administration daily permits extravagant violation of the most sacred laws of the country, and manifests no disposition whatever to bring offenders to justice.

The capitalists of New York, Boston and Philadelphia express the belief that Mr. Lincoln's administration will restore the confidence of the whole people, especially the financial portion; and they quote the highest authority in the incoming administration, for arriving at this conclusion.

AGRICULTURE.—We find the following in an exchange:

An old writer says that agriculture was invented by Triptolemy, about 600 years before Christ. Macrobins says it was taught to the aborigines by Saturn. But agriculture, undoubtedly, had its origin when Adam was driven from Eden, and the ground was cursed. The first mention of agriculture is found in the writings of Moses, who says that Cain was "a tiller of the ground." The Athenians pretended that it was among them that sowing corn began, tho' the Cretans, Sicilians and Egyptians, the last with the most probability, lay claim to the honor.

It is singular that in looking back for the origin of agriculture, in the Scriptures, the item-maker should not have seen that Adam was made to "till the ground"—and "put into the garden to dress it and keep it." Surely agriculture, including horticulture and floriculture, was the primitive and normal employment of man.

☞ The dwelling house of John Clark, in Wakefield, was burnt on the morning of the 8th inst. The fire originated from a defect in the connection of a stove funnel with the chimney. The high wind prevailing at the time, and the intense cold—31° below zero—rendered it a trying occasion to the inmates. The time consumed in conveying an invalid lady to the nearest house prevented saving any of the contents, valued at $1500. Several persons were badly frozen while going to the assistance of their neighbors.

☞ A flock of from 5000 to 6000 wild ducks alighted a few weeks ago on the beach near Dieppe, apparently fatigued from a long flight.

☞ Twenty-five New Hampshire men are members of Massachusetts Legislature.

THE PRESIDENT ELECT.

CINCINNATI, Feb. 12.— Mr. Lincoln has arrived here. The streets were blockaded with people, compelling the locomotive to stop, obliging the military to clear a way to the depot. On his arrival, the Mayor welcomed Mr. Lincoln to the city. He then accompanied Mr. Lincoln to a barouche, and then under the escort of the military and a procession of citizens, amid the cheers of the immense multitude, he proceeded to the Burnet House. The whole city is decorated, and there is the wildest excitement.

Mr. Lincoln entered the house, the band playing "Hail Columbia" and the "Star Spangled Banner." He was introduced to a vast assemblage from the balcony by Mayor Bishop.

Mr Lincoln said—I have spoken but once before in Cincinnati, and that was the year previous to the late Presidential election. On that occasion, in a playful manner, but with sincere words, I addressed much of what I said to the Kentuckians. I gave it as my opinion that we as Republicans would ultimately beat them as Democrats, but they would postpone that result longer by nominating Senator Douglas for the Presidency. They did not in any true sense nominate Mr. Douglas for the Presidency, and the result has come certainly as soon as I expected. I also told them how I expected they would be treated after they should have been beaten, and I now wish to call their attention to what I then said. I said when we do as we say we will, beat you, that you will perhaps want to know what we will do with you. I will tell you as far as I am authorized to speak for the opposition.

We mean to treat you as near as possibly as Washington, Jefferson and Madison treated you. We mean to leave you alone, and in no way interfere with your constitutions; to abide by all and every compromise of the constitution; and in a word, to treat you, so far as degenerate men, if we have degenerated, may, according to the example of those noble fathers. We mean to remember that you are as good as we are, and that there is no difference between us other than a difference of circumstances. We mean to recognize and bear in mind always that you have as good hearts in your bosoms as any other people, or as we claim to have, and treat you accordingly.—Fellow citizens of Kentucky — friends, brethren, may I not call you—in my new position I see no occasion and feel no inclination to retract a word of this. If it shall not be made good, be assured the fault shall not be mine.

Great enthusiasm was manifested during the delivery of this short address.

In passing to his room those that could, rushed to Mr. Lincoln, throwing their arms around him, patting him on the back, and almost wrenching his arms off. A large number of politicians were in attendance. The grand ball of the Burnet House is decorated for the occasion. Mr. Lincoln is holding a reception this evening. He is in good spirits and looks well. Nothing has occurred to mar the pleasure of his journey thus far.

☞ Mrs. E. Lyle Saxon boxes the ears of the Mobile Advertiser for making some unacceptable remarks upon a letter she wrote about slave insurrections in Alabama. She is full of pluck, and says:—

"My firm conviction is, let the future be what it may, our steps for some time will not be upon thornless roses. Though I have but one offering to make upon the altar of devotion to my country, should the time ever come when her cause shall require the service of good men and true on her battle field, did not my husband respond to her call, I should spurn him from my arms as unworthy his country and of me."

NEW HAMPSHIRE ELECTION.—There is a prospect that the Democratic party in New Hampshire, urged by the pressure of the present National crisis, will go to the polls at the next election under one banner, and co-operate freely and earnestly with all men who admit that party is subordinate to the Union, and will act accordingly. It is intimated that Benning W. Jenness, (Breckinridge Democrat,) will decline running as a candidate for the office of Governor, with the view of securing the support of all Democrats for one ticket.—*Boston Post.*

SHIPWRECK AND LOSS OF LIFE.—A schooner, supposed the R. R. Freeman (of Wellfleet,) Capt. Smith, from Tangier, Va., for Boston, with oysters, foundered during the northwest gale of 7th inst., while coming through Vineyard Sound. It is supposed that the ice made so fast on the vessel that she sank, carrying down all on board.

BUSINESS AT NEW ORLEANS.—The Picayune says the business of that city is remarkably brisk at the present time. The levees never before presented such a mass of Southern and Western produce. It lies in heaps upon heaps for miles along the landing.

☞ Messrs. Gilmer, Etheridge and Nelson of Tennessee say that if the North will now do anything to give them any basis on which to stand at home, the border States can't be dragged out of the Union, and will undertake themselves to crush out secession and rebellion all over the South.

☞ The repairs on the mill at Newmarket are nearly completed, and a portion of the new machinery put in is already in operation, while the remainder will soon be running. The mill has been enlarged.

☞ The Washington Star of Thursday evening has telegraphic information saying that the Cherokee Indians have seceded, and captured the United States Fort Gibson.

☞ There is a physician in Newburyport who has attended at the births of three thousand children.

CONGRESS.—In the *Senate*, Tuesday, Feb. 12, the naval appropriation bill was taken up.

Mr. Green made a speech against the amendment to build sloops-of-war, on the ground that the country was bankrupt, and that the object was to coerce independent States. He advocated the right of secession, and said the holding of Fort Sumter, with its guns frowning on the city of Charleston, which it was built to protect, was an act of war on South Carolina. He said South Carolina had as much right to the fort in New York harbor, as the United States has to Fort Sumter, and he pledged his feeble arm to act in any contingency which might arise. Missouri was for the Union, but it was for a Union which would give satisfaction to all. Missouri, though slow, would act,—but the action of Kentucky, Tennessee and Virginia was *disastrous*. If the border States had *acted* there would have been a peaceable separation.—If no adjustment is made, all the Slave States but Delaware, Maryland and Virginia would go out together. He was afraid of Virginia, she was so slow. Arkansas, Missouri and Kansas would go out. [Laughter.] He said that after the hot house emigration to Kansas had died out, she would fall back into the arms of Missouri. He said the object of the Republicans was to extinguish slavery. He favored Mr. Crittenden's plan, but said the amendments were good for nothing unless there was a reaction at the North.

The amendment was then concurred in —27 to 17.

Messrs. Bigler, Douglas, Johnson of Tennessee, and Latham voted in the affirmative. The bill then passed.

In the *House*, the Pacific Railroad bill was taken up.

Mr. Pryor of Virginia opposed the whole bill as chimerical, and moved that the Senate's amendment be tabled Lost.

Mr. Sickles of New York defended the project, saying that all parties for the last eight years have declared in their platforms the constitutionality and practicability of a road. He said the tidings from Tennessee, Kentucky and Virginia would tend to restore the credit which the gentleman from Virginia (Pryor) said the country had lost.

☞ The old New York "Spirit of the Times" entered upon its Thirty-first Volume on the 9th instant, inaugurating this evidence of its long life by an entire new dress of type and four additional pages to its heretofore large form. No paper in the country has, throughout its management, maintained a more thoroughly consistent course than this journal. Notwithstanding the vicissitudes of politics and panics, it has pursued the even tenor of its way, turning neither to the right nor the left; and the consequence is, that it maintains its popularity in every section of the Union, and this new evidence of its success we have already noticed, is its just reward.

WASHINGTON, Feb. 12.—An appropriation of $200,000 is asked for to replace the ordnance, ammunition, &c., which have been seized at various southern ports.

Gov. Hicks will be examined to-morrow, relative to his information as to the contemplated seizure of the capital.

Horatio King was confirmed as Postmaster-General to-day. Numerous deputy postmasters and other minor appointments were also confirmed.

The tariff bill will probably come up in the Senate to-morrow. The Philadelphia Board of Trade committee arrived this evening to urge its passage.

The resignation of Capt. Rousseau has been accepted by the Secretary of the Navy.

☞ Race week in Charleston, S. C., commenced Feb. 7th. The first day produced a four-mile race between Albine and Planet. The time was—first heat, 7:36 1-2; secon, 7:42 1-2; Albine winning. The Charleston papers describe the day as beautiful, the track in fine order, but the attendance much smaller than usual. The ladies were numerous, the Jockey Club in strong force, Gov. Pickens, the British Consuls at Savannah and Charleston, and many army and navy officers present, *but no strangers.*

☞ The late sudden disappearance of the secession cockades in Washington was owing to the presence of those hollow tubes which Gen. Scott had placed there, and the fact that he would not put blank cartridges into them.

☞ Later and fuller advices from Texas show that only forty-six counties in the State voted at the recent election for a convention, and only one-eighth, instead of one-third, of the usual popular vote was thrown.

GODEY'S LADY'S BOOK for March contains a whole sheet of Spring dresses and Spring bonnets, and a double fashion plate, colored, containing six figures. It also contains a beautiful frontispiece, "Christ Blessing little Children."

☞ The Coos Democrat, published at North Stratford, says the depth of snow averages in that vicinity between four and five feet on a level, causing great inconvenience to those engaged in the wood and lumber business.

The Carolina ladies encourage their masculine friends with liberal supplies of linen, lint and love—all in honorable ways. Let us hope that while there may be abundant occasion for the linen and the love, there may be none for the lint.—*Traveller.*

☞ The cost of the new South Church in Concord, is stated at $23,866 40, including land and buildings.

WASHINGTON, Feb. 11.—[Dispatch to the New York Tribune.]—Our handful of Republican compromisers are gathering courage under the advices from Tennessee. They begin to think they have been frightened to no purpose, and that their offers to succumb were premature.

The accumulation of troops in this city has had a remarkably composing effect upon the public mind in Virginia and Maryland. We hear no more threats of capture.

There is a growing inclination in Congress and the Convention to adopt the suggestion of the Kentucky Legislature for holding a national convention, in the form prescribed by the constitution. This would give time for reflection, and not commit either section to any positive policy, but leave the door of reconciliation open after Mr. Lincoln has shown his hand.

Gen. Scott has very gratifying dispatches from Lieut. Slemmer, of Castle Pickens.—The old hero regards Lieut. Slemmer as worthy the highest praise for his courage and military talent recently exhibited.

Dispatch to the N. Y. Herald.]—The Collector at New Orleans, after opening the Custom House under the authority of the State of Louisiana, began by refusing to pass goods in bond for ports of delivery on the river, unless the authority of that State was recognized by the United States revenue officers at those ports. He also refused to take transportation bonds given in Kentucky, and exacted the payment of duties at New Orleans.

These exactions produced so much excitement at the principal cities on the Mississippi River, that the goods were *abandoned.* The government has received official intelligence to this effect from the Collector.

It is now understood that goods may pass as usual, but the duties collected at New Orleans go into the treasury of *Louisiana* instead of that of the United States.

It is evident, from the declarations of South Carolinians now in this city, that great dissatisfaction exists among them at the construction of the new government of confederative States.

RALEIGH, N. C., Feb. 12.—The Senate rejected and then reconsidered the bill amending the constitution concerning ad valorem taxation.

The Georgia commissioner will have a formal reception to morrow.

Federal matters are in a very calm condition.

☞ South Carolina Postmasters are still ordering stamps for their offices.

MARRIAGES.

In Exeter, Feb. 8, Mr. JOSEPH JANVRIN to Mrs. ANNA B. DAVENPORT, both of Exeter.

DEATHS.

In Washington, D. C., Jan. 31st, of consumption, Mrs. ANN TAYLOR GILMAN ARNOT, wife of Geo. J. Abbot, and daughter of Nicholas Emery, of Portland, Me.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov25 dawSm

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent. One dollar and a postage stamp sent to any authorized agent, will insure a bottle, by return mail. nov28 dawSm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4. 1860.

MESSRS. S. W. FOWLE & CO.—Gentlemen:—For a remedy of such undoubted merit as WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and it all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

Diaries for 1861 at Reduced Prices,

J. F. SHORES, JR., No. 1 Congress Block, has on hand a large variety of Diaries, which he will sell at reduced prices

Local.

☞ Portsmouth ships seem to have met with bad luck, of late. The ship Ocean Rover, (built by Messrs. Tobey & Littlefield, of this city,) Capt. Briard, from Calcutta, experienced some very severe weather, during her passage to Boston. On the first of November, the ship sprung a leak, which continued to increase until it attained the rate of 13 inches per hour. The vessel was hove to, and two planks were found started from the stern, which were replaced, and the leak stopped. Feb. 7, when off Pollock Rip, experienced a heavy gale from NW,—a perfect hurricane of snow and hail, making the ship an entire mass of snow and ice. On the 9th, they were obliged to thaw blocks below and aloft with hot water, before the rigging could be moved. She was towed into Boston, having no sails to trust to, and the men were frozen badly.

☞ The first real January thaw we have had this winter, has come about the middle of February—and the icebergs have been "growing small by degrees and beautifully less," for a few days. The softening of the drifts in the woods rendered travelling very difficult and almost impossible, a few miles out of the city, on Wednesday; and in town, dear me! what sloppy walking, and what a display of rubber boots, &c.!

☞ A lady of this city furnishes us with the following recipe for making Corn Cake: "One quart of corn—ground fine; two teacups of new milk; one cup of flour; two eggs. Mix well together; season with salt and pepper. Bake on a griddle."

☞ We trust that no one who feels that it can be afforded, will lose the opportunity to witness the manner of taking whales, as delineated by the honest and jolly Capt. Williams. It is certainly an exhibition of rare merit, and cannot fail to interest any and every one. He will remain here during the week, and no longer. So improve the chances.

☞ On Tuesday evening, a man on Daniel street alarmed many citizens by repeated cries of "murder." The man was missing when the authorities arrived, and was undoubtedly under the exhilarating influence of bad liquor, and was testing the strength of his lungs in the above manner.

☞ We notice that quite a spacious room is being fitted up in the Brick Market, for the accommodation of the City Marshal;—in pursuance of a vote of the Board of Aldermen.

☞ To-day is St. Valentine's. Not much excitement about it, though. There is more talk of war than of love, now-a-days—and a pity 'tis, too.

☞ Schooner China, 15 tons, a fishing vessel belonging at the Isles of Shoals, was driven ashore there by the high wind, on the night of the 7th, and stove to pieces.

Dr. Frank Fuller, of this city, arrived home last evening, after a prolonged sojourn in Washington.

Washington, Feb. 12.—Col. Schuabel has returned from his journey through the seceding States, and reports great alarm in in the rural districts in apprehension of servile insurrections.

Advices from Charleston state that the attack on Fort Sumter has been delayed.

Gen. Twiggs has been superseded in the command of the Southwestern Division of the Army.

The Peace Conference has adjourned over, as the committee on the plan of adjustment is not ready to report. The committee adopted Reverdy Johnson's constitutional amendment, but other propositions are before them.

A Traitor Consul General—Edwin de Leon, American Consul General at Alexandria, Egypt, has written a letter to the South Carolina papers, announcing that he is ready to return and enlist as a private in the battle which must be fought "when the baleful banner of Black Republicanism is substituted for the stars and stripes upon our National Capital."

The Consul must have been taking an extra glass of something, when he wrote this; for the stars and stripes are to be kept at the National Capital by these same Black Republicans. The *baleful* banners are elsewhere, in other hands.

Albany, N. Y., Feb. 13.—The ice in the river broke this morning, causing great destruction of property. Steamers, barges and canal boats were driven from the docks, and stores and bridges wholly or partially demolished.

Lent has come.

"to fast from strife,
From old debate,
And hate;
To circumcise thy life;
To show a heart grief-rent;
To starve thy sin,
Not bin—
And that's to keep thy Lent."

☞ The first Universalist Society of Salem, has raised the salary of their pastor, the Rev. Willard Spaulding, to two thousand dollars. The Society is now in a more flourishing state than ever before.

☞ Mr. Leonard W. Jaquith, Superintendent of the Washington Mills, Lawrence, died on Sunday.

The Times in Georgia.—A gentleman of this city has just returned from a brief visit to Georgia, which would have been extended through the winter but for the uncomfortable condition of things there, as well on the plantations as in the towns. There is an entire absence of specie, or even good currency, among the people for daily work. Shin-plasters are the only medium of exchange, and are taken as a matter of absolute necessity. One of the wealthiest of the coast planters a few days since found it necessary to have fifty dollars in specie for a specific purpose. He spent a whole day in Savannah to exchange his convertibles, and succeeded in getting *eight* dollars from his business friends.

The Georgians are under a very singular impression as to the condition of the North, which cannot be well accounted for, if they read the northern papers. They are told that here in New York, we are in the midst of the wildest disorder; that mobs are in possession of the city, and that murders are committed daily in the streets without punishment. In this light, secession is made a very prudential policy. The gentleman alluded to, on leaving his friends, was entreated to carry arms to protect himself from the imminent danger he incurred on entering the city of New York.—*New York Post.*

Massachusetts—When the Shoe Pinched Her.—Massachusetts could assert and plead for State Rights in 1814, when she deemed the act laying the embargo unconstitutional. A committee in the State Senate made a report on the grievances submitted to them, from which we make an extract.—*Virginia Transcript.*

The voice of the New England States, whose interests are common, is lost in the national councils; the spirit of accommodation and regard to mutual safety and advantage which produced the Constitution and governed its early administration, have been sacrificed to the bitterness of party and to the aggrandizement of one section at the expense of another.

☞ Hon. A. H. Stevens addressed the Montgomery convention Monday, after which he took his oath of office. A committee of two from each State was appointed to form a permanent constitution.

☞ Tennessee has gone for the Union by 50,000 majority. There will be no convention. One country, Chatham, is a unit for the Union.

Nashville, Tenn., Feb. 12.—Returns indicate an aggregate Union majority of over 50,000. The convention proposition is defeated by 20,000 majority. Only two secessionists have been elected as far as heard from.

Nashua, N. H., Feb. 13.—There has been no train through to Wilton on the Nashua & Wilton Railroad since yesterday morning, on account of the ice in the Souhegan river blocking in and flowing the track above Richardson's crossing.

☞ In Portland, on Tuesday night a building on Commercial street was destroyed by fire, together with a large amount of grain.

☞ Major Anderson owns 300 slaves. And he holds on to the masters as well as to "the boys."

☞ A clerk in the Cincinnati Post Office has stolen from letters to the amount of $4000, and has fled the city.

☞ James Morton died at Elbridge, N. Y., a few days since, at the age of 112.

Herrick Allen's Gold Medal Saleratus has not its equal in the world, as all who have ever used it will testify. If you would preserve health in your families, and good sound teeth, and at the same time be economical, make an investment in a pound of it, and you will ever after use it. Do not be put off with any other. Most all of the grocers have it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND;

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

Testimony of Judge Kittredge of Vermont.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hunareds of persons for Scrofulous Humors with great benefit.

DR. SWETT'S
COUGH DROPS
—FOR—
Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above-named complaints.

Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:

Canaan, Sept. 4, 1848.—"Dear Br. Swett, I consider it a duty I owe to the public, as well as to yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."
SAMUEL R. DENNETT.

New Castle, Jan. 10, 1841.—"Elder Swett:—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as on myself, I feel confident that it is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.

Exeter, Feb. 12, 1858.—"I have been recently cured of a very hard and dangerous cough, in the space of four days, by taking Dr. Swett's Cough Drops." J. BATCHELDER.

Newton, N. H., May 7, 1841.—"I am confident that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. Within the last year I have sold $200 worth of his medicines; and I have known them to remove many diseases that have resisted the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children in Brookfield. I have known many, who were sick, to recover by using some of his physical medicines, and then using his Panacea." DAVID CAMPBELL.

Exeter, May 19, 1844.—"I hereby certify that this Spring my daughter had a severe fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until her bowels swelled, and she was so pressed at the lungs that she groaned at every breath; and those who saw her thought that without some speedy remedy she could live but a few days. At this stage of the disease, we obtained some of Dr. Swett's Cough Drops, and commenced giving a teaspoonful every half hour, and dispensed with giving her any other medicine. It relieved the cough and distress of the lungs, and by using two phials she has been entirely cured."
DAVID LANG.

Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use them freely." MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effects of Dr. Swett's Cough Drops, to be correct.
CHARLES C. RICKER.

Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." FANNY MINER.

"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge."
ELIZABETH CURRIER.

Exeter, March 3, 1841.—"Many of my brethren in the ministry frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to others affected, that the Cough Drops prepared by Dr. Swett, of this town, are a valuable remedy. I have found nothing that gives relief so quick.—Let every suffering preacher take a phial and try it." Eld. EDWIN BURNHAM.

Exeter, July 30 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for Coughs, and for any other complaints of the lungs, with which I am acquainted."
NANCY F. JONES.

Canaan, Aug. 29, 1850.—"This certifies that we have found greater relief from Dr. S. Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than all other medicines put together." THEOPHILUS CURRIER,
SALLY CURRIER.

Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I would say that last winter I was confined by a severe cough and spitting of blood, which much alarmed my friends, and that I found a full and speedy cure by the use of only two or three bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town.

I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the application of one bottle of Swett's Stimulating Liniment, prepared by Dr Swett."
J. C. BURNHAM.

Morning Chronicle.

☞ A Miss White, says the Harrisburg Telegraph, of McKehn, who was married to a gentleman from Mississippi, a few weeks ago, and accompanied her husband to that State, which she intended making her future residence, returned to Harrisburg on Tuesday afternoon, having been ordered to leave the Southern domain at a certain date, before the expiration of ten hours. It seems that she made a free use of her Northern sentiments. What was done with her husband we do not learn.

HORSE RAILROADS IN LONDON.—The vestry of Lambeth, London, have passed a resolution granting Mr. Train of Boston permission to lay down a line of rails from Westminster Bridge to Kensington Gate.

DIFFERENCE BETWEEN PROSE AND POETRY.—"Draw your swords" is *"Prose.—* 'Draw your willing swords" is *Poetry*, says Hallock, and no man living knows better than he the distinction between the two.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and feel you know not why you are uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They admirably fulfill the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, throw themselves on the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the digestive organs and the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of thrown sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her chin and in her hair. After other means had failed, she also tried your Pills, and they have cured her.

ABA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you what complaint I have cured with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body ever suffered from, by one of your Pills. It seems to arise from a foul stomach which always relieves at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I have found them more upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I have employed, so decidedly I believe that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1855.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I believe they will cure a large bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the bowels renders them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family, and recommend them to my friends in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can conscientiously recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have shared them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although not enough in itself, is the progenitor of others that are worse. I believe our disease originate in the liver, but your Pills affect that region and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural *secretion* when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms, they are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkins, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic* pains, which confined me to my room days. Nothing would do me good but your Pills, which I had used in my family for years. They soon broke the chill, and in the last attack they cured me without a relapse. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They admirably fulfill the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, throw themselves on the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the digestive organs and the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of thrown sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her chin and in her hair. After other means had failed, she also tried your Pills, and they have cured her.

ABA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you what complaint I have cured with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body ever suffered from, by one of your Pills. It seems to arise from a foul stomach which always relieves at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I have found them more upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I have employed, so decidedly believe that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1855.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I believe they will cure a large bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

A ROADSIDE COLLOQUY.—"And so, 'Squire, you don't take a country paper?"

"No, Major, I get the city paper on much better terms, so I take a couple of them."

"But, 'Squire, the country papers often prove a great convenience to us. The more we encourage them, the better the editors can afford to make them."

"Why, I don't know any convenience they are to me:"

"The farm you sold last Fall was advertised in one of them, and thereby you obtained a customer. Did you not?

"Very true, Major; but I paid three dollars for it."

"And you made more than three hundred dollars by it. Now, if your neighbors had not maintained the press and kept it ready for your use, you would have been without the means to advertise your property. But I think I saw your daughter's marriage in those papers. Did that cost you anything?"

"No, but—"

"And your brother's death, with a long obituary notice. And the destruction of your neighbor Rigg's house by fire. You know these things are exaggerated till the authentic accounts of the newspapers set them right."

"O, true, but—"

"And when your cousin, Splash, was up for the Legislature, you appeared much gratified at his defence—which cost him nothing."

"Yes, yes; but these things are news to the readers. They cause the people to take the papers."

"No, 'Squire Grudge, not if all were like you. Now, I tell you, that the day will come when somebody will write a long eulogy on your life and character, and the printer will put it in type with a heavy black line over it; and with all your riches, this will be done for you as a grave for a pauper. Your wealth, liberality and all such things will be spoken of; but the printer's boy, as he spells the words in arranging the type to these sayings, will remark of you—'Poor, mean devil, he is even sponging an obituary.' Good morning, 'Squire."—*The Printer.*

JOHN ALCOHOL.

John Alcohol my Joe, John,
When first we were acquaint,
I had money in my pocket, John,
But now, you know, I hain't!
I've spent it all in treating you,
Because I loved you so,
But mark how you have treated me,
John Alcohol my Jo!

John Alcohol my Joe, John,
We've been too long together,
You must now take one road, John,
And I will take another,
For we must tumble down, John,
If hand in hand we go,
And I will have to foot your bills,
John Alcohol my Jo.

THE VICE PRESIDENT ELECT.—Hon. Hannibal Hamlin having been requested so to do, gives a statement of himself and his family to the Historical Society, which at least shows him to belong to a prolific race:

"My name is Hannibal Hamlin—born in Paris, County of Oxford, State of Maine, August 27th, 1809. Cyrus Hamlin was my father. He was born in Massachusetts. He died at Paris, Jan. or Feb. 1828, aged about 58. He was a surgeon and physician. He was clerk of the Court for Oxford county for several years, and subsequently High Sheriff of the same county. I think he had more than twenty brothers and sisters. Four of the brothers were named Asia, Africa, Europe and America. Africa was a member of the Cincinnati Society. My mother died about four years since, aged about seventy. Her maiden name was Anna Livermore, daughter of Deacon Elijah Livermore, of the town of Livermore in Oxford county. They were married about the year 1798."

CHURCH MONTHLY,

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,
Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renews the system thus rendered to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe this weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly refreshing in its effects, and yet never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so painfully familiar, and unintended to be time, called *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and Liver Complaints Diseases of the Kidney, Scalding or Incevenience of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence all travellers should take a bottle with them, and all should take a bottle-spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not astonied to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about this Cordial to all nervous and Mothers, try it!* And to you we appeal to detect the illness or decline not only of your daughters, but their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your nerves falling affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need. O. S. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.
Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D eow 1y

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, combining all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the invalid.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*has it is the best or paradise of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, FEBRUARY 15, 1861.

LETTER FROM MISSOURI.

We publish the following letter from a native of New Hampshire, now a citizen of Missouri, to show *the state of feeling* of a portion of the people there. Not for the accuracy of its statements, by any means; for the destitution of the people in Kansas is as well proved as the existence of the State itself; and this fact cannot be overthrown by the bare assertion of a prejudiced man, who lives two or three hundred miles away, and who contradicts the official accounts sent to Washington, and all the accounts we get here. Gen. Harney's report fell dead in Washington—and will produce no effect here.

WAVERLY, Jan. 26.

Dear —— We have had considerable winter here this season—not much cold weather, but more snow than usual.

I have done nothing to my farm in Kansas since the first season, for several reasons. First, when I was up there, the Yankee abolitionists stole all my stock, consisting of six yoke of oxen, one horse, and five or six cows; but I care little for that, if they would quit it. You see the emigrants sent out by the famous New England Aid Society were pretty much all an infernal set of low-lived, lazy, rascally thieves; and there never will be any good society there until they are mostly killed off—and, as they are too lazy to work, they would soon starve if it was not for Missouri, where they come and steal. But the day is not far distant when the people of New England will come to their senses, and quit sending thieves and murderers to Kansas, and then feeding and arming them for their bloody work, year after year.

The insane course of the North is now bringing forth its results. You ask me what I think of it? I think simply this: that the day of settlement has come, when the South will no longer submit to the base violations of the Constitution, and the higher law doctrine which has gained such an ascendancy in the North. We are unanimous in this thing, and the fifteen Southern States will form a government of their own, unless the North concede their rights, which I do not expect.

I am really sorry, ashamed, sick at heart, when I think I have probably not one relative but what has helped to bring this about, by voting, the Republican sectional despotism. Now what will be the result? Why, the manufactories of New England must stop, and labor must come down to the level of England and France;—all property must depreciate to less than half its present value, while the South will be comparatively prosperous.

We shall have hard times, I suppose, and a thousand difficulties; but in a few years will be more prosperous than ever—while New England can never recover. There has been really no suffering in Kansas—and your sending provisions to the starving population is all a humbug. All industrious citizens have ten times the plenty there is with the poor among you, and the most of the money subscribed is spent in arms and ammunition to keep the thieves and robbers armed. Perhaps this may seem strange to you, but so it really is. I send you the report of Gen. Harney to the government—Read it, and think of it; send it to others,—to brothers —— and ——, that they may see what they are doing.

Now I do not much think there will be war. All we want is to be let alone, and I hope to God the North will let us alone;—they will, if they pursue their best course. Think not that I have used strong or severe language, for I have not.

You cannot imagine the feeling of the people here. We want to do what is right, but we cannot have our rights taken away; the terrible idea of dissolution and the evil of war we know as well as you, and may heaven avert it,—but we must and will have our rights. Your brother, ——.

☞ Senator Green of Missouri let the cat out of the bag, in his late speech. He bemoaned the recent action of Virginia and Tennessee, and said if they and other border States had gone with the gulf States in the secession movement, they could all have got such terms from the Northern doughfaces and commissioners as they chose to dictate. He subsequently admitted that secession was a mere political scheme to frighten the free States into submission to the slaveholders' programme. But he feared the plan was frustrated.

☞ The recent census of New York city shows a negro population of nearly eleven thousand, amongst which are thirty families consisting of negro husbands with white wives, but not one white man with a negro wife.

☞ The Albany Journal says Greeley went overland to California, looking for ovations, and expecting to come back a candidate for the Presidency.

COUNTING THE VOTE.

At Washington, on Wednesday afternoon, Feb. 13, at 26 minutes past one o'clock, Lincoln and Hamlin were declared to be elected President and Vice-President. There was no disturbance of any kind. The attendance of spectators was immense.

In the House of Representatives, on that day,—the proceedings were opened by a prayer from the Chaplain. He implored a blessing upon the out-going administration, and prayed that it might close its labors in peace, without any further violence, and without any stain of blood. He also prayed for the incoming administration, that a blessing might rest on the President elect now on his journey hitherwards, that he may be peacefully and happily inaugurated, and afterwards administer the government in a pure, wise and prudent manner.

A message was sent to the Senate that the House was ready to meet that body in joint session to open the electoral votes and announce the result.

The Senate came in after a short interval and took seats, the members of the House standing. Meanwhile the Vice President was conducted to the right of the Speaker.

The Tellers, Senator Trumbull, and Representatives Washburne of Illinois, and Phelps of Missouri took seats at the Clerk's desk.

The Vice President rose and said:—"We are assembled pursuant to the constitution in order that the electoral votes may be counted and the result declared for President and Vice President for the term commencing on the 4th of March, 1861. It is made my duty under the Constitution to open the certificates of election in the presence of the two Houses, and I proceed to perform my duty."

He then opened the package containing the electoral vote of Maine, and handed it to the Tellers, when a certificate thereof was read, the Secretary of the Senate making a note thereof.

The electoral votes of New Hampshire, Massachusetts, Rhode Island, Connecticut, Vermont, and New York, had been similarly disposed of, when Mr. Douglas suggested, if no objection is made, that the formal part of the certificates and names of the electors be omitted from the reading.

The reading of the vote of South Carolina produced some good-humored excitement.

The reading of all the votes having been completed, Mr. Breckinridge announced that Abraham Lincoln of Illinois, having received a majority of the whole number of votes, is duly elected President of the United States for four years commencing on the fourth of March, 1861, and made a similar announcement as to Hannibal Hamlin of Maine for Vice President.

A committee was appointed in conjunction with the Senate, to wait upon and notify the President elect of his election.

Mr. Hindman suggested that General Scott be informed that there is no further use for the mercenaries around the capitol. Adj.

This Mr. Hindman is a great way behind, if he believes what he says,—when by *mercenaries* he means Gen. Scott and the army, by whose presence and preparation, the plot of that *mercenary traitor* Floyd was so far defeated, that the electoral votes have been declared in an orderly manner, and there can now be no legal obstacle to the inauguration of Lincoln and Hamlin on the coming 4th of March.

Floyd and his compliotters had intended to prevent the declaration of the vote—but the militia of the District were under arms, the horses of the artillery were harnessed, the men were ready on the boxes, the infantry with ball cartridges, the cavalry with tightened girths and loosened sabres, stood waiting the galloping horse of Gen. Scott's aid: old *Chapultepec* was ready. And there was no disturbance.

Inauguration may now take place any where. But Washington was the place, and pomp and ceremony were the customs of former inaugurations, and Washington is to be the place, and pomp and ceremony are to be the order of the day at the one that is to ensue. All good citizens will govern themselves accordingly.

Gen. Scott and the Secretary of War, especially, two very conservative citizens, will have a continuance and increase of their caution and preparation, till after the 4th of March.—And not without good reason. The slave power gnashed its teeth, and would bite, if it were not for the guard. Don't forget the fable of sheep, wolves, and shepherd's dog.

Nearly half a million of voters in the free States have petitioned Congress for the adoption of some measure of compromise by which the existing troubles and dangers to the country may be arrested.—And what is the response from the Black Republican leaders, who alone have the power to settle the whole difficulty? Why, it is "Stand Firm," "Yield not an inch," "No compromise—no concessions to the slave power—no backing down," "Whip them into subjection!"—*N. H. Patriot.*

☞ The Worcester Spy has intelligence of the safe arrival at Port au Prince of the vessel chartered by James Redpath to take colored emigrants to Hayti. The emigrants are pleased with the country.

THE OUTRAGE AT SAVANNAH.—The outrage (tarring and feathering) perpetrated upon Capt. Vaughan, of the British barque Kalos, at Savannah, is said to have been the work of the "Rattlesnake Club." The citizens are represented to be intensely indignant, and will spare no effort to discover the perpetrators and break up the club, which is said to be a secret association. The club was doubtless formed to act as a vigilance committee, for driving obnoxious Northerners from the city; and so long as the reptiles confined their operations to this class of persons, they were unmolested. But now that a citizen of Great Britain—a power that does not wink at such outrages—has been fitted to a suit of the favorite Southern sort for obnoxious people, the citizens become virtuously indignant, and talk of breaking up the nest of snakes who have committed the blunder.

SUPREME JUDICIAL COURT.—The Farmer Will case, which was on trial all last week, at Exeter, has been decided. On Tuesday morning Judge Bell gave his charge to the jury, who after about two hours deliberation returned a verdict sustaining the will.

State v. Henry Flint, appellant. Appeal from a Justice of the Peace—on a complaint for assault and battery. Flint was found guilty, and fined ten dollars and costs of prosecution.

State v. Charles W. Bulman. Indictment for an assault with intent to kill—upon Ezra S. Durgin, a police officer, at Exeter, Oct., 20, 1859. The Jury found the prisoner guilty, and his counsel have moved for leave to file exceptions and for a new trial. The case will be transferred.

Irene Robinson, Exe'x. of Jere L. Robinson v. Nathaniel G. Gilman, John G. Gilman, Adm'r of Nathaniel Gilman. The trial of this action was commenced on Wednesday morning.—*Ballot.*

☞ The traitor and swindler Floyd, it appears, has only stolen $6,000,000 of the public money—and it is ascertained that in addition to the other frauds perpetrated by the seceding members of Congress, they have taken from the Congressional Library, (which is probably the best in the country, containing many books which cannot be obtained elsewhere,) some of the most valuable volumes in the whole collection. Thousands of dollars' worth have thus been abstracted and carried off by these members.

DESCRIBING WASHINGTON.—A Washington correspondent of the Philadelphia Press says:—

When Mr. Sickles to-day offered a resolution to observe the 22d of February, as a national holiday, in commemoration of Washington, and that Mr. Everett should be invited to deliver an address in the hall of the House, Mr. Garnett offered an amendment, to add after the name of Washington "the illustrous Virginian and slaveholder." Mr. John Cochrane, of New York, always ready for a joke, especially at the expense of these secessionists, moved to add "and emancipationist." Of course this brought the House down, and the original resolution was adopted.

THROAT DISEASE.—The number of deaths from diphtheria in the United States during the past year, is said to be no less than 10,000.—*Ex.*

We learn that there have been about twenty-five cases, and half-a-dozen deaths, of diphtheria, in Kensington; and five or six cases in Hampton, of which two or three have proved fatal. This is said to be very nearly the same section of country, in which the "putrid sore throat" originated, which ravaged the whole country in 1735

☞ 360

PEACE CONGRESS.—The Guthrie proposition was passed in sub-committee of the Peace Congress, by a vote of four to one. Efforts are being made to vote it down in the full committee.

This Compromise is substantially the Kentucky proposition, as introduced by Mr. Guthrie, and urged by him. No territory is to be acquired hereafter without the consent of three fourths of the members of the Senate.

If this should pass the whole committee, it will probably pass the peace congress.

WASHINGTON, Feb. 14.—Congress will pass the bill authorizing the President to issue coupon bonds not exceeding fifty dollars each, bearing six per cent. interest and running 20 years, thus enabling the people to sustain Mr. Lincoln's administration.

☞ One fact, it is said, is worth a hundred thousand speculations. Here, then, is a fact from a South Carolina paper, the Greenville Patriot:

"Peter, the slave of Mr. Francis Davenport, was last week tried and convicted of insurrectionary conduct, and was sentenced to be hung on the fourth Friday in February."

☞ A first-rate horse was sold at auction in Hartford, on Saturday, for two dollars and fifty cents. That's more of the bitter fruits, says the Courant. Thirty years ago that same horse was sold for nine dollars, and was considered cheap at that.

☞ The two Congregational churches in New Ipswich have united, and by so doing they are to come into possession of a fund of five thousand dollars, which was left to them some years since by the will of Dolly Everett, on the condition that they should unite.

Men who are true to their country, do not ask what is in their party creed at a time like this.—*Providence Post.*

☞ Mr. Seward says party must be subordinate to country.

CONGRESS.—In the *Senate*, Feb. 13, the bill to carry out the treaty with New Grenada was passed. The tariff bill was taken up, and Mr. Seward gave notice that he should move to erase that portion abolishing the warehouse system.

In the *House*, Mr. Sherman of Ohio sent up the letter of the Secretary of the Treasury, urging speedy measures for its relief, and reported a bill authorizing the President, in place of any part of the loan, to issue coupon bonds of a denomination not exceeding $50, bearing not more than 6 per cent. interest, to run twenty years.

The two branches then met in *convention*, to open the electoral vote. A joint committee was appointed to inform Mr. Lincoln of his election. The Secretary of the Treasury has advertised for proposals until the 23d inst., for the eight million loan under the late act.

EPPING, Feb. 13th.

Eds. Chronicle:—I saw in yesterday's Chronicle, the notice of marriage, in Epping, of Mr. A. W. Ham Little to Miss Lizzie Blackler, which is not the correct name of either party; neither was I married in Epping, but was married out of town, some months ago. The *fellow* who had it published, has just found it out, and probably thinks it a smart kind of a joke. I wish you to prevent its being copied, and make such a contradiction as you see fit;—and if there is any law for the punishment of such mischief-making vagabonds, I wish it put in force. A. W. LITTLE.

We know nothing about the matter, but the receipt of the notice by mail, accompanied with a request to publish, signed "S. E. Dearborn." All appeared well, and worthy of publication.—*Eds. Chron.*

WASHINGTON, Feb. 12.—[Dispatch to the N. Y. Times.]—The action of certain northern capitalists, threatening to withhold loans to the government, unless the Republicans will compromise, excites no other emotion here than one of disgust.—If it shall become necessary, the government will find means of obtaining all the funds it wants, on terms not very satisfactory to the bankers.

Further advices from Charleston contradict the positive assertions that Fort Sumter is to be attacked this week. In the mean time, large reinforcements of men and supplies have been concentrated by the government, ready to be rushed into Charleston harbor, if the attack begins, and the first gun will be the signal for the sailing of an overwhelming fleet to the rescue of Anderson and his brave comrades.

CHARITABLE OFFER.—The Kentucky Colonization Society, in order to relieve the free people of color in that State from the embarrassing position in which they have been placed by its free negro law, which went in operation on January 1st, 1861, offer to such of them as are willing to emigrate to Liberia, a free passage thither, and support for six months after their arrival.—Those having families are offered in addition, ten acres of land as a free gift, upon the condition that they will settle thereon. Five acres are offered upon the same terms to every unmarried adult, male and female.

NUMERICAL.—The Chronicle announces that there is in Newburyport a physician who has attended three thousand births.—Well, that is a good many; but we have heard it said of the late venerable Dr. Dwight, of this city, that he had attended *five* thousand. And there is now in Portsmouth, a dentist, who, within thirty years, has extracted fifteen thousand teeth; which may not be so important, but is a pretty round number. B.

☞ Precautions are to be taken for the journey of the President elect on the New York Central Railroad, similar to those adopted by several of the railroad companies when the Prince of Wales travelled over their lines. A pilot engine will be sent in advance of the train, after which all switches will be spiked and guarded until the special train passes.

KNICKERBOCKER.—The March number of this Magazine has already, appeared, and is interesting as usual. It has improved in appearance in the hands of the new publisher, Mr. Gilman—is much enlarged, and numbers among its contributors many of the best writers of the country.—The matter embraces an excellent variety. $3 a year, with a fine engraving.

☞ The census is being taken in Switzerland. In the district in which the Chateau of Aremburg is situated, Prince Louis Napoleon Bonaparte (Emperor of the French) is returned as a Swiss citizen, "*temporarily*" absent.

ERRONEOUS.—The statement, that is going the rounds of the papers, about the falling of Mr. Gilson's house in Brookline, N. H., and the death of himself, wife and two daughters in consequence. The weight of snow on his barn caused its falling in. That is probably the foundation for the statement.—*Nashua Gazette.*

☞ Rev. Henry Ward Beecher's church in Brooklyn contributed $233, Sunday evening, for the wives and children of the defenders of Fort Sumter, who have recently arrived in New York in destitute circumstances.

☞ The Democrats of Lancaster, Penn., (Mr. Buchanan's home) carried their recent municipal election by 700 majority.

☞ Grace Greenwood's Lecture, before the Mercantile Lyceum, although by no means so able and finished as that she gave last year, was yet interesting, finely delivered, and well received by the largest Lyceum audience of the season. Her subject was "Home and the Homeless," and her lecture, (and a "lecture" indeed it was, both to male and female busy-bodies and self-constituted advisers of women,) was exceedingly discursive, and embraced almost every subject of public and private interest—and dwelt particularly upon the necessity of common sense, rig'd morality, truth to human nature, and a return to old-fashioned habits of simplicity, industry and economy.

And since the regular Lyceum course is now concluded, (although Mr. Bartlett is to deliver an additional lecture, which beyond a doubt will be at once entertaining and *vitally* instructive,) we take occasion to remark that rarely, if ever, have our citizens had opportunity to enjoy a more interesting and valuable series than this. And the thanks of the ticket-holders and the public are certainly richly due to the Mercantile Association, (we fear, judging from the number of tickets reported sold, and from what we know of the expenses of such matters—that the Society will reap no *other* direct benefit from it,) and also to the Committee of Arrangements,—particularly Mr. John S. Rand, the chairman,—for their very successful efforts to provide such excellent entertainments for the people, at so low a price. If anybody thinks it is all so very easy to procure lecturers which shall suit every body, and also procure the money to pay them, from a critical and unwilling public, why, let them try it, that's all.

"LOST, A BOY."—About half a dozen years ago, a boy of fifteen or so—one of the younger members of a good-sized family—sailed from this port in one of the splendid new ships of which old Portsmouth has put such a fleet afloat. He stuck by this same ship, through all her voyages, and rose to be first officer; until a few weeks since, when he wrote his parents he was coming home—and requested his father and brothers to meet him at the depot. They were accordingly on hand to greet him; but the boy who went away, had turned to a stout man, and although he at once knew his father and brothers, none recognized the returned wanderer; and even when he addressed his father, with his deep, full, manly voice, it did not help the matter at all.—But it was not long before all renewed their acquaintance—though the father and mother will certainly never see their 'boy' again, but must make the most of the stalwart young man who claims his place, as we have no sort of doubt but they will.

☞ Rev. T. H. Miller is to preach at Nottingham, Sunday Feb. 24th.

If you have a Sore Throat, go to WM. R. PRESTON, Druggist, Portsmouth, N. H., and get the HAMMOND LINIMENT, which is sure to cure. G. L. BEAN & CO., Proprietors.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Colds. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawâm

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawâm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the supe lor excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and it all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

AN ARTICLE THAT SUITS AS WELL

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Apothecaries and consumers all testify that IT IS THE ONLY RELIABLE ARTICLE FOR RESTORING BALD AND GREY

Read the testimony from Kentucky.

PADUCAH, Ky., July 27, 1860.

Mr. W. A. BELL—Dear Sir:—I have used HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, and am satisfied from an experience in all other preparations for the like purpose, that *it is the only article ever before the public worth purchasing.*

Yours truly, JOHN G. DALY.

PADUCAH, Ky., July 27, 1860.

MESSRS. W. E. HAGAN & CO., Troy, N. Y.—Above appears a final statement of Mr. John G. Daly, merchant of our city, in regard to HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. This testimony is given after having used most of the preparations now before the public, *claiming* to be Hair Restoratives, and *must be considered conclusive* as to the merits of the *Inimitable*. Am out of the large size. Forward by railroad double the quantity we had before. Very truly yours

W. A. BELL.

To All Weak-Kneed Republicans!

LOOK AT THIS!

STRENGTHENING PLASTERS for all those Republicans who at this time have got a weak spine, and whose knees are weak, owing to the Slavery agitation. Any person using these Plasters, and not being relieved from bowing his knees to the Slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be either of the Senators or Representatives in Congress from New England, troubled with the Slave weaknesses,—I will supply them without pay. These valuable strengthening Plasters are for sale at 12 and 17 cts. each, according to the size, by

B. HUTCHINGS, 4 Market Street

Diaries for 1861 at Reduced Prices,

J. F. SHORES, JR., No. 1 Congress Block, has on hand a large variety of Diaries, which he will sell at reduced prices.

SHIP AHOY!—Capt. Williams had a complete ovation, Wednesday afternoon and evening,—and Thursday evening it was pretty much so. Wednesday evening after about 800 people had packed themselves into the Hall, the doors were locked, and hundreds denied admission. So we may well advise our readers, that if they would have good seats they must go early. "Did you ever see the like in sleepy old Portsmouth?" said everybody who couldn't get in. No, and nobody ever saw the like of Capt. Williams and his exhibition.—Why, to visit him, is as good as to make a three years' whaling voyage—in fact, we think, a vast deal better. Don't fail to go and see him,—and send all the boys and girls too.

☞ In the Board of Aldermen, on Thursday evening, the following resolution was adopted:

Resolved, That the teachers of the public schools in this city, cause to be read, Washington's Farewell Address, on the 22d of February inst. Also, that the bells be rung at the usual hours.

No other business was done, worthy of report.

☞ The Washington correspondent of the Boston Advertiser, Feb. 13, says:

"You may be sure that no more States will secede. The prospects are in every way encouraging."

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

Would you have sweet and healthy Bread, Biscuit, Cakes and Puddings? Use Herrick Allen's Gold Medal Saleratus. It takes less in quantity, will not make your Biscuit or Bread yellow, is a sure preventive to the decay of teeth, is perfectly healthy, and makes one-fifth more Bread and Biscuit from a barrel of flour. Never use soda if you can procure this article. Try it. Most all good Grocers sell it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,

—FOR—

RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA

COMPOUND;

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and am honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from suffering of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 90 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever tried.—WM C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

DR. SWETT'S

COUGH DROPS

—FOR—

Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been prolonged many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above-named complaints.

Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:

Canaan, Sept. 4, 1848.—"Dear Dr. Swett, I consider it a duty I owe to the public, as well as to yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."
SAMUEL R. DENNETT.

New Castle, Jan. 10, 1841.—"Elder Swett:—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as on myself, I feel confident that it is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.

Exeter, Feb. 12, 1858.—"I have been recently cured of a very hard and dangerous cough, in the space of four days, by taking Dr Swett's Cough Drops." J. BARCHELDER.

Newton, N. H., May 7, 1841.—"I am confident that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. Within the last year I have sold $200 worth of his medicines; and I have known them to remove many diseases that have resisted the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines, and then using his Panacea." DAVID CAMUBELL.

Exeter, May 10, 1841.—"I hereby certify that this Spring my daughter had a severe fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until her bowels swelled, and she was so much as the lungs that she groaned at every breath; and those who saw her thought that without some speedy remedy she could live but a few days. At this stage of the disease, we obtained some of Dr. Swett's Cough Drops, and commenced giving a teaspoonful every half hour, and dispensed with giving her any other medicine. It relieved the cough and distress of the lungs, and by using two phials she has been entirely cured."
DAVID LANG.

Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use them freely." MARY N. CRICKER.

I know the above testimony of my wife with regard to the salutary effects of Dr. Swett's Cough Drops, to be correct.
CHARLES C. RICKER.

Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." FANNY MINER.

"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge."
ELIZABETH CURRIER.

Exeter, March 3, 1841.—"Many of my brethren in the ministry frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to others affected, that the Cough Drops prepared by Dr. Swett, of this town, are a valuable remedy. I have found nothing that gives relief so quick.—Let every suffering preacher take a phial and try it." Eld. EDWIN BURNHAM.

Exeter, July 30 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for Coughs, and for any other complaints of the lungs, with which I am acquainted."
NANCY F JONES.

Canaan, Aug. 29, 1859.—"This certifies that we have found greater relief from Dr. S. Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than all other medicines put together." THEOPHILUS CURRIER,
SALLY CURRIER.

Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I would say that last winter I was confined by a severe cough and spitting of blood, which much alarmed my friends, and that I found a full and speedy cure by the use of only two or three bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town.

I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the application of one bottle of Jewett's Stimulating Liniment, prepared by Dr. Swett."
J. C. BURNHAM.

Morning Chronicle.

☞ The National Intelligencer quotes a declaration made by the Duke of Wellington, when introducing the Catholic Emancipation bill into the House of Peers, in justification of the concessions he was willing to make in order to avoid intestine commotions:—

"My Lords, I am one of those who have probably passed more of my life in war than most men, and principally, I may say, in civil war, too; and I must say this, that if I could avoid, by any sacrifice whatever, even one month of civil war in the country to which I am attached, I would sacrifice my life in order to do it."

There are 500,000 slaves in full communion with our Southern churches; they hear the same sermons, and participate in the same ordinances, and are consecrated before the same altars with their masters. —*Boston Post.*

As a river returns its waters to the sea, so does a grateful man delight in doing good to his fellow men.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge the power of your Sarsaparilla. I have for many years inherited a Scrofulous inclination, and have suffered from it in various ways for years. Sometimes it would out in blotches on my face, and at others would make it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and neck with an eruption, which yielded to no cure and healing skin soon began to form under the scab, which effect a while fall off. My skin is now clear, and I know by my feelings that the disease is eradicated from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully,

Yours, &c.,
ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 27th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla. He also states that *Malignant Erysipelas* by large doses of the same, soon he cures the common *Erysipelas* by it constantly.

Bronchocele, Goiter, or Swelled Neck.

Zebulon Shaw of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goiter*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. P. S. Channing, of New York City, writes: "I prescribed your Sarsaparilla in a case of Ovarian Tumor, saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in the *Female Diseases* of the Scrofulous diathesis. I have cured many incurable cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the uterus. The discretion itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at last been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before operating, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1858.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of those obstinate and *Secret Diseases*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, aided by iodide, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable portion of the bone. He said the disorder would soon reach his brain and kill him. But it yielded to my administering your Sarsaparilla; the ulcers healed, and he is well again, and of course without some disfigurations to his face. A woman who had been treated for the same disease by mercury was suffering from this poison in her bones. They ached so intensively in the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Friendly yours, C. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint, Dropsy.

INDEPENDENCE, Fremont Co., Iowa, 6th July, 1859.

Dr. J. C. AYER: Sir, I have been afflicted with a painful chronic rheumatism for a long time, which baffled the skill of physicians, and grew so bad I was lame. I tried your remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I could do my work which I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Gatchell, of St. Louis, writes: "I have been afflicted for years with an affection of the *Liver*, which destroyed my health. I tried every thing I could hear, but failed to relieve me; and I have been a broken-down man for years. Some two other cases than derangement of the *Liver*. My friend Dr. Wm. Wright, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made will do what it promises. By the blessing of God it has cured me, and has restored me to health. It is to make a new man of me. I feel young again. The best thing he said of you is and half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these forms of disease have been effected from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these complaints have been made by the alterative power of this remedy. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the scientific of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivaled excellence for coughs and colds, and its truly wonderful cures of dangerous pulmonary disease have known throughout the civilized nations of the earth. You are its communities, or even families, among them who have not some personal experience to relate of some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the efficacy of this remedy, we need not do more than to assure them that it has now all the virtues that it did here when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass

CONSUMPTIVES.

An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, i. e., Improper Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the Great Inquiry is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonders, to increase its knowledge, to make this grand discovery also.

Acknowledging that life is the gift of the Creator and that "in him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life obeys certain fixed natural laws, so animal life is traceable to a fixed cause, which removed or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.

The air we breathe we know to contain a very large proportion of oxygen.

Oxygen, brought in contact with metal, evolves or emits electricity.

Electricity, brought in contact with a muscular fibre, produces contraction.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of the blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the pulsation of the heart. This, then, is what is tingling through the remotest arteries. What, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, NEURALGIA, DIZZINESS, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.?—A deficiency of the red corpuscles containing the iron compound, which you perceive, also causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, nutrition ceases, the corpuscles lose their proportion cause—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in, in short, almost every type of disease but virulent forms may be traced to this deficiency in the blood, or the corpuscles or red globules.

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the proper circulation and the normal quantity. Consumptives! friends of consumptives! Sufferers from any organic disease! Unfortunates, who have lost health, and the body or mind, reduce, the standard of the blood and diminished the red globules! Ladies suffering any of the diseases known to the sex, complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had gone before. Do not despair, but do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.

An elegant pamphlet, containing testimony of the highest character, and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two three cent postage stamps. Blood Food is sold by all druggists, price, if it cannot be had, 1 will send 6 bottles, free of expense, for $5. Price, single bottle, $1. It is put up in 8 oz. vials, in yellow wrappers—the old blue, in small bottles, in red wrappers, having been done away with; and bears the fac-simile signature of Church & Dupont on the outside wrapper. Beware of counterfeits and imitations.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of vital importance to those requiring it for Medical purposes, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in which they can place implicit confidence, we have imported, and fully appreciating the fact that it is often commended by the Medical Faculty as a stimulant preferable to other remedies full, we are now bottling and selling reasonable rates, a Brandy of our own importation from one of the most populous houses in France, and known as

"Bininger's Genuine Cognac Brandy,"

It is mild, delicate and fruity, and is designed to be always uniform in quality and character. Put up in pint and quart bottles, in cases containing two dozen each, and in wood, to order. It is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz: Hights and Quarter Casks.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of premature baldness, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, and restore it to its early age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this country. It is now in the knowledge of every lady prejudice, side, and give your Hair Restorative a perfect test.—

During the year 1854, I was so unfortunate as to be thrown from my saddy against a rock near the roadside, from which my head received a dangerous blow, causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a growth of hair in two months after first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself is not a little.

You can publish this if you think proper.

Yours, very respectfully,
M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir:—I feel it my duty as well as my pleasure, to state to you the following circumstance, which you may use as you think proper. A gentleman of this place, (a lawyer) has been bald ever since his early history, until the last time he was married, he wore a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very well, and after some time two or three bottles more his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Hamilton Bell, and he is very well known in our adjoining counties, many persons can testify to the truth of this statement. I give this to you of my own accord, as I believe it will be a great deal of good of your Hair Restorative in this and the adjoining counties if you have the prop or agents.

Yours, &c.,
THOMPSON SUEBNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair. I had been bald, and about the time of my arrival in the United States it was in part becoming gray, but upon the application of your Hair Restorative, I soon recovered its original color. I consider your Restorative as being a wonderful invention quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds a pint and a half, and retails more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway New York, and 114 Market st., St. Louis, Mo.

Sold by all good Druggists.

Wholesale agents for Boston, George C. Goodwin & Co.; Potter & Weeks; Reed, Cutler & Co.; and J. F. Holman, No. 2 Tremont Temple.

Sold, wholesale and retail, in Portsmouth, J. H. THACHER, W. R. PRESTON, and by all good Druggists and Fancy Goods Dealers.

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a remedy which we

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your children are in pain and suffering, and their feelings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation, Allaying Pain and Spasmodic Action, and in Tending Teething, such as Diarrhea, Dysentery, Griping in the Bowels, Drooling of the Stomach, Wind Colic, and Convulsions.* We confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are said to die than from any other disease, it will be found the most relieved *instantaneously*, as if by magic; and in this dread complaint alone, its intrinsic value is such that it has been recommended from one month to another, until the name of DR. EATON'S INFANTILE CORDIAL has become "similar as a household word." We now ask your attention, as a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we are fully warranted in saying cannot be said of any other preparation for the diseases, at this time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the sad and blighting consequences which are certain to result from the use of opiates disguised in the form of quieting remedies; their continued administration being invariably followed by stupefaction and constipation of the bowels, ending oftentimes in convulsions. Hence DR. EATON'S INFANTILE CORDIAL differs from every other remedy. It

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, their rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend our remedy to your attention, and would caution you against the form of quieting remedies; that is, the administration of Morphine, which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts per bottle.

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for some years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intermittent Fever, Fever and Ague, Exhilarates, Invigorates, but will not intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and nervous, drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaint, are strongly urged to give a dose or two, and a radical cure by the use of one or two bottles.

NERVOUS OR MENTALLY DISSIPATED.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

General Depot, 45 Water street, New York.

Wholesale Agents, Weeks & Potter, Boston, General Agents for New England.

For sale in Portsmouth, by PRESTON and THACHER, and B. HUTCHINGS. Sold by all country dealers. 1ydmwly

SECESSION CONSUMMATED.

A physician in Columbia, Ga., a friend of the Union, has written the following spicy little poem:

Yankee Doodle took a saw,
With patriot devotion,
To trim the Tree of Liberty,
According to his "notion."

Yankee Doodle on a limb,
Like another noodle,
Cut between the tree and him,
And down came Yankee Doodle!

Yankee Doodle broke his neck,
Every bone about him,
And then the Tree of Liberty
Did very well without him!

COURIER *vs.* BEECHER.—The Boston Courier gives the common people and Henry Ward Beecher, the following first-rate notice;

Rev. Henry Ward Beecher is popular; he has a great following. If any proof is wanting of that, we have only to refer to the fact that an Association in Boston finds it profitable to pay him a thousand dollars for four lectures.

For minds not trained to reason, nothing is so irksome as to listen to reasoning. They hate argument, but appeals to the emotions and the passions meet with great favor at their hands. So they are easily led away by plausible and agreeable babblers like Mr. Beecher.

At the Music Hall, when Phillips or Fred. Douglass hold forth; at the Melodeon, listening to the sickening rhapsodies of "trance speakers;" or at the Tremont Temple, hanging upon the lips of Beecher, the same upturned sea of imbecility meets the eye. Beecher draws larger houses than Phillips or Miss Lizzy Doten, and why? Simply because he hits the average common foolishness of the people better.

Such men as this are an injury to the community in which they live—they are among the destructive influences which hinder progress and prosperity, which debauch the public morals and sap the foundations of society and religion.

☞ The Kennebec Journal having a standing head to the legislative House proceedings, that "the clergymen of Augusta, Hallowell, &c., officiate as chaplain by turn," and no invitation being extended to Rev. Mr. Egan of the Catholic Church to perform such service, Mr. E., in a respectful note requested the Journal either to omit the words—"the clergymen of Augusta"—or add, "except the Catholic clergyman." The Journal not having published the note, it appears in the Age.

ARMSTRONG GUNS.—The New Haven Courier, which has before denied that the gun, said to be the Armstrong, has been imported into South Carolina, reiterates the statement, the British government owning the patent, and keeping the guns within its own control. The writer concludes:

"South Carolina cannot have the Armstrong, unless, indeed, she acted on the plan which has proved so successful with her in regard to the property of the United States, and has stolen them."

☞ Dr. Winship is having a "harness" made, and fitted to his shoulders and hips, similar to the one used by the proprietor of a gymnasium in Chicago at the late tournament, by which means he thinks he can lift *three thousand pounds!* But even this he does not consider will be so extraordinary a feat of strength, as raising with his hands, unaided by straps, *eleven hundred pounds!*

Gen. Butler of Lowell is a wit. He was in Washington the other day, and during a conversation with Southern men, one of them, a Georgian, said, "I do not believe there is an honest man in Massachusetts." After a moment's reflection, he added "I beg to assure you, Mr. Butler, I mean nothing personal." The General responded—"I believe there are a great many honest men in Georgia; but in saying so, I do not mean anything personal."—*Boston Courier.*

THE COCKADE COUCHANT.—All the blue cockades that adorned the hats of our citizens before election, have been removed. Those who wore them say they have done all they can do by voting for secession, and having thus given a public exhibition of their sentiments, there is no use in keeping the ribbon upon their hats.—*Norfolk Day Book.*

One reason why the world is not reformed is because every man is bent on reforming others, and never thinks of reforming himself.

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,
Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all the original purity and thus renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature; and hence works this wonderful stomach,* and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those healthfully combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many other the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and Liver Complaints Diseases of the Kidney's, Scalding or Incontinence of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, Palpitation of the Heart, Coldness, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the disease at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of water, climate, or diet. Indeed, as a family medicine, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies for whom too much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Often a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about this Cordial. It will do all we claim. Mothers, try it!* And to you we appeal to detect the illness or decline not only of your daughters, but even of your sons, and often of your husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your sagacious discernment will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need.
O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.
Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D cow ly

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public,
RECOMMENDED BY THE FACULTY.
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic and aromatic* herbs, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*has it is the best or paradise of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, FEBRUARY 16, 1861.

☞ The State Election in New Hampshire, for Governor and three Representatives to Congress, will come three weeks from next Tuesday, March 12.

Strenuous efforts are to be put forth by the democratic party, particularly in the Second District, where Judge Bell has just been brought out *vice* Col. George, to run against Mr. Rollins for Congress.

It is highly probable, that the republican majority in the State, and in each congressional district, will be much smaller than in the Presidential election; but highly improbable that their great majority therein can be overcome and reversed.

In the Presidential election of 1856, New Hampshire gave Fremont a plurality of about 5300. Then it was said "Black Republicanism will soon go down,"—as Fremont was defeated; and it did go down so far as to elect Gov. Haile in 1857 by only 3000 plurality over Wells.

In the Presidential election of 1860, New Hampshire gave Lincoln & Hamlin 11,638 plurality, and over 9000 majority.

If they should fall off as much, on Lincoln's success, as they did on Fremont's defeat, they might still give their Governor 6000, and their representatives 2000 or so each.

There is, of course, no certainty that they will do exactly this;—but we have seen no indication whatever of any changes which could destroy their majority.

Gov. Goodwin, last March, had about 4500 majority;—and Gov. Berry will probable have about the same.

His opponents say he is an abolitionist, and all those who support him Black Republicans, with the idea, probably, that these names will change some votes: but the effect will not be great. U. T.

NOTICE EXTRAORDINARY.—Fifty dollars per week is offered by the proprietors of the Boston Aquarial and Zoological Gardens, to the handsomest woman in Massachusetts, to preside at the Piano, at the Gardens, for a term of weeks. Applicants will call at the Gardens and sit for their photographs, for five weeks. These photographs as taken will be on exhibition at the Gardens. At the expiration of five weeks, a committee of six individuals will decide—from the photographs—upon the successful competitor, who will thenceforward enter upon her duties for a term agreed upon between herself and the proprietors.

RELIEF TO SOUTHERN FEARS.—It must be a great relief to our southern brethren to learn that the small vessel which sailed a short time since, with colored emigrants for Hayti, and which has caused so much alarm along the southern coast, through fear of attack upon cities, inciting to insurrections, or other atrocities, has been heard from. Neither John Brown, Jr., nor Redpath went in her. One of the passengers, John Morey, Jr., a colored man from Worcester, writes to the Spy that he reached Hayti safely, and that he is greatly pleased with what he has seen of that country.

EMIGRATION TO HAYTI.—One vessel chartered for the conveyance of colored emigrants to Hayti, has reached Port au Prince with the first freight in safety. Another vessel will be sent from Boston on the 23d of this month, with over sixty of the same class of emigrants. Many of these are colored people, who have been recently driven from Southern soil for fear of losing their liberty. They are now in New York, and have formed themselves into a cotton-raising company. They have also formed a church organization, of which Rev. Mr. Lewis, (colored,) formerly of Boston, has been elected pastor.

SENATORIAL SMOKING.—The Alabama Senate was recently occupied with a discussion of a new rule, to prohibit smoking in the Senate chamber when the Senate is in session. One member thought the Senate should become accustomed to smoke, for in less than six months they will smell much smoke of a sulphurous character, and it was well to begin on tobacco smoke. The rule was finally withdrawn.

☞ McCormick, the great reaper man, who contributes a hundred thousand dollars to building a church, and buys up large daily papers as another man buys an extra fine cravat, has applied for an extension of his patent, and feels sanguine of obtaining it. The Western farmers entertain quite a prejudice against Mr. McCormick in consequence.

☞ Mrs. Murphy, stooping to pick up what she supposed to be a red pocket-book lying in the snow, at Boston, slipped over it and broke her leg. It was a brick frozen in.

☞ The people of Father Chiniquy's colony at St. Anne, Ill., have contributed 800 bushels of corn to aid the suffering people of Kansas.

LARGE FAILURE.—The N. Y. Journal of Commerce announces that Messrs. Bowen, Holmes & Co., a large dry goods jobbing house, and well known as chief proprietors of the Independent newspaper, have been compelled to ask the assistance of their creditors. Their liabilities are about $1,500,000, and their assets, including $300,000 in the newspaper, show a large surplus. Their proposition is to pay their obligations at maturity, 70 per cent. in cash and 30 per cent. in the stock of the Independent, their creditors advancing the latter amount in cash and taking the shares. The proposition meets with favor. The firm stood next to Stewart in the amount of their business, and had scarcely recovered from the crisis of 1857, when the firm (then styled Bowen, McNamee & Co.) failed.

The Boston Atlas of Friday, pronounces the above report incorrect, and says "none of their paper has laid over, and their notes maturing on Thursday were promptly honored. The report arose in consequence of a proposition having been made by the senior member of the firm to increase the capital of the concern by disposing of the Independent newspaper, which is his sole property, in shares, and adding the proceeds to the capital of the firm. We have good authority for saying that the firm will not suspend."

HORSES' FEET BALLING WITH SNOW. Take a piece of paper and place it on the shoe as it is fixed on the horse's foot, with a pencil mark on the inside of the paper, the size of the inside form of the shoe; cut out the paper, and mark the gutta-percha.—Allow an eight of an inch larger of gutta-percha on each side of the front part, to go under the shoe, to keep it from coming out when the horse is at work. Taper the edge of the gutta-percha, to facilitate its going under the shoe, and cut out a triangular piece of the gutta-percha, so as to prevent an undue pressure on the frog. It is found a simple, cheap and effectual remedy.—*The Field.*

ARMY AND NAVY INTELLIGENCE.—Twenty-five officers in the army from the South have resigned, and there remain in the service from that section, 442. In the navy, fifty-eight have resigned, and there remain, 269. It would appear that the larger part either remain faithful to the Union, are absent, or hold their commissions for some ulterior purpose. Four fifths of the naval officers are from Virginia.

A SECESSION DIFFICULTY.—We learn from a sea captain who has just arrived here from Florida, that at the time of his departure, the seceders were in curious trouble at Mayport. Several twenty-four pounders were landed on the shore, and while the artillery and infantry were disputing concerning the process of removing the heavy playthings to a more eligible situation, every flood tide paid them a visit not calculated to improve their condition.—*Providence Post.*

THE NOMINATION OF JUDGE BELL for member of Congress from this District, by an unanimous vote in a very full Convention, at Manchester last week, is alike honorable to the members of the Convention and to the nominee himself. Nothing but the entire fitness and eminent propriety of the nomination itself could have produced such a result.—*N. H. Patriot.*

☞ The New Orleans correspondent of the Traveller says that W. & D. Urquhart, wealthy Jews, engaged in the commission business, failed a few days ago for one million dollars. During the crisis of 1857, their firm was considered the most solid in that part of the Union.

☞ The Davenport (Iowa) Gazette says that an old Irish woman at Davenport who has been living partly at the expense of the county, paid not long since her railroad fare to New York, and had *eleven hundred dollars in gold* left. She tried to squeeze her passage money out of the county on the plea of poverty.

☞ An arrival from Vera Cruz at Havana, brought the exiled Foreign Minister and General Miramon. The Papal Nuncio had been insulted at Vera Cruz, and took refuge in the French Consulate. The Archbishop and bishops have all been exiled. The populace stoned them at Vera Cruz. They were afterwards detained by the authorities for trial. Mr Weller, the American Minister, arrived on the 30th.

☞ Tennessee was flooded with telegraphic dispatches on the morning of the election for a State Convention, declaring that Virginia had gone bodily for the secessionists.

The English papers claim a right to navigate the Mississippi, which they say secession cannot abrogate. By the treaty of Paris, signed on the 30th November, 1782, it was stipulated that "the navigation of the Mississippi, from its source to the ocean, shall forever remain free and open to the subjects of Great Britain, and the citizens of the United States."

☞ Mount Baker, the Oregon volcano, was in active operation at last accounts, throwing off clouds of smoke and steam.

A statesman, we are told, should follow public opinion. Doubtless, as a coachman follows his horses; having firm hold on the reins and guiding them.

☞ A uniform penny postage scheme for all Italy is among the first measures to be presented to the national Parliament on its next meeting.

WASHINGTON, Feb. 14.—[Dispatch to Traveller.]—It is asserted that a thousand Illinoisans, each armed with two revolvers and bowie knives, will be present here on the fourth of March, to protect the President during the ceremonies of inauguration.

The Grand Jury of Richmond, Virginia, have presented the New York Tribune, Times, World, and Boston Daily Atlas and Bee, and Traveller, as nuisances, and have interdicted their circulation as incendiary sheets.

The sub-committee of the peace convention had an all night session, and finally agreed to report the proposition of Mr. Guthrie of Kentucky, with the proviso that no territory be henceforth acquired without the approval of three-fourths of the Senate.

The northern delegates oppose this plan, and there will be a dead lock, which will be settled by recommending a national convention.

All the troops now here will remain until after the inauguration.

Letters from the South say that the Union men there still have strong hopes of an amicable adjustment, and intimations are made that the officers of the provisional government will be instrumental in bringing the seceding States back into the Union again.

It is now stated that Mr. Morrill, the chairman of the committee which reported the new tariff, despairs of its passage.

Many of that wing of the Republican party popularly known as the weak-kneed brethren, begin to fear that the President elect has backbone enough to supply any deficiency of the article there may chance to be in the new Cabinet.

☞ The Washington correspondent of the N. Y. Tribune says:—

It is asked on all hands what became of the $5,000,000 or $6,000,000 obtained on Mr. Floyd's acceptances. Nobody believes Mr. Russell had but a comparatively small part of it. It is freely stated here to-day that a large portion has gone to carry out the slaveholders' rebellion, and to fill the pockets of the traitors.

John Janney, who is elected President of the Virginia convention, is a conservative and an old Whig, of Quaker extraction. Every effort will be made to pass an ordinance of secession, and the failure of Congress to adopt any compromise will probably be used to precipitate that event, though it may be referred conditionally to the people. Mr. Clemens and others, who took strong Union ground, insist that some concession is necessary to restrain rash counsels.

The special committee will report the strongest resolutions condemnatory of Mr. Toucey's conduct in accepting the resignations of naval officers in arms against the United States at Pensacola, and after the Department had received information of the surrender of the Navy Yard. There is a decided disposition to impeach him, and but for the shortness of the time before the 4th of March, that course would probably be pursued. The evidence is conclusive against him, and furnished from the files of the Navy Department. All the developments tend to show that he conspired with Mr. Floyd to put the military power of the government at the control of the disunionists. Nothing but fear has produced the recent change in his policy.

ATCHISON, Feb. 14.—A messenger from Hunter county reports the winter in south western Kansas the most severe yet experienced; the snow is 18 inches deep, and the cold is intense. Stock is dying with fearful rapidity, and most of the inhabitants are reduced to buffalo meat. Teams are unable to get through the snow. The messenger walked 26 miles before finding the track, and 70 before reaching the stage at Emporia. The mail on the route has not been carried for three weeks. Horses and cattle were dying along the route. Many goods were abandoned in the middle of the prairies, in consequence of the horses having died or given out, and the drivers, with frozen limbs, had to seek the nearest settlement for refuge. One driver lost both legs, and another both hands. The Osage Indians had attacked a hunting party, and killed two. Another messenger makes most urgent appeals for aid, which will be sent immediately. Urgent appeals for food have been made from the northwestern settlements, and aid sent.

☞ The N. Y. Evening Post advocates a special and universal observance of the ensuing 22d of February as a national holiday. The Boston Transcript earnestly coinciding with the views of the Evening Post, adds;

"With the exception of political meetings and the press, there has been no opportunity for the strong and prevalent Union sentiment of the country to find expression. Around the name and memory of Washington the dearest and holiest national associations cluster; let his precepts, his matchless patriotism, be revived to the popular heart, on the next anniversary of his birth, and the effect will be salutary; it will awe treason and eloquently illustrate the national feeling. Arrangements should be made at once to celebrate the occasion with unanimity and emphasis."

☞ The Baltimore Sun frankly confesses that the sole purpose of the South Carolina rebellion was to break the Republican party to pieces; and that the failure of the border slave States to side with South Carolina and go out of the Union, has blown up, not the Republicans, but the cotton States.

☞ Mr A. V. Stout, of New York, must be an agreeable acquaintance—he is certainly a valuable one. No provision having been made for the Metropolitan Police, he offered to loan the amount needed ($120,000) and the spondulics were gratefully accepted.

☞ The roof of the Methodist church at Stratford Hollow, N. H., fell in a few days ago, in consequence of the great weight of snow upon it. The church was seriously injured if not ruined.

RICHMOND, Va., Feb. 14.—Mr. Wise was serenaded to-night. There was an immense crowd present. He made a speech in which he said he was for Virginia first, but if she sided with aggression, he was against her. He pronounced as false and infamous the report that he ever contemplated the invasion of Washington to prevent the inauguration of Mr. Lincoln. He was severe on President Buchanan and General Scott. He deprecated civil war, but counselled active preparations to resist coercion. He was for the Union and constitution, but would never submit to a northern confederacy.

He believed if Virginia would take a firm stand and do her duty faithfully, all would yet be well. She should demand of the government to *vacate the forts* and *arsenals*, and stand as mediator between the South and North.

NEW YORK, Feb. 14.—Mr. Lamar again demanded the Georgia muskets yesterday, but Superintendent Kennedy says he will not give them up but by legal process, adding that he would after that seize them again if going to a seceded State.

The cutter Harriet Lane is being altered to a sloop of-war, and is to carry a formidable armament.

BIRTHS.

In this city, Feb. 14th, to GEORGE TODD, a son.

DEATHS.

In Roxbury, Feb. 11th, ALICE PAGE COFFIN, 8 mos., daughter of Enoch and Eliza Coffin, formerly of Portsmouth.

If you have a Sore Throat, go to WM. R. PRESTON, Druggist, Portsmouth, N. H., and get the HAMMOND LINIMENT, which is sure to cure. G. L. BEAN & CO., Proprietors.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' persevarance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov23 dawSm

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure, when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent. One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawSm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma,* or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam.* So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, expresses his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as Dr. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial, and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing coughing cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Prepared by SETH W. FOWLE & CO., Boston;

To All Weak-Kneed Republicans!

LOOK AT THIS!

STRENGTHENING PLASTERS for all those Republicans who at this time have got a weak spine, and whose knees are weak, owing to the Slavery agitation. Any person using these Plasters, and not being relieved from bowing his knees to the Slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be either of the Senators or Representatives in Congress from New England troubled with the Slave weaknesses,—I will supply them without pay. These valuable strengthening Plasters are for sale at 12 and 17 cts. each, according to the size, by

B. HUTCHINGS, 4 Market Street

Local.

ARTISTIC.—Our old friend Mr. C. M. Meinerth—with his exquisite taste, his passion for "the beautiful," and his indefatigable search thereof,—has entered upon a new branch of development for him. He has commenced to add local interest to the exhaustless treasures of the stereoscope, by taking views of interesting subjects in Portsmouth buildings and scenery. We are indebted to his courtesy for half-a-dozen of these pictures, including the Junction of Market and Bow streets,—State street from the wharf,—U. S. Ship Cumberland,—Gov. Langdon's (now the Rev. Dr. Burroughs') mansion,—and "My Summer House" in July and January. We understand Mr. M. is to take many similar views in our city and the delightful suburbs, next season, and of course he will not fail to procure desirable pictures.

As we looked at his summer view of State street, and then walked down that street now, we were reminded of the shock that our boyish vision, as derived from a beautiful geography picture of Broadway, received when we actually walked up that magnificently dirty and jostling thoroughfare, for the first time. Alas!

☞ The U. S. Ship Dale, which leaked so as to fill and sink at this Navy Yard, has been raised by means of placing empty casks under her; and having been pumped dry, now lies at her moorings, as usual.—The Dale has once been razeed; and when examined, recently, it was recommended that $50,000 be appropriated to repair and improve her.

When we chronicled the sinking, our reporter stated that holes had been bored through the hull, in the "examination," which aided the vessel to sink. This was not exactly the fact. Some of the upper planks were removed, and when replaced, of course would not be water-tight, without caulking; and the ship sunk partly by reason of the great accumulation of snow and ice upon her deck, thus bringing her so low in the water as to cause a leakage through these new seams, and others, which had been opened above the usual water-line by a two years' exposure to the elements.

We should hardly have referred to this trifling inaccuracy, but for the total misunderstanding and misconception of our statement, in some quarters. For instance, it was inferred that the holes were bored *for the purpose* of sinking the ship, so that she could not proceed to Pensacola! and one newspaper, in copying the paragraph, actually made it read, that "on examination, holes were found bored" to sink her!!

WASHINGTON'S BIRTHDAY.—Our Board of Aldermen have recommended that the teachers of the public schools have Washington's Farewell Address read to their scholars next Friday.

We move to amend, so as to have that almost-forgotten and little-heeded document, read on Thursday; and then give the school children Friday for a holiday. The grown-up people will without doubt "observe" it almost everywhere North, at least.

P. S.—By a full report of the highly-commendable action of the City Council, concerning this matter,(which we take from the Journal,) it will be seen that our reporter's item was by no means accurate or complete.

☞ Large gatherings and unabated interest at the Temple. Capt. Williams and the Whaling Voyage. Remember that this afternoon will be the last *day* exhibition.—See to it, ladies and children. Strictest order maintained.

TRAWL FISHING.—Experienced and intelligent fishermen tell us that our fisheries are rapidly deteriorating, and are in danger of being completely ruined, by the new system of "trawling." It has been practiced for several years at the "Banks" and other fishing grounds, and all the fishermen agree that while it is profitable for the time to those who engage in it, it is ruinous to others, and must prove destructive to the fisheries in the future. These lines, some of them miles in length, and attached to which are thousands of baited hooks, lie perfectly motionless, sometimes for days on the bottom of the ocean, and when hauled in generally bring up very large fish, such as are very rarely caught by the ordinary hand lines. The fishermen say that these large or "mother fish" maintain an inactive position on the bottom, and they will very rarely touch a baited hook that has any motion. They are caught, however, on the trawl lines, and already the fishermen realize that hereby the source of their supply is being cut off. It is a subject worthy of consideration whether, while our legislators are passing laws to protect the smelt and herring fishery in our bays and creeks, something should not be done to prevent the destruction of the cod and halibut fishery.—*Ballot.*

NEW YORK, Feb. 15.—A dispatch in the Times from Washington says that Dejarnette of Virginia was the Congressman who abstracted the books from the Congressional Library.

Col. Drinkhard, chief clerk in the War Department under Secretary Floyd, has been dismissed by Mr. Holt, for complicity in the Indian bond abstractions, and John Potts, who formerly held it, appointed in his place.

North Carolina dispatches say the election of members to the convention will probably be against secession.

MASSACRE OF EMIGRANTS.—A horrible massacre occured fifty miles north of Salt Lake city, last August. A party of emigrants was surprised by savages, who shot a Mr. Stevenson, formerly of Kansas, outraged and killed his neice, Miss Stevenson, a girl of eighteen, shot Mrs. Stevenson, and catching up an infant, cut off its arms and legs with a knife, and threw the trunk into the bushes. Seven emigrants were killed and two dangerously wounded. Mrs. Stevenson when discovered was alive, and was at Carson valley at last dates. The perpetrators of this terrible tragedy were *white* men disguised as Indians.

SEASONABE ADVICE—(By a frozen-out Gardener.)—Now weed your wardrobes and rake up your old clothes. Gather all your left-off coats and other garments in a heap, and then sow them broadcast among your your poorer neighbors. Plant out your old boots, and prune down your spare linen. Well winnow your lumber closets, and collect all the old hats and caps, and railway rugs and comforters which you may find garnered there. Sow broadcast as before, choosing out the soil that you think hungriest and poorest.

By acting in this way, Charity may cover a multitude of skins, without being herself a penny out of pocket by it.—*Punch.*

The following is a literal copy of an announcement forwarded to a provincial paper for insertion among the births of the week: "On Sunday last, at Ia Residence, Mrs.—— Of a Sun and Air."

"It (slavery) is opposed to all enlightened liberty and leans towards despotism. We go for its extermination, unconditional, immediate and forthwith."—"*Obadiah*" *in Ind. Democrat.*

While publishing such sentiments, the Independent Democrat insists it is not an abolition paper—that its party and candidates, while entertaining such sentiments, are not abolitionists!—*N. H. Patriot.*

☞ Ship Alboni, from London, arrived at New York, brought 900 kegs of *white* gunpowder—a new invention.

Never remember the benefits you have conferred, nor forget the favors that you have received.

NEW ORLEANS, Feb. 12.—A message has been received from Montgomery, stating that a permanent government will be established by the 3d of March.

MONTGOMERY, Ala., Feb. 14.—Six model flags were sent to the Congress today and referred. The remainder of the time was spent in secret session.

The young lady who was perfectly thunstruck at hearing of her friend's engagement, has since been provided with a lightning-rod.

The gentleman who got intoxicated with delight has been turned out of the temperance society.

CHURCH MONTHLY,

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA

COMPOUND;

is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that I considered it be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles T. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

JOS. M. EDMONDS,
Feb. 16 Agent and Auctioneer

From the Journal

CITY OBSERVANCE OF WASHINGTON'S BIRTH-DAY.

On Thursday evening, in the City Council, the Common Council passed and sent to the other Board the following resolutions, in which the Mayor and Aldermen concurred:

Resolved, That justice to the memory of the Father of our country demands of the American People the recognition of the return of the Birth-Day of WASHINGTON as a Holiday, to be observed with all the honors of a national festival.

Resolved, That school committees be requested to notify the several teachers of the public schools to suspend their schools on that day, and thus allow the scholars freedom to contemplate the arduous services of the immortal WASHINGTON in securing the independence of this great nation; which service we should ever hold in grateful remembrance.

Resolved, That the Mayor be requested to make arrangements for the ringing of the bells, at sunrise, noon and sunset, and also the firing of a national salute on that day.

Resolved, That the citizens be requested to recognize the 22d of February as one of our National Holidays, and unite with the City Authorities in the observance of a day dear to the heart of every American.

THE COLD FRIDAY LAST WEEK.

The record shows that there has been no colder day the present century. During the day the cold continued intense. By noon the temperature was thirteen *below*, and early in the evening a degree or two colder than that. The next day, the 8th, the weather moderated, and at seven o'clock in the morning the mercury was only 8 below.—At Concord, on Friday, it was twenty-five below; at Laconia, thirty; Meredith Village, twenty-three and at Holderness, thirty-five. The barometer indicated, during this time, a change quite as great as the temperature—being one inch and 37 hundredths, which is quite equal to the average change of a year.

We probably experienced, in the stormy wind of Thursday night, though to a less degree, the same gale which is reported as doing great damage at the south and west of us. At Baltimore the gale was so tremendous houses were unroofed, trees were uprooted, walls and chimneys were demolished, and the tide was lowered three feet. The gale was furious at Philadelphia, while in New York, signs, awnings, chimneys and trees were blown and broken down. Accounts from Oswego, Ogdensburg, Watertown, Rochester and Buffalo state that the gale was terrific, the thermometer ranging from one to sixteen degrees below zero,—and that railroad trains were unable to proceed. This was the case at Toronto, where there was the greatest snow storm ever known there.

NEWBURYPORT. *Snow Slides.*—Within a few days several persons in this city have been obliged to remove the snow from the roofs of their houses, which is not always done without danger. Mr. Jordan D. Frost was starting the snow from the gambrel roof house on Market street, when the whole body moved, carrying him with it. He attempted to check himself at the gutter by keeping his heels close to the roof; but on he went, lighting first upon the back ell, and next on a clothes line that broke his fall and let him down quietly into the garden. Mr. Alexander Kirkwood tried a more dangerous feat. He went over the roof and eves of his three story house on High street, but fortunately lighting in an apple tree by the house, his descent was somewhat impeded, and he reached the ground, after a fall of thirty feet, uninjured.—*Newburyport Herald.*

MR. STEPHENS' OPINION OF THE NEW REPUBLIC.—*Montgomery, Ala., Feb.* 11.—Mr. Stephens, in response to a serenade, said, this day has ushered in another new republic, which will secure more perfectly our peace, prosperity and domestic tranquility. What is to be the future depends upon ourselves. Although but six States as yet form the present Government, the future prospects are as bright as those of the original thirteen States. All republics depend upon the virtue and intelligence of the people, and resting our faith on these we fear nothing. After descanting on the natural advantages of the Southern Confederacy to raise the people to the highest point of civilization, he said all they asked of others was to be allowed to look after their own affairs in their own way without molestation. He urged that peace, fraternity and liberal commercial relations with all the world should be the motto of the Confederacy.

From the Gazette.

THE ABOLITION CANDIDATE.—Gilman Marston, we all know, was originally an old line Whig, or as old Major Russell of the Boston Centinel would have said, "a federalist, which is the same thing." He began his political career as a member of the Legislature in 1846, under Gov. Colby, when he became so much of an Abolitionist as to vote for the "Personal Liberty bill," passed in that year, and which was copied verbatim from the Personal Liberty law of Massachusetts which had just then been enacted in that State and was intended to defeat the operation of the fugitive slave law of 1793, recommended and approved by Washington.

Mr. Marston two years ago was accused by a few of his Abolition friends of dissimulation and double dealing as to the matter of slavery, but he or some one for him came out in the Independent Democrat in his defence, insisting that he had been grossly belied and slandered, and declaring that in 1846 he was a member of the House of Representatives in this State, and "made a *stirring* speech" and "voted for the abolition resolutions introduced by John P. Hale." It said nothing about this voting for the personal liberty bill but the journals of the House of 1846 show that fact, and Mr. Marston has never yet backed down from it. Will New Hampshire *now* send a Representative to Congress who still persists in facing up to the principles of that law, when other Northern States around us are repealing such laws and thereby, tacitly at least, acknowledging their unconstitutionality and the injustice of their enactment?

FORTS PICKENS AND SUMTER.—There seems to be no apprehension now that either Fort Pickens at Pensacola or Fort Sumter at Charleston will be immediately attacked.

We would call attention to a notice of sale at Auction, of Sails, Rigging, &c. this afternoon at 2 o'clock.

Morning Chronicle.

Col. C., formerly of New Boston, was a man of humor. Many years ago he was, one very cold winter's day, on the roof of his barn shingling, when a stranger came along, and inquired the distance to Mount Vernon. "Seven miles," replied the Colonel. "But," said the man, "they told me a mile *back*, it was seven miles."

"Well," rejoined the Col., "if you will wait till I can finish this course of shingles, and go down and take a drink of cider, I'll take of half a mile, and that's the best I can do."—*Mirror.*

The quarrel between the French government and the French clergy appears to be completed and the state of things in France bodes ill to the ultra-montane party. If Napoleon III would only make himself Pope of France, what a popular man he would become, and what an amount of daylight he would let into the dark old cobwebby church of Rome!—*Traveller.*

A NEW RHYME TO AN OLD LINE.

"Who shall decide when doctors disagree?"
Punch, who decides that neither shall have fee.
—*Punch.*

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system clogged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and disease and the disordered humors in your blood, which let the health go to ruin, are promptly expelled, and you are restored to health again. Purge out the impurities of the body into vigorous activity, purify the system from the corruptions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, poison the blood and the corrupted blood then, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her neck, which had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach

From Dr. Edward Bapst, Baltimore.

DEAR REV. AYER: I cannot answer you what complaint I have cured with your Pills, because there is *no one* complaint *for* which a purgative medicine, when it has great dependence on an efficient cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1852.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headaches and feel so much better a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Dill, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I believe they do much good upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any other remedy I have used. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D.C., Feb. 7th, 1857.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, and equally they are an admirable remedy for derangements of that organ. Indeed, I have adopted them in place of bilious mixtures so obviously that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of Columbia Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Cincinnati.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their action upon the bowels I have noted as more certain than any other cathartic we employ. Their regulating action on the liver is quick and decided, and equally they are an admirable remedy for derangements of that organ. Indeed, I have adopted them in place of bilious mixtures so obviously that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of Columbia Hospital.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among others I am called to visit in Boston. To regulate the organs of digestion, purify the blood, they are the very best remedy I have ever known, and I can conscientiously recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada

Too much cannot be said of your Pills for the cure of costiveness. Of them and your Cathartic I have found them as efficacious as I have, they deserve to be the agent in doing it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the propositor of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease.

From Rev. E. Shortt, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent purgatives of the natural sort, free from wholly or partially suppressing, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church

PLEASANT HILL, Cassaway, Ga., Jan. 6, 1856.

HONORED SIR: I should be wanting in gratitude for the relief your skill has brought me if I did not express my case to you. A cold settled in my limbs and brought on cases resembling neuralgic pains, which soon left me a miserable cripple. Notwithstanding I had the best of physicians the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SUNRAY CHURCH, Baton Rouge, La., 5 F. 1855.

DR. AYER: I hasten lame entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that I suffered from for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the direfully severe sickness that frequently follow its incautious use. These Pills are mercury and mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

Dyspepsia Remedy

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore to the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Colic Pains.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable sensations of Wind, Heartburn, and so soon as the Stomach receives the Invigorating, spiritlike distressing load and slippshod feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the Stomach or bowels.
A few doses will cure Kidney Complaints, obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are nervously afflicted with Kidney Complaints, are benefited much larger, as it is done or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the effects the next morning, hours, in violent headache, sickness at stomach, weakness, dreadfulness &c., will find one dose will remove all such feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy and happy, as it removes all obstructions and irregularities, from the menstrual organs, and restore the bloom of youth to the cheek of the pale invalid.

During pregnancy it will be found an invaluable medicine to remove the prevalent sensations so distressing to all.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, and sells it for only $1.

General Depot, 48 Water street, New York.
Weeks & Potter, and M. S. Burr & Co., Boston, (agent) and all druggists everywhere.

For sale in Portsmouth, by PRESTON and THACHER, and B. HUTCHINGS. Sold by all country Co[illegible]

MOTHERS

It will soothe the child, soften the gums, reduce all inflammations, will give rest to the mother and health and comfort to all. It will regulate the bowels, and by giving health to the child, give rest to the mother. It will lessen the period of suffering, reduce inflammation

"I tell you, my friends, the question of slavery is not now to be taken into account. We are to save the Union first, and then all the rest worth saving."—*W. H. Seward.*

MALICIOUS ACCUSATION.—Some one at Washington accuses Cameron, of Pennsylvania, of being a patriot, and hence his unfitness for a place in Lincoln's Cabinet.—"There is no foundation for the charge.—Cameron was never before suspected of such a thing.—*Dubuque Herald.*

Who is the most melancholy of young ladies? Miss Ann-Thrope.

DR. SWETT'S
COUGH DROPS
—FOR—
Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above-named complaints.

Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:

Canaan, Sept. 4, 1848.—"Dear Br. Swett, I consider it a duty I owe to the public, as well as to yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt, but that your invaluable Cough Drops were the means of saving my life."
SAMUEL R. DENNETT.

New Castle, Jan. 10, 1841.—"Elder Swett.—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as on myself, I feel confident that is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.

Exeter, Feb. 12, 1858.—"I have been recently cured of a very hard and dangerous cough, in the space of four days, by taking Dr Swett's Cough Drops." J. BATCHELDER.

Newton, N. H., May 7, 1841.—"I am confident that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. Within the last year I have sold 200 worth of his medicines; and I have known them to remove many diseases that have resisted the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines, and then using his Panacea." DAVID CAMPBELL.

Exeter, May 19, 1848.—"I hereby certify that the Spring my daughter had a severe fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until her bowels swelled, and she was so pressed at the lungs that she groaned at every breath; and those who saw her thought that without some speedy remedy she could live but a few days. At this stage of the disease, we obtained some of Dr Swett's Cough Drops, and commenced giving a teaspoonful every half hour, and dispaced with giving her any other medicine. It relieved the cough and distress of the lungs, and by using two phials she has been entirely cured."
DAVID LANG.

Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use them freely." MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effects of Dr. Swett's Cough Drops, to be correct.
CHARLES C. RICKER.

Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." FANNY MINER.

"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge."
ELIZABETH CURRIER.

Exeter, March 3, 1841.—"Many of my brethren in the ministry frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to others affected, that the Cough Drops prepared by Dr. Swett, of this town, are a valuable remedy. I have found nothing that gives relief so quick.—I let every suffering preacher take a phial and try it." Eld. EDWIN BURNHAM.

Exeter, July 30, 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for Coughs, and for any other complaints of the lungs, with which I am acquainted."
NANCY F. JONES.

Canaan, Aug. 29, 1850.—"This certifies that we have found greater relief from Dr. S. Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than all other medicines put together." THEOPHILUS CURRIER,
SALLY CURRIER.

Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I would state that my wife has been relieved by a severe cough and spitting of blood, which much alarmed my friends, and that I found a full and speedy cure by the use of only two or three bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town.

I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the application of one bottle of Jewett's Stimulating Liniment, prepared by Dr Swett."
J. C. BURNHAM.

—AND—
BLOOD RENOVATOR,
is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be used as one and not two, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence make the weakest stomach,* and at once up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetable, and after thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unprotected system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following:—Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Lassitude, Giddiness, and all that class of cases so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidneys, Scalding or Incontinence of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Sunken Eye, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following sudden change of climate and weather; hence all travellers should take a bottle with them, and all should take a table-spoonful at least before retiring. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable, powerful, and sufficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the female irregularities continue. Then, again, the Cordial is a period Mother's Relief. Taken a month or two before her usual trial, she will pass the critical period with perfect ease and safety. *There is no mistake about it—this Cordial is all we claim it. Mothers, try it!* It is also recommended to delicate, the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for unless the influence from these delicacies often go down to a premature grave rather than let their condition be known in time, the latter are often so wrapped up with the excitement of business that it is were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need. Dr. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D cow ly

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic* s, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after protracted diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

MONDAY, FEBRUARY 18, 1861.

HORSE EDUCATION.

It has come to be known, among *intelligent* people, that men and animals of all sorts require to be taught, not "broken."—Brains are better and mightier than mere *force*—persuasion more convincing and salutary than blows. The horse tamers have long since demonstrated and practised on this idea—when will parents and school teachers as universally adopt it? Mr. John S. Rarey, the well-known horse-breaker or tamer, so called,—but really the horse *teacher*—has been giving a series of exhibitions in New York, a brief account of which we extract from Wilkes' Spirit—as not only decidedly readable in itself, but also interesting, philosophically considered.

The only weapons Mr. Rarey uses, are three straps. One, like a becket, he places on the near fore leg, after doubling it up, to keep it so; one is a surcingle, or girth; and the other is buckled round the off fetlock, and runs up through the girth, the end being in Mr. Rarey's hand, with which he doubles up the other leg, and brings and keeps the horse in a supplicating position, till he falls over on his side.

He first introduced the celebrated Cruiser, which *he said, had had but two rehearsals* in as many years. After some remarks on his mode of teaching, and exhibiting the animal, he observed that all he had shown only proved that anything which a horse has been thoroughly taught he will always remember; and that it was just as comfortable for a horse to do right as to do wrong, if he is only set a good example. Every vice which a horse contracts he learns from man, and in different countries he will have different vices, according to the mode of breaking him in. The great object of Mr. Rarey's system is to teach the horse on the humane principle, so that he may not learn those vices; and the only successful plan of breaking in, is that which appeals to the intelligence of the animal. He never knew a horse, he said, that refused to reciprocate his kindness.

To illustrate the beneficial effects of gentle treatment, he exhibited an ordinary tame horse which he had never seen before, because he could explain his system better with a quiet horse than with a vicious animal. Mr. Rarey then went through a great variety of movements with his equine subject in explaining his system of teaching, the only implement employed being the simple strap, which, he said, was a sort of book by which he taught the horse many important lessons. He illustrated the best manner of mounting, and how to govern the horse when the rider is placed upon the back of the animal. There was a magic influence in a gentle touch of the hand. Everything depended upon the impression made upon the horse's mind, and when he became convinced that you intended no harm and had complete power over him, then he was as docile as a lamb, and would permit you to do almost anything you wished with him. Mr. Rarey gave evidence of this by taking various liberties with the animal, winding up with beating a drum upon his back.

He was loudly applauded both when he retired with this subject, and presently returned, followed by the famous horse Peacock, which came prancing into the stage inclosure in charge of two grooms. This horse belongs to the Hudson River Railroad Company, and for twelve years they had been unsuccessfully trying to control him; it always required three men to put the harness on him, and, in cutting up his capers, he had killed two horses and one man. In his usual route, this horse has, during the last ten years, travelled a distance equal to one hundred and five thousand miles, and has been known, on some occasions, to kick every step of the way from the upper to the lower depot.

Intense excitement prevailed for a time among the audience while Mr. Rarey was endeavoring to put the strap on the left leg of Peacock, who resisted with all his might and kicked in a furious and fearful manner. Soon, however, it was practically demonstrated that "there's nothing like leather," for that powerful little strap was speedily adjusted, and Peacock, took a lesson in limping, but not without strongly remonstrating by shaking his head and kicking wildly. The other strap was then applied, and Peacock was helpless. He made desperate struggles to escape, and after failing would recover again and make renewed attempts to regain his liberty, rearing up on his hind feet, and when Mr. Rarey touched him, kicked most unmercifully.

There were two lessons, Mr. Rarey remarked, which should be taught the horse—first, that he cannot get away from you; and second, that the touch of your hand will not do him any harm. After this he was allowed to mount Peacock and take other liberties, among which was taking off the collar which had not been removed from the horse's neck for ten years. But the animal was not entirely subdued yet, and the straps had to be applied a second and a third time before Mr. Rarey had secured complete control. Then the animal was released, and after a little kindness and caressing, Mr. Rarey mounted him without any opposition, the horse trembling fearfully under the power which his teacher had over him. He then made him lie down, fondled with the horse's feet, and afterwards led him around with a straw. It was not to be expected, he said, that the vices of thirteen years could be entirely eradicated in twenty minutes, or half an hour; but it was only a question of time, and in a few days' instruction he could teach him to be harmless and quiet. Loud applause followed, and after the horse had retired Mr. Rarey was called forward to witness an additional storm of applause.

After exhibiting his Shetland ponies, he said there was a vicious horse from Brooklyn which he would introduce by the following letter:—

MR. RAREY;—*Dear Sir:*—I send you with this a large bay horse, who, although kind in harness, will allow no one to mount him, much less ride him. The most experienced and accomplished horsemen have given him a fair trial, and have only succeeded in biting the dust. He was once the property of a well-known horseman, who was obliged, after repeated trials—assisted by many men of experience—to acknowledge his inability to subdue him. An Englishman who had long been accustomed to ride after the hounds, and who believed no horse could throw him, met with like success. If you should succeed in riding him, I shall then be ready to admit your title to all you claim. Many friends of the writer have had the pleasure of imitating a kite, all through the influence of this horse.

This was a large, powerful-looking horse, which at first indignantly repelled Mr. Rarey's approach. But it was not so difficult to subdue him as Peacock, though both struggled hard and long. Both straps were shortly fastened on this horse, who, in his efforts to throw off all restraint, was alternately up and down. There was no harm, Mr. Rarey said, in a horse getting on his feet a second or third time, for when he falls again, it will only convince him the more that he is in your power. Pursuing a similar course with this as with the former vicious subject, the straps were soon loosed and the animal arose, having on his back his new tutor, who rode him round the stage as he would ride a circus horse. The animal, now entirely under control, was sweating greatly from the tremendous exertion he had made; the saddle was put on and removed several times, till the horse was accustomed to it, and Mr. Rarey mounted again, and received loud applause for this triumph. The process, he said, was the same, and he had never found a horse upon which, by the same measures, he could not produce a like result.

To be Continued.

☞ In the U. S. Senate, Friday, a number of petitions in relation to the Union were presented. The tariff bill was discussed. In the House of Representatives, a protest was presented from the New York Chamber of Commerce against the passage of the Morrill tariff bill. The report of the Committee of Thirty Three was taken up, on which Mr. Vandever of Iowa made a Republican speech. Mr. Dejarnette of Virginia descanted on the beauties of society and civilization in the new Southern Confederacy, declaring that African slavery was the only basis on which republican liberty can be preserved.

LIBERAL BEQUESTS.—The will of the late Allen Ayrault of Genesee, N. Y., bequeathed $20,000 to Hobart College, Geneva, to found a *Professorship of Agriculture* (good!); to the American Bible Society $10,000; to the Foreign and Domestic Missions of the Episcopal Church $5000; and one third of the residuary of the estate is to be divided into five parts, two of which are to go to the American Bible Society, two to Hobart College for scholarships, and one to some missionary or charitable society connected with the Episcopal Church. The estate will probably exceed $250,000 in value.

☞ The Pittsfield Eagle reports on Friday morning a woman named Catharine Boardman, was found a short distance from her residence, in Williamstown, frozen to death. She went on an errand to the flour mill the previous afternoon, and did not start to return till evening. It is possible that her death was owing partly to intoxication. She was about forty years of age, and leaves a family of three children.

☞ Mr. J. A. Ferguson of Eden, Vt., missed a young colt recently, and found it three days after in the wheel-pit of his saw mill, having evidently fallen from a plank 17 feet above. The colt was got out and showed no lack of spirit from its long fast and confinement.

DAMAGES FOR SLANDERING A YOUNG WOMAN.—In the case of Miss Higgins vs. Averill, tried at East Cambridge, the jury rendered a verdict for $1300 damages. The defendant had connected the fair plaintiff's name with that of a Rev. Mr. Bagnall, in a manner very injurious to both.

☞ There is a young man now in Chicago engaged in the highly respectable, but not very lucrative business of bill posting, who was worth $70,000 two years ago. Rum was his ruin.

☞ An envoy from China is shortly to visit the English court. It is said he expects to perform his "kow tow" there, crawling on his knees and knocking his head nine time against the floor before Queen Victoria's footstool.

The illusion of love attributes to the beloved person all which that person shares with his or her family, sex, age, condition: nay, with the human family itself. 'Tis these which the lover loves, and Anna Matilda gets the credit of them.

"We have always doubted whether the opposition to the Democracy of this country could ever stick together long enough to be productive of any decisive action. If the slavery question is to be abandoned, the Lincoln dynasty will be as short lived as that of Harrison and Tyler, in both of which cases the party died before the President. The party is likely to be disrupted soon enough without the interference of editors. We shall stand by Lincoln just so long as he stands by liberty, no longer."—*Chicago Democrat.*

☞ It is said that President Lincoln's inaugural message will recommend the holding of a Constitutional Convention, at which all States may be represented. If such a Convention should consider it necessary the Constitution could be amended accordingly, thus making everything satisfactory, and the old Union be again established.—The Washington correspondent of the N. Y. Herald says:—

I learn, from an authoritative source that Mr. Lincoln has perfected his inaugural, and that while it does not violate the policy of the Chicago platform, it does not close the door against an amicable adjustment of pending difficulties, providing the people, through a constitutional convention, desire a change in the fundamental laws of the land.

WASHINGTON, Feb. 16.—Guthrie's plan will probably be adopted by a majority of States represented in the Peace Conference.

A fracas occurred at the National Hotel last evening between Mr. Kellogg, Representative from Illinois, and Mr. Medill, editor of the Chicago Tribune. The latter was knocked down, when the bystanders separated the belligerents.

Private advices from Montgomery say arrangements have been made for a loan of fourteen millions by the first of March, when the Confederacy will have fifty regiments, in the field for the purpose of resisting coercion, and, in case of blockade, of marching on Washington.

EX SECRETARY FLOYD has published a statement, in which he says that the report of the Committee of the House is an ex parte arraignment of his conduct upon ex parte testimony taken in secret, and in his absence. He says it is a labored attempt by innuendo, and by means of circumstances, to fix upon him some unexpected complicity with the robbery, of which he had no knowledge until about the time it was publicly disclosed. He promises to meet the report of the committee with a full response.

There is no truth in the statement that Mr. Floyd of his counsel pleaded the act of 1857, in bar of the prosecution pending against him.—*Washington Dispatch.*

PATRIOTISM AND TRADE.—The merchants of Mobile take rather a practical view of the secession business, and somewhat different from that entertained by their clerks. The latter were the first to volunteer "to take the forts." It was a fine frolic, as there was no danger and a week's holiday. In their absence, however, some of the merchants supplied their places with other clerks, and the volunteers have nothing but their patriotism to subsist upon.

A VALUABLE CARGO.—The ship Phantom, arrived at New York last week, from Shanghai, brought one of the most valuable cargoes ever imported into this country from China. It was valued at nearly $900,000, and consisted of teas, cassia, and raw silk. Of the latter article there were 530 bales, and of these 144 contained Japanese raw silk, brought from Japan to China.

HOUSEKEEPING.—The old lady's advice to her daughter when the latter was about to commence housekeeping, puts the matter in its true light. "My dear," said she, "by not knowing how to make puddings and pies you may be occasionally annoyed; but if you are ignorant of roasting and boiling, you may be annoyed every day."

AFFECTION OF MEN AND WOMEN.—Women are said to have stronger attachments than men. It is not so. Strength of attachment is evinced in little things. A man is often attached to an old hat; but did you ever know of a woman having an attachment for an old bonnet?—*Punch.*

FIRE.—*Saco, Me., Feb.* 15.—The dry goods store, with the stock belonging to Simon B. Adams, was burned last night.—Loss about $10,000. Insurred in the Etna, South Berwick and other offices. Cause of the fire unknown.

☞ Harper's Monthly for March is promptly on our desk, from John J. Dyer & Co., Boston, through John H. Locke & Co., their agents in Portsmouth.

Many err the more dangerously, because they take a truth as the foundation of their error. This mistakes lies, not in believing a falsehood, but in regarding one truth to the exclusion of another.

In the Boston Directory there are 305 Sullivans, 64 of whom are Johns. One of the latter complains that he "*seldom iver gits his litters riglar.*" What can be done about it?

In most quarrels, there is a fault on both sides. Both flint and steel are necessary to the production of a spark; either of them may hammer on wood forever, and no fire will follow.

☞ A hillock on the coast of Normandy, above Chateau Gallard, has fallen into the sea, carrying with it the ruins of the old chapel of Richard Cœur de Lion, of which all traces have now disappeared.

A PHOTOGRAPH ADDRESS.—A young lady at Troy posted a letter with her friend's photograph on it for a name, writing beneath "Poughkeepsie, N. Y.," recently; it reached its destination.

An Oxford, Eng., student, whose evening amusement had been pipe-coloring, was recently attacked with delirium tremens.

When does a gentleman run most risk of falling below his proper level?—When he becomes most elevated.

☞ There is a house in Union, Conn., tenanted by three families, where three births "happened" in one night last week.

☞ Mr. Lincoln will be the guest of Mr. Seward until the 4th of March.

Lieut. Gibson, from Fort Pickens, expresses the opinion that that fort will be attacked on the 4th of March. Inasmuch as there is a fleet at Pensacola, the President could very easily reinforce it, but does not, for reasons known to himself.

There is nothing formidable about death except the consequences of it, and these we ourselves can regulate and control. The shortest life is long enough if it leads to a better, and the longest is too short if it does not.—*Ex.*

Several of the huge buttonwood trees at Northampton have been bought and will be used up for boot and shoe soles, by a Chicopee company. They are considered an improvement on sole leather.

☞ Positively the last day of the Whaling Voyage. Afternoon at 3 1 2 o'clock.—Children 5 cents. Evening at 7 1-2 o'clock. Prices as usual.

Would you have sweet and healthy Bread, Biscuit, Cakes and Puddings? Use Herrick Allen's Gold Medal Saleratus. It takes less in quantity, will not make your Biscuit or Bread yellow, is a sure preventive to the decay of teeth, is perfectly healthy, and makes one-fifth more Bread and Biscuit from a barrel of flour. Never use soda if you can procure this article. Try it. Most all good Grocers sell it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawâm

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the heart, Low-ness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excess and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail.

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the super excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows

NORWAY VILLAGE, Me., Aug. 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

To All Weak-Kneed Republicans!

LOOK AT THIS!

STRENGTHENING PLASTERS for all those Republicans who at this time have got a weak spine, and whose knees are weak, owing to the Slavery agitation. Any person using these Plasters, and not being relieved from bowing his knees to the Slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be either of the Senators or Representatives in Congress from New England, troubled with the Slave weakness,—I will supply them without pay. These valuable strengthening Plasters are for sale at 12 and 17 cts. each, according to the size, by

B. HUTCHINGS, 4 Market Street

Local.

☞ Mr. Benjamin Norton, the newly elected Superintendent of the City Farm, assumes charge of the premises to day; and Mr. Moses, the incumbent for the past three years, will return to his own farm at Sagamore Creek. Mr. Moses has been a faithful and efficient Superintendent, and we are never in favor of the removal of such public servants. Mr. Norton we trust will prove as generally acceptable, and has the additional recommendation (with those who voted for him) of being a republican. He spared no effort to do his duty as City Marshal—but, unfortunately for his success, if not for the good of the public—the American people seem never to be in favor of the *enforcement* of any law.

TOKEN OF RESPECT.—While on a recent visit to the Cemetery, we noticed a beautiful marble monument, erected over the grave of the late Miss Martin, who was accidentally killed last summer by the firing of a cannon on board the yacht "Zinga." On the monument is a wreath—a most exquisite piece of workmanship, under which is engraved the following inscription:

"This marble is erected to the memory of ANNA MARIA MARTIN, by stranger friends, who, in the hands of Divine Providence, were the unhappy means of releasing her pure spirit from the earth. She bids us be of good cheer, as she would but sleep in peace with Christ."

R.

PORTSMOUTH SHIPS.—The Boston Traveller contains the following first-rate notice of a ship built by the Messrs. Pierce on Peirce's Island, a year or two ago.

"A GOOD SHIP.—The ship 'Charger,' from Calcutta for Boston, struck on the broken ground off Pollock Rip, 11th inst. She was spoken by the steamer S. R. Spaulding, which offered to tow her off for salvage, which the captain declined, but would give her at the rate of $200 per hour. The steamer refused and left the ship. In the meantime Capt. Hatch carried an anchor out, received the assistance of men from the shore, and hove his ship off without damage, at a very small expense. The steamer would probably have charged $20,000 at least for her services. The steamer R. B. Forbes brought her to Boston, Friday morning. The ship is one of the best vessels in the country, built of oak, through tree-nailed, and copper fastened, (not yellow metal fastened, which is now generally used instead of copper,) and is fitted out in good style. Capt. Pearson, an underwriters' agent, superintended her construction himself, and she has since proved that she is worthy of the highest rate. An ordinary ship with a Calcutta cargo in, striking on the Rip, would probably have left her bottom behind."

"NOW, EVERY MAN!"—Yes, and especially every boy, ought to visit the Whaling Voyage, at the Temple, this (Monday) evening,—which is the last chance. Don't miss it, reader, if you haven't seen it.

☞ Friday morning, Mr. Lincoln addressed an immense throng in Pittsburg.—His address was dignified and patriotic and was received with great enthusiasm. At the close of his remarks he was escorted to the Railroad station and started for Cleveland. Mr. Lincoln has accepted an invitation to be in Harrisburgh on the 21st.

☞ The Committee appointed to prepare matter for the Peace Conference, on Friday reported a plan of pacification, composed from Mr. Crittenden's, Mr. Guthrie's and the Border State resolutions. It applies the principle of the Missouri Compromise north of 36 30, and of popular sovereignty south of that line. Strong efforts will be made to carry the plan through at once.

WASHINGTON, Feb. 16.—Major Anderson has informed Gov. Pickens that he expects reinforcements soon, and should the vessel bringing them, be molested, he will raze every house in Charleston, dislodge all batteries on Morris and Sullivan's Islands, and destroy Fort Moultrie.

THE BEST SCHOOLMASTER.—The world, though rough is after all the best schoolmaster—better than study, for it makes man his own teacher. As Gibbon said, "Every person has two educations—one which he receives from others, and one (how important!) which he gives to himself."

Fisher Ames, an eminent statesman of the early period in our history, once said that "a monarchy is a merchantman which sails well, but will sometimes strike on a rock and go to the bottom; while a republic is a raft which never sinks, but then your feet are always in water!"

Daniel Hinman of New Haven has invented a machine which will cut 100,000 slate pencils a day.

It makes a great difference whether glasses are used over or under the nose.

If a man cheats you once, blame him; if a second time, blame yourself.

A recent philosopher discovers a method to avoid being dunned! "How?—how?—how?" everybody asks. *Never run in debt.*

☞ The last day of the Whaling Voyage. This afternoon, at 3 1-2 o'clock.—Children 5 cents. Evening at 7 1-2 o'clock; prices as usual.

Napoleon skates on the Central Park of Paris. He arrived at the lake in the Bois de Boulogne about three P. M., in a plain chariot drawn by two horses, and unattended by any escort. He alighted from his carriage and crossed the lake on his skates. He was soon recognized by some men wearing blouses, who raised a cry of "Here is the Emperor: Vive l'Empereur!" The cry attracted universal attention, and everybody cheered. The Emperor continued to skate, apparently delighted with the enthusiastic reception he met with. The Emperor, seeing a child in a sledge, pushed forward by a nursery maid, took the place of the servant and drove the sledge. Having amused himself for about half an hour, more like a school boy enjoying a holiday than an Emperor, he left as quietly as he came. There were several fashionably dressed English ladies among the skaters.

—IT IS—

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS July 10, 1860.

O. J. WOOD, Esq.,—*Dear Sir:*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was very thin, and at least one third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1920, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our own vicinity it has been extensively used, and we believe in every case with every desired result, and receives the universal indorsement of all who have tried it. We therefore recommend it as one of those few genuine *nostrums* which accomplish all they profess, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Boston Olive Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums;—but we take great pleasure in recommending Prof. Wood's article, as one of those that is really off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtue. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and it promises to prove so beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WARREN SPRINGS, Ferry Co., Pa., June, 7, '50.

PROF. WOOD—*Dear Sir:*—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had seen she. to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two or three weeks keeps it free from dandruff and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has noticed it, and I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, altho' I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that the hair could be re-vitalized. He tried his own case—almost bald and wholly gray at 37—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

RHEUMATIC AND NEURALGIA

COMPOUND;

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

DR. SWETT'S

COUGH DROPS

—FOR—

Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above-named complaints.

Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:

Canaan, Sept. 4, 1848.—"Dear Br. Swett, I consider it a duty I owe to the public, as well as to yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."

SAMUEL R. DENNETT.

New Castle, Jan. 10, 1841.—"Elder Swett:—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as on myself, I feel confident that it is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.

Exeter, Feb. 12, 1858.—"I have been recently cured of a very hard and distressing cough, in the space of four days, by taking Dr Swett's Cough Drops." J. BATCHELDER.

Newton, N. H., May 7, 1841.—"I am confident that no family should be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. Within the last year I have sold $200 worth of his medicines; and I have known them to remove many diseases that have resisted the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines, and then using his Panacea." DAVID CAMPBELL.

Exeter, May 19, 1841.—"I hereby certify that this Spring my daughter had a severe fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until her bowels swelled, and she was so pressed at the lungs that she groaned at every breath; and those who saw her thought that without some speedy remedy she could live but a few days. At this stage of the disease, we obtained some of Dr. Swett's Cough Drops, and commenced giving a teaspoonful every half hour, and dispensed with giving her any other medicine. It relieved the cough and distress of the lungs, and by using two phials she has been entirely cured." DAVID LANG.

Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use them freely." MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effects of Dr. Swett's Cough Drops, to be correct.

CHARLES C. RICKER.

Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." FANNY MINER.

"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge."

ELIZABETH CURRIER.

Exeter, March 3, 1841.—"Many of my brethren in the ministry frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to others affected, that the Cough Drops prepared by Dr. Swett, of this town, are a valuable remedy. I have found nothing that gives relief so quick.—Let every suffering preacher take a phial and try it." Eld. EDWIN BURNHAM.

Exeter, July 30 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for Coughs, and for any other complaints of the lungs, with which I am acquainted."

NANCY F JONES.

Canaan, Aug. 29, 1850.—"This certifies that we have found greater relief from Dr. S. Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than in all other medicines put together." THEOPHILUS CURRIER,
SALLY CURRIER.

Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I would say that last winter I was confined by a severe cough and spitting of blood, which much alarmed my friends, and that I found a full and speedy cure by the use of only two or three bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town.

I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the application of one bottle of Jewett's Stimulating Liniment, prepared by Dr Swett."

J. C. BURNHAM.

From the N. H. Gazette.

Mr. Guthrie's Plan.

We are permitted to publish the following plan of adjustment, which was submitted on Saturday last by Mr. Guthrie to the Peace Conference. It is understood that it will be the only proposition that will be acceptable to the border slave States. It embodies the Crittenden plan, with the slavery protecting clause stricken out:

ART. 1. That all the territory of the United States shall be divided by a line from East to West, on the parallel of thirty-six degrees thirty minutes North latitude; and in all territory North of that line involuntary servitude, except in punishment of crime, is prohibited whilst it shall belong to the United States or be under a territorial government; and in all territory South of said line involuntary servitude is recognized as it exists in the Southern States of the Union whilst such territory shall belong to the United States or be under a territorial government; and neither Congress nor the territorial government shall have power to hinder or prevent emigrants to said Territory from taking with them persons held by them to labor or involuntary service, according to the laws or usage of the State from which such persons may be taken, nor to impair the right arising out of said relations, and be subject to judicial cognizance in the United States Courts of such Territory shall have jurisdiction thereof, and those rights shall be protected by the Courts and all the departments of the territorial government, under or according to the laws of the State from which the person bound to such service may have been taken. And when any territory North or South of said line, within such boundary as Congress may prescribe, shall contain the population required for a member of Congress, according to the then federal ratio of representation of the people of the United States, it may, if its form of government be republican, be admitted into the Union on an equal footing with the original States, with or without involuntary servitude or labor, as the Constitution of such new State may provide.

ART. 2. That no territory shall hereafter be acquired by the United States without the concurrence of a majority of the Senators of the States North of Mason and Dixon's line, and also a majority of the Senators of the States South of said line; but no treaty by which territory shall be acquired shall be ratified without the two thirds vote of the Senate as required by the Constitution.

ART. 3. That neither the Constitution, nor any amendment thereof, shall be construed to give Congress power to regulate, abolish or control within any State or Territory of the United States, the relation established or recognized by the laws thereof touching persons bound to labor or involuntary service therein, nor to interfere with or abolish involuntary service in places under the exclusive jurisdiction of the United States within those States and Territories where the same is established or recognized; nor the power to prohibit the removal or transportation of persons held to labor or involuntary service in any State or Territory of the United States to any other State or Territory thereof in which it is established or recognized; nor to authorize specific tax or any higher rate of taxes on persons bound to labor than on land, in proportion to value; nor to authorize any of the African race or their descendants to become citizens, or exercise the right of suffrage in the choice of Federal officers.

ART. 4. That hereafter the paragraph of the fourth article of the Constitution shall not be construed to prevent any of the States, by appropriate legislation, and through the action of their judicial and ministerial officers, from enforcing the delivery of fugitives from labor from any other State or Territory of the United States to the person to whom such service or labor is due.

ART. 5. The emigration or importation of the African race into any State or any Territory of the United States, whether for residence or involuntary service, is forever prohibited, and Congress shall have the power, by appropriate legislation, to enforce the provisions of this article.

ART. 6. That the first, second, third and fifth articles of these amendments, and the third paragraph of the second section of the first article of the Constitution, and third paragraph of the fourth article thereof, shall not be amended or abolished without the consent of all the States.

"NO FEARS OF SLAVERY ANYWHERE."—Mr Seward, in a recent speech in the U. S. Senate, thus exposed the base and paltry abstraction which is being made the instrument and the occasion for breaking up the Union and bringing upon the country all the untold calamities of civil war and anarchy:

"I speak of that [Dred Scott] decision not as I accept it, but as it is accepted and enforced by the existing Administration. Except in front of it is slave territory as much as South Carolina. Over a considerable portion of it is a slave code, made by a Government created by the Congress of the United States, in enforced, and that according to the claims of those who insist upon their rights in the territory of the United States, slavery may, if they please, this 1,063,000 square miles is slave territory.—How many slaves are there in it? How many have been brought into it during these twelve years in which it has been not only relinquished to slavery, but in which the Supreme Court, the Legislature, and the Administration have maintained, protected, defended, and guaranteed it? Twenty-four African slaves? One slave for every one of the twenty four States, which, supposing them each to be of the dimensions of New York, or Pennsylvania, or Indiana, cover that portion of the area of our Republic. Sir, I have followed this thing in good faith, and with zeal and energy, but I confess that I have no fears of slavery anywhere. In the peculiar condition of things which has existed, slavery has succeeded in planting only one slave upon every 44,000 square miles of territory. This, then, has ceased to be a practical question."

Thus, says the Journal of Commerce, "it appears that the American Union is to be sacrificed in a contention respecting the rights of *twenty-four negroes.* Moreover, it now appears that the whole controversy, from its commencement, was without any adequate cause; for Mr. Seward himself, at his all the "zeal and energy" which he has displayed, on various occasions, at length confesses that he has no fears of slavery *anywhere.*" *What* a confession! A whole nation has been excited to madness, and almost ruined, by an abstraction.—And after this confession, and in view of the fact that he and his party have been pursuing a chimera, a very *ignis fatuus*, in the slavery extension idea, and have thus brought the Union to the very brink of ruin, it is not surprising that Mr. Seward should exclaim to his followers—*I tell you, my friends*, THE QUESTION OF SLAVERY IS NOT NOW TO BE TAKEN INTO ACCOUNT. *We are to save the Union first*, and then all the rest worth saving." And will would it be for the country if the small men who give tone and direction to the Black Republican party, would make a similar confession and manifest a like patriotic spirit.

Always do as the sun does—look at the bright side of everything. For, while it is just as cheap, it is three times as good for digestion.

Dyspepsia Remedy

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupify.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous system shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do:

Does—1 wine glass full as often as necessary. One dose will cure all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Dyspepsia.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the disagreeable load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, seated in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness, dullness, and all painful feelings will be removed.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

General Depot, 80 Maiden Lane, New York.

For sale in Portsmouth, by PRESTON and THACHER, and B. HUTCHINGS. Sold by all country dealers. lydmay1

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first years of infancy are those on which the future condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of children, a medicine, which is

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation and Relieving all Pain. FOR DISEASES ATTENDING TEETHING, such as Diarrhœa, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic, and Cold in the Head*, we confidently offer it as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect cannot be estimated.

IN CONVULSIONS,

From which more infants are sold to die than from any other disease, the little sufferer is relieved almost instantaneously. A Physician, and this dread complaint alone, its intrinsic value is such that it has been recommended from one family to another, where it has been used. "EATON'S INFANTILE CORDIAL has become "familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. "DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE.

Of any kind, or of a poisonous nature, or fact which we are fully convinced is our constant bane of many other preparations for infantile diseases, at this time be here the parent of a child, and throughout the country, Mothers are becoming convinced of this truth, and of the sad and blighting consequences which are the result of their using those far famed narcotics disguised in the form of quieting remedies; their continued administration being invariably followed by stupefaction and constipation of the bowels, ending in death, in many instances. Here in DR. EATON'S INFANTILE CORDIAL dif fers from every other remedy.

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, from its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle of this invaluable and best family medicine which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts per bottle.

THE ONLY PREPARATION

Having Proof so Strong and Direct as to

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as men, give it their unanimous testimonials, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all who have used it, unite in feeling that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood—Dear Sir—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test.—

During the year 1854, I was so unfortunate as to be thrown from my sulky, against a rock near my residence, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and extensive surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your Hair Restorative, "that Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had the beautiful head of curly hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,

M. J. WRIGHT, M. D.

Jeffersonian Office, Phillips, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel bound in duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles in a fair trial, was astonishingly surprised to see his bald head covered with a beautiful head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, may be considered a liability to the truth of this statement; I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

Yours, &c.

THOMPSON MORGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my marriage it began to show signs of its early gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious, and highly agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes, the smallest holding a pint, and small bottle half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The established popularity of this Choice Old Bourbon as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1849, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruit* and invigorate the system, and invariably imparts its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

(Established 1773.)

Sole Proprietors, No. 19 Broad St., N. Y.

For sale in Boston by Geo. C. Goodwin & Co., Nos. 11 and 12 Marshall st.; Weeks & Potter, Seth E. Pecker, D. Goodnow & Co., Reed, Cutler & Co.; M. S. Burr & Co.; Stephen Weeks; T. L. Smith; S. Pierce & Co.; C. S. Davis & Co., and Jas. Mackintire.

HOUSE No. 13 Chapel street. Apply to MATHES & VARRELL, 48 Market street.

CONSUMPTIVES.

An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—congestion of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., for the same cause, viz., Improper Circulation; and from the same cause spring all the minor forms of disease. In the disease of the Nervous, and these diseases, the first great inquiry is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery known.

Acknowledging that life is the gift of the Creator and that; in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removes or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.

The air we breathe we know to contain a very large proportion of oxygen.

Oxygen, brought in contact with metal, evolves or emits electricity.

Electricity, brought in contact with a muscular fibre, causes it to contract.

These facts being indisputable, we have now the solution to the great or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, and the moment that is thus brought in contact with the muscular fibre, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest artery. Hence, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, EPILEPSY, FEVERS, AGUE, &c.!—a deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the nervous system becomes, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every form of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules.

Old age causes the redundancy of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged, by the use of the

"BLOOD FOOD,"

which restores the red globules and the normal circulation. Consumption! Scrofula! Consumptives! Sufferers from any organic disease! Unfortunates, who have by excess of the body or mind, reduced the quantity of the blood and diminished the red globules! Ladies suffering any of the distresses known as female complaints, be unmarried or married! Ministers of the Gospel, who have cured thousands of desperate cases where all hope had been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.

An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent postage stamps. Blood Food should be administered by those who it cannot be had, I will send 6 bottles, free of expense, for $4. Price, single bottle, $1. It is put up in 8 oz. vials, in yellow wrapper, with red seal, in small bottles, in red wrappers, having been done away with; and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.

C. T. DUPONT, Sole Proprietor, feb14 409 BROADWAY, NEW YORK.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL.

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who may wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at 17 Pleasant Street, opposite the New Custom House.

J. E. SMALL.

S. L. RUSSELL,
36 Water street.

PROF. WOOD'S.
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,
is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence make this weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities*, also Liver Derangements or Torpidity, and Liver Complaints (diseases of the Kidneys, Scalding or Incontinence of the Urine, or any general or local disease of the Urinary Organs, Pain in the Back, Side, and between the shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence all travellers should take a bottle with them, and all should take a bottle occasional at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not astomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the critical period with perfect ease and safety. *There is no mistake about it—this Cordial is all we claim it.—Mothers, try it!* And to you we appeal to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known; in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel to the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need. O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.
Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D eow ly

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic* s, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said: *"that it is the best preparation of Bitters that has ever been offered to the public."*
Put up in half-pints as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

TUESDAY, FEBRUARY 19, 1861.

HORSE EDUCATION.

In his introductory remarks, Mr. Rarey claimed that the art of horse-taming was as ancient as the horse itself. As a proof of this, he gave a unique account of Alexander's contest with the famed Bucephalus.—After entertaining the audience with incidents of his horse-taming adventures in England and Arabia, Mr. Rarey introduced Cruiser, and then proceeded to explain his system upon a dark bay horse, whose only fault was nervousness.

Having effectually exhausted this "subject," a war charger was introduced, with a certificate stating that the horse was very vicious: had not been ridden since the Prince of Wales' reception, when it threw its rider twice: that it would not allow itself to be shod, nor its head to be touched; and that it was very unsafe and treacherous. Carrying a monstrous muzzle, and roped in by two grooms, the animal certainly made an imposing *entree*. Mr. Rarey made short work with this charger, however, took off its muzzle, played farrier with the horse, and finally, after beating and banging it with a huge umbrella, led it off, crestfallen, subdued, and ready for the next grand parade under General Sandford's auspices.

A fine, large black horse was next introduced, with a proper certificate of its viciousness. This animal had the peculiarity of kicking with his fore feet, but soon went the way of all horse flesh which encounters Rarey.

A wild mustang pony, *fresh from the* prairies, made more sport than all the rest. There are a great many funny things in the world, and comicalities abound all over the earth, but we doubt if any one can specify a funnier sight than was presented to that delighted audience in the advent of that jolly little nag. He bounded upon the stage in the most theatrical style—Rarey said he was scared, and no wonder—it was enough to scare any horse, to be ushered, as he was, before so imposing an audience. A Celtic gentleman had hold of the end of one long rope, which was also attached to the pony's bit; a Teutonic individual held another rope in the same manner, and Rarey waved a broom-stick, several feet long, so that the nag, who is accustomed to the freedom of his native hills, was astonished and outraged at the very onset.—From between his ears issued a long, hairy horn, making him to appear for all the world like that often sung, but never seen, bellipotent who joineth continual issue with the British lion for the possession of the crown. His mane was very thick, rough and long; so was his ground-sweeping tail; his eyes glowed like burning coals; his nostrils, pink with blood, worked like a bellows; his feet pawed the yard, and his spirit was thoroughly alive and apparently equal to the emergency of the occasion.—While the attendants stood, like a pair of Prodigal Sons, afar off, Rarey, stick in hand, attempted to gain a hand-hold upon the bridle—a liberty which the horse at once and without ceremony resented.—Standing on one hind leg, he wheeled swiftly around, pawing the air with his fore legs, kicking with the remaining hind leg, whisking his tail like a revolving fan, snapping with his mouth, and snoking with his long hairy horn. This he did several times, greatly to our delight, but much to the dissatisfaction of the attendants, whose possible two dollars *per diem* do not warrant their wanton exposure of limb, simply for the amusement of audiences, even the most select. On one occasion, after the successful attempt of the horse to imitate Harlequin in the circus, one of the attendants found himself directly in the horse's rear, and with but a few inches between him and the fence. Instantly he became agile, alert and expeditious in his movements toward another part of the stage, and we think it would be difficult to find anywhere a recorded instance of retreat more timely, immediate or precipitate. It was an utter impossibility for Rarey to get hold of the bridle with his hand, and it was only after a long, long time that he was able, by means of a carefully managed stick, to obtain it. There is no degree in plunging, boxing, fighting, or caroening, to which that mustang did not attain during the first twenty minutes of his exhibition. After patient handling, however, Rarey succeeded in getting that fatal strap about the fetlock joint, and subsequently in binding the limb tightly in the desired position. It made no difference. Most horses, when so bound, walk around the ring; but this chap fairly ran. It was with difficulty that Rarey kept up with him.

In the "course of time," as the ancient poet hath it, the second strap was adjusted, (the tight, meanwhile, going on), and subsequently fastened; thus having both fore-legs tightly bound up, compelling him either to walk on his hind legs alone, or on his hind legs and fore-knees. Pony preferred the former. With head up and tail up—with ears back, and horn elevated, he ran around on his hind legs, while he attempted to hammer his to-be master with his joints. Failing to do this he came down ca-chunk upon the ground, thrust his nose into the straw and dust, snorting and blowing so violently as to send the hay-seed and dust like spray into the air. Then rushing rapidly across the yard, he jammed his head upon the boards of the fence, and, apparently pleased with the sensation, continued the operation several moments. "Now," said Rarey, "we might as well sit down and smoke a cigar, leaving the horse to tame himself." After the animal had become fairly lathered with sweat, after he had behaved just so foolishly and wickedly as it is possible for a wild untamed savage to do, and after he had exhausted his catalogue of kicks, prances and jumps, he allowed Rarey to draw him to the front of the stage, and gently laid him down.

The rest need not be told. His kicking legs were manipulated with entire safety, his nervous hoofs were placed upon the tamer's face, his biting mouth and snapping teeth were handled and brushed, his horn of hair was untwisted, his back was mounted, his tail, before sweeping in the wildest circles, was combed, and the tangles removed, his haughty neck was patted, and his quick twitching ears lent themselves cheerfully to the sound of their master's voice.—The universal sentiment in the house was that of wonder and amazement.

At one of his lectures, Mr. R. said the report had gone around the city that Jo Anderson was as bad as before. He had often answered, when questioned on the subject, that one lesson did not entirely conquer a horse, but he would let his audience see the effect of one lesson on Jo Anderson. He had not seen him since he first practiced upon him on that stage, and during that time the horse had been under charge of one of his own grooms. It had not been considered safe to have the horse shod for four years until that day, when his groom took him to the blacksmith's for that purpose.

The horse, when he came on the stage, seemed to have lost that viciousness which characterized him on the former occasion, but he was still very restless when touched near the head. He had been noted as a biting horse, and Mr. Rarey's purpose was to cure the horse of that failing. The straps were adjusted, and after a tussle of about two and a half minutes, Jo Anderson seemed to think discretion the best part of valor, and lay down. But he was up again, and as soon brought down. Mr. Rarey began playing with his head and jaws, having removed the "biting straps," when up jumped the animal again, lay down of his own accord, got up again, and again lay down.—Mr. Rarey then knocked the horse's teeth together, with rather a loud force, took off his leg strap, jumped on and over his back, and went through all the maneuvres before described, ending with putting his arm into the horse's mouth, and beating a drum on *his* back, showing him to be completely subdued.

Mr. R. then said that he had been sent for to see a very vicious mare, but on arriving at the place, found the animal good enough with any one else but the owner. On asking the reason, he learned that he "had bate her all he could, but she did not get bethter." There was all the difficulty. The man did not understand how to treat a horse, and the animal resisted. He had as a subject a well known vicious mare, on which he would operate. Before the animal came on the stage, a shrill squealing was heard from behind; at last the animal, a beautiful dark brown, appeared, squealing and kicking furiously. Her eyes seemed to be living balls of fire, so red and bloodshot they appeared to the audience. It was squeal and kick, squeal and jump, and squeal again, directly Mr. R. attempted to approach. At last he got hold of the bridle rein, which he brought over the shoulder, notwithstanding all the plunging and kicking. He gradually applied the strap—squeal, kick; he fixed the strap—squeal, but no kick; he next fixed the girth—squeal, quiver and snort; then the other strap, and the struggle commenced. After a continuation of resistance, plunging and squealing, and after a lapse of six and a half minutes, the mare was brought to the ground, and Mr. R. began his usual playful tricks, which at first the mare did not like, and squealed accordingly. "Use is second nature," and by and by she got use to Rarey's tricks, and laid down her head with a grunt—every now and then changing it for a short and undecided squeal. In the end, she was conquered, and after the straps were removed, rose and suffered Mr. R. to play with her as he pleased.

Mr. Rarey said, he had two thousand pupils in England at ten guineas each.—The chief object of performing these experiments before a popular audience now, was that all might learn how to treat and how to understand the horse, both for their own and the horse's sake. The Arab brings his horse up with him in his tent.—Consequently the Arab horse is never wild, never broken and never vicious, but grown up into the service required of him. I should like to make Arabs of you all, as far as your treatment of the horse is concerned. (Applause.) All horses like me after I have tamed them, and even when I approach them. I have been asked if there is some mesmerism about this, I think not. The calf which chews the end of the colt's tail in the pasture is not a mesmerist.—(Laughter.) I act upon the same principle. (Renewed laughter.) The horse's perceptive faculties are keen enough to tell him when you are and when you not going to hurt him. The great utility of my system is to teach young colts.

The Spaniards said that it was just as natural for their horses to pitch as it was to eat grass. I showed them how fallacious this was. The fault was, that the horses had ben forcibly broken. I began to tame horses when I was about twelve years old, but I had neither strength nor system enough to succeed very well then. I first strapped a horse's leg because the animal threw me. Then I taught them to lie down simply as a trick, for I thought it would be nice to have a horse which would lie down. I found that this had a very great effect upon the horse and so incorporated it into my system. I took half a day to get the first horse down with ropes tied to his fore and hind legs. This taught me the use of surcingle. I succeeded at last, for I make it a rule never to give up what I attempt, no matter how long it may take. Mr. Rarey then proceeded to show his system of teaching instead of breaking young horses, of mounting instead of climbing upon saddle horses, of controlling instead of yielding to pitchy, baulky, and obstinate horses. The astonishment of the audience having been drummed up to the highest pitch, the twain retired.

Mr. Rarey's next subject was a little, ill-groomed but handsome chestnut horse, with a light sorrel mane and tail. Evidently a horse that had always been its own master. Evidently a horse that that did not recognize in the horse tamer the "*Rarey avis in terris*," which he is, and whose strength in the contest which was about to ensue, would be allied with its pride and its belief in its own invincibility.

As Rarey touched the animal, it made a noise like a small pig, a large penny trumpet, or a pinched babe. The horse tamer explained that the animal was a bad biter (it was heavily muzzled,) and would not allow itself to be groomed. On went the straps and down came the horse. No South American mustang, nor Joe Anderson, nor Peacock, gave Rarey so game a fight. The little fellow struggled hard for liberty, and broke the surcincle strap, and regained its footing. Again down, it fought like a dog, anyhow and everyhow—on its knees and off them; with its head and with its tail; crawling when it couldn't jump; jumping when it couldn't crawl; scrambling and shaking itself about when it could do neither; snorting all the while; striking its knees so cruelly against its muzzle, that its mouth was filled with blood; showering the sawdust upon those of the audience who sat near the stage, in a manner more lively than agreeable, and giving Rarey all he could do to keep the strap taut and himself out of harm's way. Down, and up again, more angry than ever. More struggles, more snorting, more sawdust. Then momentary rests, to draw in air and sawdust, and gather resolution for a new struggle. At first, Mr. Rarey allowed the horse to have these breathing spells, but at length got upon the horse's crupper while it was resting. This breach of the peace and violation of a truce was apparently too much for the high spirited animal, and the horse-tamer at last triumphed over his bravest, gamest, and most determined of his American subjects.

Mr. Rarey began one lecture by relating, for the first time, the full details of his encounter with the renowned Cruiser. The horse will still become excited, Mr. Rarey said, if four or five men converse near his box, so accustomed had it been to associate force and suffering with strange voices. Cruiser was then produced, made to lie down, and did not want to get up again. On the contrary, by a dexterous motion of his head, he floored Rarey as easily as Heenan did Sayers, or Sayers did Heenan—according to the nationality of our readers. Rarey did not seemed disposed to get up either, but held his horse's head in his lap, and finally rode his hobby off the stage amid great applause.

Mr. R. intends to visit all the leading cities in this country, and explain his system. He will also revisit Europe within a year. He cannot obtain here horses bad enough for his exhibitions. All yield too easily. We have no vicious blood horses, and it is only they who have spirit enough to make a really interesting fight, he says.

VIRGINIA CONVENTION.—*Richmond, Va.*, Feb. 16.—In the Convention to-day Mr. Mayor introduced resolutions declaring Virginia's attachment to the Union, and that she will make any sacrifice consistent with honor to maintain it, but protesting against coercion; that she is determined to submit to no government in which her rights are not fully protected, and that if the Union cannot be restored upon terms that will be honorable to all parts, it *shall* be divided.

Messrs. Morton and Carlisle offered similar resolutions.

Mr. Locke offered a resolution that Virginia regards all attempts to take the forts and to collect the revenue in the seceded States as a violation of their rights, and pledging her resistance.

Mr. Richards presented resolutions in favor of the peaceable withdrawal of the seceded States, and demanding the speedy security of Virginia, or that she too would withdraw; also that Virginia be forthwith put in a condition for defence.

Mr. Flournoy presented resolutions opposing coercion, and declaring that prudent measures, conciliation and compromise will restore peace, friendship and union to every section.

All the foregoing resolutions were referred to the Committee on Federal Relations.

Considerable debate ensued on national matters.

Governor Wise reiterated his policy of *fighting within the Union*, and counselled speedy action.

Mr. Moore, of Rock Ridge, said he was opposed to haste. He would not be driven by the North or dragged by the Cotton States, who acted without consulting Virginia. He was opposed to coercion, but if seceded States chose to assault the forts, let them take the consequences.

Mr. Carlisle contended that the Government had never attempted the coercion of the South, and that when it did, the people would resist.

WASHINGTON, Feb. 17.—The Commissioners from Virginia and Missouri in the Peace Congress demand an immediate settlement, or else they will withdraw from the Congress.

Messrs. Sedden, Tyler and Brockenborough, of the Virginia delegation, dissent from Ex-Secretary Guthrie's plan of adjustment. Mr. Rives, of the same delegation, approves of it.

The House Special Committee relative to the abstraction of books from the Congressional Library, took the testimony of Mr. Pangborn, of Boston, who made the charge, and other witnesses. Their evidence failed to substantiate the charge that some of the seceding Senators and Representatives took away books belonging to the Government.

THE ANDERSON CASE SETTLED.—*Toronto, Feb.* 16.—The final decision in the Anderson fugitive slave case was given to-day. The Court sustained the decision of the Court of Queen's Bench, on the question of law, and was unanimous in discharging the prisoner on a technicality. Anderson was therefore set at liberty. Great joy was manifested, especially among the colored population.

WASHINGTON, Feb.18.—Personal friends of Mr. Buchanan state that he will veto any law by which the South can be coerced, or by which the military force at the disposition of his successor may be increased. He will, however, sign the bill providing for seven steam sloops-of-war.

NEWBURYPORT, Feb. 18.—Hon. Moses Davenport, Mayor of this city, died to-day after an illness of only a few days. It is supposed his death may have been caused by inflammation, he having fallen upon the ice a few days previous to his sickness. He was a public-spirited, generous-hearted citizen, and his sudden death has cast a gloom throughout the community. His age was 55.

STATE CONVENTION.

At the coming election the Selectmen of all the towns in the State have been directed to take the sense of every voter as to the expediency of calling a Convention to revise the State Constitution.

This Convention, if called, is to be limited in compensation to the amount allowed the Legislature for travel and ten days' attendance, and in action, to the following particulars:

To diminish the number of members of the House of Representatives.

To increase the number of members of the Senate.

To make provision for future amendments of the Constitution.

With these limitations, there is a very strong probability that the people will vote to call the Convention; though they would promptly vote it down, if it had no limits.

Our Senate is quite too small; and as the New Hampshire Patriot truly said, only a few years ago, if we can only have a popular majority of 2000, we can elect 10 Senators of the 12. The Patriot's opponents, that year, got the 2000, and elected 10 Senators.

In 1860, in a vote of over 71,000, Gov. Goodwin had less than 5000 majority,—and yet the democratic party, with more than 33,000 votes, elected only *two* Senators, though they elected more than *one-third* of a House numbering over 320 members.

If there were 30 Senators, a minority party as large as the present democratic, could probably elect *one* third of them.

For this reason, joined with the fact that everybody deems the House too numerous, the democratic party generally will vote for the Convention, as we suppose,—with a large portion of the Republicans.

DEATHS.

In this city, Feb. 17, HENRY EDGAR NOWELL, infant son of Mr. Thomas S. Nowell.

At Cape Neddock, Me., Feb. 15th, LYDIA ELLEN TODD, aged 21 years, oldest daughter of Wm. M. and Lavina Todd.

In Newburyport, Feb. 14, Mr. WILLIAM MOULTON, aged 88 years.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawâm

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov25 dawâm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, no REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption itself*, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the supe for excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

MESSRS. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as SETH TAYLOR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and it all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

PRESTON, KIMBALL, HUTCHINGS, J. H. TRACHER, N. P. TRACHER, Portsmouth; JAMES P. PACKER, Greenland; S. HASSON, Jr., New Market; PORTER & THING and WM. H. SAFFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. e25 4w

To All Weak-Kneed Republicans!

LOOK AT THIS!

STRENGTHENING PLASTERS for all those Republicans who at this time have got a weak spine, and who whose knees are weak, owing to the Slavery agitation. Any person using these Plasters, and not being relieved from bowing his knees to the Slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be either of the Senators or Representatives in Congress from New England troubled with the Slave weaknesses,—I will supply them without pay. These valuable strengthening Plasters are for sale at 12 and 17 cts. each, according to the size, by

B. HUTCHINGS, 4 Market Street

Local.

☞ An interesting meeting of Sabbath School teachers and children of the different Sunday Schools in this city, was held at the Temple, on Sunday evening. This Union meeting was suggested and gotten up through the efforts of Capt. Williams, an ardent lover of children; and as a proof of his deep interest in the young, we will just state that he hired the Temple, printed Sabbath school songs for the children, that all might join in singing, and spent much time, for the sole purpose of getting the young together, that he might talk to them. And it was a complete success. At half past 6 o'clock, every nook and corner of the old Temple was filled with happy faces, eager to hear from their new and much esteemed friend, Capt. W. The exercises commenced by singing, in which the whole audience joined, sending forth such strains of childish music, as were never before listened to in Portsmouth. Prayer was then offered by Rev. Mr. Jones of Newmarket, after which Capt. Williams commenced his remarks by saying that "the prettiest thing that God ever made, is a little girl; and the next prettiest, a little boy." He elicited the attention of every child in the hall, by his honest, heartfelt sympathy; and told many stories of his own adventures, drawing from each an instructive moral, which could not fail to leave a lasting impression upon their young minds. Rev. Messrs. Patterson and Jones made a few remarks, and the exercises were closed by singing "Homeward Bound."

We congratulate Capt. W. upon the success of this undertaking; and if he should ever again chance to visit Porstmouth, we bespeak for him a hearty welcome by all, both young and old.

☞ The subject of Life Insurance is daily becoming of more and more interest, in the public information. It is certainly an important topic, to all classes in the community, excepting (perhaps) the very rich;—and we have no doubt but Mr. Bartlett fully understands it, and will discourse of it in an entertaining and instructive manner—at the Temple this evening.

☞ Mr. Charles T. Emery has been appointed sole agent in Portsmouth, for the sale of the celebrated Grover & Baker Sewing Machines; and will furnish any pattern at manufacturers' prices,—from $40 to $125 or more. As "good wine needs no bush," so these household comforts require no praise. They speak for themselves,—though very noiselessly.

☞ "Gov. Dorr," well known in this vicinity, attended the Unitarian church on Sunday morning; and some remark made by the minister, not exactly coinciding with his views, he called him, in an audible voice "a d——d liar," and immediately left the house. It is charitable to presume he was half drunk or crazy at the time. His real name is Henry N. Watson; and from being somewhat celebrated, he is liable to become a notorious nuisance.

HAVE WE SECESSIONISTS AMONG US? *Messrs. Editors:*—After the new Custom House was occupied, last fall, the national ensign was plainly seen floating from this fine edifice. Since the secession move south, we have not noticed the flag hoisted. If the occupants are secessionists, they had better hoist the "lone star" at once. If not, inform the public by throwing to the breeze the American ensign, "with not a stripe erased or polluted, nor a single star obscured." U****

☞ Hon. Hannibal Hamlin, Vice President elect, passed through this city last evening, on his way to Washington; he was cheered while at the depot, and being called out, said a few cheering words for good, old-fashioned, honest Republican principles, as the guide of the incoming administration.

Messrs. Editors:—We would like to enquire if the several choirs in this city are going to unite, and give a concert for the benefit of the City Mission. Our citizens, with their usual liberality, would undoubtedly fill the house to overflowing, thereby giving countenance and support to a worthy object. *

☞ Our Hampton correspondent informs us that the late Morrill M. Coffin made all the arrangements for his funeral, which took place Wednesday afternoon, at the Baptist Church which was crowded; and the procession which followed his remains to the tomb, was fully one-third of a mile long. The school children and citizens generally joined in the procession, to testify their love and esteem for him—he always having taken the liveliest interest in the cause of common schools, and was on the committee for many years.

☞ A new military company has been chartered in Hampton by the name of "Winnicurnet Guards," C. F. Dunbar Captain," and have been furnished with arms from the State Arsenal. The company will adopt a neat and tasty uniform, and no doubt will be ready to march in defense of their country at a moment's warning. L.

☞ Mr. Wm. Fernald Laighton, master carpenter in the U. S. Navy, left this city on the 27th of last April, for Cadiz, at which port he joined the U. S. steamer San Jacinto, and sailed for the coast of Africa, where he arrived Dec. 9th, and writes as follows:

U. S. steamer San Jacinto, St. Paul de Loando, West Coast of Africa, December 16th, 1860.

Messrs. Editors:—We arrived here on the 9th of this date, from a cruise to the Northward. We touched at Fernando Po for the mail, and visited Princess Island and St. Thomas, at which latter place the American schooner St. Helena was stopping. We found at anchor in Loando harbor, the flag ship Constellation, U. S. ship Portsmouth, and U. S. steamer Mohican.—The officers and crews of the squadron are all well. The American bark Starlight is here, and will leave in a few days for Boston. The following is a list of the officers attached to the steamer San Jacinto:

Captain, Thomas A. Dornien.
1st Lieut. George W. Young.
2d Lieut. K. R. Breese.
Master, A. P. Cooke.
Chief Eng'r, John Faron.
Purser, L. J. Brown.
Surgeon, J. S. Messersmith.
Asst. Surgeon, J. W. Hertz.
Midshipman, W. R. Butt.
Boatswain, H. P. Grace.
Gunner, J. D. Boorom.
Carpenter, Wm. F. Laighton.
Sailmaker, George C. Boerum.
1st Asst. Eng'rs, William C. Wheeler, M. Kellogg.
2d Asst. Eng'r, J. B. Houston.
3d " " " John Ross, B. Kavanaugh, G. W. Hall.
Master's Mate, E. A. Noe.
Captain's Clerk, E. Mellach.
Purser's Clerk, R. G. Simpson.

THAT EPPING MARRIAGE ONCE MORE.—We willingly give place to the following rejoinder from our friend, now we know who he is. We mistook his first initial for an S.—*Ed. Chron.*

PORTSMOUTH, Feb. 16.

Messrs. Editors:—Regarding the bombastic display of my Epping friend, which appeared in Friday's Chronicle, I have only to say, that I would advise his friends to keep a close watch upon his motions, as he appears to be—*A Little* out of his right mind. As a *bridal* seems to have had a very irritating effect upon him, I would respectfully suggest a *bridle*, as well.

F. E. D.

☞ In the U. S. Senate, Saturday, Mr. Seward's amendment to the Warehousing Bill was passed. This extends the time for warehousing goods from ninety days, as provided in the bill, to three years.

The House adopted the report of the committee of conference on the disagreeing amendments to the legislative, executive and judicial appropriation bill.

The Senate has receded from the amendment to the deficiency bill appropriating $300,000 for the Chiriqui conference.

☞ The Rockingham County Temperance Society will meet at the new Town-House in Hampton, on Friday next, Feb. 22, at 11 o'clock A. M. A session will be held in the afternoon, and in the evening an Address will be delivered by Rev. Mr. Patterson of Portsmouth.

☞ We are indebted to our New Orleans correspondent, "Ion," for a sample of the Pelican Flag of the State (or Republic) of Louisiana; which may be seen at our counting room.

SOMETHING MORE VALUABLE
THAN SILVER OR GOLD,
BECAUSE
IT WILL RESTORE THE WEAK,
AND REINSTATE THE BLOOD IN ALL ITS
ORIGINAL PURITY & VIGOR.
It is
PROF. O. J. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, rejuvenates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA, INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influence and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so absorbed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to avert the fatal blow. Be, therefore, always on ways vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement. A tonic composed exclusively of vegetable matter, it is absolutely benedictal, and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Falling of the Womb, and other delicate diseases to which women are subject. For Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a climate warmer than the Westlies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and as it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend its use, for it is pleasant to the taste, is strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in good health will at once feel its exhilarating power. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to old and Young. Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove beneficial to, and it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA COMPOUND,

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 89 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

DR. SWETT'S

COUGH DROPS

—FOR—

Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above named complaints.

Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:

Canaan, Sept. 4, 1848.—"Dear Br. Swett, I consider it a duty I owe to the public, as well as to myself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."

SAMUEL R. DENNETT.

New Castle, Jan. 10, 1841.—"Elder Swett:—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as myself, I feel confident that it is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.

Exeter, Feb. 12, 1856.—"I have been recently cured of a very hard and dangerous cough, in the space of four days, by taking Dr Swett's Cough Drops." J. BATCHELDER.

Newton, N. H., May 7, 1841.—"I am confident that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. Within the last year I have sold $200 worth of his medicines; and I have known them to remove many diseases that have resisted the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines, and then using his Panacea." DAVID CAMPBELL.

Exeter, May 19, 1844.—"I hereby certify that this spring my daughter had a severe fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until her bowels swelled, and she was so pressed at the lungs that she groaned at every breath; and those who saw her thought that without some speedy remedy she could live but a few days. At this stage of the disease, we obtained some of Dr. Swett's Cough Drops, and commenced giving a teaspoonful every half hour, and dispensed with giving her any other medicine. It relieved the cough and distress of the lungs, and by using two phials she has been entirely cured."

DAVID LANG.

Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use them freely." MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effects of Dr. Swett's Cough Drops, to be correct. CHARLES C. RICKER.

Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." FANNY MINER.

"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge." ELIZABETH CURRIER.

Exeter, March 3, 1841.—"Many of my brethren in the ministry frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to others affected, that the Cough Drops prepared by Dr. Swett, of this town, are a valuable remedy. I have found nothing that gives relief so quick.—Let every suffering preacher take a phial and try it." Eld. EDWIN BURNHAM.

Exeter, July 30, 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for Coughs, and for any other complaints of the lungs, with which I am acquainted." NANCY F JONES.

Canaan, Aug. 29, 1850.—"This certifies that we have found greater relief from Dr. S. Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than all other medicines put together." THEOPHILUS CURRIER,
SALLY CURRIER.

Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I would say that last winter I was confined by a severe cough and spitting of blood, which much alarmed my friends. At length I found a full and speedy cure by the use of only two or three bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town.

I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the application of one bottle of Jewett's Stimulating Liniment, prepared by Dr. Swett." J. C. BURNHAM.

From the N. H. Gazette.

Withdrawal of Messrs. Jenness and Morrison.

We present below letters from Hon. Benning W. Jenness, of *Strafford*, and Hon. Robert Morrison, of *this city*, withdrawing their names as candidates for Governor and Member of Congress, respectively, in the pending canvass in this State. The letters speak for themselves, and are what might have been expected from their patriotic authors at a time like the present, when duty to country rises high above all personal and party considerations. We commend their spirit and sentiments and *trust* they will be acted upon by every Democrat in the State and all friends of the peace and welfare of the country. Thus New Hampshire may be made to speak a voice at the ballot-box on the second Tuesday of March that will inspire the supporters of the Union and of the equality of the States with new courage, and exert a powerful, perhaps a controlling influence in saving the nation from the calamities which threaten it:

Strafford, N. H., Feb. 8, 1861.

To the Editor of the N. H. Gazette:

Dear Sir:—Commissioners from Virginia, Pennsylvania, Kentucky, New York and other States, have assembled at what was recently the capital of a country not only united, but happy and prosperous beyond all precedent, to consult together for the common weal, and, if possible to devise some means to save us from the painful calamities which must attend the dismemberment of the Union. May God grant his blessing upon their efforts to adjust the pending difficulties and restore fraternal feelings between the North and the South, so that the peace of the nation may be preserved, its prosperity restored, and the cause of free government saved from a disastrous and discouraging reverse.

While the conservative men of New York and Pennsylvania are thus joining with the Union-loving men of Virginia and Kentucky in this great crisis without reference to the party designations under which they have heretofore acted, I conceive it to be the plain and imperative duty of the patriotic citizens of New Hampshire to imitate their example, and without regard to previous party associations and preferences to concentrate their influence and their votes in the election which is soon to take place in this State, on the side of reason, peace and the Union.

Entertaining these sentiments and actuated by this feeling, and so far as in my power to promote this end, I hereby withdraw my name from the position in which it was placed as a candidate for Governor pending the late Presidential election, by the partiality of that portion of the Democratic party of this State who were friendly to the election of Mr. Breckinridge, and with whom I fully sympathised. In thus retiring from the canvass, I am happy in being able to say that I approve of the spirit of the resolutions adopted by the Convention which nominated Gen Stark for Governor, and that I honor the name and character of the nominee. There are times which should bring together all patriotic men without regard to their past views or party designations upon common ground. Such a time I conceive the present perilous period in the country's affairs, and I earnestly entreat all such and especially the Democrats of New Hampshire to rally, regardless of past differences, to the support of Gen. Stark, as the way to utter an effective voice in rebuke of fanaticism, and to perform an important work in averting the fearful dangers which menace the country. I pray that New Hampshire may not be numbered with those States which, rejecting the councils of moderation and patriotism, seem steadily madly and blindly to involve the Union in hopeless ruin, and drench the land in fraternal blood.

B. W. Jenness.

Portsmouth, Feb. 14. 1861.

To the Editor of the N. H. Gazette:

Dear Sir:—If ever there was a time in the history of our country since the adoption of the Constitution, when personal and party considerations should be forgotten, and when all should unite to elect to our national councils men of national and conservative principles,—union men, who have no false steps to retrace,—that time is the present.

Entertaining these sentiments and desiring to have the friends of the Union united upon one candidate, I take the liberty of withdrawing my name as candidate for Representative to Congress from the first congressional district, and of supporting the nomination of the Hon. Daniel Marcy, in whose ability, integrity and patriotism I have the fullest confidence.

Permit me in this connection to publicly thank the members of the National Democratic State Convention for the expression of their confidence in nominating me for so responsible an office. But more especially do I thank them for the honor of associating my name with the principles laid down in their platform; principles incorporated by our own Fathers into the Constitution of our country and since confirmed by its highest judicial tribunal; principles that give equality to each and every State, and principles which, had they been observed, would have held together the States of our once powerful, prosperous and happy Union, through ages yet to come.

Robert Morrison.

In his speech in the Senate, March 11, 1850, Mr Seward said:

"There are constitutions and statutes, codes mercantile and codes civil; but when we are legislating for States, especially when we are founding States, all these laws must be brought to the standard of the laws of God, and must be tried by that standard, and must stand or fall by it. * * *

"The Constitution regulates our stewardship; the Constitution devotes the domain to Union, to justice, to defence, to welfare, and to liberty. But there is a higher law than the Constitution, which regulates our authority over the domain, and devotes it to the same noble purposes." — App. to Cong. Globe, 1st Sess. 31st Cong., pages 263, 264.

Gov. Chase, of Ohio, in the speech delivered in Cincinnati, said:

"For myself, I am ready to renew my pledge, and I will venture to speak in behalf of my co-workers, that we will go straight on, without faltering or wavering, until every vestige of oppression shall be erased from the statute books—until the sun, in all his journey from the utmost eastern horizon through the mid-heaven, till he sinks behind the western bed, shall not behold the foot-print of a single slave in all our broad and glorious land."

Dyspepsia Remedy

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It is a Stimulant, Exhilarant, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and dispirited with cheer, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, removes all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

Persons residing in the country will find an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the Invigorating Spirit in pint bottles, at 50 cents, qts $1.

Prepared, at Wells' Medical Store, New York.

Weeks & Potter, and M. S. Burr & Co., Boston.
General Agents for New England.

For sale in Portsmouth, by PRESTON and THACHER, and B. HUTCHINGS. Sold by all country dealers. lydmay1

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from the disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a medicine of great value.

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is partie ularly recommended for

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the suffeings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation and Relieving all Pain. FOR DISEASES AT TENDING TEETHING*, such as *Diarrhea, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic, and Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are said to die than from any other disease, the little sufferer is rescued from impending fate, and the parents from the dread complaint alone, its intrinsic value is such that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL has become "familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE.

Of any kind, or of whatever nature, a fact which we are fully prepared to prove, is a claim cannot be said of any other preparation for infantile diseases, at this time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the sad and blighting consequences which are certain to result from the use of narcotics disguised in the form of soothing remedies; but continued administration being invariably followed by stupefaction and constipation of the bowels, ending oftentimes in convulsions. Such is DR. EATON'S INFANTILE CORDIAL differs from every other remedy.

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, thro' its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have it at hand; remembering it will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts per bottle.

"THE HAMMOND LINIMENT"

THE HAMMOND LINIMENT IS AN OLD REMEDY, which EXPERIENCE has proved to be a CONQUEROR OF THE FIEND OF PAIN whether existing in NEURALGIA, RHEUMATISM, PAIN IN THE Back, Head, Side, Limbs or Chest. ALL EXCLAIM WHAT WONDERFUL RELIEF! WHAT A BLESSING!

THE HAMMOND LINIMENT is sold by Wm. H. Pressor, Portsmouth; D. Lothrop & Co., Dover; C. A. Merrill and J. W. Odlin, Exeter; E. H. Rollins & Co., Concord; Clock & Sherwood and J. A. Perry, Manchester; Edw. G. Frothingham, Jr., Haverhill, Mass.; Samuel Kidder, Lowell; Dr. A. Blomberg, Lawrence; and by dealers generally.

HILL & CARR.

THE ONLY PREPARATION

Having Proof so Strong and Direct as to

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the old school as well as others, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and skin, which have been used, with the testimony that it will preserve the hair from being gray, stop from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my saddle against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed every thing I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You publish this if you think proper.

Yours, very respectfully,

M. J. WRIGHT, M. D.

Jeffersonian Office, Philadelphia, Dec 12, 1859.

Professor O. J. Wood:—Dear Sir:—I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to try a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known throughout Philadelphia, many persons can testify to the truth of this statement; I give this to you at the request of Mr. Bradford. You can use it as you think proper. Your Hair Restorative is the and the adjoining counties if you have the proper agents.

Yours, &c.

THOMPSON SURGENOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original color. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway New York, and 114 Market St., St. Louis, Mo

Sold by all good Druggists.

Wholesale agents for Boston, George C. Goodwin & Co.; Potter & Weeks; M. S. Burr & Co.; and J. F. Holman, No. 3 Tremont row.

Rheumatism in Its Worst Forms CAN BE RELIEVED!

RHEUMATISM CAN BE CURED BY ZOLLICOFFER'S ANTI-RHEUMATIC CORDIAL!

When faithfully tried, it does good.

It has been very successful in this vicinity.—Several wonderful cures have been performed.

For particulars see pamphlets.

JAMES F. SHORES, JR.,
No. 1 Congress Block.
Agent for New Hampshire

Portsmouth, N. H., Nov. 27, 1860.

BININGER'S OLD DOMINION WHEAT-TONIC —FOR— FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself as presenting in a concentrated form all the nutritive properties of Wheat, and has received the highest encomiums from eminent medical authorities, as possessing qualities that are absolutely FATTENING; this desideratum renders it invaluable to those who are suffering from *Consumption, Lung Complaints, Impaired Digestion, Lack of Vital Energy*, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing tonic.

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

A. M. BININGER & CO.
SOLE PROPRIETORS,
No. 19 Broad Street ..... New York.

For sale in Boston by M. S. Burr & Co., Seth E. Pecker, Weeks & Potter, D. Goodlow & Co., G. C. Goodwin & Co., Reed, Cutler & Co., T. L. Stevens, T. Prince & Co., Stephen Weeks, C. S. Davis & Co. 26 Tu Th & S 1y

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The established popularity of this Choice Old Bourbon as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and as a most effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruate* and *invigorate*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,
(Established 1725.)
Sole Proprietors, No. 19 Broad St., N. Y.

CONSUMPTIVES.

An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs. Diseases of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same cause spring all the minor forms of disease. To discover certain cure, then, for these diseases, the first great inquiry is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery also.

Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removes or destroys, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.

The air we breathe we know to contain a very large proportion of oxygen.

Oxygen, brought in contact with metal, evolves an electric spark.

Electricity, brought in contact with a muscular fibre, causes it to contract.

These facts being indisputable, we have now the solution as to the motive power of the vital heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest arteries. What, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, ERLEPSY, FEVER & AGUE, &c.?—a deficiency of the red corpuscles circulating the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, or the corpuscles or red globules.

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the red globules and the normal circulation. Consumptives' friends of consumptives! Sufferers from any organic disease! Unfortunates, who have by excess of the body or mind, reduced the standard of the blood and diminished the red globules! Ladies suffering any of the distresses known as female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.

An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent postage stamps. Blood Food is sold by all druggists; or where it cannot be had, I will send it, carriage paid, on receipt of $4. Price, single bottle, $1. It is put up in 8 oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers, having been done away with; and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.

C. T. DUPONT, Sole Proprietor.
feb4 409 Broadway, New York.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL.

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the small Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at 1 Pleasant Street, opposite the New Custom House.

CONSUMPTIVES.
An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the blood to circulate?
For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much time expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery also.
Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removes or destroy, and death, the certain effect, follows.
Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.
The air we breathe we know to contain a very large proportion of oxygen.
Oxygen, brought in contact with metal, oxidizes or emits electricity.
Electricity, brought in contact with a muscular fibre, causes it to contract.
These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest arteries. What, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.?—a deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules.
Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the
"BLOOD FOOD,"
which restores the red globules and the normal circulation. Consumptives! friends of consumptives! Sufferers from any organic disease! Unfortunates, who have by excess of the body or mind, reduce the standard of the blood and diminished the red globules! Ladies suffering any of the disorders known as female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.
A pamphlet treating, carrying out and fully proving the theory advanced here is correct, will be mailed to any interested party, on the receipt of two 3 cent postage stamps. Blood Food is sold by all druggists; or where it cannot be had, I will send 6 bottles, free of expense, for $4. Price, single bottle, $1. It is put up in 8 oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers, having been done away with; and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.
C. T. DUPONT, Sole Proprietor,
feb8 409 BROADWAY, NEW YORK.
Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, it will be invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.
One of the very best Physicians in Boston has said "*bark is the best or paraion of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, FEBRUARY 20, 1861.

For the Chronicle.

LETTER FROM ILLINOIS.

Dear Uncle Toby:—A snowy winter with drifts like those of the Upper Connecticut, reigns over the northern verge of Illinois. Since early in December we have had no thaw, *till yesterday*, Feb. 10th, and I have seen more good sleighing than in all the five previous winters. Further south there have been great rains: here the fences are almost overtopped.

Here, in adjoining districts, the constituents of two Washburne take things coolly, and only wish Uncle Sam to keep quiet till King Cotton has played his game with the three cards of bankruptcy, starvation and servile insurrection, to win an empire with.

I am glad that some of the Eastern states are talking of arranging their marriage laws on the Western plan. Your system has grown out of Romanism through the English and Puritan churches: ours perhaps out of infidelity through common sense. The one is the result of modified accidents; the other of the natural exigencies of man.

Matrimony in its civil results is the most important of contracts. The ownership of land is recorded in archives, guarded with care. The transfer is by strict forms. A fraudulent deed is duly annulled, and there remains nothing of it save a bill of costs. But a scoundrel gets possession of the hand of a child of sixteen, and there is no remedy, and no one to be punished. The world will never know whether Dr. Harvey Burdell did really marry Mrs. Cunningham, although the ownership of thousands of real estate turned on the question of this fact. The laws of some States punish ministers for uniting persons who have no right to be married, and make them the judges of law and fact under penalty for error.

Here we do differently. The potentate who passes on the marriageability of candidates is the County Clerk. The application is made to him by some person capable of convincing him (generally under oath) of the true state of the case. The bridegroom, if he knows the history of the bride, and that she is of age, is the ordinary deponent. In case of minors the written consent of parents may be required. Here is the resulting document:—

STATE OF ILLINOIS, Co. OF McHENRY. *The People of Illinois*—To any person legally authorized to solemnize marriage; Greeting:

You are hereby authorized to join in the Holy Bands of Matrimony and to celebrate within this county the Rites and Ceremonies of Marriage between Mr.——— and ——— of ——— County, and this shall be your good and sufficient warrant; and you are required to return this license to me within thirty days from the celebration of such marriage, with a certificate of the same appended thereto, and signed by you, under the penalty of One Hundred Dollars.

In witness whereof I have hereunto set my hand and the seal of said county, this ——th day of ——— 186—.

———, County Clerk.

McHenry Co., Illinois,—I ——— ——— a ———, hereby certify that on this day, I joined in matrimony Mr. ——— with ———, agreeably to the authority given in the above license.

———

Now it needs but to hedge in the applicant and deponents, the County Clerk and the officiator, with due penalties of penitentiary, to prevent all runaway marriages. I do not believe that there has been a single one in Illinois for the past thirty years!

Consider the evil from one elopement of a boarding-school heiress with the dancing-master. Would it not justify all this apparatus to prevent it? Consider the embarassment of my personal friend, Rev. Dr. Hatfield, of New York, when Mr. B.'s daughter and his coachman presented themselves in the minister's basement to be married. Should he have doubted their word, as they assured him that she was, as her dress purported, a servant-girl and friendless? Must the numerous class in our cities who are personally known to no minister, wander about from one pastor or magistrate to another, till they find one who will dare marry them? No! There should be one man in a county and but one to decide whether there are legal impediments to marriage. It should be his business and *every case* should pass under his decision on pain of imprisonment. Here I never knew an instance of marriage till this legal decision was *first* placed in the hands of the officiator. In one instance, where the bridegroom had left the necessary document at home when he changed his cost, though the officiator knew personally that no legal impediment existed, the forgetful candidate had to go home for his license. He will probably be more careful *next time*. Shall not New Hampshire have such a law before the next Legislature adjourns? I. P. H.

☞ The report of the committee on the robbery of the Indian Trust Bonds unveils the most magnificent scheme of robbery ever planned and executed in any country, Floyd has no defenders. The end of these rascalities is not yet, nor is the half of the truth yet told.

IMPORTANT ARMY NEWS.—The New York Times states that a private letter received on Saturday from the War Department, says that the greater portion of the troops which left on Friday, were bound to reinforce the forts of Washita, Arbuckle and Cobb, which were reported by telegraph on Monday to be in danger of an attack by secessionists. The remainder of the soldiers ordered for Florida, the same letter says, will leave next week.

On the other hand, a prominent officer of the army in Boston states that Gen. Scott will try to bring all the forces out of Texas, and leave that State to the mercy of the Indians; and that the Daniel Webster has gone to Charleston. The latter rumor is fast gaining ground, as some "half-pilot men" are on board. The most intense excitement prevails in army circles on the subject, especially among the persons who returned from Fort Sumter.

☞ By the arrival of the Africa at New York, we have three days' later intelligence from Europe. There are various reports relative to the siege of Gaeta, among others, that Francis II. had received a letter from Louis Napoleon, counselling him to cease resistance. It is stated that Garibaldi contemplates a visit to England. The Italian troops had pursued the reactionists into the Roman States. It is also stated that the Italian Parliament will proclaim Victor Emmanuel King immediately on assembling.—It was reported that the Emperor of Austria had granted a Constitution to Venetia, leaving the government to the Italians. A shipwreck had occurred near the Isle of Wight, and fifteen persons perished. Cotton had advanced at Liverpool. English funds are firm at improved rates.

COM. VANDERBILT.—The New York correspondent of the Boston Post says:—

Among the personal items of the week may be placed the serious sickness of Commodore Vanderbilt, who is troubled with disease of the heart, and has a prospect of taking a trip to the place where Pacific Mail ceases from troubling and where Nicaragua is at rest. There are others here whose sharkish devourings of the little fishes will preclude much wailing when death sticks his harpoon into them. Men who, in a city like New York, rake together their millions in disregard of equity, cannot hope to leave the town in tears on their departure.

AN OBJECTION.—A Washington dispatch says:—

Mr. Dix objects to the issue of treasury notes in small sums, which trouble the New York capitalists, who desire to control the coming administration by refusing to take the loans unless they can carry their points.

This *objection* is really a great recommendation! A good issue of treasury notes in small sums, would enlist the feelings and invest the savings of the million,—and make the President look to the *people*, and not to a few schemers and speculators.

☞ It is proved, by close examination, in the Military School at Paris, that those who habitually smoke do not attain so high rank as those who do not. Not only in the examination on entering the school are the smokers in a lower rank; but in the various ordeals they have to pass through in a year, the average of the smokers had constantly fallen, while those who did not smoke, enjoyed a cerebral atmosphere of the clearest kind.

COUNTING THE COST.—A Charleston correspondent of a Southern paper makes the statement that every gun fired from Fort Sumpter, costs on an average thirteen dollars; every gun fired by the State will be an average expenditure of nine dollars. It is also stated as the calculation of an officer at Fort Moultre, that when its batteries open the cost per diem of the State, at that fort alone, will exceed $15,000. As the rebels have begun to count the cost, there is more hope of them. They will probably bring in a bill to Uncle Sam to pay them the difference saved on each gun not fired.—*Atlas.*

☞ Owen King went into a grocery at Maumee city, O., to get a drink and was not seen to come out. He had received $500 during the day; and on the next morning the grocery was found burnt down, and in the ruins were the charred remains of King. The two men who kept the store were arrested, and on one, $400 of the money were found.

☞ President Davis of the Gulf State Confederation, at Montgomery, has made a fiery speech, anti-compromise, warlike—this government will do as they please, and the United States must not coerce. He says:

If other States join our Confederacy they can freely come in on *our* terms. Our separation from the old Union is complete—no compromise, no reconstruction can now be entertained.

THE LAST DODGE.—The democracy of this State, finding their old principles and their old platform, a hard road to travel—one by which they can never reach the haven of *office* and *spoils*—are coming out in the disguise of patriots! They are agoing to repudiate party entirely—sink it out of sight—have nothing to do with it—and join with the honest men of all parties to save their country.—*Dover Enquirer.*

It is a glorious thing to resist temptations; but it is a safe thing to avoid them.

WASHINGTON, Feb. 18.—It appears from the investigations of the House military committee, that Secretary Floyd accepted A. R. Belknap's bid for one hundred thousand muskets. Secretary Holt refuses to recognize the contract. Mr. Belknap says they were intended for the Sardinian government. It was further shown that Mr. Floyd distributed without any order, through the, Engineer department, 65,000 percussion muskets, 40,000 altered muskets and 10,000 rifles among the arsenals in Charleston, Augusta, Mt. Vernon, Baton Rouge and North Carolina; with the exception of those last named the arms fell into the possession of the State authorities.

The committee give as a reason for authorizing the President to accept the services of volunteers, that the regular military force is wholly inadequate to protect the forts, arsenals, dockyards, and other property of the United States, a larger portion of the army being necessary to protect the frontiers.

Some of the delegates to the Peace Conference say they will probably by Wednesday agree upon a plan of adjustment satisfactory even to the Virginia commissioners. The territorial question was under consideration to-day, and the debate tended to secure unanimity thereon.

WASHINGTON, Feb. 18.—[Dispatch to the Boston Advertiser.]—The Senate today amended the tariff bill, so as to make the duty on books and all printed matter uniformly 15 per cent. ad valorem. It reduced the duty on sugar, and put a one and a-half cent per pound duty on coffee, and four cents on tea, to yield a net increased revenue of four million dollars.—These duties to cease as soon as the debt of Buchanan's administration is paid.

Unless the tariff bill passes to morrow, it will probably be laid aside for the appropriation bills, and so will fail. The result is doubtful, especially as the Democrats show a disposition to leave the Senate without a quorum, which they can do at any time, as they did to day.

The House passed the fifty-dollar-loan bill, which enables the raising the necessary funds.

The Peace Conference took no vote today. Mr. Boutwell made a great speech in behalf of Massachusetts. The prospects of agreement still remain good.

The fishing bounties are audited, and the warrants drawn. Nothing is now needed but money in the treasury, which the new loan will supply.

DIFFERENCE BETWEEN JEFFERSON AND ABE LINCOLN.—The Boston Courier thinks that it would have been well if Mr. Lincoln, before entering upon his journey to Washington, had refreshed his mind with the following passage from Thos. Jefferson:

"I confess that I am not reconciled to the idea of a Chief Magistrate parading himself through the several States as an object of public gaze, and in quest of applause, which, to be valuable, should be purely voluntary. I had rather acquire silent good will by a faithful discharge of my duties, than owe expressions of it to my putting myself in the way of receiving them."

Uncle Toby has some recollections of a tour by President Polk, and another by President Monroe, and another still by President Jackson. Perhaps they did not refresh their minds with Jefferson.

☞ The Amoskeag Veterans of Manchester, will celebrate Washington's birthday by an oration, a dinner and a levee.—The oration will be delivered by Rev. B. F. Bowles in the Lowell street church.

☞ John W. Overall, the poet, and literary editor of the New Orleans True Delta, is preparing for the press a biography of Rev. J. N. Maffit.

THE FISHING BOUNTIES.—Secretary Dix has replied to a note by T. D. Eliot, M. C., that if a loan that can be negotiated is authorized before the 4th of March, measures will be adopted for the payment of the fishing bounties.

☞ The Tariff Committee have agreed to report a duty of two cents per pound upon coffee, and four cents upon tea. This is only a temporary expedient, to be abolished when the loans are paid.

It is expected that eight millions of dollars be raised by these duties.

THE GREATEST EVENT OF THE DAY! John H. George, the N. H. Patriot, and the Concord clique, *"rising above party!"* When they do it, "may we be there to see." *Dover Enquirer.*

☞ H. W. Mark of Gilsum, caught 28 rats in one day, last month. The next day he caught 9, the next day, 5, and the day following, 15—54 in all. The first 28 were caught at one time, in a box-trap, 2 feet long by 9 inches wide, and weighed nine and a half pounds.

☞ It is the opinion among the Republicans in Congress, that a National Convention of the States is the only conclusion which can receive the sanction of a decided majority in the Peace Conference.

☞ Peru too is coming into the world as a cotton-grower; 15,000 bales of her cotton have just been sent across the Isthmus, most of it to Europe.

☞ The difference in temperature at the entrance and the further end of the hole in the Hoosac Mountain on Friday last, was ninety-four degrees.

To the man of strong will and giant energy, possibilities become probabilities, and probabilities are certainties.

Guilt-edged Paper.—Floyd's acceptances!—*N. Y. Commercial.*

3 DAYS LATER FROM EUROPE.

SANDY HOOK, Feb. 19.—The steamship Jura, from Liverpool 5th, arrived off here this morning.

A Calcutta telegram of Jan. 11 says news has reached there that the American Ambassador had been repulsed from the landing at Japan.

The underwriters of London and Liverpool have advanced the rates one per cent. on cargoes from the Southern States, owing to increased fires in cotton ships and war risks.

Mrs. Gore, the distinguished novelist, is dead.

The French Chambers were opened on the 4th inst. The Emperor's speech considers it necessary to increase the garrison at Rome when the safety of the Pope was threatened.

The siege of Gaeta continued. Prince Carrignan had arrived in the Sardinian camp. It was reported with reference to negotiations to surrender.

NEW YORK, Feb. 19.—Special dispatches from Washington state that the majority report in the Peace Congress was adopted by a close vote.

The Border State men here denounce President Davis' inaugural.

Gen Wool is very ill with pneumonia.

Reverdy Johnson's amendment concerning the acquisition of new territory was adopted in the conference, 14 to 6—all the Southern States excepting Maryland voting nay.

MARRIAGES.

DO YOU WANT WHISKERS?
DO YOU WANT WHISKERS?
DO YOU WANT A MUSTACHE?
DO YOU WANT A MUSTACHE?

BELLINGHAM'S

Celebrated Stimulating Onguent!

For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world renowned article.

THE STIMULATING ONGUENT

is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and causes to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

HORACE L. HEGEMAN & CO.,
DRUGGISTS, &c.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

If you have a Sore Throat, go to WM. R. PRESTON, Druggist, Portsmouth, N. H., and get the HAMMOND LINIMENT, which is sure to cure. G. L. BEAN & CO., Proprietors.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though this highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 daw3m.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only safe and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution. For particulars, send for a pamphlet to the Agent. One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 daw3m

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,—of Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as Dr. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

To All Weak-Kneed Republicans!

LOOK AT THIS!

STRENGTHENING PLASTERS for all those Republicans who at this time have got a weak spine, and whose knees are weak, owing to the Slavery agitation. Any person using these Plasters, and not being relieved from bowing his knees to the Slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be either of the Senators or Representatives in Congress from New England, troubled with the Slave weaknesses—I will supply them without pay. These valuable strengthening Plasters are for sale at 12 and 17 cts. each, according to the size, by

B. HUTCHINGS, 4 Market Street

Local.

WASHINGTON'S FAREWELL ADDRESS. This invaluable Address, in addition to Washington's cordial and thankful farewell, upon retiring to civil life, contains various patriotic counsels and admonitions to his countrymen, which bring before them the blessings of their union under a federal government, the perfect adaptation of their diversified soil and climate to such a union, and the advantages of their mutual dependence. It is a most happy presentation of the advantages and the dangers of the whole country, and of the benefits resulting from the maintenance of the Union, under a wise and equal administration.

The scarcity of this valuable document, which is one of the most important State papers in our political history, and particularly applicable to our times, has led our neighbors of the Journal to publish it in new and clear type, and in handsome sheet form, to be issued on the 22d, the Birth-Day of the "father of his country."

As the price will be only six cents per copy, or $3 per hundred, it is hoped that some patriotic individuals will, by a small contribution, have it distributed in the schools of this and the neighboring towns.

Some readers may remember that the Rev. Dr. Burroughs read Washington's Farewell Address in the Old North Meeting House in Portsmouth, Feb. 22, 1832, being the Centennial Anniversary of Wasaington's Birth Day.

SINGING.—It will be seen that Mr. Tilton, who has had considerable experience in music teaching, at Concord, Dover, and elsewhere,—and who proposes to establish himself in Portsmouth in similar capacity—announces a meeting preliminary to opening a Singing School; at Mercantile Hall, on Thursday, to-morrow evening. We hope he will have a full attendance at the free meeting, and a large class at his school; for if there is anything in which our good city is deficient, it is music, and especially singing.

We know nothing of Mr. Tilton previous to his recent coming here; but he has recommendations from well-known public gentlemen abroad, and appears like a gentleman himself. And at any rate, it is well worth while, for the cause of music, to give one evening to examine the matter.

LEO MILLER.—*Messrs. Editors:*—A lecture on "Ancient and Modern Spiritualism," by Leo Miller, Esq., is announced in the Temple, for this (Wednesday) evening. Mr. Miller is one of the ablest and most logical speakers in this country, and takes a front rank among the teachers and preachers of the theories of man and his destiny, which, in these times, are put forth under the name of Spiritualism, and which have obtained such a rapid and wide-spread hold upon the hearts of the American people.—An opportunity is thus offered to the opponents of Spiritualism to learn something of what Spiritualists really believe and the grounds of that belief. There are other considerations which should induce people to come and hear him. Day after day we are approaching that silent land, beyond which all is lost to the vision of our spiritual teachers. Day after day we miss the faces of those we have known and loved; they are gone and we never see them more. And when we reflect on the uncertainty and want of knowledge of all that lies beyond the tomb, is it not passing strange that when one comes who claims that he has seen a light and has heard from those who have left us, that the great majority should turn away, not willing to listen to him?

ALEXIS.

☞ Rev. Mr. Eddy will deliver the sixth of the series of Lectures on the subject of Temperance, at the Temple, on Sunday evening next. Mr. Eddy is a faithful and useful man; not only in his church, but as a citizen, and a devoted friend of the cause of temperance. R.

☞ Don't fail to read the notice of Leo Miller's Lectures, &c. He is one of the most celebrated and interesting of all the famous Spiritual orators.

☞ At Salmon Falls, Feb. 2d, Daniel Shay was arrested and tried for committing the crime of assault on the person of Mrs. Eliza Weed. Notwithstanding the able argument of S. D. Downing, in favor of the defendant, he was convicted and fined three dollars and costs of prosecution.—Shay appealed. B.

☞ A writer from Philadelphia says:

There has been some talk of sounding the old "Liberty Bell" on Washington's birth-day. The occasion, perhaps, will hardly be sufficient to call forth again the inspiring tones of this honored herald of our nation's independence. The present condition of our country would hardly justify such a demonstration.

We should think not. To ring the *Liberty* Bell, when some men clamor for a *slave* constitution, as the *sine qua non* of staying in the Union, would be a little too absurd—unless those who ring it resolved on liberty now, as the fathers did on independence.

☞ In a recent number of the California Farmer, (a large, handsome, well conducted quarto, printed weekly at San Francisco,) we notice a large engraving of a splendid four-story hotel: "The Railroad House, Commercial Street, San Francisco; J. A. Dorr, proprietor." The editor of the Farmer speaks of it in the highest terms; and among other recommendations, says it is perfectly ventilated, and is fire-proof. The "Commercial" is conducted partly "on the European plan," and is ornamented with a cupola, bearing a public clock, and surmounted with a locomotive for a vane. Mr. Dorr is an enterprising and energetic man, and his old friends here will wish him all success.

☞ The Rockingham County Temperance Society will meet at the new Town-Hall in Hampton, on Friday next, Feb. 22, at 11 o'clock A. M. A session will be held in the afternoon, and in the evening an Address will be delivered by Rev. Mr. Patterson of Portsmouth.

"ATTENTION, YOUNG MEN!"—We perceive, by the advertisement of Messrs. Horace L. Hegeman & Co., of New York, that the renowned "Stimulating Onguent" invented by Dr. Bellingham, for a healthy stimulation in the growth of beard or whiskers, has now had its American market confided to their agency. The high reputation of this article in London, Paris, and other cities of Europe, seems to have been fully justify by experience in this country. We find that its praises are re-echoed among all classes. A few weeks are said to prove its almost magical influences upon the beard or whiskers. The British volunteers have made such free use of it, as to attract the attention of *The London Punch*. See advertisement of Messrs. Hegeman & Co. in another column.

Would you have sweet and healthy Bread, Biscuit, Cakes and Puddings? Use Herrick Allen's Gold Medal Saleratus. It takes less in quantity, will not make your Biscuit or Bread yellow, is a sure preventive to the decay of teeth, is perfectly healthy, and makes one-fifth more Bread and Biscuit from a barrel of flour. Never use soda if you can procure this article. Try it. Most all good Grocers sell it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

CERTAIN CURE, CERTAIN CURE,

—FOR—

RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA

COMPOUND;

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles P. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

DR. SWETT'S

COUGH DROPS

—FOR—

Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above named complaints.

Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:

Canaan, Sept. 4, 1848.—"Dear Dr. Swett, I consider it a duty I owe to the public, as well as to yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."

SAMUEL R. DENNETT.

New Castle, Jan. 10, 1841.—"Elder Swett:—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as on myself, I feel confident that it is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.

Exeter, Feb. 12, 1858.—"I have been recently cured of a very hard and dangerous cough, in the space of four days, by taking Dr Swett's Cough Drops." J. BATCHELDER.

Newton, N. H., May 7, 1841.—"I am confident that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. Within the last year I have sold $200 worth of his medicines; and I have known them to remove many diseases that have resisted the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines, and then using his Panacea." DAVID CAMPBELL.

Exeter, May 19, 1848.—"I hereby certify that this Spring my daughter had a severe fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until her bowels swelled, and she was so pressed at the lungs that she groaned at every breath; and those who saw her thought that without some speedy remedy she could live but a few days. At this stage of the disease, we obtained some of Dr. Swett's Cough Drops, and commenced giving a teaspoonful every half hour, and dispensed with giving her any other medicine. It relieved the cough and distress of the lungs, and by using two phials she has been entirely cured."

DAVID LANG.

Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use them freely." MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effects of Dr. Swett's Cough Drops, to be correct.

CHARLES C. RICKER.

Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." FANNY MINER.

"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge."

ELIZABETH CURRIER.

Exeter, March 3, 1841.—"Many of my brethren in the ministry frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to others affected, that the Cough Drops prepared by Dr. Swett, of this town, are a valuable remedy. I have found nothing that gives relief so quick.—Let every suffering preacher take a phial and try it." Ed. EDWIN BURNHAM.

Exeter, July 30, 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for coughs, and for any other complaints of the lungs, with which I am acquainted."

NAPLY F JONES.

Canaan, Aug. 29, 1859.—"This certifies that we have found greater relief from Dr. S. Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than all other medicines put together." THEOPHILUS CURRIER,
SALLY CURRIER.

Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I would say that last winter I was confined by a severe cough and spitting of blood, which much alarmed my friends, and that I found a full and speedy cure by the use of only two or three bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town.

I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the application of one bottle of Jewett's Stimulating Liniment, prepared by Dr. Swett.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:
Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & CO. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I suffered from it in various ways for years. Sometimes it broke out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach; years ago it broke out on my head and covered my neck and ears with one sore, which was painful and troublesome beyond description. I tried many medicines and many physicians, but without much relief from any thing; in fact, the disorder grew worse. At length I was induced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your advertisement that any thing you made must be good. I took Cincinnati and got it, and used it till it cured me. I think it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. Many can well believe that I feel what I am saying when I tell you, that I stand ready to bear testimony to the goodness of the medicine, and remain ever gratefully. Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 25th Sept., 1859, that he has cured an inveterate case of Dropsy, which threatened to terminate fatally, by the persevering use of our Sarsaparilla. He says, also, of a case of *Malignant Erysipelas* by large doses of the same; says he knows many cases of *Erysipelas* by it successfully.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Within the time of your Sarsaparilla cured me from a Goitre—a full stone swelling on the neck, which I had suffered from ever two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. R. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent, saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in the treatment of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus, the action itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Mass., writes, "A dangerous ovarian tumor on one of the females in my family, had baffled all the remedies we could employ, but at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before consenting to the proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 20th January, 1859.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Syphilis and Mercurial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, with other treatment, cured him in five weeks. Another was attached by secondary symptoms in his throat, and the alterative had eaten away a considerable part of it, so that the articulation of his voice was impaired. I gave your Sarsaparilla; the ulcers healed, and he is well again, and of other some disfiguration to his face. A woman who had been treating for the same complaint for 3 years, suffering from this poison in her bones. They had fastened upon her palate, and had eaten away a portion of it, so that she suffered the excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these wonderful cures of diseases with it have not surprised me.

Professionally yours, G. Y. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Fremont Co., Iowa, 7th July, 1859.

Dr. J. C. AYER: Sir, I have been afflicted with a violent Rheumatism for a long time, which baffled the skill of physicians and which no cure in spite of all the remedies I could find, until I tried your Sarsaparilla. A few bottles cured me in two weeks, and restored my general health to such a degree that I am free from pain, which I was attacked. I think it a wonderful medicine. J. FREAM.

Jules V. Gerhold, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which defied every healing art. I tried every thing that failed to relieve me; and I have been a broken-down man for years. Your pills were the only cause that disappeared the Liver. My labored breathing left me, and I am free from me to try your Sarsaparilla, because he said he knew you and knew your medicine was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best blood I had of you is not half good enough."

Schirrus, Cancer, Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cancer and other formidable complaints have resulted from the use of this remedy, but our space will not admit of them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes diseases which would be supposed beyond its reach. Such a remedy has long been sought for by the scientific of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. For sale by all druggists, or even families, among those who have tried it, need no more assurance of its efficacy—some living trophy to their belief of its virtues, are entirely sure of important disorders of the throat and lungs. As all know from bitter experience the fatality of these disorders, and as they know, too, the efficacy of this remedy, we need do more than to assure them that it has now all the virtues that it ever had, when making the cures which have won it so deeply upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, Costiveness, Dizziness, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of Liquors, have become rejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do:

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by the use of this, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and have felt all the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, and sells it for 50 cents, qts. $1.

General Depot, 48 Water Street, New York.

For sale by Druggists generally. PRESTON and THACHER, and B. HUTCHINGS. Sold by all country dealers. 1ydmay1

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise from a disordered state or condition of their bowels, and in this connection, it is present to your notice, for the alleviation and cure of these diseases, a remedy known to all.

Dr. EATON'S INFANTILE CORDIAL.

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know of no other remedy so safe and efficacious, remedy for infantile complaints, and we can safely stand alone will convince you of its superiority over every other preparation of the kind. It is partic- ularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation and Relaxing the Fibres*, and in fact, in *ALL ATTENDING TEETHING*, such as *Diarrhœa, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic*, and *Heat in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are sold to die than from any other disease, the little sufferer is relieved *instantaneously*, as if by magic, and the dread complaint alone, its intrinsic value is such that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL has become "familiar as a household word," and we now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL

NO MORPHINE OR OPIATE,

Or any kind, or of whatever nature, is contained in it, and we are fully warranted in saying it is the best of any one preparation for infantile diseases, at this time before the public. It is found that there is no more danger, Mothers are becoming convinced of this fact, and of the sad and blighting consequences which are certain to result from the use of narcotics disguised in the form of quieting remedies, their continued administration being invariably followed by stupefaction and constipation of the bowels, ending oftentimes in convulsions. Here is DR. EATON'S INFANTILE CORDIAL *free from every other* narcotic, and

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, thro' its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your child in time of need, *it is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts per bottle.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS July 10, 1860.

O. J. WOOD, Esq.—*Dear Sir*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 2 years. I commenced using your Restorative in January, 1858, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and I kept on for about two years. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been any to date.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever since been healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known all over the Union. I have occupied my time in travelling the greater part of the time the past three years, and have had opportunity to recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article said to be as good, and selling at about half the price. I have frequently met with people myself, who had purchased the above, which I have no doubt are humbugs. It is astonishing that people will patronize an article from which they receive no benefit, when one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, grey hair, scalp head, dandruff, and every disease the scalp and head are subject to.

I would be glad to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1820, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from its intrinsic merit and experiment which cannot be enhanced by newspaper puffs. In our own vicinity it has been extensively used, and we believe it has given every desired result, and receives the universal testimony of all who have tried it. We therefore recommend it as one of the genuine articles which accomplish all they profess, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Boston Olive Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums,—but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Dr. Johnson, tells us he has received the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald before symptoms of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no harm in attaching the name of this remedy, and its effects can only be beneficial; as the compound, if it does not cause a manifest improvement, is perfectly innocuous, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WARREN SPRINGS, Perry Co., Pa., June, 7, '60.

PROF. WOOD—*Dear Sir*:—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I saw your advertisement in a Philadelphia paper. I bought a bottle, and am now prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and stopped the dandruff from my head, and stopped the itching, and other unpleasantness. I must also state that my hair had become quite white in place, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used many other articles for restorative, so one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance compare with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great merit, and, although I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever been reached. His fame is world-wide, and thousands who have worn wigs or false hair for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural, unless the age of the individual had reached threescore, and he believed that the hair could be re-vitalized. He tried his own case—almost bald and wholly gray at 37—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

CONSUMPTIVES.
An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the blood to circulate?
For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery blos
Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the phenomena seen in their sphere, and all organic life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removes or destroys, and death, the certain effect, follows.
Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.
The air we breathe we know to contain a very large proportion of oxygen.
Oxygen, brought in contact with metal, develops or emits electricity.
Electricity, brought in contact with a muscular fibre, causes it to contract.
These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract, and hence the power which expels the blood, and sends it tingling through the remotest arteries. What, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.? A deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in: in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules.
Old age causes a deficiency of corpuscles, and with we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the
"BLOOD FOOD,"
which restores the red globules and the normal circulation. Consumptives! friends of consumptives! suffering from any organic disease. Unfortunates, who have by excess of the body or mind, reduced the standard of the blood and diminished the red globules! Ladies suffering any of the diseases known as female complaints! be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up. Do not reject it do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.
An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent postage stamps. Blood Food is sold by all druggists; or where it cannot be had, I will send 6 bottles, free of expense, for $4. Price, single bottle, $1. It is put up in 8 oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers, having been done away with; and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.
C. T. DUPONT, Sole Proprietor,
feb4 409 BROADWAY, NEW YORK.
Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*Atwood's is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, FEBRUARY 21, 1861.

MOONSHINE AND NONSENSE.—The Boston Post, in an editorial article on the Virginia Convention, *says truly* :—

We must say that the argument used by a portion of the Virginia press to induce the State to secede, namely, that the majority of the North are coming round to whoever may be advocating here a separate Northern Confederacy, including Canada, under a British Protectorate, is the veriest *moonshine* that ever was suffered to be ventilated in an American journal. We here love the land of Yorktown and King's Mountain and the Cowpens. We want the old stars still to shine in the constellation, with the lustre of each "undimmed and untarnished." And the true men of the North would give more and do more for this than for fifty Canadas with a British Protectorate thrown in.

The Post is well aware that *moonshine*, as dreamy and false as this, in some southern papers, and in those from the north that have been *allowed* to go south, have tended to delude the ignorant there.

Probably no such Canadian union is dreamed of by sane men. Nor are there any really sane men in New England who doubt the ability of the Free United States, to remain *free* and *united*, if Texas, and Florida, and Louisiana were all sunken as well as seceded,—and if all the Gulf States were *engulfed*, and all the negro States turned brown or coffee color.

Slavery, whether of black or white man, has not a majority in New Hampshire; nor is there any great number of people here, in favor of a gag-law, or in fear of the man on horseback.

Other States, perhaps, may have more weak backs and knees,—especially where some

"Thrift may follow fawning,"

but sensible men among us see no cause for kneeling, and nothing to be gained by it.

U. T.

For the Chronicle.

CARRYING THE MAIL.—The sum of $2,650 is paid yearly for carrying the mail on the Concord & Portsmouth Railroad.—Pretty good men have the management of it; but the best make mistakes sometimes, and so do they. And then it is at our inconvenience; for as fifteen, twenty or more are at the Post office waiting, we are told that no mail-bag was left, the one on board was the wrong one, or something of that sort. So, as we have but one train daily, we have to wait twenty four hours, till another train comes up. This, when we want letters requiring immediate answers, or daily and other papers with the news from the South, is a little vexatious; but then it does us good, as by it we are obliged to cultivate the virtue, patience. And we have the fullest assurance that those entrusted with the business will do their best to avoid mistakes.

ALONG THE LINE.

☞ Among the indictments returned by the Grand Jury at East Cambridge on Saturday, was one against Rev. W. R. Bagnall, of Chelsea, Mass., growing out of the recent slander suit in East Cambridge. He is charged with a felonious assault upon the person of Alice J. Higgins of Charlestown, and also for indecent exposure of person.—He was arrested and arraigned before the Superior Court at East Cambridge. He plead not guilty, and was held to bail in $1500 for trial at the March term. The School Committee, of which he is a member, have requested him to resign.

☞ A train from Rouse's Point for Ogdensburg, Thursday week, got stuck in a snow bank, and was compelled to remain all night and till the next afternoon. There were twenty-five passengers on board, who suffered from hunger as well as cold. The cold was intense, and the fences along the track were stripped to keep the passengers from freezing.

WASHINGTON ITEMS.—The border State men denounce President Davis' inaugural.

A bill is now being framed, vacating the seceding ports as ports of entry.

It is stated that Miss Harriet Lane has courteously invited Mrs. Lincoln to accept the hospitalities of the White House immediately on arrival there, in order that she may become familiar with the internal manage of a big house like that of the Presidential mansion.

☞ At a party in a dwelling-house in Hyde Park, London, a short time since, a lady who was playing on the piano caught her dress on fire from a candle. Other ladies rushed to extinguish the flames, when they caught fire too. Five ladies were burning at one time, and their screams were awful. The gentlemen present were unable to quench the flames for some moments. Two of the ladies were so much injured that they died.

☞ Ninety negroes were sold at auction at Louisa (Va.) Court House, Tuesday.—The prices realized were very high. One sold for $1300. Several went upwards of $1200, while many brought from $800 to $1000 each.

For the Chronicle.

ILLINOIS CORRESPONDENCE.

Dear Uncle Toby :—I try to keep you informed a little of some good things in the book line. I have just got hold of the Patent report for 1859, and find it far superior in its agricultural department, to the miserable things of ten years ago. I particularly value Prof. Scheffer's article on Vegetable Fiber. That on fish-breeding (often called, incorrectly, and not very euphoniously, *pisciculture*,) ought to be such as to interest the citizens of New Hampshire; but in all Illinois south of the latitude of Chicago, I do not know of one decent clear pond or clear stream. (Are there any in the world between the equator and 35 o north?) There are twenty-seven pages on Horse Stables that ought to interest some one. The article on Meteorology I cannot judge of, without more time than I can now command.

By the way, there is an atrociously false article on the Gulf Stream, in the Congregational Journal of Jan. 31. I fear the editor has not been led by your article on the "Geography of the Sea," to read that valuable work.

I am now reminded to speak of a new Atlas—one of the most important contributions to the diffusion of knowledge for some years past. We have had no atlas of any price lower than five or ten dollars, except such as Mitchell's School Atlas, or still poorer, small patches of map in quarto Geographies. Several in vogue omit the names of the counties in the United States, and one at least ignores such little matters as the Erie Canal! "*Colton's American School Atlas*" has within the lines a little more than three times the engraved space in Mitchell's, my old favorite; and no mapmaker in America uses his space to better advantage than Colton. He is, indeed, the only respectable *geographer* engaged in map-publishing on this side of the Atlantic. He keeps his maps up to the times, and for this purpose avails himself of all the best European geographical publications.

Few of these maps are placed sidewise in the book. The lettering is of the same type for the same purpose in all the maps; the names of all the rivers being in italic, &c. All the maps are on a scale where an inch represents 10, 25, 50, 100, 200, 300, 400, 500, 600 or 1200 geographical miles. This enables us better to judge the distances on different maps on the same scale, as England, Palestine and New York. Six *physical* maps from a new and interesting features. Twenty-six profiles are given, all on the same scale of elevation, and all on straight lines or nearly so. The seventeen ten-mile maps are of vicinities of places.—On one I see Fort Sumter, Fort Moultrie, Fort Johnson and Castle Pinckney, which have become famous since the atlas was laid on my table. I hope a similar interest will not gather around others of them in six months to come.

The advertised retail price of the Atlas (Ivison & Phinney, N. Y.) is $1.20. An additional outlay of less than ten per cent. (say a dime more) would make it all I would wish for the mass of community, worth half as much to most as his $13 Atlas, and really worth much more to the world, because so much more attainable and portable. I really find the weight and bulk of his large atlas quite an inconvenience.—First of all, we *must have* the counties west of the Rocky Mountains, and need those of the British Isles. Then, we need, certainly you need, the outlines of the towns in New England. Mr. Colton thinks he has done liberally by you now, I suppose; for you alone of all the world have a square inch to each twenty-five miles, and in all west of Kansas 100 miles are compressed into this space. New Hampshire is even repeated on two maps. Few New England towns have their names omitted.

Colton's American School *Geography* is not yet ready. He is a slow worker; for his Atlas has, to my knowledge, been nearly four years under the graver. It is melancholy to think how soon these patient labors will be appropriated by unscrupulous bookmakers. We cannot look for the geography till the census returns are all in; and then our high schools and older classes in common schools, will have a book farther in advance of anything now attainable, than has been gained at any one step since the appearance of Woodbridge's Geography.

Yours truly, L. F. H.

☞ The Pope is not at all well pleased with the English Catholics, on account of their reluctance to open their purses for the increase and support of the papal army. France has recently sent 100,000 crowns and a rich collection of bracelets, earrings, brooches and other female finery.

☞ The stockholders in the Nashua, N. H., Watch Co. have organized under their charter and chosen officers. V. C. Gilman is President; L. W. Noyes, Treasurer; and Thos. A. Lovell, Clerk.

☞ A Newark (N. J.) dentist has been mulcted in the sum of $200 for imperfect dentistry.

☞ The State Bank of South Carolina has been obliged to issue nearly a million dollars' worth of bonds, with few takers.

3 DAYS LATER FROM EUROPE.

SANDY HOOK, Feb. 19.—The steamship Jura, from Liverpool 5th, arrived off here this morning.

A Calcutta telegram of Jan. 11 says news has reached there that the American Ambassador had been repulsed from the landing at Japan.

The underwriters of London and Liverpool have advanced the rates one per cent. on cargoes from the Southern States, owing to increased fires in cotton ships and war risks.

Mrs. Gore, the distinguished novelist, is dead.

The French Chambers were opened on the 4th inst. The Emperor's speech said he had endeavored to prove that France sincerely desires peace, and that without renouncing her legitimate influence she does not pretend to interfere where her interests are not concerned. Non intervention had been her policy in the Italian complication, and the motives for sending a fleet to Gaeta was to furnish a last refuge for the King, but erroneous interpretations and a partial departure from neutrality necessitated its withdrawal. He points to the recognition of the annexation of Savoy and Nice as an evidence of the maintenance of the rights of France, and to the proceedings in China as the way the honor of France is avenged. He rejoices at the restoration of the protection extended to Syrian Christians against fanaticism. He also considers it necessary to increase the garrison at Rome when the safety of the Pope appears to be threatened. He concludes by asking that apprehensions be dispelled and confidence restored, his firm resolution being not to enter into any conflict in which the cause of France should not be based upon law and justice.

The London Times regards the speech unfavorably, and says there is nothing in it reassuring. It affected the English funds unfavorably.

The siege of Gaeta continued Prince Carrignan had arrived in the Sardinian camp,—it was reported with reference to negotiations to surrender.

The Italian elections prove more and more favorable to Cavour.

Cavour will propose to Parliament the proclaiming of Victor Emmanuel as King of Italy, with full powers, the authorizing of a loan of three or four hundred millions of francs, and the calling out of all the military reserves.

Francis Second has issued an appeal to the Sicilians, offering them the Constitution of 1812, a Sicilian army, and an entire separate administration. He asks them to give an asylum to a royal family abandoned but brave, and too well instructed by misfortune.

Rome, Feb. 3.—The Pope ordered his soldiers to return to Rome, notwithstanding contrary orders of De Morode.

Fifteen thousand Sardinians passed through Umbria on their way to Naples.

The Sardinians have evacuated the papal territory in compliance with orders from Napoleon.

The Spanish vessels which were dispatched to Gaeta, have been repulsed by Admiral Persano.

FROM JAPAN.—The Kanagawa correspondent of the New York Herald writes under date of Nov. 26th, that a town some sixty miles distant, was swallowed up by an earthquake the previous day, and ten thousand lives were lost. The writer says:—

"The Tycoon was attacked to day, about two o'clock (we received the news by express from Jeddo), by a party of 8000 of Meto's followers; over 200 were killed on both sides and a large number of outbuildings were burned by the assailants. A large French fleet is expected to avenge the unprovoked attack on one of their countrymen recently at Jeddo. The city will probably be bombarded.

Poor Tommy is supposed to have met an untimely end. The Japanese say he died of delirium tremens (a new American introduction), but we all believe his head has been cut off.

RICHMOND, Va., Feb. 19.—In the convention to-day, the speech of Mr. Preston, the South Carolina commissioner, created a sensation. He said the Union never could be reconstructed, and expressed full confidence that Virginia would join the Southern Confederacy.

A resolution was introduced that Virginia has a legal right to secede, that the election of Lincoln did not furnish just grounds for seceding, but that since a portion of the South had seceded, leaving the border States in a minority in Congress, Virginia should demand additional guarantees and proper amendments to the constitution, and she will present an ultimatum to the Northern States, and fix the time beyond which she will not wait; and if that should fail, she will then take steps to secure her rights out of the Union. Referred to Committee on Federal Relations.

VERY PERSONAL.—The change of government at the South does not appear to have raised all of the disunionists into a position above reproach. The Atlanta (Ga.) Confederacy suggests the appointment of Howell Cobb as Secretary of the Treasury, and adds :—

"By way of an additional recommendation to Mr. Cobb's claims for the post suggested, we can safely say to the President elect and the southern Congress, as a point of economy, that should he be appointed, *it would be entirely useless to purchase even an iron safe or prepare a vault* for the confederates' use. Such expenditures, in view of such an appointment, would be the greatest folly and a precedent of unexampled extravagance."

WASHINGTON, Feb. 19.—The Senate made over a hundred amendments to the Tariff bill to day, considerably reducing the rates of duties therein, and making them a trifle lower than the tariff of 1846.

The case of the Governor of Ohio versus the Governor of Kentucky, came up in the Supreme Court to-day.

The Peace Conference is progressing harmoniously and probably will not arrive at a conclusion before the end of the week.

THE PUBLICATION OF BIRTHS—which, as a matter of public interest and actual importance, we decided to commence chronicling a few months ago—has caused considerable remark. A few hyper critical and over-modest individuals disapprove of it, as impertinent or improper—as such people also would in relation the publication of marriages, if that was a *new* custom; but the majority of our readers, and the public generally, approve of and enjoy it. In fact, we have gained several subscribers, and not a little commendation for it. And while a few parents are dreadfully afraid that somebody shall know that they have had an addition to their family; others give us early information of the interesting event, for publishing. There being no reason in the world why we should *not* keep a public record of this sort, and many reasons why we may and *should*, we shall continue it; and ere long, it will come to be as much a matter of course as the list of marriages and deaths.

Dr. Holland, the junior editor of the Springfield Republican, was presented with his first son, one night, several years ago, and his senior partner published it; and from that time the Republican has continued the practice, until "happy fathers" in that city at once visit the printing office, as soon as the doctor is fairly clear of the house, on the interesting occasions referred to.

And one of our most distinguished correspondents, a Professor in a Western college, writes us in a private note, a day or two since, that he is "sorry it is almost too late to chronicle the birth of his second daughter, as he approves of the publication of these items."

WHAT THE PEOPLE WANT.—The Boston Herald blows at the Crittenden compromise, and says :—

What the people desire is a permanent settlement of this question, and it cannot be settled by legislative patch-work. If the Missouri line is again established, some designing politician will ask for its repeal, and the agitation will be continued.

Grant to the disunionists the protection to slavery which they desire, and their next move will be to re-open the slave trade. Then this same disunion game will be played over again if the demand is not acquiesed in. Let the people say to the politicians that hereafter slavery is to be ignored—that is a local matter governed by local law, and that we in the Free States have nothing to do with the subject; that we shall not be a party in assisting to legislate slavery into or out of the Territories, but are willing to leave the people to determine what kind of institutions they will have. The Democrats should not depart from this doctrine at the bidding of disunionists, for if they do the Republicans will adopt it and they will carry the *people* with them. *No* party can hereafter exist in the Free States which stands upon the doctrine of amending the Constitution, so as to *force slavery* upon a people who do not desire it.

COLONY OF DEMERARA.—We have just received the Demerara, Colonist, from D. G. Waldron, agent for the Alleghanian Vocalists and Bell Ringers. He evidently believes in advertising, for the paper contains a two column advertisement of the performances.

The Colonist contains an account of several important inventions in the manufacture of sugar, and the following item, showing the increasing prosperity of the colony.

The exports of Colonial Produce from this colony for the past year have amounted to—Sugar, 62,198 hogsheads; Rum, 27,299 puncheons; Molasses, 2,814 casks; Timber, 493,922 cubic feet. The exports in 1859 were, Sugar 55,243 hogsheads; Rum, 24,530 puncheons; Molasses, 1,556 casks; Timber, 276,378 cubic feet. The increase during 1860 as compared with 1859 is, Sugar, 6,955 hogsheads; Rum, 2,769 puncheons; Molasses, 1,258 casks; Timber 217,544 feet. This increase is a satisfactory proof of the prosperity of the Colony. The increase in timber is enormous, being nearly double that of the preceding year. It is very probable that the increase during the present year will be still greater.

WASHINGTON ITEMS.—The Union men in Baltimore are making great preparations for Mr. Lincoln's reception.

The Republicans in both Houses are ready to vote for a national convention.

A letter from the former Congressmen of South Carolina says that Fort Sumter will be taken, at whatever cost of life, before the 4th of March; also that South Carolina will demand a guaranty for free trade in the Montgomery Congress; and that the other cotton States will oppose any tariff on imports higher than 6 1-4 per cent.

☞ We are glad to learn that an experienced caterer for the public, from Boston, has leased the Gerrish House at Kittery Point, and will open and conduct it in the best style, next season. It is one of the most beautiful and attractive locations on the whole coast.

☞ All ye lovers of singing—at least, all ye who love *to* sing, or want to learn—don't forget Mr. Tilton's meeting to organize a singing school,—at Mercantile Hall, this (Thurs day) evening. Admission free.

Mr. Lincoln is truthful if he isn't statesmanlike in his speeches, when he says for instance that he "attained his position more by accident than by worth."—*Boston Post.*

☞ The John Brown invasion affair cost Virginia $220,000.

☞ Friday, Feb. 22, Washington's Birth Day, will be more generally celebrated than usual. Congress, this year, makes it a holiday. It is a legal holiday in Massachusetts.

In this city, it is to be a school holiday. The book stores and hardware stores are to be closed by agreement, and it is probable that other branches of trade will do likewise. We (of the Chronicle) shall of course "observe" the day, and so can issue no Daily on Saturday.

The bells will be rung, morning, noon and night; and salutes fired by Commissary General Sides.

"Very good figs, even like the figs that are first ripe."—*Jeremiah*, xxiv. 2.

Just such figs as those thus mentioned in holy writ, no doubt, are those in the two neat boxes we received from Messrs. Moulton & Blaisdell's extensive and well supplied grocery establishment, yesterday. (And it will be seen by their advertisement, that they have plenty more of the same sort left.) Some differences between "the preacher's" fruit and ours are, that his came in baskets, and ours in boxes—his he saw in vision, and ours we saw in delicious reality—and while one of his lots was "very good indeed," the other was "too sour to give the pigs;" but both of ours were prime alike—at least, the report of our compositors, up stairs, as to *their* box, agreed with that of the testers in the counting-room and sanctum.

☞ The Portsmouth Cornet Band announce a concert at the Temple, on Monday evening next, for the benefit of the Goodwin Guards. The Guards' elegant new uniforms are nearly completed; (made at the City Clothing Store of Wm. P. Walker, in this city,) and they have leased the fine new hall in Goodrich's block, Market street, as an Armory, and we learn have dubbed it "Union Hall." If the concert of itself, and the object, don't cause the number of "15 cents" to be limited alone by the size of the Temple—why, we shall despair of anybody but Capt. Williams ever again filling it.

MISSOURI FOR THE UNION.—*St. Louis, Feb.* 19.—The Unionists have carried every county in the State by overwhelming majorities. Not ten Secessionists have been elected to the Convention. This county gave 4000 Union majority.

If you have a Sore Throat, go to WM. R. PRESTON, Druggist, Portsmouth, N. H., and get the HAMMOND LINIMENT, which is sure to cure. G. L. BEAN & CO., Proprietors.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 daw3m

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail.

nov28 daw3m

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,—of Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as Dr. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

To All Weak-Kneed Republicans!

LOOK AT THIS!

STRENGTHENING PLASTERS for all those Republicans who at this time have got a weak spine, and whose knees are weak, owing to the Slavery agitation. Any person using these Plasters, and not being relieved from bowing his knees to the Slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be either of the Senators or Representatives in Congress from New England, troubled with the Slave weaknesses.—I will supply them without pay. These valuable strengthening Plasters are for sale at 12 and 17 cts. each, according to the size, by

B. HUTCHINGS, 4 Market Street

CAPTAIN WHISKEY THREATENS TO DETHRONE KING COTTON.—The proclamation of Gov. Pickens, declaring martial law over Sullivan's Island, (in Charleston harbor,) grew out of the impossibility of restraining the South Carolina soldiery in the use of ardent spirits. Charleston's whiskey trade with Baltimore and New York for the last three months has been ten times as great as ever before. If continuing much longer in its present huge proportion, Gov. Pickens will have to declare the whole city under martial law, or give up all idea of the exercise of any other authority about Charleston than the will for the time being of the bands of hiccoughing young volunteers that now threaten to undertake the work of assaulting Sumter on their own hook.—*Washington Star.*

MARRIAGES.

In Chester, Jan. 27th, Mr. WILLARD E. COLBURN, of Manchester, to Miss MARY ELIZABETH UNDERHILL.

In Salisbury, Feb. 10th, Mr. WM. T. EATON to Miss SARAH J. DOW, both of Seabrook.

ROOM PAPERS FOR 1861!

J. F. SHORES, Jr., No. 1 Congress Block, will have for sale the present season the very best and largest stock of

ROOM PAPERS AND BORDERS,

ever offered to his friends and this public. The patterns were selected with great care during the last fall, and have been manufactured during the winter.

TWO CASES have already been received; others will soon come to hand, and by the 10th of March the whole will be in store.

☞ All in want of ROOM PAPERS of good style and good quality at the *lowest prices*, are invited to call and examine the goods.
Portsmouth, Feb. 16, 1861.

FOR SALE,

THE STOCK AND FIXTURES

Of the long and well-established

JEWELRY, SILVER WARE & FANCY GOODS STORE

Of the Subscriber. The above offers a rare chance, not often met with. It is the oldest establishment in the city, the present proprietor being obliged to relinquish it in consequence of ill health. The stock is good, and well selected, having been bought for cash. It is offered for sale on liberal terms The store has always done a profitable business. JOSEPH H. CLARK.
Portsmouth, Jan. 30, 1861.

DO YOU WANT WHISKERS? DO YOU WANT WHISKERS? DO YOU WANT A MUSTACHE? DO YOU WANT A MUSTACHE?

BELLINGHAM'S

Celebrated Stimulating Onguent!

For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT

is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

CERTAIN CURE, CERTAIN CURE,

—FOR—

RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA

COMPOUND;

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in consten. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

DR. SWETT'S

COUGH DROPS

—FOR—

Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above named complaints.

Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:

Canaan, Sept. 4, 1848.—"Dear Br. Swett, I consider it a duty I owe to the public, as well as yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."
SAMUEL R. DENNETT.

New Castle, Jan. 10, 1841.—"Elder Swett:—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as on myself, I feel confident that it is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.

Exeter, Feb. 12, 1856.—"I have been recently cured of a very hard and dangerous cough, in the space of four days, by taking Dr Swett's Cough Drops." J. BATCHELDER.

Newton, N. H., May 7, 1841.—"I am confident that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. Within the last year I have sold $200 worth of his medicines; and I have known them to remove many diseases that have resisted the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines, and then using his Panacea." DAVID CAMPBELL.

Exeter, May 19, 1841.—"I hereby certify that this Spring my daughter had a severe fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until her bowels swelled, and she was so pressed at the lungs that she groaned at every breath; and those who saw her thought that without some speedy remedy she could live but a few days. At this stage of the disease, we obtained some of Dr. Swett's Cough Drops, and commenced giving a teaspoonful every half hour, and dispensed with giving her any other medicine. It relieved the cough and distress of the lungs, and by using two phials she has been entirely cured."
DAVID LANG.

Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use them freely." MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effects of Dr. Swett's Cough Drops, to be correct.
CHARLES C. RICKER.

Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." FANNY MINER.

"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge."
ELIZABETH CURRIER.

Exeter, March 3, 1841.—"Many of my brethren in the ministry frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to others affected, that the Cough Drops prepared by Dr. Swett, of this town, are a valuable remedy. I have found nothing that gives relief so quick.—Let every suffering preacher take a phial and try it." Eld. EDWIN BURNHAM.

Exeter, July 30, 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for Coughs, and for any other complaints of the lungs, with which I am acquainted."
NANCY F JONES.

Canaan, Aug. 29, 1850.—"This certifies that we have found greater relief from Dr. S. Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than all other medicines put together." THEOPHILUS CURRIER,
SALLY CURRIER.

Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I would say that last winter I was confined by a severe cough and spitting of blood, which much alarmed my friends, and that I found a full and speedy cure by the use of only two or three bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town.

I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the application of one bottle of Jewett's Stimulating Liniment, prepared by Dr. Swett."
J. C. BURNHAM.

---

AYER'S
Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OXFORD, Ind., 6th June, 1859.

J. C. Ayer & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous taint, I have suffered from it in various ways for years. Sometimes it have out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many remedies and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was induced to read the Gospel Message that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and it did me more good than I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin then began to form under the sores, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

AUGUSTUS D. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of our Sarsaparilla; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zelotes Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over ten years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. R. S. Channing, of New York City, writes: "I more cheerfully comply with the request of your agent in saying I have found your Sarsaparilla an exceptional alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the *Scrofulous* or *Scrofulous Diathesis*. I have cured many inveterate cases of Leucorrhœa by it, and sums where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have obtained with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects most wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily taken, cured him in five weeks. Another patient had secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach the brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, and of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from the poison in her bones. They became so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Pratectally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

Dr. J. C. AYER: Sir, I should be ungrateful, if I did not inform you of the great benefit I have received from your Sarsaparilla. For a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, under the form of *Rheumatism*, a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, under the form of Gout. I took a few bottles of your Sarsaparilla, because with the first bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful remedy. I remain, &c.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a sufferer for some years from no other cause than *derangement of the Liver*. My belief was, that I was a dead man. Rev. Mr. Happ advised me to try your Sarsaparilla, because he had tried it himself, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel like a young man. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulcerous, Carious and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but we do not publish them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of our Sarsaparilla. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when mailing the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels. As a beverage it is refreshing.

It will instantly revive the most melancholy and drooping spirits, and restore the most nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous system shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Dyspepsia.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the stomach or bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are troubled with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, regulate all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found a most invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts. $1.

General Depot, 179 Water street, New York.

Weeks & Potter, and M. S. Burr & Co., Boston, General Agents for New England.

For sale in Portsmouth, by PRESTON and TILTON, and R. HUTCHINGS. Sold by country dealers. 1y dmayl

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first Diseases that appear are referred as involving a condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these disease, a remedy that has for years

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and our trial alone will convince you of its superiority over every other preparation of the kind. It is partic ularly recommended for

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the suferings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation and Relieving all Pain. FOR DISEASES AT TEETHING OF TEETHING, Cholera Infantum, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic, and Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be overestimated.

IN CONVULSIONS,

From which more infants are said to die than from any other disease, the little sufferer is relieved immediately and as if by magic; and in this dread complaint alone, its intrinsic value is such that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL has become "familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

of any kind, or of whatever nature, a fact which we are fully warranted in a thing cannot be said of any other preparation for infantile disease, at this time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the sad and blighting consequences which are subject to Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR.—It is recorded in the classics that Pyrrhus was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the top of the box was removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the weak digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is highly esteemed by the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, &c., will here find an infallible panacea.—*St. Louis Daily Express*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic. Cordial in the world. To those who are suffering from general debility, we would recommend its use, for it is pleasant to the taste, is strengthen, and invigorate, and will concentrate to remove all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while it does good to all, and will at once feel its exhilarating power. We are confident that after using one bottle of this Cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to Old and Young, Reader, try it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS

ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, purifies and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as *to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and thus thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT MARES, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES.

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following early indiscretions, but it will remove all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline so fatally of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, shun the pleasant and grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business, that it were not for you they would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant to the welfare of her children, for we are sure your never failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skilfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement. Its tonic properties are those of a vegetable matter, it is absolutely beneficial, and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Failing of the Womb, and other delicate diseases to which our wives are subject. For Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

BININGER'S OLD DOMINION WHEAT-TONIC

—FOR—

FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself as presenting in a *concentrated* form the *nutritive* properties of *Wheat*, and has received the highest encomiums from eminent medicinal authorities, as possessing qualities that are absolutely FATTENING; this *desideratum* renders it invaluable to those who are suffering from *Consumption, Lung Complaints, Impaired Strength, Lack of Vital Energy*, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing stimulant.

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

BININGER'S OLD KENTUCKY BOURBON

"1849 RESERVE"

The established popularity of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for use with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recreate* and *strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,
(Established 1778.)
Sole Proprietors, No. 19 Broad St., N. Y.

Morning Chronicle.

INCIPIENT INSURRECTION PUT DOWN. The Aberdeen, Mississippi, Conservative, says an unsuccessful insurrectionary attempt was made by the negroes of a neighborhood twenty or thirty miles from Aberdeen, a fortnight ago; but fortunately their plans were disclosed by a servant girl, who informed her master of the time and place of their meeting, and he collected a few neighbors, who secreted themselves near the place, and soon after, the negroes commenced collecting one by one. From their conversation it appears they only met on that night for consultation, and to prepare to make the insurrection between that time and the 4th of March. They were all captured and flogged severely; the leaders of the gang were thrashed so severely that it was thought they would die. This looks like coercion.

DEFAULTERS IN LOUISIANA.—The State Auditor of Louisiana reports that in the past thirty years there have been ninety-one defalcations among the public officers of the State, summing up a loss of $356,000. Most of these defalcations have occurred within two or three years.

The Louisiana authorities have taken possession of national property at New Orleans to the amount of three and a half millions of dollars. It consists of the custom house, marine hospital, warehouse, boarding station buildings, revenue boats, revenue cutters Robert McClelland and Washington. It embraces all the furniture, &c., of the public offices. The aggregate includes $384,000 for duties on merchandise in warehouse.

Rev. Wm. W. Walker and Mr. J. E. R. Crabb were arrested in Westmoreland county, Va., last week, and bound over not to fight a duel, which had been arranged to come off with rifles. The difficulties originated in politics.

It has frequently been said that no clergymen but abolitionists meddle with politics or stimulate the fighting propensities of men of the world. It is hardly to be supposed that the Rev. Mr. Walker is an abolitionist, and if not he should be looked after by the politicians who have an eye especially on clergymen.—*Atlas.*

GETTING HIS DEATH INSTEAD OF HIS GIN.—John Hunt, a Fall River shoemaker, on rising from his bed, a few mornings since, expressed a wish for a glass of gin, saying he would "give five dollars for a glass of gin." He then stepped to the door, unlocked it, and on stepping across the threshold fell down, and died instantly.

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street,** opposite the New Custom House.

CONSUMPTIVES.
An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., improper Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the irregularity?
For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery—viz:
Acknowledging that life is the gift of the Creator and that 'in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removes or destroy, and death, the certain effect, follows.
Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.
The air we breathe we know to contain a very large proportion of oxygen.
Oxygen, brought in contact with metal, evolves or emits electricity.
Electricity, brought in contact with a muscular fibre, causes it to contract.
These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest arteries. What, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.?—a deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fever may be traced to this deficiency in the blood, or the corpuscles or red globules.
Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the
"BLOOD FOOD,"
which restores the red globules and the normal circulation. Consumptives! friends of consumptives! sufferers from any organic disease! Unfortunates, who have by excess of the body or mind, reduce the standard of the blood and diminished the red globules! Ladies suffering from any of the distresses known as female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.
An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent postage stamps. Blood Food is sold by all druggists; or where it cannot be had, I will send a bottle, free of expense, for $1. Price, single bottle, $1. It is put up in 8 oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers, having been done away with; and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.
C. T. DUPONT, Sole Proprietor,
feb4 409 BROADWAY, NEW YORK.
Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic and stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the publication may rest assured there is not can be any better general remedy.
One of the very best Physicians in Boston has said, "*but it is the best ye gentlemen of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, FEBRUARY 22, 1861.

WASHINGTON.

WASHINGTON'S NATAL DAY, this day celebrated with more than usual feeling, should remind every generous American youth, of his early devotion to home and kindred; of his patriotic and laborious manly life; of his self-control, patience, and perseverance under difficulties and discouragements;—and above all, perhaps, of his sterling *honesty* and uprightness.

Nor should the memory or recollection only, be active on the anniversary,—but the will should be called into exercise, to form character on a model, at once so grand, so safe, and yet so easily practicable.

Well would it be for the country, to-day, if the men of riper years, at the City of Washington recently, but now gone, had possessed a tithe of his virtues, a particle of his honesty.

We copy a couple of brief extracts, from Washington's Farewell Address, as particularly applicable at the present time.

It is indeed little else than a name, where the government is too feeble to withstand the enterprises of faction, to confine each member of the society within the limits prescribed by the laws, and to maintain all in the secure and tranquil enjoyment of the rights of person and property.

I have already intimated to you the dangers of parties in the state, with particular reference to the founding of them on geographical discriminations. Let me now take a more comprehensive view, and warn you in the most solemn manner against the baneful effects of the spirit of party, generally.

This spirit, unfortunately, is inseparable from our nature, having its root in the strongest passions of the human mind. It exists under different shapes in all governments, more or less stifled, controlled, or repressed; but in those of the popular form it is seen in its greatest rankness, and is truly their worst enemy.

NEW HAMPSHIRE IN THE SENATE.—One of the best speeches made in Congress against the right to commit treason under the protection of the name of "secession," was delivered by Hon. John P. Hale, of this State, on the 31st ult. It is characterized by that ease of diction which Mr. Hale so readily commands, while it does not lack the bold, manly voice which the occasion demanded. He well defended New England from the charges so recklessly made by the Southern fire-eaters, of a determined hostility to the people of the South. He says, "we want to appeal to the sober second thought of the people of the whole Union, which a distinguished statesman of other days was always right."

T.

☞ A good many people are inclined to think that the hearing before the Massachusetts Legislature on the Metropolitan Police Bill, is very near the greatest farce ever played by sages of the General Court of the old Bay State, since the Hiss investigation. Boston is amply able to take care of herself in the Executive department of the city. Even her worst policemen would be "marvellously true men" in New York; and even in that city the new movement which some wiseacres contemplate for Boston, would be open to serious objection. T.

☞ The Boston Courier may be said to have a chronic difficulty, which never allows it to be suited. As a matter of course it has considered all of Mr. Lincoln's speeches as entirely out of place, and has deprecated the receptions which the people have spontaneously given him. But when the Vice President elect, Mr. Hamlin, was suffered to go to the Revere House without any manifestation, it suddenly seemed "that the arrival of a gentleman about to enter into the post of Vice President of the United States should have been marked by some public manifestation of respect on the part of his party at least, if not of all parties."

T.

☞ Ship John Haven, Capt. Salter, from Manilla for New York, put into Mauritius on the 10th inst., with loss of fore topmast, main top-gallant mast, sails, &c., and head of mizzen mast sprung, in a hurricane from NNE, round by N to NW, Nov. 14, lat. 9 S, lon 104 E.

☞ The ship Orion, from Liverpool, which was aground in the river Hoogly, has floated, and arrived at Calcutta, after throwing about 200 tons of her cargo (salt) overboard.]

☞ In the Virginia Convention, the committee reported that all but 16 counties had been heard from, and the majority for a reference to the people was 52,857.

NEWARK, N.J. Feb. 20.—Vilainous posters were displayed to-day, calling upon the working men to attend at the depot upon Mr. Lincoln's arrival and demonstrate their differences with him. The Republicans have resolved to form a cavalcade and escort the President elect through the city.

The Richmond Whig says that South Carolina is pursuing a suicidal course. We don't know of any State that could pursue such a course with greater advantages to mankind.—*Atlas.*

LETTER FROM NEW YORK.

NEW YORK, Feb. 20th.

Dear Chronicle: — A crowd, such a crowd as New York only can get up, filled Broadway for over two hours yesterday.—Hundreds of thousands waiting the advent of a man whom envy and prejudice has denominated a "Hoosier," a "rail splitter," and a "fifth-rate country lawyer." The stars and stripes of the *United* States were flying from every available flag-staff. Few banners were displayed, (unless the numerous notices of "assignee's sales" are included in that category) one I saw bearing the words, "Welcome to Abraham Lincoln—We beg for compromise."

Mr. Lincoln, in accordance with the previously arranged time-table, arrived at the 30th St. Hudson R. R. Station shortly after three o'clock, and with his suite, immediately entered the carriages in waiting to convey him to his hotel.

A crowding back of the multitude by a couple of hundred brass-buttoned, blue-coated policemen, a tramping of horses mingled with a deafening cheer, and the twenty-five carriages rolled slowly by, guarded by the police, 1300 of whom were on special duty.

Tall and thin formed, moderately good-looking,—better looking, I think, than his pictures represent him — a genial smile playing 'round his capacious mouth, the President-elect stood in the first carriage, drawn by six black horses, with head uncovered, bowing to the thousands overflowing with enthusiasm.

The crowd at the *Astor House* was so dense, that it required the utmost efforts of the police to clear a passage to the vestibule. It was at last accomplished, and Mr. Lincoln and party retired to their rooms, which are the same as those occupied by Gen. Taylor, during his stay in this city, when on his presidential tour. He shortly afterwards appeared on the balcony in answer to the cheers of the crowd, and spoke a few moments, excusing himself from making any further remarks at that hour.

His reception at the City Hall this morning, was a perfect success. The M. P.s formed the visitors in line, and each had the honor of a hearty grip accompanied with a "Good Morning, Sir," or a "Happy to see you."

This afternoon, he attends Barnum's Museum, and this evening the Academy of Music, and leaves to-morrow, at 9 A. M., for Trenton, N. J. NEWINGTON.

WASHINGTON ITEMS.—Feb. 19.—[The Times dispatch.]—I have seen dispatches to-night from members of the southern provisional government, urging the border-State men not to consent to compromise of any kind, and declaring in answer to inquiry, that they will never consent to reconstruction or recognize Lincoln's administration.

There will be a Republican caucus as soon as the Peace Conference breaks up, which is expected this week.

Mr. Somes of Maine, who spoke in the House against all compromise, demanding measures of conciliation from the South, is receiving congratulations from many persons here, and by letters in great numbers. This is regarded as an indication of growing feeling in the North against compromise at this time.

Mr. Boulligny of New Orleans, who remains in his place in the House, performing his duties every day, and refusing to recognize secession, or leave Congress unless called home by his District, says the seceding States cannot live out of the Union three months longer, and believes his course will be sustained by the people when their passions have subsided. Indeed he believes they would even do so now.

[Tribune dispatch]—The border States are by no means satisfied with the programme of military despotism foreshadowed by Jefferson Davis, and rendered necessary by his condition, to overawe the popular resentment after the present paroxysm has passed. If a compromise cannot be obtained from Congress, and they secede, it will be to set up a government for themselves. Virginia, North Carolina and Tennessee will not hitch on to the cotton confederacy.

Mr. Guthrie's friends regard his movements and policy in the "Peace" Convention as indicating a purpose to be a candidate for the Presidency in 1864. Considerable disappointment has been expressed at the limited ability thus far exhibited, considering the reputation he previously enjoyed.

NAVAL.—*Washington, Feb.* 20.—The House select committee of five on the President's special message will report to-morrow relative to stationing vessels on the coast, &c., saying that the defence of the Atlantic coast has been neglected. The report will conclude with a resolution censuring the Secretary of the Navy for accepting, without delay or inquiry, the resignation of officers who were in arms against the government when tending the same.

It has been ascertained that a larger number of United States war vessels are afloat now than for the last twenty years, and others may be fitted out in two or three days.

There is a deficiency in the naval service, of midshipmen, masters, medical men and seamen, the law limiting the last to 8500 men.

☞ A Washington dispatch to the N. Y. Express says:—

The Montgomery Southern Congress is to be ignored by the people and government of South Carolina, or by the majority of them. South Carolina, insists upon free trade, and is particularly opposed to the proposed payment of duties on imported goods. The highest rate which she will consent to pay, is six and a quarter cents on imports. Anything beyond this, will be disowned and opposed.

CONGRESS.

The proceedings of Wednesday, Feb. 20th, in both houses, are quite important.

In the Senate, several private bills were passed.

The bill discontinuing postal service in the seceded States, was then taken up.

Mr. Green moved to add that the Secretary of the Treasury be directed to prevent any attempt to collect the revenue in such States.

Mr. Hemphill offered a resolution that the Postmaster General be directed to discontinue interpostal communication in several States, as they have withdrawn from the Union, and the laws of the United States are no longer enforced therein.

Mr. Green withdrew his amendment.

Mr. Clingman moved to strike out the word insurrection, and insert as a reason for discontinuance the secession of certain States.

Mr. Fitch suggested the words "refusal to acknowledge the laws;" also to strike out the words "postal laws maintained," so as to give no reason to employ forces.

Mr. Clingman accepted the amendment.

Mr. Mason objected to the bill, arguing against anything that might plunge the country into a civil war.

The tariff bill was then taken up.

The committee's amendments were adopted, except a few on which votes were taken. The amendment reducing the duty on sugar, and placing a duty on tea and coffee, was agreed to.

The amendment for placing a duty of 5 per cent. on wool was carried—26 to 19.

The amendment placing 15 per cent. ad valorem on books, periodicals and watches, was carried.

Mr. Lane offered his amendment, which substitutes essentially the tariff of 1846.

Mr. Hale moved that the statuary and painting of American artists be free, but that there be a duty of 10 per cent. on all others. Adopted.

The duty of 5 per cent. on copper ore was adopted.

Mr. Powell moved to amend by repealing all acts giving bounties to fishermen.—Lost—18 against 25.

Mr. Bayard moved to add a proviso to the bill, so that the duties levied on any article in the bill shall not exceed 30 per cent ad valorem in the port whence exported, except wines and brandies. Lost—18 against 28.

The next question being on Mr. Lane's amendment, he moved that the Senate adjourn. Rejected.

Mr. Lane spoke against the bill and on the subject of secession, &c., a recess in the meantime being refused, 10 against 27.

Mr. Wilson moved to amend by inserting the first sect. of the tariff of 1857, with the rates increased to that of 1846, and the free list retrenched. Lost.

Mr. Lane's amendment was rejected, 13 against 25.

The bill then passed. Yeas—Anthony, Baker, Bigler, Bingham, Cameron, Chandler, Clark, Doolittle, Durkee, Fessenden, Foote, Foster, Grimes, Hale, Harlan, King, Morrill, Seward, Simmons, Sumner, Ten-Eyck, Trumbull, Wade, Wilkinson, Wilson. 25.

Nays—Bragg, Clingman, Douglas, Green, Hunter, Johnson of Arkansas, Johnson of Tennessee, Lane, Latham, Nicholson, Pierce, Powell, Rice, Sebastian. 14.

HOUSE.—The volunteer bill was taken up. Mr. Bocock of Va. opposed the bill, considering it as initiatory of war.

The consideration of the report of the Committee of Thirty-three was then resumed.

Mr. Vallandigham of Ohio spoke in favor of conciliation and compromise, and advocated his proposition to *divide* the country into *four* sections.

The Senate amendments to the navy bill was then taken up.

Mr. Garnett of Virginia offered a proviso that the sloops-of-war should *not* be used to *execute* the federal *laws* in any of the seceding States.

A long debate ensued, during which Mr. Stanton of Ohio said he took it for granted that the next administration will not recognize the constitutional right of secession, but that it will be treated as revolution.

Mr. Garnett of Virginia spoke several times. He said that Mr. Lincoln, both in speeches and private conversation, had foreshadowed a coercive policy, and his intention to make war on the South.

Mr. Anderson of Kansas asked Mr. Garnett if he was for the Union.

Mr. Garnett—I am for the *immediate secession* of Virginia. (Hisses and Applause.)

Mr. Brown of Kansas asked Mr. Anderson if he favored coercion.

Mr. Anderson said he did not believe in the right to secede. He was for the Union, the constitution and the enforcement of the laws. (Applause.)

Mr. Morse of Maine advocated the Senate's amendment.

Mr. Garnett's amendment was rejected, and the Senate's amendment was agreed to—101 against 38.

Mr. Ruffin of North Carolina made a secession speech.

SUPREME JUDICIAL COURT, EXETER.—In the action, Irene Robinson, Executrix, vs. Nathaniel G. Gilman & al. Administrators of Nathaniel Gilman, on trial at the close of our last report, the Jury returned a verdict for the plf. for the amount of her claim, deducting the notes offered by way of set-off. Verdict for $1276.87.

Haverhill Mutual Fire Insurance Co. vs. Edward P. Prescott & al., Assumpsit upon a note for assessments. The Court upon the evidence, ordered a verdict for the defendant, and transferred the case.

On Thursday, the Court adjourned *sine die*—after a session of 31 days.—*Ballot.*

WASHINGTON, Feb. 21.—Positive information has been received here of a plan to induce soldiers to desert from the army and enter the force of the Southern Confederacy, under their old officers.

A large delegation of politicians have gone to Philadelphia to meet the President elect.

☞ John Woodman, who murdered his infant child at Alton, N. H., some weeks since, and escaped from the officer while being conveyed to jail, has been retaken.

LINCOLN'S SPEECH IN NEW YORK.

At formal reception, the City Hall, Feb. 20, Mayor Wood said:

It becomes my duty to extend an official welcome to you in behalf of the corporation. In doing so, permit me to say that this city has never offered hospitalities to a man clothed with more exalted powers, or resting under greater responsibilities, than those which circumstances have devolved upon you.

Coming into office with a dismembered government to reconstruct, a disconnected and hostile people to reconcile, it will require high patriotism and an elevated comprehension of the whole country, with its varied interests, opinions and prejudices, to so conduct public affairs as to bring it back again to its former harmonious, consolidated and prosperous condition. I refer to this topic because New York is deeply interested in the present political divisions which sorely afflict her people.

Her material interests are paralyzed, and her commercial greatness endangered; she is the child of the American Union, and has grown up under its maternal care; been fostered by its paternal bounty, and, we fear, if the Union dies, its present supremacy dies. To you, therefore, chosen under the forms of the constitution, as the head of the confederacy, we look for the restoration of fraternal relations between the States, only to be accomplished by peaceful and conciliatory means, aided by Almighty God.

Mr. Lincoln responded as follows:

Mr. Mayor: It is with feelings of deep gratitude I make my acknowledgment for the reception which has been extended to me in this great commercial city of New York.

I can but remember that such a reception is tendered by a people a majority of whom do not agree with me in political sentiments. It is more grateful on this account, because it is an evidence that, in the support of the great principles that underlie our government, the people are nearly unanimous.

In regard to the difficulties which encompass us at this time, of which your Honor has thought fit to speak so becomingly and justly, I can only say that I agree with the sentiments expressed by the Mayor. In my devotion to the Union, I hope I am not behind any man within the Union; but in the wisdom necessary to so conduct affairs as to secure the preservation of the Union, I fear I may be deficient, and that too great confidence has been reposed in me. I am sure, however, that I at least bring a heart devoted to the work.

Before leaving the City Hall, Mr. Lincoln appeared in the balcony, and in response to loud calls, said:

Friends, I do not appear for the purpose of making a speech; I design to make no speech; I came merely to see you and allow you to see me; I have to say to you, as I have said frequently to persons on my journey, that in the sight I suppose I have the best of the bargain; assuming that you are all for the constitution, the Union (cheers,) and the perpetual liberties of this people, I bid you farewell.

MARRIAGES.

In Newburyport, Feb. 12th, Deacon LYMAN SMITH, of North Amherst, to Miss MARY M. EMERSON, of Newburyport.

DEATHS.

In Epping, Mrs. DELIA FOLSOM, aged 71, wife of Mr. Mead Folsom.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the cast objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawśm

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be contounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtue of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure, when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution. For particulars, send for a pamphlet to the Agent. One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawśm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as Dr. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and it all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

To All Weak-Kneed Republicans!

LOOK AT THIS!

STRENGTHENING PLASTERS for all those Republicans who at this time have got a weak spine, and whose knees are weak, owing to the Slavery agitation. Any person using these Plasters, and not being relieved from bowing his knees to the Slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be either of the Senators or Representatives in Congress from New England, troubled with the Slave weakness,—I will supply them without pay. These valuable strengthening Plasters are for sale at 12 and 17 cts. each, according to the size, by

B. HUTCHINGS, 4 Market Street

Local.

ANOTHER SUDDEN DEATH.—The decease of Mr. William Rand, of this city, which we briefly mentioned on Thursday, was an entirely unexpected shock to our whole community. He was at church on Sunday, as well as usual, and was attacked with inflammation of the bowels and stoppage, on the evening of that day, which resulted in his death on Wednesday evening; and the first intimation his fellow citizens generally had of his illness, was received with notice of its fatal termination.

Mr. Rand was one of our prominent and reliable business men, and his occupation as miller, brought him in personal connection with not only many of our own citizens, but with the farming community of a large district. It is but a few days since he was in our counting-room, and as usual settled his account in advance for the current year—pleasantly expressing the hope that all our patrons would use us as well,—and certainly having as much apparent reason for expecting many years of life, as have most of his friends whom he has left.

He was a member of the Governor's Horse Guards, and took much interest in the corps; and no longer ago than last Saturday, had given orders for some new articles of uniform. He, we think, is at least the fourth recruit who has been swept from the ranks by that enemy whose aim is surer and more fatal than all other earthly foes.

He was also a member of the Orders of Odd Fellows and Free Masons, and had filled various town and city offices, and represented his ward in the Legislature—always attentive and faithful to his duties, and ready to encourage any public enterprise.

But he has gone—closed his eyes forever on the occupations and pleasures of earth, in the midst of his usefulness and his plans for the future; and in view of the unexpected event, how fitting that each one of us should read for ourselves, in the event, the warning, "Be ye also ready." F.

INSURANCE DECISION.—A question of some interest to our ship-owners has been decided in the Supreme Judicial Court of Massachusetts, in the suits of Horton D. Walker against the Boston Insurance Co. and the Hope Insurance Co. These were actions on policies of insurance, whereby the defendants insured the plaintiff in the sum of $18,000, on the ship Fortitude, valued at $18,000, and were submitted to the court upon the following agreed statement. On a voyage to Havre, the ship came into collision with the bark Sir Robert Peel, by which both vessels were damaged. The ship subsequently arrived at Havre, where the cargo was delivered, and the freight, amounting to $15,000, paid. An adjustment of general average was made at Havre, in which the ship, in her damaged state, was valued at $6,000. She was repaired at an expense of $8,000, of which the defendants paid their proportion. Subsequently, being in London, she was libelled by the owners of the Sir Robert Peel, in a cause of collision, condemned in damages and costs, and the plaintiff was obliged to pay, on account thereof, and of the expenses of defending the suit, about $10,000; and in this suit seeks to recover 8 18ths of the sums so paid.

The defendants, admitting a liability on account of the loss, insist that the amount should be apportioned on the aggregate value of the ship and freight at Havre; that, for this purpose they are not concluded by the valuation in the policy; and that the owner of the ship, as such, and, consequently, her insurer, is not liable for more than the full value of the ship *after* the collision. The Court held that as a necessary consequence the owner of the "Fortitude" was, upon the case stated, liable to the owners of the "Sir Robert Peel" to the extent of the value of his vessel, estimated in the condition in which it was immediately before the occurrence of the collision: and consequently that he is entitled to recover of the defendants, as insurers of it, the sums respectively demanded of them, the aggregate of which he paid under legal compulsion, and gave judgment for the plaintiff.

☞ The closing lecture of the course before the Mercantile Lyceum, was delivered on Tuesday evening at the Temple, by James P. Bartlett, Esq., to a crowded audience. It was not only a correct and instructive essay on Life Insurance, by a writer who fully understands his subject,—but it was also a capital lecture, worthy to close, as it did, one of the best courses we have ever had in the city.

☞ Messrs. C. W. Brewster & Son have published "Washington's Farewell Address," in elegant style, in sheet form; and copies may be had at the Journal Office, and the Periodical and Book stores. Every family and school-boy should have one.

☞ As the Chroniclers all 'observe' Washington's Birth-Day, there will be no Daily issued on Saturday from our office; unless some very important news should arrive, in which case we shall print an extra.

☞ Leo Miller, one of the famous Spiritual lecturers, has been holding forth in this city, for the past week, to large audiences—to the delight of many, the surprise of not a few, and the confusion of some.—He is evidently not an "educated" man, so called; but is well versed in Bible lore—and plants himself on the good book, "as he understands it," at the outset—is a fluent and rather pleasing speaker, full of his subject; with a decided "reason for the faith that is in him," and one of the fairest disputants we ever saw. He is not inaptly named "lion," for he is a strong battler for "progressive christianity," so termed.

Rev. Mr. Pratt, at the close of Mr. Miller's remarks, at the Temple, Wednesday evening, announced that he would answer him, at the Advent Chapel, some evening next week—of which notice would be given. F.

☞ In Board of Aldermen, Thursday evening, a resolution was passed to let the Brick Market at $150 per year, to the present tenants, if they desire it.

Petition presented and accepted for a reservoir in the vicinity of Haymarket Sq.

☞ We understand that the dry goods dealers will do no business to-day, they recognizing it as a day that should *always* be observed with all the honors of a National Festival. It is to be hoped that the day will be generally observed, for we have not, as a New England people, too many holidays, nor can there be any valid objection to the proper observance of this.

A DEALER.

☞ Capt. Elwin Salter, of this city, master of ship John Haven, at Mauritius, Jan. 5, from Manilla for New York, died at sea, Nov. 27, 1860, of fever. He was about 25 years of age, and was much esteemed and respected.

☞ We notice by the Concord papers, that Dr. Frank Fuller of this city, is announced to address the Republicans of the State capital, at Phenix Hall, on Monday evening next.

☞ We are informed that an unmarried lady living at the South End, while passing through Chesnut street, a few days since, fell on the ice, and broke an arm.

☞ On Wednesday, Feb. 13th, Mr. William O. Carr was ordained as an Evangelist, at Barnstead Centre, in the Orthodox Congregational Church.

FORECLOSURE OF MORTGAGE.

Notice is hereby given that I, the subscriber, John W. Odiorne, of East Boston, in the County of Suffolk and State of Massachusetts, took peaceable possession, this nineteenth day of February, A. D. 1861, of the following described Real Estate, viz: A certain lot of land, with the dwelling-house and out-buildings thereon, situated on the corner of Tanner and Marlborough streets, in Portsmouth, in the County of Rockingham and State of New Hampshire, and bounded and described as follows, viz.: forty-nine feet, more or less, by Tanner street; thirty-one feet, more or less, by land now or formerly of E. and W. F Quereau; forty-nine feet, more or less, by land now or formerly of A. W. and G. W. Haven; and thirty-six feet, more or less, by Marlborough street; being the same premises mortgaged by the late James H. Marston, deceased, and his wife, Maria T. W. Marston, to William D. Fernald, as per their deed of Sept. 14, 1853, recorded on Rockingham Records, Lib. 356, Fol. 226, which mortgage was assigned to me by said Wm. D Fernald, Dec. 29, 1860, as per assignment recorded on said Records, Lib. 368, Fol 212; and also the same premises mortgaged by said James H Marston and wife, to Nathaniel K. Raynes and Thos. Nell, as per their deed of Jan. 19, 1855, recorded on said Records, Lib. 363, Fol. 52, which mortgage was assigned to Wm. D. Fernald by said Nath'l K. Raynes and Thos. Nell, April 10, 1858, as per assignment recorded on said Records, Lib. 378, Fol. 356; and subsequently, to wit, on the 20th of December, 1860, assigned to me by said Wm. D. Fernald, as per assignment recorded on said Records Lib. 388, Folio 313.

Said possession is taken for condition broken of both the aforesaid mortgages; and the object of such possession is to foreclose all the right which the said James H. Marston and Maria T. W. Marston, or his, or her or their heirs, assigns, executors or administrators had, or have, to redeem the said premises from said mortgages.

JOHN W. ODIORNE.

CERTAIN CURE, CERTAIN CURE,

—FOR—

RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA

COMPOUND;

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from suffering of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1855, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

DO YOU WANT A MUSTACHE?
DO YOU WANT A MUSTACHE?

BELLINGHAM'S

Celebrated Stimulating Onguent!

For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT

is prepared by Dr. C. T. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gent's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

DR. SWETT'S

COUGH DROPS

—FOR—

Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above named complaints.

Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:

Canaan, Sept. 4, 1848.—"Dear Dr. Swett, I consider it a duty I owe to the public, as well as to yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life"

SAMUEL R. DENNETT.

New Castle, Jun. 10, 1841.—"Elder Swett:—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as on myself, I feel confident that it is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.

Exeter, Feb. 12, 1855.—"I have been recently cured of a very hard and dangerous cough, in the space of four days, by taking Dr. Swett's Cough Drops." J. BATCHELDER.

Newton, N. H., May 7, 1841.—"I am confident that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. Within the last year I have sold $200 worth of his medicines; and I have known them to remove many diseases that have resisted the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines, and then using his Panacea." DAVID CAMPBELL.

Exeter, May 19, 1844.—"I hereby certify that this Spring my daughter had a severe fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until her bowels swelled, and she was so pressed at the lungs that she groaned at every breath; and those who saw her thought she without some speedy remedy she could live but a few days. At this stage of the disease, we obtained some of Dr. Swett's Cough Drops, and commenced giving a teaspoonful every half hour, and dispensed with giving her any other medicine. It relieved the cough and distress of the lungs, and by using two phials she has been entirely cured."

DAVID LANG.

Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from the whooping cough of late, and I would advise all who have a child from three distressing complaints to use them freely." MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effects of Dr. Swett's Cough Drops, to be correct.

CHARLES C. RICKER.

Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." FANNY MANER.

"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them to be the best medicine in my knowledge."

ELIZABETH CURRIER.

Exeter, March 3, 1841.—"Many of my brethren in the ministry frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to others afflicted, that the Cough Drops prepared by Dr. Swett, of this town, are a valuable remedy. I have found nothing that gives relief so quick.—Let every suffering preacher take a phial and try it." Eld. EDWIN BURNHAM.

Exeter, July 30 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for Coughs, and for any other complaints of the lungs, with which I am acquainted."

NANCY F JONES.

Canaan, Aug. 29, 1846.—"This certifies that we have found greater relief from Dr. S. Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than all other medicines put together." THEOPHILUS CURRIER,
SALLY CURRIER.

Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I feel it my duty to say that last winter I was confined by a severe cough and spitting of blood, which much alarmed my friends, and that I found a full and speedy cure by the use of only some two or three bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town.

I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the application of one bottle of Swett's Stimulating Liniment, prepared by Dr Swett."

J. C. BURNHAM.

These, with other of DR. SIMEON SWETT'S MEDICINES constantly for sale at his residence in Portsmouth, N. H., No. 1 School Street.

Morning Chronicle.

THE LATEST PHASE OF DISUNION.—It was reserved for the New Orleans Picayune—one of the last of the journals in that section to run into disunion—to suggest a demand which surpasses everything in the way of assurance we have heard of in these extraordinary days. It is that the States which have separated themselves from the Union, "will soon ask to be refunded, the cost to which they have been put in asserting their independence, menaced by the intolerant sectionalism of Massachusetts." Since it has been charged as wrong in Massachusetts, to protest against the *acquisition* of Louisiana and Texas, perhaps this might be a valid bar against some of the claims.—*Atlas.*

In one thing we certainly agree with Mr. Seward—that if he is to be accepted as a type of the would-be saviours of his country, the Union is not likely to be saved, as he says, "by anybody in particular."—*London Times.*

How South Carolina may surprise Major Anderson—Treat him like a gentleman.—*Vanity Fair.*

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & CO. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it breed out in blotches on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was induced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your name that you understood what ailed me. I thought it must be good. I went to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful one a month, and used almost three bottles. The old healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has left my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully.

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Solon, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla. He also cured a case of *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhoea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. S. Channing, of New York City, writes: "I most cheerfully comply with the request in your circular, saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhoea by it, and some where the complaint was caused by ulceration of the uterus. Menstruation itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newberry, Ala., writes: "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely removed by the use of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the best resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 22d, March, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects in many wonderful cures of Secondary Syphilis and *Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, in a few days, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of the bone. In this the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, and has had enough some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. The mercury was so active to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla. I know this to be true, for I treated her before and after taking your Sarsaparilla. I know from its effects, which your agent gave me, that this preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. Y. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Fauquier Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted for years with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and which I was in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine.

JULIUS F. GATCHELL.

St. Louis, Mo.—"I have been afflicted for years with an affection of the *Liver*, which destroyed my health. I tried everything, and every thing failed to relieve me; and I have been a burden to myself and to some years from no other cause than *disorganization of the Liver*. My brother-in-law, Mr. Wm. Tapp, advised me to try your Sarsaparilla, because he said he had seen it do so much good. I did so, and my health was worth trying. By the blessing of God it has cured me, and I am now as well and as much as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulcerous, Carious and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space will not admit of them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the entire region of the north. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

Dyspepsia Remedy

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilirates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating effecacy of Dr. Ham's Invigorating Spirit.

What it will do:

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Spirits are restored, the invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidneys, Bladder and Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, regulate all obstructions and cure Fainting Turns, the menstrual organs, and restore the bloom of health and beauty to the careworn face.

Dose, a wineglass full. This medicine is an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, isa trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

General Depot, 8 Water street, New York.

Weeks & Potter, and M. S. Burr & Co., Boston. General Agents for New England.

For sale in Portsmouth, by PRESTON and THACHER, and B. HUTCHINGS. Sold by all country dealers. 1ydmay1

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases which arise in infancy, are a disordered condition of their bowels, and in this connection we present to your notice, for the alleviation and cure of these diseases, a remedy which is

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is partic ularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the suffrings of your little cherubs, it will be found invaluable in *Softening the Gums, Reducing Inflammation and Relieving all Pain. FOR DISEASES AT TEENDING TEETHING*, such as *Diarrhoea, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic, and Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can not be estimated.

IN CONVULSIONS,

From which more infants are said to die than from any other disease, the little sufferer is relieved immediately, as if by magic; and the dread complaint alone, its intrinsic value is such that it has been recommended from one family to another, such the name of DR. EATON'S INFANTILE CORDIAL has become "familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we are prepared to prove in a satisfactory manner, and of any other preparation for infantile diseases, at this time before the public. We find that throughout the country, Mothers are fully convinced of the superiority of the Opiate, and blighting consequences which are certain to result from the use of narcotics administered to infants, and that wherever their confirmed administration being invariably followed by stupefaction and constipation of the bowels, enabling effectually to counteract the effects of DR. EATON'S INFANTILE CORDIAL offers from every other remedy. It

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, from its rare medicinal qualities, by removing all pain and restore health. We confidently recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take notice that DR. EATON'S INFANTILE CORDIAL *This you can rely upon.* Price 25 cts per bottle.

—IT IS—

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.—*Dear Sir:*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful cures throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug, saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three cases myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article without proving it when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—none for baldness, gray hair, scaled head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1820, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. Its own identity it has been extensively used, and we believe in every case with every desired result, and receive the strongest indorsement of all who have tried it. We therefore recommend it as one of those few genuine *nostrums* which accomplish all they promise, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many testimonials to proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Boston Olive Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums;—but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Father Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtue. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its recommending as such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. We have had beneficial effects from the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, it cannot do any harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WARREN SPRINGS, Perry Co., Pa., June, 7, '60.

PROF. WOOD—*Dear Sir:*—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get rid of it, nor do me any good until I saw your advertisement. I am far better than any I bought a bottle, and am now prepared to recommend it as universal use, for it has completely removed all dandruff from my hair, and restoration once in two weeks keeps it free from itching and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 60 years of age, and although I have used no hair dye of any description, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation invaluable, and, after this, I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—*Prof. Wood* stands as an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, enjoying a new growth of natural chestnut head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that the hair could be re vitalized. He tried his own case—almost bald and wholly gray at 37—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception, it is of *vital importance* to those requiring it for Family use and medicinal purposes, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavour and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rates, a Brandy of our own importation, from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

All Advertisements outside the regular legitimate business of the advertiser—such as real estate notices, advertisements of waste, notices of articles lost, &c.,—to be charged extra.

NOTICE TO ADVERTISERS,

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

The Chronicle Office is open from 4 o'clock in the morning till 8 in the evening; and advertisements, notices, &c., duly authenticated and authorized by responsible parties, may be left in the Box in front of the street-door, after the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

CONSUMPTIVES.
An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., improper circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the blood to circulate?
For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery also
Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removes or destroys, and death, the certain effect, follows.
Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.
The air we breathe we know to contain a very large proportion of oxygen.
Oxygen, brought in contact with metal, evolves or emits electricity.
Electricity, brought in contact with a muscular fibre, causes it to contract.
These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest arteries. What, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS'S DANCE, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.?—a deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules.
Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the
"BLOOD FOOD,"
which restores the red globules and the normal circulation. Consumptives! friends of consumptives! Sufferers from any organic disease! Unfortunates, who have by excess of the body or mind, reduced the standard of the blood and diminished the red globules! Ladies suffering any of the illnesses known as female complaints, be persuaded that "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.
An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent postage stamps. Blood Food is sold by the dozen or single; or where it cannot be had, I will send 6 bottles, free of expense, for $4. Price, single bottle, $1. It is put up in 8 oz. vials, in yellow wrappers—the only kind, in small bottles, in red wrappers, having been done away with; and bears the fac-simile signature of Church A. Dupont upon the face of the wrapper. Beware of counterfeits and imitations.
C. T. DUPONT, Sole Proprietor,
feb4 493 Broadway, New York.
Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the medicinal virtues of Peruvian Bark, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*but it is the best pr paration of Bitters that has ever been offered to th public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

A. B. CLIFFORD, Epping, N. H.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, FEBRUARY 25, 1861.

☞ In an article on "Vicious Principles and Vicious Results,"—the Boston Post says:—

We have slaves in the United States, the *unfortunate fact* of our history. Twenty-five years since some of the unclean birds that all old societies will breed, commenced croaking against this fact. They long made all the country noisy with their croakings. They taught that the *system* was a covenant with Death and a league with Hell; that it was sacrilegious; that it was a conspiracy against mankind; that it was against the laws of God; that its laws were a code of Death; that it was essentially barbarism; that in its result and spirit it bred barbarians among masters; that it was the scab, the canker, the base sore of the country; that it was the greatest lie and atheism; that it was the sum of all villainies; and that it was a huge insurrection against the laws of God. * * * Have not our warnings proved true? See Kansas, and let the murdered victims of that territory answer—let the riots of the North, and the spirit of the murdered Batchelder, at the Boston Court House, answer—let men, met to deliberate in our national councils, armed to the teeth, answer—let the dead of Harper's Ferry speak—let Senators, struck by the hands they have outraged, bleeding on the Senate floor, speak. These are not all. Ten millions of men, to-day, cry out that they will *bear it no longer*, and the *great republic of* history is rent in twain.

The ten millions will not bear what?

Why they will not bear to be told that slavery is "an *unfortunate fact*," as the Post says it is,—for they hold up the *system* as right in itself, and as the very *corner stone* of their new State or kingdom, or union, or whatever they may call it.

The teachings of the disturbers are vastly older than twenty-five years. Jefferson taught that its result tended to make barbarians and tyrants of their masters; and John Wesley said,—that slavery was the sum of all villainies, and that American slavery was the vilest under the sun.

The ten millions may not *bear* to have this said in the Union,—but the *world* will say it, tho' they stop their ears. We are in the nineteenth century, whether the ten millions know it or not. They may find it out in a few years: it looks now, as if they would. U. T.

MORE "BARBARISM."—The Washington correspondent of the Atlas, Feb. 22, says,

A murderous assault was made last night in the vicinity of Capitol Hill on Hon. C. H. Van Wyck, a member of the House of Representatives from New York.

He was attacked by three assassins, and in the desperate struggle was stabbed twice. Mr. Van Wyck was, however, fortunately armed, and succeeded in shooting one of the ruffians and knocking down another. He escaped alive, and although very dangerously injured will, it is thought, recover.

The assault was evidently made by parties who have taken offence at the boldness with which he defended the North in a recent speech in the House of Representatives.

It is said that this is the commencement of a series of assassinations. Great excitement prevails here.

[This assault, like that on Senator Sumner, will surely have its effect on New York, —and perhaps on New Hampshire. The slave power does not believe in *coercion*—O no! it only believes in assassination and murder of Senators and Representatives of free States,—in stealing arms and millions of money by its own Cabinet officers, and in seizing forts and arsenals by the slave power everywhere.] U. T.

INCENDIARY DOCUMENTS.—The New York Observer, which has always defended slavery as much as any northern journal can, and the Methodist, established in New York a few months since to take a "South side" view of the institution, have both been denounced as incendiary in Alabama.

Well, says Uncle Toby,—it serves them right. He who pleads for slavery, should be himself a slave; and he who advocates gag-laws should not grumble much when his own mouth is muzzled.

THE STORM ON THE GEORGES.—The storm on 7th February is represented by the Gloucester Telegraph as the most severe weather ever experienced by the fishermen on the Georges Banks. Of forty vessels that have returned to port, twenty-seven lost cables and anchors, and many of them met with other injuries.

☞ The Governor, with advice of Council, has appointed Thursday, the eleventh day of April next, to be observed as a day of fasting, humiliation and prayer throughout this State.

☞ In Putnam county, Ind., Mrs. Patsy Allen, aged 116 years. She was born in 1744, and left a daughter living in the same county, aged 93.

☞ The Prince of Wales has sent Mayor Wentworth of Chicago, two fine buck sheep and two pointer dogs as a present. The dogs are for a railroad conductor who was civil to H. R. H.

☞ Perley Eaton, of South Hampton, N. H., was severely if not fatally injured on the 19th inst. by the falling of a tree which he was in the act of cutting down.

ADMONITION TO YOUNG MEN.—Two or three years ago, a young man was pardoned out of the House of Correction in Worcester, Mass., by the intervention of his friends, upon his assurance that he would refrain forevermore from the use of intoxicating liquors. He was under their influence when he committed the crime which consigned him to prison. He had a widowed mother, who needed his help, and stood ready to welcome his release. His last act before leaving the prison, where he had made himself more than ordinarily useful, was to sign the temperance pledge. But he had scarcely left the prison yard before he met with some of his old associates; yielded to their seductive influences; and went home that night to his mother's house reeling in drunkenness. In a short time he was sent back to prison, on a short sentence, to give him an opportunity to brace himself up for another trial of his moral resolution. At the expiration of his sentence he was taken to another part of the State by a friend, where he obtained reputable employment, for many months. Coming to Worcester on a visit, he again fell a victim to his former habits; lost his employment and means of living reputably; and drifted upon the world a confirmed victim of inebriation. On the cold Thursday of the present month, he started from Worcester for the adjoining town of Paxton, partially intoxicated, and the next morning was found in the road frozen to death. It would not be difficult (says the Worcester Palladium,) to call the names of quite a number of young men in this city who ought to take this paragraph, before it is too late, and read it.

The same thing is true of all cities, and of every young man who is a wine or beer bibber on a small scale, soon to enlarge.

THE PARTY DODGE.—The following, from an editorial in the N. Y. Commercial Advertiser, confirms an idea which we have had occasion to express more than once:—

We have conversed with a gentleman, just returned from Washington, who informs us that Democratic Senators and Representatives are overwhelmed with letters from their political friends and constituents, urging them to keep insisting upon concessions, or in the language of some of those letters, "to hold on a little longer and we shall yet frighten the Republicans into yielding their platform and so break up their party, that we can get our own again."

☞ A Baltimore dispatch to the New York Commercial says that the anti-submission convention attracts very little attention there. The effect will be to strengthen the Union feeling, and it will utterly fail to accomplish anything. The citizens generally are disgusted with the whole movement.—Great efforts are making to force Gov. Hicks to call the legislature together for the purpose of legalizing the action of the State Convention. In fact the convention contemplates hardly any other object than the recognition of its own legal existence.

☞ The Laconia Democrat says that Mr. Odell Sanborn of Sanbornton, came near freezing to death, on Friday night of last week. He started from that village about four o'clock in the afternoon, for home, on foot, and between ten and eleven o'clock he called in at a house, when it was found that his boots, stockings and feet were frozen together.

☞ The Hartford Press has some bridal verses sent in for publication, of which the following is a sample:—

"The bride was pretty some would think,
And comely formed but her voice was hash,
Her husband was as neat as a pink,
With crooked legs and a big moustache."

☞ The citizens of Chicago presented to Mr. Lincoln a fine picture of the Flag of the Union, with an inscription upon the folds of the same, in Hebrew, being from the 4th to the 9th verse of the first chapter of Joshua.

☞ The Michigan eLgislature, on Saturday, refused to allow their Senators to represent that State in the Peace Congress, and adopted a resolution against any amendment of the Constitution recognizing slavery or its extension in territory now free.

The Charleston Mercury advises South Carolina to hold on to her cotton six months, so as to starve Great Britain and the North into an acknowledgement of her independence. 'Tis a bright suggestion. "Why don't you keep your clothes in a trunk, Pat?" "What! an' go naked?"—*Louisville Journal.*

PREPARATIONS AT FORT SUMTER.—The Charleston Mercury intimates that the parapet on the south side of Fort Sumter has been cut away to allow the guns *en barbette* to be depressed at the angle necessary to sweep the wharf and the waters adjacent.

NEW YORK, Feb. 22.—A special dispatch to the Evening Post says the President at the last moment countermanded the order for the parade of the army force today, also the order for firing a salute, to satisfy the secessionists.

THE NEW LOAN.—The New York Journal of Commerce says: "There is a fair prospect that the new loan will all be taken, as one of our private bankers is making up a combination bid which will probably amount to half of it."

CONGRESS.—Thursday, in the Senate, the Postal bill was discussed; it was supported by the North as a peace measure, and opposed by the South as coercive.—Mr. Douglas said he believed there was a plot to break up the Union, and there were as many traitors North as South.

Mr. Wilson made his long-expected speech in defence of Massachusetts and Gov. Andrew, and in opposition to the Crittenden resolutions.

In the House, Mr. Dawes, from the Special Committee on the President's message, reported censure upon Secretary Toucey. He charged that the whole Atlantic coast was defenceless, while twenty-eight vessels were dismantled in port, and denounced the acceptance of the resignations of Naval officers implicated in the secession movement. Mr. Dawes gave notice that he should press the House to a vote.

Mr. Pocock of Virginia, announced that he was in favor of the immediate secession of that State, and Mr. Barrett declared that coercion would drive Missouri and the border States to resistance.

THE PEACE CONFERENCE.—The Washington correspondent of the Boston Advertiser, under date of Feb. 22, says:—

The Peace Congress, pursuant to order, at one o'clock to-day proceeded to vote.

The first vote was upon a preliminary question, about the right to a seat of a delegate from Kansas appointed by the territorial Governor. After much discussion the delegate voluntarily withdrew.

Amendments are allowed, with ten minute speeches to explain them. Consequently delay is caused.

A proposition absolutely recognizing slaves as property, was rejected, by a vote of three States against seventeen.

After a long sitting the Conference adj.

The question now pending is upon the proposition to say that slavery shall be prohibited in territory north of 36 deg. 30 min.; whi e south of that line it shall not be prohibited. Simply this and nothing more to be put in the Constitution. Many members, both from the North and the South, are willing to agree on this, which is generally regarded as a happy adjustment. If the rule can be enforced to prevent waste of time, the vote will probably be taken to-morrow, and the above is as likely to be adopted as anything.

FROM WASHINGTON.—The Boston Journal of Saturday evening publishes the following despatches:—

Mr. Lincoln arrived here by the early train this morning, accompanied by Col. Lemon and Mr. Allen.

Mr. Lincoln was summoned here by his political friends, as it was evident yesterday that a majority of the States in the Peace Conference would vote for the amended Guthrie propositions, many Republicans having become convinced that their passage alone can keep the border States in the Union.

Every one here regards the question of peace or war as about to be decided, and great anxiety prevails. Some of the Commissioners are evidently more desirous of securing office under Mr. Lincoln for themselves or their friends than anything else, and his decision will be decisive.

Some say Mr. Lincoln came on in advance of the programme on account of the apprehended trouble at Baltimore, of which he was advised.

FAYETTEVILLE, Ark. Feb. 20.—The official vote of Washington county shows a Union majority of 1400. Prominent secessionists are gradually conceding that the State has gone largely against secession. Fort Smith, Benton, Washington, Sebastian and Crawford counties elected Union delegates to the Convention by over 4000 majority. The majority against holding a convention was about the same.

An extra overland coach from Sherman, Texas, reports the seizure at Fort Chadbourne by Texans of the coach with the mail overdue here. The property of the company within reach was all seized. The agents and other employees are said to have been imprisoned. It is reported that Forts Chadbourne and Belknap have been captured.

FROM CALIFORNIA.—The Pony Express, from San Francisco 9th inst., arrived at Fort Kearney, 21st. Several heavy failures had occurred at San Francisco.—It is reported that eight or nine hundred men have been enrolled in the San Francisco Knights of the Golden Circle, whose object is to favor a Pacific republic.

The whites and Indians in the vicinity of Humboldt Bay are at war. Thirteen Indians had been killed in the onslaught.

PHILADELPHIA, Feb. 22.—The Democratic State Convention unanimously adopted a series of resolutions in favor of State sovereignty, the Union, the rights of the States and the Territories, &c. A committee was appointed to convey the resolutions to the President.

A JEALOUS INCENDIARY.—Samuel Hillhouse's barn, in Readsboro', Vt., was set on fire a few nights since, by a man named Dwight Cannedy; and a span of horses, a yoke of oxen, and a cow and calf were burned up. Cannedy's wife, from whom he had separated, worked for Mr. Hillhouse, and jealousy instigated the deed.

☞ The Empress of France recently sent five hundred francs to the wife of a Sergeant de Ville, who had just presented her husband with three girls, *ensemble.*—As the poor Sergeant had six children already, he was naturally consternated, and the Empress expressed her munificent sympathy through the Prefect of Police.

EXECUTIVE APPOINTMENTS.—February, 1861.—William H. Bardett, Concord, Associate Justice of the Supreme Judicial Court, to fill a vacancy occasioned by the resignation of Hon. Asa Fowler.

Justices of the Peace and Quorum throughout the State — Lewis W. Clark, Manchester; John L. Spring, Wilton; Albert Little, Richard H. Messer, New London; James W. Emery, Portsmouth.

Justices of the Peace and Quorum for Rockingham County.—Samuel G. Clarke, Northwood; John E. Rider, Portsmouth; William S. Pillsbury, Londonderry.

Would you have sweet and healthy Bread, Biscuit, Cakes and Puddings? Use Herrick Allen's Gold Medal Saleratus. It takes less in quantity, will not make your Biscuit or Bread yellow, is a sure preventive to the decay of teeth, is perfectly healthy, and makes one-fifth more Bread and Biscuit from a barrel of flour. Never use soda if you can procure this article. Try it. Most all good Grocers sell it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and thus speedily. When did it ever fail?

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a lact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few doses perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawâm

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation, the Blues, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excess and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawâm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,*—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*: So generally acknowledged is the superiorexcellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug. 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became so quainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES P. PACKER, Greenland; S. HANSON, Jr., New Market; PORTER & TRUE and WM. H. SAWYER, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. e25 4w

YOU CAN'T FIND

AN ARTICLE THAT SUITS AS WELL

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Apothecaries and consumers all testify that IT IS THE ONLY RELIABLE ARTICLE FOR THE BALD AND GREY

Read the testimony from Kentucky.

PADUCAH, KY., July 27, 1860.

Mr. W. A. BELL—Dear Sir:—I have used HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, and am satisfied from an experience in all other preparations for the like purpose, that it is *the only article ever before the public worth purchasing.*

Yours truly, JOHN G. DALY.

PADUCAH, Ky., July 27, 1860.

Messrs. W. E. HAGAN & Co., Troy, N. Y.

Gents:—Above please find statement of Mr. John G. Daly, merchant of our city, in regard to HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. This testimony is given after having used most of the preparations now before the public, *claiming* to be Hair Restoratives, and *must be considered counterfeits* as to the merits of the *Inimitable*. Am out of the large size. Forward by railroad double the quantity we had before. Very truly yours

W. A. BELL.

Sold everywhere; price 50 cts. and $1 per bottle.

To All Weak-Kneed Republicans!

LOOK AT THIS!

STRENGTHENING PLASTERS for all those Republicans who at this time have got a weak spine, and whose knees are weak, owing to the Slavery agitation. Any person using these Plasters, and not being relieved from bowing his knees to the Slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be either of the Senators or Representatives in Congress from New England troubled with the Slave weaknesses,—I will supply them without pay. These valuable strengthening Plasters are for sale at 12 and 17 cts. each, according to the size, by

B. HUTCHINGS, 4 Market Street

Local.

☞ The funeral procession of Mr. Wm. Rand, on Saturday afternoon, was one of the most imposing which has ever passed through the streets of this city. Led off by the Odd Fellows and Free Masons, the hearse was accompanied and escorted by the Knights Templar and a detachment of the Governor's Horse Guards, followed by the led horse of the deceased, and by a long train of mourners in coaches. The full Portsmouth Cornet Band furnished appropriate and excellent music, as usual.

The procession formed on Congress St., and proceeded to the residence of the deceased, on Elm street. Here the officers of the Knights Templar and the Horse Guards, entered the house and placing the hats, swords, &c., of the two Orders, belonging to the departed, on his coffin, received the body in charge, and marched to St. John's Church, of which the deceased was a Warden; where the burial service was impressively read by Rev. Mr. Hitchcock, rector; after which the procession conveyed the remains to their place of burial in the Union Cemetery.

In the haste of preparation, no Chief Marshal of the Procession was appointed; and the officers of the Lodge to which was given the head of the Procession, supposing the services were to be at the Middle Street Church,—by mistake led the Procession that way.

The funeral was conducted jointly by the Knights and Guards. At the church, among the numerous attendants, were His Excellency Governor Goodwin, accompanied by Lt. Col. Bellows, from Concord, of the Horse Guards, and several other members of the corps, in undress.

The Encampment of Knights Templar was commanded by Frank Fuller, Warder—A. R. Hatch, Eminent Commander, with other officers, following the hearse. J. B. Adams was Marshal of the Encampment of Odd Fellows; James Larrabee of New Hampshire Lodge; and Thomas Norton, of the Masons.

Lieut. F. W. Miller commanded the detachment of Horse Guards—and Privates Frank Jones, John Stokell, G. V. Rowe and J. E. Eldredge were the pall-bearers at church.

At the entrance of the cemetery, the Guards—not being prepared to take part in the services, as their Chaplain was not present, and it had not been deemed advisable to fire vollies over the grave—withdrew; and the Free Masons performed their burial rites—Templar services by Sir A. R. Hatch, and Ancient Masonic services by Wor. Bro. John Christie.

MISTAKES.—People who have solved the mysteries of a printing office, readily comprehend how easy it is to commit errors there—which, though but as one in a thousand compared to the accuracies, yet are much more apparent to the general acceptation—as in fact, the wrong is always and everywhere vastly more prominent to beholders, than the right.—For instance, if in a column of hundreds of thousands of types, three or five letters should be wrong, (an unusually large number,) the whole would be said to be "full of errors." And if in any daily standard item, an error should happen three times out of the year's three hundred, why the thing would be pronounced "wrong half the time."

The outsides of all papers are printed before the inside. And as our "press-gang" would not be at work Friday, nor Saturday morning,—on Wednesday evening they worked off the first side for Monday. The outside for Friday had been previously printed; and in their natural haste to be done, the pressmen took the wrong heap of outsides to print Friday's paper on. This of course left only that which should have been used on that day, to print this morning's paper on. So that is how the two days' issues came to exchange dates, and both be wrong.

WASHINGTON'S BIRTH DAY was observed in most parts of the country, with great zeal and enthusiasm.—In Philadelphia, Mr. Lincoln, the president elect, went to Independence Hall at seven o'clock in the morning, made a brief speech on liberty, union, and peace if possible, and hoisted the American Flag.

In Portsmouth the bells were rung at sunrise, noon, and sunset; salutes were fired at noon, from city and Navy Yard; schools and shops were closed, and a general holiday enjoyed.

CONCERT.—A large attendance at the Temple this evening, would be but a well-deserved compliment to the Portsmouth Cornet Band, as well as to the Goodwin Guards; and we trust our citizens generally will be mindful of the fact. Besides, the programme alone will offer sufficient inducement to almost any one, even should patriotic impulses be at too low an ebb to cause full attendance.

☞ "I've been 'round the Pound in forty minutes," exclaimed an enthusiastic pedestrian, the other day, to a person he met on his return from a walk. "Pooh," said the other, "I know a man who can go 'round forty pounds in one minute."

Messrs. Editors:—Your paper of Friday contained a notice of the death of Capt. Edwin Salter of the ship John Haven, and son of the late Henry P. Salter of this city. Capt. Salter died of fever, on the passage from Manilla to New York, on the 29th of November, at the age of 26 years. He was a young man of more than ordinary ability, and had already taken a high stand in his profession, having received a thorough mercantile education before going to sea. To a judgment unusually matured, strict morality and integrity, and a quick perception, he added devotedness to his business, and gave eminent promise of usefulness and success. He had won for himself the affection and respect of numerous friends at home and abroad, by an amiable and thoughtful disposition; and his death will be sincerely regretted by all who knew his noble qualities. The deepest sympathy will be felt for those who have been thus early bereaved of a most loving and dutiful son and brother.

THE FAMINE IN KANSAS.

Appeal for the Destitute, from the New York City Committee.

WM. C. BRYANT, Chairman. J. E. WILLIAMS, Treasurer.

Chas. H. Marshall, Seth B. Hunt, R H. McCurdy, Morris Ketchum, G. C. Bronson, Chas W. Elliott, Daniel Lord, Daniel Drew, J S. Wadsworth.

It has become our imperative duty to urge upon the public attention the fact that over 40,000 of our fellow citizens in Kansas are now in imminent danger of starving. We have evidence from all sources—from Gen. Pomeroy, Chairman of the Territorial Relief Committee,—from the columns of nearly every newspaper, of all shades of politics—from our own reliable agent, who has just returned. There was no doubt of the misery, terrible, wide-spread, destructive.

We have evidence that whole families have already died of starvation; and that thousands are lying down discouraged, and die of war or disease consequent upon it, unless prompt and thorough relief is at once applied. Congress is now attempting to sustain the starving Indians, but our 40,000 fellow countrymen—men, women and children—can neither get away from their desolation, nor borrow, nor beg. Their only dependence is upon us, who have never known hunger.

THEY MUST BE SUSTAINED. Will you help us to help them?

To assure you that whatever you do will reach them, we state that in every destitute township is a Relief Committee—that we are all represented by the Territorial Committee, as follows:

TERRITORIAL COMMITTEE.

S. C. Pomeroy, Atchison; W. W Guthrie, Brown County; J. L. McDowell, Leavenworth; Rev. C. Reynolds, Lawrence; Rev. L. Bodwell, Topeka; Dr. S. Ayers, Linn County; F. U Blake, Junction City; C. B. Lines, Wabaunsee; F. B. Baker, Centralia; Rev. Wm. Bishop, Salina;—Judge A. Spaulding, Jefferson County; J. C. Burnett, Bourbon County; J. C. Lamdin, Butler County; Geo. M. Russell, Wyandotte.

EXECUTIVE COMMITTEE.

S. C. Pomeroy, Chairman; J. L. McDowell, Rev. C. Reynolds, Rev. L. Bodwell, F. P. Baker.

S. C. POMEROY, Corresponding Secretary.
G. H. FAIRCHILD, Treasurer.

Gen. Pomeroy is Chairman, and at ATCHISON devotes his whole time and energy, with assistants, to the receipt of food and clothing, all of which are delivered upon requisitions of Town Committees, and are distributed through them.—This organization is prompt, thorough and effective, and we advise the sending of supplies through it. Money and clothing are needed from us;—food can be got in the West.

The names of our committee appear at the head of this appeal, and we hope will be sufficient to induce co-operation. Our Treasurer is JOHN E. WILLIAMS, *President of the Metropolitan Bank*, New York City. All money sent to him will be applied to the payment of Gen. Pomeroy's drafts on account of freights and sacks. We appeal to you all, by every dictate of humanity, of honor, and of public good, to unite with us in alleviating this great calamity. There is no time to be lost.

FIRST—We ask individuals everywhere to contribute at once, and to urge it upon their friends and neighbors.

SECOND—We appeal to all churches and organized bodies to act promptly, generously and efficiently.

THIRD—We urge upon EVERY GOVERNOR OF EVERY STATE immediately to bring this matter to the attention of their Legislatures and people. Our advices show that nearly $200,000 is needed within the coming fortnight, to supply this people with seed for Spring planting. It can only be furnished by State action. Every consideration of interest also demands that this new State should be enabled to become self-sustaining, productive, and eventually rich—thus to fulfill her destiny, and to help others, as we are now helping her.

We ask, therefore, every Legislature to do as they would have others do to them in like distress, and at once to grant ample supplies.

All money sent to our Treasurer, JOHN E. WILLIAMS, *Metropolitan Bank*, New York City, will be gratefully acknowledged and effectively used.

All Clothing should be sent to "GEN. POMEROY, Atchison, Kansas," and freight should be prepaid. DaWlm

FORECLOSURE OF MORTGAGE.

Notice is hereby given that I, the subscriber, John W. Odiorne, of East Boston, in the County of Suffolk and State of Massachusetts, took peaceable possession, this nineteenth day of February, A. D. 1861, of the following described Real Estate, viz.: A certain lot of land, with the dwelling-house and out-buildings thereon, situated on the corner of Tanner and Marlborough streets, in Portsmouth, in the County of Rockingham and State of New Hampshire, and bounded and described as follows, viz.: forty-nine feet, more or less, by Tanner street; thirty-one feet, more or less, by land now or formerly of E. and W. F Queseau; forty-nine feet, more or less, by land now or formerly of A. W. and G. W. Haven; and thirty-six feet, more or less, by Marlborough street; being the same premises mortgaged by the late James H. Marston, deceased, and his wife, Maria T. W. Marston, to William D. Fernald, as per their deed of Sept. 14, 1853, recorded on Rockingham Records, Lib. 356, Fol. 329, which mortgage was assigned to me by said Wm. D Fernald, Dec. 20, 1860, as per assignment recorded on said Records, Lib. 386, Fol. 312; and also the same premises mortgaged by said James H. Marston and wife, to Nathaniel K. Haynes and Thos. Neil, as per their deed of Jan. 19, 1855, recorded on said Records, Lib. 352, Fol. 52, which mortgage was assigned to Wm. D. Fernald by said Nath'l K. Haynes and Thos. Neil, April 10, 1858, as per assignment recorded on said Records, Lib. 378, Fol. 366; and subsequently, to wit, on the 20th of December, 1860, assigned to me by said Wm. D. Fernald, as per assignment recorded on said Records Lib. 388, Folio 313.

Said possession is taken for condition broken of both the aforesaid mortgages; and the object of such possession is to foreclose all the right which the said James H. Marston and Maria T. W. Marston, or his, or her or their heirs, assigns, executors or administrators had, or have, to redeem the said premises from said mortgages.

JOHN W. ODIORNE.

CERTAIN CURE, CERTAIN CURE,

—FOR—

RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA

COMPOUND;

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, six years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Comdound, which afforded decided relief. I think it the best and most efficacious medicine for that disease, I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

Principal Depot—87 Kilby st., Boston.

DO YOU WANT A MUSTACHE?

BELLINGHAM'S

Celebrated Stimulating Onguent!

For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT

is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article to every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the Article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

ANOTHER SECESSION.—It looks now as if South Carolina wants to have recourse again to another "secession dodge" on a more independent and exclusive plan. She feels it to be a bitter thing to have the game taken out of her own hands. Her own politicians of the Rhett school have been quietly set aside, and more conservative men, Davis and Stephens, have been put at the head of the new government. Her pet notion of free trade does not meet with such an overwhelming approval as she was determined to have. She finds herself absorbed in a confederated government. The only road now open for her, is to commit a little quicker suicide than she has already been approaching. Mr. Davis' election to the Presidency of the Southern Confederacy will, of course, be just as good an excuse for secession No. Two, as the election of Mr. Lincoln was for the original exit from the federal government.

Secretary Floyd's illegal acceptances were forbidden, it is now said, by the President, after Mr. Benjamin's information, but not regarded. The Secretary of the Treasury has been obliged to issue proposals for a loan of *eight Millions* to meet the demands of government previous to March 4th; there will be a dead loss of hundreds of thousands, unless State guarantees are at once offered and accepted. These offers have however been made to limited amounts. So much for Buchanan's retiring glorious administration. We have strong reasons for believing that Secession will go no further at present. Let us rejoice that our predicted redemption draweth nigh.

The prophesy of the Hon. Geo. P. Marsh, of Burlington, in Oct. 1856, in the presence of several gentlemen, as now revealed by one of them through the N. H. Statesman of Feb. 9th, leads in retrospection to many painful facts and circumstances, much easier now, than at any previous periods, to be solved. Mr. Marsh, our Minister Constantinople during the Presidency of Mr. Fillmore, stands high as a statesman and a scholar. He said,

"Mr. Buchanan will doubtless be elected. But in my opinion he will be the last President of the *United States*'—giving the particular emphasis on the word *United*—and gave his reasons for his belief at once:—Mr. Buchanan was a mere politician—has no qualifications, either mental or moral, and he will be the mere tool of Southern slaveholders. The South will make their demands. He distinctly foreshadowed the Dred Scott case, then pending, and that under all the demands which have since been made, would come up—to be resisted and then followed by secession. "Yes, gentlemen, (he said) I think James Buchanan will be the last President of the *United* States."

Chosen by the slaveholding interest, his Cabinet, (doubtless selected for him) were mostly a majority at least from that class, with Gen. Cass for Secretary of State, and Toucey of Connecticut, for the Navy. Gen. Cass resigned as soon as he became assured, it would appear, that Buchanan was in the hands of the traitors, Cobb, Floyd, and Thompson, (all obliged to resign when the mischief had been accomplished, by the force of public opinion) while Toucey only remains—and who knows that he is not as deep in guilt as any of them?

With 20 millions in the Treasury, Cobb, the guardian of our finances, has contrived to get rid of that little sum, to borrow 20 millions more; and now his successor, Gen. Dix, says, 20 millions extra must be raised at once to meet the public exigencies of the financial year, and save the credit of the government!

What has become of the money? We have had no war, though five or six millions were swallowed up in the useless Utah expedition, and supporting an army to force slavery upon Kansas.—How much of it has gone, in one way and another, to aid the States, will yet, we trust, come to light. We know that our arsenals have been emptied through Floyd, the Secretary of war, and that no less than *six millions*, according to report of the committee of Congress, is gone, in withdrawing the Indian trust funds, sanctioned by the Secretary; which paper was sold and realized by, *ostensibly*, certain government contractors, now irresponsible! The frauds proved in the Covode Committee of last year, are but as drops in the bucket of corrupt expenditure. And now particular attention is called to the Department of the Navy—the scarcity of such vessels as are required at this crisis, and the *judicious* disposition of the proper vessels in distant stations. There is, in fact, every evidence, that, foreseeing the relative growth of the free states, the present state of things has been *providing* for, for years, under a weak President, who has proved to be the very man for them. The breaking up of the Charleston Convention was the first act in the drama.—Never before had a President met such evils and difficulties to contend with. Never did time before require so much decision of character, so many sacrifices to patriotism, so much devotion. Let each be generously awarded.

Every body who is not in favor of making slavery national, and of allowing a minority to rule, are abolitionists in the Breckinridge dictionary. The supporters of Judge Douglas last fall were denounced in the same way as Republicans are now denounced.—Does the Gazette expect the Republicans to agree to principles which the supporters of Douglas opposed in the Charleston Convention? Does the Gazette expect to drive the supporters of Lincoln and the Union into the ranks of the secessionists by calling our candidates "*Abolitionists*?" If the Gazette will let its readers know what ground occupied by the Republicans he objects to, the public may learn whether they have invaded or intend to invade the constitutional rights of any portion of the country or people. It may then learn whether the principles it supports are in harmony with the feelings of the Democrats in this part of the State.

During the entire trip Mr. Lincoln has worn a shocking bad hat, and a very thin old overcoat.—Shortly after leaving Utica, Mrs. Lincoln gave an order to William, the colored servant, and presently he passed through the car with a handsome broadcloth over-coat upon his arm, and a new hat-box in his hand. Since then Mr. Lincoln has looked fifty per cent. better, and if Mrs. Lincoln's advice is always as near right as it was in this instance, the country may congratulate itself upon the fact that its President elect is a man who does not reject, even in important matters, the advice and counsel of his wife.—*Corres. N. Y. Times.*

Morning Chronicle.

Col. Webb, of the N. Y. Courier—who was once in the "regular army," is uneasy in those unsettled times; he draws his sword, swings it round his head, and exclaims—"Neither life nor property can be safe under a Government which cannot enforce its own laws; and if we are actually without any government, and in a state of anarchy, the sooner we find a Government of sufficient strength to give us protection, the better it will be for all parties. Let us at once establish a Monarchy, or if necessary, a military Despotism." Hold on Colonel—don't go out without your coat. —*Boston Post.*

☞ The Legislature of Ohio has passed an act guaranteeing the bonds of the Federal Government to the amount of two millions seven hundred thousand dollars.

Why is a clergyman near the end of his sermon, like a boy who has rent his integuments? Because he's tored his clothes.

The purest joy we can experience in one we love, is to see that person a source of happiness to others.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is coming upon you, and should be averted by a timely use of the right remedy. This Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the life move on unobstructed in health again. They stimulate the functions into healthy action, quicken activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, and often much suffering. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and how quickly the feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous diseases. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are equally the cure of these diseases, and yet by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been also cruelly afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGENSTERN

As a Family Physic.

From Dr. E. W. Cirtwright, New Orleans.

Your Pills are the prince of purgas. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you what complaint I have cured with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Beaver Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked. Indeed, I have found in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely believe that we have at length a cathartic which we may justly the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1855.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is very decided, and consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Mr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy where a dose of calomel does a bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in discourse. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaspin, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join in your cause in making it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the proximate cause of others far worse. I believe pretty firmly in originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are wonderful preventives of the natural convulsion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hewitt, of the Methodist Episc. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 8, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating rheumatic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Mr. Blackwade, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease which had afflicted me for years.

VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the *direful consequences* that frequently follow its incautious use. These Contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

Dyspepsia Remedy

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intoxication, It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most moribund Stomach, dropping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, are subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of drinking spirits, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all these distressing symptoms.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, happy, to move all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the cheek.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at all times, and strengthen the system.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, and offers it at 50 ct. per bottle.

General Depot, 48 Water street, New York.

Weeks & Potter, and M. S. Burr & Co., Boston. General Agents for New England.

For sale in Portsmouth by PRESTON and THACHER, and B. HUTCHINGS. Sold by all country dealers. lydmay1

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases and infirmities of infants are due to a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a medicine which we feel assured will convince you of its superiority over every other preparation of the kind. It is partic-larly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are filled with foreboding thoughts of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation* and *Relieving the Child from PAIN, DISEASE & ATTENDING TEETHING*, such as *Diarrhœa, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic*, and last, but not the least, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are sold to die than from any other disease, is also relieved and cured in a speedy manner, as if by magic; and in this direst complaint alone, its intrinsic value is such that it has become common for one mother to tell another, until the name of DR. EATON'S INFANTILE CORDIAL, has become familiar as a household word. We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we are fully warranted in asserting cannot be said of any other preparation of the celebrated kind, at this time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the dreadfully blighting consequences which are attendant upon the use of narcotics disguised in the form of quieting remedies; their continued administration being invariably productive of a train of evils, such as costiveness of the bowels, ending oftentimes in convulsions. Here in DR. EATON'S INFANTILE CORDIAL dif-fers from every other remedy. It

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, (by its rare medicinal qualities,) by removing all pain and cause of disease. We earnestly recommend you, dear Mother, to bear in mind, that if you find that you may have at hand a remedy which will never fail to relieve your child in time of need, *it is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts per bottle.

—IT IS—

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS July 10, 1860.

O. J. WOOD, Esq.,—*Dear Sir:*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 6 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced using it my hair was quite thin, and at least one third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware it is now in all parts of the world, and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have heard persons who pronounced it a humbug; saying they had used it and without effect. In every instance, however, I proved to the party doubtfer, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have collected two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article that has stood the test of so many years, and that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an original notice, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation, who have used it for some for baldness, gray hair, scalp head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learn ed you were now doing in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to Post Office Box No. 1820, will be promptly attended. Yourself, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be embraced by new-paper puffs. In our own vicinity it has been extensively used, and we do not know of a case with every dealer and manufacturer receives the universal indorsement of all who have tried it. We therefore recommend it as one of the genuine articles which will accomplish all they profess, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we know to be of the highest rank as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Boston Olive Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums; but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off, or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head has become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are so selected and combined as to counteract all other impurities which operate so injuriously to the hair. It also has curative powers of another description, for it removes dandruff and other disfigurements of the skin disappear wherever it is used. There is no hazard attending to the trial of this article, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as we have from time to time perfectly innocuous.—*Boston Transcript, April 23, 1859.*

WARREN SPRINGS, Perry Co., Pa., June, 7, '59.

PROF. WOOD—*Dear Sir*—I was induced to procure than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for many years, and never been able to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to say and recommend it to universal use, for it has completely removed all dandruff from my head, and an application once a week keeps it free from the dandruff and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, to the best of my knowledge of it, I have not a few gray hairs to remain, in order to have my appearance comport with my age. My head is now free from trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, altho' I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence so no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as he has ever seen, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that the hair could be restored. He tried his own case—almost bald and wholly gray at 37—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Medicinal purposes, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling reasonable rate, a Brandy of our own importation from one of the most responsible houses France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character. Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

Morning Chronicle.

FACTORIES.—There are in Massachusetts 298 cotton mills, estimated to be worth $20,964,486, and 177 woolen factories, valued at $7,363,350.

One of the factories at Palmer, Mass., has received looms from Georgia for the manufacture of drilling. They were unprofitably used there for a short time by a Southern company.

WHALING.—The aggregate whaling fleet of this country in 1847 was 655 vessels, comprising 204,209 tons,—and in 1861 it was 514 vessels, comprising 158,747 tons —showing a decrease of about 22 per cent

The returns of whalers since 1857 have averaged losses to all, and in one year it was estimated they would amount to nearly one million of dollars.

☞ The Portsmouth Company, at South Berwick, Me., have declared a dividend of 5 per cent. The mills of this company are now under the superintendency of Francis W. Hale, Esq., recently of Dover. Commenced in 1838; make sheetings—last reported capital $183,200.

Mr. Lincoln fears "the great confidence in his ability is unfounded." Every speech he makes is calculated to strengthen such an opinion.—*Boston Post.*

Excellent Chance—Encouraging News.
The undersigned, aware of the hard times, for the next thirty days will dispose of his entire stock of
Winter Goods at Cost Prices.
Let all persons who are desirous of procuring a good suit of clothes for little money, immediately avail themselves of this offer, which is lower than can be afforded by any other house in town.
The stock, comprising all the latest styles, will be sold without reserve Having laid in a complete assortment, the subscriber can confidently assert that no better chance could be offered during the present period of tightness in the money market.
The stock consists of fine Beaver, Pilot and Broadcloth Overcoats, heavy Cassimeres and Doeskin Pants, with a superior lot of Vests. Also, fine Business Coats, Black Frock Coats, &c. He can also recommend his assortment of Furnishing Goods, consisting of fine Shirts, Undershirts, Drawers, &c. Orders punctually attended to and executed at the shortest notice at
NO. 54 MARKET STREET.

New Photographic Establishment.
Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.
The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.
All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.
Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street**, opposite the New Custom House.

CONSUMPTIVES.
An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the blood to circulate?
For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery also.
Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which results or destroy, and death, the certain effect, follows.
Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorus.
The air we breathe we know to contain a very large proportion of oxygen.
Oxygen, brought in contact with metal, evolves or emits electricity.
Electricity, brought in contact with a muscular fibre, causes it to contract.
These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest arteries. What, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.?—a deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and prone to rheumatic pains and neuralgic complaints of the liver and kidneys set in: in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules.
Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the
"BLOOD FOOD,"
which restores the red globules and the normal circulation. Consumptives! friends of consumptives! Sufferers from any organic disease! Unfortunate who have by errors, or the ills of mind, reduce the standard of the blood and diminished the red globules! Ladies suffering any of the diseases known as "female complaints"! Be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all else had been given up. Do not despair, but not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.
An elaborate treatise, clearly ring out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent postage stamps. Blood Food is sold by all druggists, or where it cannot be had, I will send 6 bottles, free of expense, for $4. Price, single bottle, $1. It is put up in 8 oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers, having been done away with and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.
C. T. DUPONT, Sole Proprietor,
feb4 409 BROADWAY, NEW YORK.
Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a pleasant and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *aromatic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, FEBRUARY 26, 1861.

Two Reasons.—Uncle *Toby* has read somewhere, he thinks in the Bible, of a certain character who was "wiser in his own conceit than seven men that can render a reason;" and of another man, or more likely the same, that there "is more hope of a fool than of him."

He was forcibly reminded of these proverbs one day lately, by hearing a noted politician say, the south are right, they have the right to secede, and they have done right. For this he gave these two reasons:—viz. that slavery is a divine institution, ordained of God from the beginning; and that the south has always maintained or supported the north.

Such cogent reasons, and so new, could not be answered, of course, but one bystander irreverently burst into a hearty laugh, as much as to say, tell that to the marines!

Sensation Papers.—It is really amusing to see what airy nothings a small class of newspapers will seize upon, and magnify in the manufacture of sensation news or of political capital. The N. Y. Herald, for instance, creates a sensation item, contradicts it; electrifies it again into life, and finally consigns it to a second and more effectual death, in its four successive editions. This rather exciting and inflammatory style of journalism, of course, has its imitators in other presses throughout the country, where it can be made to pay well by rushing off a large edition of the "latest news." "Fort Sumter to be attacked immediately!" is the heading, in large capitals, to arrest the attention. A reference to the telegram proper from Washington, or Charleston, will probably read, "It is rumored that Fort Sumter will be attacked immediately after military orders for that purpose have been given." We are glad to observe that this reckless method of deluding the public is now on the wane, and that the sleepiest purchaser of the news has by this time got his eyes open. T.

New York, Feb. 25.—The Times' Washington correspondent says Crittenden called upon Mr. Lincoln yesterday. Mr. C. afterwards expressed himself much pleased, and has strong hopes that Mr. Lincoln will bring the country out safely from its present difficulties.

Jefferson Davis' visit to Charleston is understood to be to guard against an attack on Fort Sumter until the character of Lincoln's inaugural is known. If it is peaceful, there will be no attack.

Washington, Feb. 25.—It is the general belief that the Peace Congress will adopt to-day or to-morrow the two propositions of Mr. Franklin of Pennsylvania, with amendments virtually restoring the Missouri line, and prohibiting the existence of slavery Northward. This proposition was passed in the full committee on Saturday by a decisive vote.

Mr. Seward's son met Mr. Lincoln in Harrisburg, with a message from Messrs. Seward, Scott and Holt, announcing a conspiracy against Lincoln's life, and urging him to anticipate it by a secret journey to Washington—to which, after considerable discussion, Mr. Lincoln reluctantly consented. He was not disguised with a cap and cloak, as has been asserted.

The Rhode Island Peace Commissioners have solicited Mr. Lincoln to favor a compromise, but he refused, asking what he was elected for but to secure freedom for the Territories.

☞ The Buffalo Courier asserts positively that Mrs. Brennan, of New York, about whose mysterious disappearance, and probable murder, there was so much talk, is now living in Florence—or was six weeks ago—with Mr. Wyman, who accompanied her to Europe. She wrote to a person in Florida, from Florence, in December last, stating that she should never return to the United States.

The Tuilleries an Unlucky Palace.—It is a circumstance, that during the three hundred and fifty years the palace of the Tuilleries has been a royal dwelling, no French sovereign has died within its walls. In connection with this fact, another may be mentioned. Ever since 1558, every French Sovereign who has made the Tuilleries his abode, has been compelled, at some time or other, to quit the shelter of its roof.

☞ Rev. Winthrop Fifield, of South Newmarket, has been surprised by gifts of money, a sewing machine, and other substantials, from a party of his parishioners.

☞ The administration has been officially informed that no foreign government sympathizes with the secessionists, but all express solicitude for the maintenance of the entire Union.

☞ Mrs. Gov. Morgan, of New York, has lost her beautiful diamond breast pin, valued at $2000, and feels much distressed about it.

☞ It is said that $200,000 more has been lost than gained in the oil wells in Pennsylvania. The reports to the contrary are for speculative purposes.

Intelligence from Fort Sumter states the Major Anderson's illness was from an attack of pneumonia.

☞ In the Peace Congress at Washington, on Friday, the Crittenden plan, so called, was moved by Mr. Reid of North Carolina, as an amendment to the majority or Guthrie proposition, and was rejected, seventeen States voting against it and only three for it.

This shows conclusively, how unpopular and *impracticable* the famous Crittenden compromise really is, when it is put down there by such a decisive vote. And yet there are persons and papers who have recommended this same compromise to New England men, and advised New Hampshire republicans to accept and vote for it.

☞ The steamer South Carolina, Capt. Baxter, sailed from Boston, Saturday afternoon, for Charleston. The South Carolina took a large freight of a great variety of goods, from an examination of which can be obtained a good idea of the wants of the seceding States, who voluntarily imposed an embargo which is now temporarily removed. Among the articles are many hundred cases of boots and shoes of all descriptions. One of the owners of the line has on board fifteen hundred cases. There is also a large quantity of provisions, including butter, apples and potatoes. The pressing necessities of the inhabitants of the Palmetto State are considered in the shipment of a few barrels of rum, each barrel stamped upon the head with representations of the palmetto trees. Several pianofortes were also included. Such a promiscuous freight (says the Atlas) rarely leaves Boston.

☞ The Charleston Mercury of the 22d states that dispatches from Fort Moultrie to Governor Pickens, say that a pilot had seen steamer Daniel Webster off Cape Romaine, Thursday noon. Gen. Dunnovan and Capt. Hamilton immediately proceeded to Fort Moultrie, and Major Stevens repaired to Morris Island. The batteries and everything were got in readiness for the expected visitors, but up to four o'clock on the morning of the 22d no steamer or boats had entered the harbor. A sharp lookout was being kept.

Tom Hyer Sees the President.—The World, describing the reception by Mr. Lincoln in New York, says:

"Quite a little stir was evinced when the redoubtable Tom Hyer made his appearance and introduced himself to 'Old Abe.' 'I'm Tom Hyer,' said he, as he came up. 'Oh! you are, are you?' exclaimed Mr. Lincoln; 'I hope you won't hit me.' This sally was followed by shouts of laughter, in which both the President and the ex-champion joined."

The Peace Conference.—*Philadelphia, Feb. 23.*—This evening's Bulletin contains a special dispatch from Washington, to the effect that in the Peace Conference Mr. Chase of Ohio offered a proposition that it is inexpedient to proceed to the consideration of the grave matters involved in the resolutions of Virginia until all the States participate; and that ample time may be afforded for deliberation, it is resolved that the convention adjourn to the 4th of April. An exciting debate occurred, but there is a prospect of its adoption.

☞ The Syracuse Standard says that while the rowdies were burning Rev. Mr. May in effigy, when the anti-slavery meeting in Syracuse was broken up a few weeks ago, the reverend gentleman was carrying provisions to the families of some of the drunken ruffians who were committing the outrage and insults, to keep their children from starving.

Chancery Sweat.—A Mr. Hartley of Southampton, England, recently deceased, bequeathed $500,000 for the building and endowment of a literary institution in that city. The will was disputed, the matter at length reached chancery, and in that circumlocution court the $500,000 was sweated to $200,000, which is to be applied to carrying out the testator's design.

☞ The new route between Portsmouth and Dover, advertised this morning, will be an accommodation to many; and it is for the interest of Portsmouth, and the people along the line generally, and the travelling public, that it be sustained. The projectors of the plan are both well known in this city.

Some sensible chap says, truly, that a person who undertakes to raise himself by scandalizing others, might just as well sit down on a wheel-barrow, and undertake to wheel himself.

☞ A young man named Stone had his hand blown off by the premature discharge of a cannon on the 22d, in Lowell.

Washington, 23.—The treasury loan bids opened at noon. Over thirteen million was bid for at an average range of 90.

☞ The returns of the national census show a very material growth of the slave population during the last decade—an increase of about thirty per cent. in ten years.

Elegant Present to Mrs. Lincoln.—*New York, Feb. 24.*—A few gentlemen in this city have presented an elegant coach to Mrs. Lincoln. It was forwarded to Washington on Saturday.

☞ Greeley says the town elections in New York will show that the heart of the Empire State is Republican.

THE PRESIDENT ELECT.

On Saturday morning, says the Washington correspondent of the Tribune, Mr. Lincoln suddenly and unexpectedly arrived here at 8 o'clock, having received warning at Harrisburg of an intended attempt upon his life.

He is at Willard's Hotel. This morning, accompanied by Senator Seward, he paid his respects to President Buchanan.

Intense indignation is manifested here at the cowardly conduct of the would-be-assassins. Mr. Lincoln's family, and the members of his travelling party left Harrisburg this morning, and will arrive at the Capital this evening.

The Harrisburg correspondent of the N. Y. Times says:—

Abraham Lincoln, the President elect of the United States, is safe in the Capital of the nation. By the admirable arrangement of Gen. Scott, the country has been spared the lasting disgrace which would have been fastened indelibly upon it had Mr. Lincoln been murdered upon his journey thither, as he would have been had he followed the programme as announced in the papers, and gone by the Northern Central Railroad to Baltimore.

On Thursday night, after he had retired, Mr. Lincoln was aroused and informed that a stranger desired to see him on a matter of life or death.

The stranger disclosed the astounding fact, that an organized body of men had determined that Mr. Lincoln should not be inaugurated, and that he should never leave the city of Baltimore alive, if, indeed, he ever entered it.

The list of the names of the conspirators presented a most astonishing array of persons high in southern confidence, and some whose fame is not in this country alone.

Statesmen laid the plan, bankers endorsed it, and adventurers were to carry it into effect. As they understood M. Lincoln was to leave Harrisburg at 9 o'clock this morning by special train, the idea was, if possible, to throw the cars from the road at some point where they could rush down a steep embankment and destroy in a moment the lives of all on board. In case of the failure of this project, their plan was to surround the carriage on the way to the depot, in Baltimore, and assassinate him with dagger or pistol shot.

So authentic was the source from which the information was obtained, that Mr. Lincoln, after counselling with friends, was compelled to make arrangements which would enable him to subvert the plans of his enemies, and Mr. L. left on a special train. He wore a Scotch plaid cap and a very long military cloak, so that he was entirely unrecognizable. Accompanied by Superintendent Lewis and one friend, he started, while all the town, with the exception of Mrs. Lincoln, Colonel Sumner, Mr. Judd and two reporters, who were sworn to secrecy, supposed him to be fast asleep.

The telegraph wires were put beyond reach of any one who might wish to use them.

At one o'clock the fact was whispered from one to another, and it soon became the theme of most excited conversation. Many thought it a very injudicious move, while others regarded it as a stroke of great merit.

Mr. L. went through Baltimore *incog*, and reached Washington before any body knew it, thus avoiding a public reception.

On Saturday afternoon, in the House of Representatives, in a committee debate on the tariff bill, Mr. Garnett showed his sympathy with the intended assassinators and traitors, by remarks which are reported as follows.

During the debate, Mr. Garnett, while discussing the amendment, alluded to the coming of Mr. Lincoln here at an early hour this morning, saying the latter had hurried through Baltimore for fear of Bill Yancey and Jeff. Davis, who were there with a six-pounder. It was necessary to put on additional taxes to increase the pay of the Lieutenant General, that he might have an additional plume in the wonderful career against his own native State. Scott had, in his notes of the campaign, quoted Puffendorf, the Pope, and all the rare classical poets he could find. The notes are not published, but they commence by saying, Lieutenant General Scott, after a sleepless night and a bad headache, suggests to the Secretary of War.

Here a point of order was raised against Mr. Garnett.

The Chairman (Mr. Colfax) said the gentleman must confine himself to the subject before the committee.

Mr. Garnett—What, to the peacock's feather? He then essayed to draw a comparison between the Duke of Wellington and General Scott, pronouncing in favor of the former. Money is wanted to establish a body guard for Scott to resist Jefferson Davis and ex-Gov. Wise.

This remark was met with hisses.

Mr. Garnett said serpents were the proper emblems of the downfall of this corrupt government.

No Sumners, nor other orators need now to show the barbarism of slavery, nor the depths of degradation and wickedness into which it plunges its advocates.

New York, Feb. 23.—Special dispatches from Washington state that Arkansas advices say that State has gone against calling a convention.

Charleston advices state that a portion of the State troops have withdrawn from Morris Island, and there will be a general abandonment of the harbor defenses.

The New Orleans Custom House. The Collector of New Orleans writes to the Collector at St. Louis, that the Custom House business is conducted there as heretofore, except that transportation bonds are obliged to be executed. The transportation of foreign imports is in no wise interrupted, and duties are collected as usual.

Compromising Republicans are treading in the path of the old whig party, which ended in a burial-ground. The party won a glorious victory last November, but as Mr. Gray, a poet of some merit, has pathetically observed, "The path of glory leads but to the grave."—*Atlas.*

☞ A gentleman writes from Apalachicola to his friends at Fall River, Mass., that business is completely ruined in that place. He with many others were preparing to leave, some for Savannah, Ga., and some for the northern cities.

A little boy, kneeling at his mother's knee to say his evening prayer, asked leave to pray in his own words, and with a childlike simplicity, said—"God bless little Willie, and don't let the house burn up—God bless papa and mamma—God bless me, and make my boots go on easy in the morning."

MARRIAGES.

In Charlestown, Mass. 21st inst., by Rev. H. E. Graves, Horace Fisher to Miss Maria Milton, formerly of Portsmouth, N. H., to Miss M. Fannie Howe, daughter of Edwin Howe, Esq., of Charlestown.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a lact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases of Asthma, and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawsm

☞ We call the attention of our readers to an article advertised in another column, called Blood Food. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this Blood Food and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of Sir James Clarke's Female Pills, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Hurriness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawsm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, no remedy has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma, or Bad Cough*—they never fail to *moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail.

nov28 dawsm

Sold by W. R. PRESTON and all druggists.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows

Norway Village, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as Dr. Wistar's Balsam of Wild Cherry, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial, and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and it all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; James P. Packer, Greenland; S. Hanson, Jr., New Market; Porter & Tring and Wm. B. Sanford, Exeter; J. W. Green, Hampton Falls; and by dealers everywhere. e25 4w

YOU CAN'T FIND

AN ARTICLE THAT SUITS AS WELL

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Apothecaries and consumers all testify that IT IS THE ONLY RELIABLE ARTICLE FOR THE BALD AND GREY

Read the testimony from Kentucky.

Paducah, Ky., April 27, 1860.

Mr. W. A. Bell.—Dear Sir:—I have used Heimstreet's Inimitable Hair Restorative, and am satisfied from an experience in all other preparations for the like purpose, that *it is the only article ever before the public worth purchasing.*

Yours truly, John G. Daly.

Paducah, Ky., July 27, 1860.

Messrs. W. E. Hagan & Co., Troy, N. Y.

Gents:—Above please find statement of Mr. John G. Daly, merchant of our city, in regard to Heimstreet's Inimitable Hair Restorative. This testimony is given after having used most of the preparations now before the public, *claiming* to be Hair Restoratives, and *must be considered conclusive* as to the merits of the *Inimitable*. Am out of the large size. Forward by railroad double the quantity we had before. Very truly yours

W. A. Bell.

Sold everywhere; price 50 cts. and $1 per bottle.

To All Weak-Kneed Republicans!

LOOK AT THIS!

STRENGTHENING PLASTERS for all those Republicans who at this time have got a weak spine, and whose knees are weak, owing to the Slavery agitation. Any person using these Plasters, and not being relieved from bowing his knees to the Slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be either of the Senators or Representatives in Congress from New England, troubled with the Slave weakness—I will supply them without pay. These valuable strengthening Plasters are for sale at 12 and 17 cts. each, according to the size, by

B. HUTCHINGS, 4 Market Street

Local.

For the Chronicle.

☞ The temperance lecture delivered by Rev. Mr. Eddy, on Sunday evening, was an able and well-written production, that could not fail to produce a good effect, even with those who do not agree with him in theory. He commenced his remarks by asserting that nearly all our temperance reforms have signally failed; and that notwithstanding all the efforts that have been put forth by the friends of the cause, intemperance is fearfully on the increase, and rum is the ruling power in our midst.

He then discussed the cause of these deplorable results; and attributed it to misapplied effort; the human heart being the great fountain of sin,—from which spring all the passions and appetites, which tend to make men wicked and depraved, this should first be made right; and having cleansed the fountain, the stream would be pure. He regarded temperance societies, lectures, &c., as important, but as secondary to the means which he should propose.

He assumed that a radical change of the heart by the grace of God, was the only remedy for the rumseller and the inebriate. If the efforts of temperance reformers were concentrated on this one point, the desired end would be accomplished. As a proof of this, he cited the recent revival in Ireland, which swept away more dram-shops in a single day, than any temperance movement of the last fifty years. He therefore would enjoin upon the churches the solemn duty of laboring in this way, for the cause of temperance. One great obstacle to the promotion of the work of saving men from the jaws of the great leviathan, rum, was the fact that church-members were either silent upon the subject, or lend their influence against it.

He closed by an appeal to young men, to fortify themselves against the rum demon, by embracing the religion of Christ, and thus they could withstand all temptation. C.

☞ If any of our readers wish to see a specimen of one of the most beautiful of all the feathered tribe;—we advise them to step into Mr. Shores' bookstore, and examine two of the "Resplendent Trogon." They belong to Mr. G. V. Rowe of this city, who received them from a friend in California, and who has consented to leave them for exhibition for a few days. They were stuffed and mounted by Mr. C. G. Brewster of Boston. We give a short extract from a description of the bird from Routledge's Illustrated Natural History:

"Of all the birds of the air there is hardly any which excites so much admiration as the Resplendent Trogon. Many, such as the humming-bird, are gifted with greater brilliancy of color; but for gorgeousness of hue, exquisite blending of tints, elegance of contour, and flowing grace of plumage, there is no worthy rival in all the feathered tribe. This magnificent bird is a native of Central America, and was, in former days, one of the most honored by the ancient Mxican monarchs, who assumed the sole right of wearing the long plumes, and permitted none but the members of the royal family to decorate themselves with the flowing feathers of this beautiful bird. The color of the adult male bird is generally of a rich golden green on the upper part of the body, including the gracefully rounded chest, the head, neck, throat, chest and long lancet-shaped plumes of the shoulders. The breast and under part are brilliant scarlet, the central feathers of the tail are black, the exterior white with black bars. The wonderful plumes which hang over the tail are generally about 8 feet in length, and in particularly fine specimens have been known to exceed that measurement by four inches, so that the entire length of the bird may be reckoned at four feet. The bill is light yellow."

☞ The Goodwin Guards are to give a grand Military and Civic Ball at their armory, Union Hall, on the evening of the 4th of March—Monday next; and as the country will then be under the direction of a Republican President, it is fair to presume that *some* people can dance with a lighter heart and step than of late they have been able to do. Those who feel thus, can dance for joy—those who are affected differently, can join in a hop, to dance away their fears.

☞ We are glad to learn that Mr. Tilton is to commence an Evening Singing School next Thursday evening. His room, though not small, is not large enough to accommodate half who *should* want to attend—either on an adult or juvenile class.

EXQUISITELY BEAUTIFUL.—Those wax flowers at Mr. Shores' Bookstore, made by one of Portsmouth's fair daughters. One lady admiringly declared she could *smell* their odor through the window, a day or two since!

☞ We regret our inability to insert all the advertisements intended for this morning's issue—but will endeavor to make full amends to-morrow.

☞ The Amoskeag Veterans celebrated Washington' Birth-Day in elegant style at Manchester.

The Pro-Patria Lodge of Sons of Malta in New York, once the largest and most magnificent in the United States, is broken up, and the furniture, regalia, &c., were sold at auction last week.

The institution is said to have been indecent and contemptible. Peace to its ashes.

WASHINGTON, Feb. 25.—At a Cabinet Meeting held last night, Mr. Buchanan stated that he had received positive information that there would be no immediate attack upon Fort Sumter.

The House has rejected the Senate amendment to the tariff, proposing a duty of a cent and a half per pound on coffee, and four cents on tea, by a vote of 32 against 147.

The U. S. Circuit Court has decided in the Indian Bonds Fraud Case to dissolve the injunction, declaring that the bonds are negotiable when in bona fide hands, and that the Government has no remedy.

WANTED.

Agents wanted in every Town in New Hampshire to sell the

NEW ENGLAND

FAMILY SEWING MACHINE.

This little Machine stands confessedly at the head of everything now offered to the public.

In Cheapness, Simplicity, Compactness, Durability & Beauty,

IT HAS NO RIVAL!

There is no complicated machinery to get out of order or injure the operator.

It is made with special reference to the wants of a family; simple in its arrangements, perfect in its adaptation, and durable in its parts. Anyone can understand and work it with perfect success; doing all kinds of work, from the finest muslin to the coarsest fabric. It gives the best satisfaction where it is sold; and all who use or examine it, pronounce it better adapted to meet the wants of EVERY FAMILY than any other machine now offered to the public.

Good, smart Agents can earn from $5 to $12 per day by selling the above Sewing Machines.—Address the Manufacturer,

JOHN G. FOLSOM,
feb26 2wDaW Winchendon, Mass.

FORECLOSURE OF MORTGAGE.

Notice is hereby given that I, the subscriber, John W. Odiorne, of East Boston, in the County of Suffolk and State of Massachusetts, took peaceable possession, this nineteenth day of February, A. D. 1861, of the following described Real Estate, viz.: A certain lot of land, with the dwelling-house and out-buildings thereon, situated on the corner of Tanner and Marlborough streets, in Portsmouth, in the County of Rockingham and State of New Hampshire, and bounded and described as follows, viz.: forty-nine feet, more or less, by Tanner street; thirty-one feet, more or less, by land now or formerly of E. and W. F. Quesnel; forty-nine feet, more or less, by land now or formerly of A. W. and G. W. Haven; and thirty-six feet, more or less, by Marlborough street; being the same premises mortgaged by the late James H. Marston, deceased, and his wife, Maria T. W. Marston, to William D. Fernald, as per their deed of Sept. 14, 1853, recorded on Rockingham Records, Lib. 356, Fol. 329, which mortgage was assigned to me by said Wm. D. Fernald, Dec. 20, 1860, as per assignment recorded on said Records, Lib. 388, Fol. 312; and also the same premises mortgaged by said James H. Marston and wife, to Nathaniel K. Haynes and Thos. Neil, as per their deed of Jan. 19, 1855, recorded on said Records, Lib. 363, Fol. 52, which mortgage was assigned to Wm. D. Fernald by said Nathl. K. Haynes and Thos. Neil, April 10, 1858, as per assignment recorded on said Records, Lib. 378, Fol. 262; and subsequently, to wit, on the 20th of December, 1860, assigned to me by said Wm. D. Fernald, as per assignment recorded on said Records Lib. 388, Folio 313.

Said possession is taken for condition broken of both the aforesaid mortgages; and the object of such possession is to foreclose all the right which the said James H. Marston and Maria T. W. Marston, or his, or her or their heirs, assigns, executors or administrators had, or have, to redeem the said premises from said mortgages.

JOHN W. ODIORNE.
Portsmouth, Feb. 19, 1861.

THE FAMINE IN KANSAS.

Appeal for the Destitute, from the New York City Committee.

WM. C. BRYANT, J. E. WILLIAMS,
Chairman.

Chas. H. Marshall, Seth B. Hunt, R H. McCurdy, Morris Ketchum, G.C.Bronson, Chas W. Elliott, Daniel Lord, Daniel Drew, J S. Wadsworth.

It has become our imperative duty to urge upon the public attention the fact that over 40,000 of our fellow citizens in Kansas are now in imminent danger of starving. We have evidence from all sources—from Gen. Pomeroy, Chairman of the Territorial Relief Committee,—from the columns of nearly every newspaper, of all shades of politics—from our own reliable agent, who has just returned. There was no doubt of the misery, terrible, wide-spread, destructive.

We have evidence that whole families have already died of starvation; and that thousands more must lie down discouraged, and die of want or disease consequent upon it, unless prompt and thorough relief is at once applied. Congress is now attempting to sustain the starving Indians, but our 40,000 fellow countrymen—men, women and children—can neither get away from their desolation, nor borrow, nor beg. Their only dependence is upon us, who have never known suffering.

THEY MUST BE SUSTAINED. Will you help us to help them?

To assure you that whatever you do will reach them, we state that in every destitute township is a Relief Committee—these are all represented by the Territorial Committee, as follows:

TERRITORIAL COMMITTEE.

S. C. Pomeroy, Atchison; W. W Guthrie, Brown County; J. L. McDowell, Leavenworth; Rev. C. Reynolds, Lawrence; Rev. L. Bodwell, Topeka; Dr. S. Ayers, Linn County; F U Blake, Junction City; C. B. Lines, Wabaunsee; F. B. Baker, Centralia; Rev. Wm. Bishop, Salina;—Judge A. Spalding, Jefferson County; J. C. Burnett, Bourbon County; J. C. Lambdin, Butler County; Geo. M. Russell, Wyandotte.

EXECUTIVE COMMITTEE.

S. C. Pomeroy, Chairman; J. L. McDowell, Rev. C. Reynolds, Rev. L. Bodwell, F. P. Baker:
S. C. Pomeroy, Corresponding Secretary.
G. H. FAIRCHILD, Treasurer.

Gen. Pomeroy is Chairman, and at ATCHISON devotes his whole time and energy, with assistants, to the receipt of food and clothing, all of which are delivered upon requisitions of Town Committees, and are distributed through them.—This organization is prompt, thorough and effective, and we advise the sending of supplies through it. Money and clothing are needed from us;—food can be got in the West.

The names of our committee appear at the head of this appeal, and we hope will be sufficient to induce co-operation. Our Treasurer is JOHN E. WILLIAMS, *President of the Metropolitan Bank*, New York City. All money sent to him will be applied to the payment of Gen. Pomeroy's draft on account of freights and sacks. We appeal to you all, by every dictate of humanity, of honor, and of public good, to unite with us in alleviating this great calamity. There is no time to be lost.

FIRST—We ask individuals everywhere to contribute at once, and to urge it upon their friends and neighbors.

SECOND—We appeal to all churches and organized bodies to act promptly, generously and efficiently.

THIRD—We urge upon EVERY GOVERNOR OF EVERY STATE immediately to bring this matter to the attention of their Legislatures and people. Our last statistics show that nearly $200,000 is needed within the coming fortnight, to supply this people with seed for Spring planting. It can only be furnished by State action. Every consideration of interest also demands that this new State should be enabled to become self-sustaining, productive, and eventually rich—thus to fulfil her destiny, and to help others, as we are now helping her.

We ask, therefore, every Legislature to do as they would have others do to them in like distress, and at once to grant ample supplies.

All money sent to our Treasurer, JOHN E. WILLIAMS, *Metropolitan Bank*, New York City, will be gratefully acknowledged and effectively used.

All Clothing should be sent to "GEN. POMEROY, Atchison, Kansas," and freight should be prepaid. DaWlm

DO YOU WANT WHISKERS?
DO YOU WANT A MUSTACHE?
DO YOU WANT A MUSTACHE?

BELLINGHAM'S

Celebrated Stimulating Onguent!

For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT

is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,

—FOR—

RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA

COMPOUND,

is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

REMOVAL.

ANDREW LOWD

has removed his

Harness, Saddlery and Trunk Store

—TO—

No. 32 1-2 Congress Street,

Same Building with WILLIAM BODGE, and nearly opposite the Old Stand,

Where he is ready to attend to all business in his line as usual—in the best manner and at the lowest rates.

Grateful for long and liberal past patronage, he would solicit a continuance in his new and improved quarters.

Portsmouth, Nov. 27, 1860.

From the N. H. Gazette.

A Constitutional Convention.

In the warrants calling our next town meetings are inserted articles, which require the sense of the voters to be taken upon the subject of calling a convention to revise the constitution of the State. To commend the project to the favor of the people, the Legislature have undertaken to limit the action of the proposed Convention,

1. To reduce the number of the Representatives,
2. To increase the Senate.
3. To provide some new mode of amending the Constitution.

We hope this cunningly devised scheme will be resisted by all Democrats, and by the prudent men of all parts.

We doubt exceedingly the propriety of reducing the House of Representatives; and if it were conceded to be a useful reform, there is little probability that it could be accomplished. Now almost every town in the State has a Representative in the General Court, and by this means the wants and grievances of every portion of the State are freely brought to the notice of the Legislature. This privilege is so important, that we are quite sure the smaller towns will be unwilling to surrender it. And many inhabitants of the larger towns will prefer to be represented as now, so that every man may be supposed to have personal acquaintance with at least one member of the House ready access to him, rather than, by diminishing the number, to render his Representative more distant and less accessible. In short, if the people are to be represented, the House is not too large if the intention is to make that body more manageable by politicians, more accessible to corruption less responsible to the people, and more disposed to Legislate for private interests, of course a reduction is very desirable.

The framers of the constitution made the Senate small, that it might act as a check upon the haste, carelessness or other evils that might chance attend the action of the more numerous branch of the Legislature. And the system has worked well New Hampshire has been better governed than any of the States, and at the most moderate expense. Indeed if the House is to be reduced and the Senate increased, as both will of course be chosen by districts, wherein will consist the difference between them? And what will be the necessity or use of a Senate? A Legislature may as well be composed of one House as two, if both are elected in the same manner, represents the same interests, and if they do not differ materially from each other in numbers.

But we suspect that neither of these proposed changes lies at the heart of those who desire the calling of the Convention. The scheme evidently is to provide some easy and expeditious way of affecting future amendments. If this entering wedge fairly takes hold, we shall never hear the last of amendments to the Constitution. Here as in Massachusetts every politician will tinker upon it; and the rights of minorities will be swept away by amendments, whenever the Constitution may happen to stand between them and the interest or the passions of an unscrupulous majority. We have seen enough of this tyranny in neighboring States. Let us hold on to the safeguard which the Fathers wisely threw around our Liberties. We have said nothing of the expense of the proposed Convention, which, limited as it is, will add no inconsiderable percentage to our taxes because if reforms are really needed, the cost is a matter of secondary consideration. Still, if the voters remember the last Constitutional Convention, they will hesitate a little before they undertake to pay for another.

Commander W. D. Porter, of the United States ship St. Marys, stationed at Panama, has written a spirited and patriotic reply to J. H. Hamilton, late Lieutenant in the Navy, who recently issued a treasonable address to the officers of the Navy.—Commander Porter, who is a native of Louisiana, says:

"You, sir, have called upon your brother officers, not only to become traitors to their country, but to betray their sacred trust and deliver up the ships under their command. This infamous appeal would, in ordinary times, be treated with the contempt it deserves. But I feel it a duty I owe to myself and brother officers with whom I am associated to reply, and state that all under my command are true and loyal to the stars and stripes and to the Constitution. My duty is plain before me. The constitutional government of the United States has entrusted me with the command of this beautiful ship, and before I will permit any other flag to fly at her peak than the stars and stripes, I will fire a pistol in her magazine and blow her up. This is my answer to your infamous letter."

☞ We observe in the Boston Journal of Tuesday last, a sneering notice of our candidate for Congress, purporting to come from this city, and signed "John Haldex." The letter would be unworthy of notice, did it not contain the two false insinuations, that Mr. Marcy is not a Union man, and that there is talk of nominating "a constitutional Union" candidate for Congress in this District. If this scribbler means that any real friend of the Union doubts the patriotism of Daniel Marcy, or his most earnest and honest desire to save unbroken, by every peaceable means, the Union, under the protection of whose flag he so long sailed, we think that he lies knowingly and wantonly. The idea seems ridiculous wherever Mr. Marcy is known.

Form a Line!—Dr. Bellingham's "Stimulating Ongnent," so famous in London, Paris, and other European cities, will be likely to gain a similar reputation in this country. It has become an indispensable article for the toilet in all our large cities. Messrs. Horace L. Hegeman & Co., of New York, now have the entire American market confided to them, and we give their advertisement a place in another column. As a sure and safe promoter of the growth of beard or whiskers, this article seems to stand about A 1. All our young men will be glad to learn that this celebrated preparation is now placed within their reach at a wonderfully low price.

☞ It is stated that Rev. Albert Barnes has become involved in some trouble with the people of his charge, in consequence of certain recent declarations made by him against the legality of returning fugitive slaves.

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupify.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will tonally revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous system broken down and constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do:

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the oppressing load and all painful feelings will be removed.
One dose will remove the most distressing pains of the Kidneys, Back and Bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons suffering from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, nervous, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the Invigorating Spirit three times a day; it put bottles, at 50 cents, qts $1.

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a remedy known as

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation and Relieving all Pain. FOR DISEASES ATTENDING TEETHING*, such as *Diarrhœa, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic, and Child in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From whose infantile infirmity, and to die than from any other disease, the little sufferer is relieved *instantaneously*, as if by magic; and in this connection we would remark, that it is the testimony of all that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL has become familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child.—DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we are fully warranted in stating cannot be said of any other preparation, for an infantine medicine, at time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the delightful consequences which are certain to result from the use of narcotics disguised in the form of quieting remedies; their pernicious influence upon the infant being followed by stupefaction and constipation of the bowels, ending oftentimes in convulsions Herein DR. EATON'S INFANTILE CORDIAL differs from every other remedy. It

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of the infant, but, contrarily, from its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts per bottle.

"THE HAMMOND LINIMENT"

THE HAMMOND LINIMENT — IS AN OLD REMEDY, which EXPERIENCE — THE HAMMOND LINIMENT

SOMETHING MORE VALUABLE

THAN SILVER OR GOLD,

BECAUSE

IT WILL RESTORE THE WEAK,

AND REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY & VIGOR.

It is

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

It is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, restores and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted, as to act as perfect *nourishment with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetable extracts, thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a cure preventive and cure of

CONSUMPTION, BRONCHITIS, DYSPEPSIA INDIGESTION, LOSS OF APPETITE, FAINTNESS, NERVOUS DEBILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, LOSS OF MUSCLE, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL!

Also Liver Derangements and Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences and cure the disease at once, if already attacked.

TRAVELLERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon the change of climate and water.

As it prevents costiveness, and strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise, should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial—she will pass the dreadful period with perfect ease and safety

There is no mistake about it!

THE CORDIAL IS ALL WE CLAIM FOR IT!

MOTHERS, TRY IT!

And to you we appeal, to detect the illness or decline not only of your daughters, but even to late, but also your sons, husbands, for while the former, from false delicacy, often go down to a premature grave rather than tell their condition, he knows in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your nervous feelings will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the only remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have doubt.

PROF. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the irritated parts, it aids the organs of digestion to perform their functions, and resists the assaults of disease. It is a chemical compound so skillfully combined, that while it exhilarates it does not provoke the lassitude which usually follows excitement. A tonic composed exclusively of vegetable matter, it is absolutely harmless, and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Failing of the Womb, and other delicate diseases to which women are subject. For Sickness of the Stomach, Faintness, Nervous Complaints, Costiveness, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a distant warmer clime, by the West Zephyrs, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, bearing a box of rouge as the type of the beauty, and our few all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. Wood's Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Neuralgia, Palpitation of the Heart, Costiveness, &c., will find an infallible panacea.—*St. Louis Daily Express*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt, the best tonic Cordial in the world. To those who are suffering from general debility, we would recommend its use, for it is pleasant to the taste, is strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in good health will at once feel its invigorating power. We are confident that after using one bottle of this cordial, none will be for a day without it.—*N. Y. Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of Nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. Wood's Restorative Cordial and Blood Renovator. Hence it is perfectly adapted to all and of course, a tender. If it. Thousands have already done so; the testimony is universal in its favor.—*New York Atlas.*

☞ Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and in fact it is without doubt the first article in the market for purifying the blood and strengthening the system. We have no hesitation in recommending its use to all.—*New Yorker.*

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskys.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant; and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency *to recreate* and *strengthen*; while age has long contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant relative to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,
(Established 1778,)

Morning Chronicle.

☞ The N. Y. Evening Post says that the venerable Lucretia Mott, now eighty-six years of age, reappeared on Sunday as a public speaker at the Friends Meeting in Hester Street. A large audience, divided equally between Quakers and "world's people," was attracted to the plain meeting-house by the public announcement that Mrs Mott was to speak. After a silent sitting of half an hour, Mrs. Mott rose and spoke as fluently as in her best days. Her discourse was a dissertation on the beauty of truth. Mrs. Mott bears her weight of years gracefully. Her appearance is that of a woman of fifty, and her sharp, angular face is relieved by an abundance of black hair. Like all the members of her sect, she dresses with great neatness. As she has been preaching more or less since she was twenty-six years of age, she speaks without embarrassment and talks well, using elegant and sometimes even eloquent language. Her discourse was listened to with marked attention. In the afternoon she preached at Brooklyn.

DEATH OF A SONGTRESS BY BURNING.—Hattie James, whose dress caught fire at the footlights of the Gaieties Theatre in New York, died on Saturday last. The deceased, who was scarcely sixteen years old, was the sole support of a widowed mother and three sisters, who now are left destitute. She was a girl of very amiable disposition, and was held in high esteem by a large circle of acquaintances.

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street,** opposite the New Custom House.

MOTHERS

CONSUMPTIVES.
An equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz., Improper Circulation; and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the blood to circulate?
For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, among its other wonderful increase in knowledge, to make this grand discovery also
Acknowledging that life is the gift of the Creator and that "in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removes or destroys, and death, the certain effect, follows.
Analysis of the red corpuscles of the blood shows them to be compounds of Iron, sulphur and phosphorous.
The air we breathe we know to contain a very large proportion of oxygen.
Oxygen, brought in contact with metal, evolves or emits electricity.
Electricity, brought in contact with a muscular fibre, causes it to contract.
These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, causes it to contract; and hence the power which expels the blood, and sends it tingling through the remotest arteries. What, then, are the causes of CONSUMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, EMILEPSY, FEVER & AGUE, &c.?—a deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in; in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, or the corpuscles or red globules.
Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the
"BLOOD FOOD."
which restores the red globules and the normal circulation. Consumptives! friends of consumptives! Sufferers from any organic disease! Unfortunates, who have by excess of the body or mind, reduce the standard of the blood and diminished the red globules! Ladies suffering any of the distresses known as female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.
An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent postage stamps. Blood Food is sold by all druggists; or where it cannot be had, I will send 6 bottles, free of expense, for $4. Price, single bottle, $1. It is put up in 8oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers, having been done away with; and bears the facsimile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.
C. T. DUPONT, Sole Proprietor,
feb4 409 BROADWAY, NEW YORK.
Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic and stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the patient may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*And it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pints as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Price $3.00.
STATE & COUNTY RIGHTS FOR SALE BY
A. B. CLIFFORD, Epping, N. H.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, FEBRUARY 27, 1861.

☞ The sudden rush or flight of Abraham Lincoln *into* Washington, either to avoid enemies or friends, puts Uncle Toby in mind of the fact that president James Madison, with two or three of his cabinet, rushed or flew *away* from the same city, on the day of the battle of Bladensburg, in 1814, when part of Washington city was burnt by the British.

In entering the city, the British army were resisted only at one point, viz. Mr. Gallatin's house, where they were assailed by a volley of musketry, which killed Gen. Ross' horse under him, killed one soldier, and wounded two others. Of course the house was attacked, and those who fired the volley were taken prisoners: several of them were found to be negroes.

Washington had been supposed secure; but the Virginia militia who were its appointed defenders, were defeated and scattered by a small but well disciplined British army.

Two or three fine vessels of war at the Navy Yard, were burnt at the same time, by order of American officers, to keep them from capture.

☞ Mrs. Ryves, the niece of George III, has obtained a recognition of her legitimacy from the matrimonial causes court in London, and thereby comes into possession of the revenues of the duchy of Lancaster; amounting to £1,004,614 sterling, and also £105,520 as bequests from the royal family, and is "Princess of Cumberland and Duchess of Lancaster, as the grand daughter and lineal representative, in the female line, of his late Royal Highness Henry Frederick, Duke of Cumberland, who died intestate in the year 1790." Like the Gaines and Bonaparte cases, this hinged on a question of legitimacy.

☞ We have seen an extract from a private letter written by a gentleman in the interior of Alabama, in which he continues, saying, as in former letters, "that the secessionists are perfectly crazy." He says "the State has already spent a million of dollars since Lincoln's election, and a bill for two millions more will inevitably pass the Legislature. Repudiation must follow, sooner or later. If any smart man comes along, and wants an office, they will create one for him!" What a hotbed of patriots that State must be! Perhaps the ex-candidate for N. H. District No. 2, might give the Alabamians a hint or two about this promiscuous style of legislation. T.

A humorous druggist in Petersburg, Va., a few days since, cut out the portrait of Perry Davis, the pain killer man, and Dr. Jayne, the universal health restorer, and pasting them ingeniously on pieces of enameled board, exhibited them respectively as the portraits of Gov. Pickens of South Carolina and Major Anderson. One enthusiast went so far as to purchase the portrait of "Gov. Pickens," and hang it up in his room, in a five dollar frame.

BALTIMORE, Feb. 25.—A letter from a southern member of the Peace Conference to the American says:—"Peace will be preserved and the Union restored. The results on all points of the controversy will be satisfactory to the majority, and we shall probably close our labors on Tuesday."

The Charleston Courier says: "Fort Sumter belched forth its saucy salute of thirty-four guns on Washington's birthday."

☞ Daring that cold Thursday, a little while since, a loving couple in the interior of New York State rode several miles to get married. Their ears, noses and fingers were frozen, and the ceremony was delayed until they could thaw out.

Senator Seward is opposed to increasing the duties on Havana cigars. He says he regards "the Weed" not as a luxury, but as a "necessary of life." What will his anti-tobacco friends say of such heresy? Trask look after him!—*Boston Post.*

☞ It is stated that a new kind of silk, of a coarse quality, but strong and abundant, is being obtained in France from a worm which thrives in the Japanese acacia, a free growing tree.

☞ The War Department received advices, Monday, that Gen. Twiggs had surrendered to Texas all the Government military property in that State under his charge.

DOWN FROM THE AZURE VAULT.—The Louisville Journal says Professor Wise, the once famous balloonist, is selling apples and candy at the corners of the streets in Memphis.

The man who trifles with a young lady's affections may be said to *do* a miss.

One-fifth of all who die in London, die in prisons, poor-houses, or hospitals.

Many fashionable women who pretend to belong to the unadulterated ton, have just claims; they represent the simple-ton.

☞ The Portland Advertiser says the pardon of Capt. Holmes, by President Buchanan, is almost universally condemned.

It is a great blunder in the pursuit of happiness, not to know when we have got it,—that is, not to be content with a reasonable and possible measure of it.

THE SECEDED STATES.—According to authentic intelligence received by the St. Louis News of Feb. 11, a reaction against the secessionists has commenced in Mississippi. There was a strong co-operation element in the State convention which was dragooned into sanctioning the secession ordinance; and now, especially in the counties which sent delegates of this class, the disaffection is becoming more and more intense, though its public and concerted expression is repressed by the terrorism still maintained by the secessionists. The people were not prepared for the severe trials which secession imposes on them. Their crops, last year, were short, and in the counties bordering on the Alabama line, the utmost destitution exists. Planters who generally make fifty to seventy-five bales of cotton, made, last year, only ten to twenty; and even this scanty crop cannot be sent to market, on account of the disturbance of trade. The people, therefore, are in debt, and suffering from want of the most common necessaries of life.

GREAT NEWS FOR NEW HAMPSHIRE.—The Boston Courier of Tuesday says:

The work of combining the opposition against Republicanism in New Hampshire is progressing very well. The election takes place on the 12th of March. We now learn that Benning W. Jennes, the candidate for Governor, and Robert Morrison, who was nominated for Congress, both on the Breckinridge ticket, have withdrawn and will throw their strength for the regular Democratic nominees. The Republicans are already beginning to doubt their strength, but the Unionists should leave no stone unturned.

This is very important, says Uncle Toby, if true; March 13 will decide.

THE VIRGINIA CONVENTION.—*Richmond, Va., Feb.* 25.—The Convention reassembled to-day. Mr. Moore offered resolutions demanding security against future wrongs, opposing the African slave trade, opposing direct taxation, approving Mr. Crittenden's resolutions, and declaring if such or a similar compromise is not adopted Virginia would be ready to enter into a compact with such States as will agree to said compact and form a new Confederacy, excluding all disagreeing States. Referred.

Mr. Moore advocated his propositions; and was replied to by Mr. Goode, who favored secession, causing considerable excitement in the galleries, which were cleared, and the Convention adjourned.

INTERNATIONAL ROWING MATCH.—A match has been made between Robert Chambers, the champion of English oarsmen, and Joshua Ward of Newburg, the champion of American waters. It is proposed to row on the Hudson, over a course of about five miles, and to abide by the laws of boat racing as observed on the London river. The stakes are to be $1000, and Chambers is to be allowed $500 for his expenses. He will leave England in the coming spring, and will be accompanied by his trainer, Harry Clasper.

THE VOTE IN TENNESSEE.—The vote on the Convention question in Tennessee resulted as follows:—

	Convention.	No Convention.
East Tennessee	7,560	32,347
Middle Tennessee	26,589	27,886
West Tennessee	42,117	6,918
Total	54,158	67,309
Majority against Convention		13,201

The difference between these three divisions, is almost exactly what we might expect, from the different proportions of slavery and freedom in the three sections.—The conflict *is* irrepressible,—ignore it, or deny it, or compromise it, as we may.

☞ The American Railway Review of last Thursday, in a well-considered article on the freighting business of the West, says that the grain crop received at Chicago last year by rail, weighed 22,000 tons more than the cotton exported, and does not hesitate to declare that the six great freighting lines from the West could transport the whole cotton crop with little addition to their present rolling stock; and that the transportation could be effected at a cost little greater than the cost by the way of New Orleans.

FLOYD'S TREASON.—Another evidence of Floyd's treason has come to light; five companies of government troops are stationed at Fort Randall on the Upper Missouri, and it now appears that the ex-Secretary sold all means of transportation except enough to move one company, his purpose being to prevent forces from being called into action to interfere with his designs.

WASHINGTON'S BIRTH DAY.—Several military corps paraded this morning to honor the birthday of the Father of his Country. A salute was fired at the Arsenal and by the Citadel Cadets. Major Anderson also fired a salute of 34 guns, at noon, one for each State of the old Confederacy, in honor of the day.—*Charleston, S. C. News.*

A letter writer to a N. Y. paper says the ladies who thought Mr. Lincoln was awkward at first sight, changed their opinion, and now declare him "a very pleasant, sociable gentleman, and not bad looking by any means." The dear creatures are very apt to change their opinions. In four years they will be led to perceive their error in judgment.—*Post.*

AFFAIR OF HONOR.—*Both Parties Killed.* A duel was fought in Georgia, on the 8th inst., between Edwin Hart, editor of the Tallahassee (Fla.) Sentinel, and a gentleman named Coleman, in which both parties were killed.

CONGRESS, MONDAY, Feb. 25th.

SENATE.—Various petitions were presented, including one by Sumner, from the citizens of Massachusetts and Philadelphia against compromise, also one from Massachusetts asking for the enactment of a law prohibiting slavery.

Mr. Sumner said that while he thought it was his duty to present the petitions, he took the occasion to declare explicitly that he did not believe Congress had any right to interfere with slavery in the States.

The Postal Service bill in the seceded States was taken up.

Mr. Pearce moved to strike out the word "insurrection."

Mr. Mason said insurrection was unknown to the constitution.

Mr. Wade was willing to have the clauses, insurrection and resistance to the laws, assigned in the bill, stricken out, which was done, Mr. Pearce withdrawing his amendment.

Mr. Hemphill offered a substitute, that as the postal laws are no longer in force in the seceded States, the Postmaster General be authorised to enter into an arrangement with the government of those States.

After further discussion, Mr. Polk moved to modify the amendment, so as to read, "all States withdrawn from the Union, the Postmaster General have the power to discontinue postal service"—lost 19 against 30.

Mr. Hemphill's amendment was lost, 9 against 38.

The bill passed, 34 against 12.

YEAS—Anthony, Bayard, Bigler, Bingham, Chandler, Clark, Collamer, Crittenden, Dixon, Doolittle, Douglas, Durkee, Fessenden, Fitch, Foot, Foster, Grimes, Hale, Harlan, Johnson of Tennessee, Kennedy, King, Latham, Morrill, Pearce, Seward, Simmons, Sumner, Ten Eyck, Thompson, Trumbull, Wade, Wilkinson, Wilson—34.

NAYS—Bragg, Bright, Green, Hemphill, Johnson of Arkansas, Lane, Mason, Nicholson, Polk, Powell, Rice, Wigfall—12.

Mr. Powell explained that he would have voted for the bill to suspend postal service, but could not after it had been amended so as to give it such general power.

HOUSE.—The Senate's amendments to the tariff bill were considered.

About fifty of the one hundred and sixty amendments were acted on when the committee rose and reported the bill to the House.

Mr. Sherman of Ohio, urged concurrence in all the amendments, believing the very existence of the government depends on the prompt passage of the bill.

The House has rejected the Senate amendment to the tariff, proposing a duty of a cent and a half per pound on coffee, and four cents on tea, by a vote of 32 against 147.

All amendments excepting that relating to warehousing having been acted on, Mr. Branch of North Carolina moved that the House adjourn. Negatived. He then moved to table the warehouse amendment, as a test vote on the bill. Lost, 43 against 101.

All the Senate amendments having been concurred in, excepting that taxing tea and coffee, a committee of conference was appointed on this amendment.

REDUCTION IN THE HOUSE OF REPRESENTATIVES.—The action of the seceded States will reduce the members in the next United States House of Representatives as follows:—

Alabama	7	Louisiana	4
Florida	1	Mississippi	5
Georgia	8	South Carolina	6
Texas	2		
Total			33

☞ The President and Miss Lane have paid their respects to Mr. and Mrs. Lincoln at Willard's Hotel, and the President-elect has been called upon by Vice-President Breckinridge, the leading Senators and Representatives, Gen. Scott, the members of the Cabinet, and the Peace Congress in a body. He has been treated with the utmost respect by men of all parties, and cordially congratulated upon his safe arrival in Washington.

☞ The Washington correspondent of the Journal of Commerce says that the only Republican Senators who are ready to support a compromise are Mr. Seward, Mr. Cameron and Mr. Dixon, and even they are not certain to go all the lengths that, in the judgment of the Democrats, it may be desirable that the Republicans should go.

ASTRONOMICAL OBSERVATION.

What a riddle is man!
Here the people we scan,
Quite forgetful of burthens and taxes;
And from opposite polls,
Brought together, (the drolls!)
To revolve round a rail splitter's axes!
—*N. Y. Sunday Times.*

☞ New Orleans papers complain of the suppression of the official returns of the late vote. The election is said to be favorable to co-operation by 320 majority. The *Picayune* says that public information has been shamefully evaded.

☞ While the Presidential party were dining at Erie, N. Y., certain gentlemen offered Mr. Lincoln some wine, and rather forced it upon him. Mr. Lincoln replied: "I have lived fifty years without the use of any liquor, and I do not think it worth while to change my habits now."

All we have to say on this subject is to express the opinion that if some form of compromise be not speedily proposed by the Republican leaders, the people will adopt the Crittenden plan over their heads, whatever objections may lie against it in a political sense.—*National Intelligencer.*

The Washington correspondent of the Boston Advertiser telegraphs that Mr. Lincoln's recent undignified flight was only to escape bores. His Republican friends *are* bores and no mistake.—*Post.*

We *object*, and the people of the North *object*, to *any compromise* by which slavery will be allowed to pollute one foot of territory that is now free.—*N. H. Patriot, Dec. 28, 1848.*

It must be a relief, not only to the political friends of the President elect, but to the whole country, that he is at length in Washington and in communication with those persons whom he has selected as his constitutional advisers, rendering more speech-making at present unnecessary.—The ridiculous telegrams about assassination, &c., may not unreasonably be accounted for by supposing something startling was necessary in order to divert the public mind from Mr. Lincoln's crude speeches.—*Boston Post.*

MARRIAGES.

In Newburyport, Feb. 12. Mr. JOSEPH LITTLE, Jr., of Newbury, to Miss SARAH C. HALE, daughter of Mr. Daniel K. Hale, of Newburyport.

DEATHS.

In this city, Feb. 26th, WILLIAM HART, aged 61 years, Boatswain U. S. N.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

MONDAY, Feb. 25.

Arr sch Otis, Spinney, Boston.
Advance Banner, Atkins, New York.

Sch Shark, Patterson, arr Galveston 16th, fm New Orleans.

NOTICE!

JONES & MENDUM,

Contemplating a change in their business, have decided to offer

Their Whole Stock of Dry Goods

—AT—

GREATLY REDUCED PRICES

For Thirty Days!

It is the largest and best selected stock in the State, and presents an unusual opportunity for purchasers (by cash or short credit) to replenish their stocks of fancy and staple goods.

In order to make the sale more attractive, one of the partners will remain in New York a portion of the time, to take advantage of the present depressed state of that market; and any goods that can be bought for ready cash, and at bargains, he will send home, that customers may have the benefit of the low prices.

As the stock is too large to be enumerated, purchasers are invited to call and see for themselves.

They would call particular attention to their stock of

SILK GOODS,
DRESS GOODS,
DOMESTIC GOODS,
WOOLLENS, &c., &c.
WOOL CARPETS,
CANVAS CARPETS,
HEMP CARPETS,
PRINTS, &c., &c.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

If you have a Sore Throat, go to WM. R. PRESTON, Druggist, Portsmouth, N. H., and get the HAMMOND LINIMENT, which is sure to cure. G. L. BEAN & CO., Proprietors.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov23 daw3m

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Low-ness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excess and to remove obstruction*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail.

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest*,—of *Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the supe-rior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug. 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as DR. WISTAR'S BALSAM OF WILD CHERRY, I feel bound to give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since, I first became acquainted with this Balsam at a time of distressing cough and cold, which took such firm hold of my lungs as to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain.

In our town this remedy is a great favorite with many, and it all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully, GEO. W. MILLET.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES P PACKER, Greenland; S. HANSON, JR., New Market; FOSTER & TRING and WM. SAFFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. e25 4w

YOU CAN'T FIND

AN ARTICLE THAT SUITS AS WELL

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Apothecaries and consumers all testify that IT IS THE ONLY RELIABLE ARTICLE FOR THE BALD AND GREY

Read the testimony from Kentucky.

PADUCAH, KY., July 27, 1860.

Mr. W. A. BELL—DEAR SIR:—I have used HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, and am satisfied from an experience in all other preparations for the like purpose, that *it is the only article ever before the public worth purchasing.*

Yours truly, JOHN G. DALY.

PADUCAH, KY., July 27, 1860.

MESSRS. W. E. HAGAN & CO., Troy, N. Y.:

Gents:—Above please find statement of Mr. John G. Daly, merchant of our city, in regard to HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. This testimony is given after having used most of the preparations now before the public, *claiming* to be Hair Restoratives, and *must be considered conclusive* as to the merits of the *Inimitable*. Am out of the large size. Forward by railroad double the quantity we had before. Very truly yours

W. A. BELL.

Sold everywhere; price 50 cts. and $1 per bottle.

To All Weak-Kneed Republicans!

LOOK AT THIS!

STRENGTHENING PLASTERS for all those Republicans who at this time have got a weak spine, and whose knees are weak, owing to the Slavery agitation. Any persons using these Plasters, and not being relieved from bowing his knees to the Slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be either of the Senators or Representatives in Congress from New England troubled with the Slave weakness,—I will supply them without pay. These valuable strengthening Plasters are for sale at 12 and 17 cts. each, according to the size, by

B. HUTCHINGS, 4 Market Street

Local.

For the Chronicle.

A NIGHT AROUND TOWN.—Many of our citizens, who spend their evenings at home, and early betake themselves to rest, so welcome after the toils and cares of the day, know but little of the events of the night—scenes of dissipation, revelling, degradation, misery, and shame,— sons and daughters of respectable and prominent parents, taking part in these nightly carousals. We say many persons are blind to these startling truths, therefore we would invite them to take a nocturnal stroll with us, through some of our streets, and see these statements corroborated by living facts.

We pause a moment, and hear curses and frightful oaths, which cause the blood to cease its wonted flow, and make the air we breathe seem thick and hot. And yet we recognize in the reckless blasphemer no other than the once promising son of a worthy but indulgent parent; the young man in a state of beastly intoxication, demonstrating, by these horrid imprecations, his unwillingness to accompany his perhaps less drunken associates. This is one case.

It is past midnight; yet there are many scenes to witness; because

Fiends incarnate now are moving 'round,
Hell seems so near, fire issueth from the ground.

There are two or three boys, not over seventeen years of age, reeling through the street, in a shameful condition, so drunk as to forget their several places of residence. "What," say you, "are there men among us so wholly lost to a sense of morality and honor, as to deal out liquid poison to these unguarded *youth*?" No, there are no *men* who could be guilty of such a disgraceful act, but "fiends incarnate" will, and do of ten commit such hellish deeds.

But we go further. There is a young woman leaning against yonder fence,—we blush to say it—*drunk*, and left to grope her way home alone, if perchance enough of her confused senses can be collected, to enable her to find it. O, shame upon womanhood! Innocence, purity, virtue, character, all gone, and the wreck of morality left exposed to the pitiless storms of vulgar jeers and coarse ribaldry of the wanton passer-by. Is this true? Would to God it were not; but stern, stubborn, undeniable facts prove it. There are other soul-harrowing sights; but we have seen enough, and will pass by haunts of vice, in which are revelling the young of both sexes, whiling away the precious hours of night, to come forth on the morrow, with aching heads and corrupted hearts; to restore if possible, exhausted Nature's powers, only to plunge again into the ocean of vice; each succeeding venture bringing them nearer the maelstrom of ruin and death.

We will withdraw, and ponder; and endeavor to find the cause of this moral turpitude, and see if the blood of these well nigh ruined souls is not upon our skirts.

Parents—we earnestly appeal to you to exercise a vigilant watchcare over your sons and daughters who are treading the intricate paths of life. Teach them the right road to happiness; do all in your power to make home attractive, and in nine cases out of ten, they will love it, and will bring you to honor instead of disgrace.

A WATCHER.

EXAMINATIONS SCH. DIST. NO. 1.

Wednesday, Feb. 27, A. M., Miss Dodge's, North street.
Wednesday, Feb. 27, P. M., Mr. Foss's, Gravelly Ridge.
Thursday, Feb. 28, A. M., Mr. Demeritt's, School street.
Thursday, Feb. 28, P. M., Mr. Shannon's, North street.
Friday, March 1, P. M., Miss Mason's, Hanover st.

Parents and friends of the scholars are respectfully invited to attend.

JOHN S. HARVEY,
feb25 Secretary of School Committee.

☞ It will be seen by reference to our advertising columns, that the celebrated Yankee Locke appears at the Temple this evening. It is rare that we have anything in Portsmouth so laughable as the sayings and doings of Phunny Phisque.

WASHINGTON, Feb. 26. — The Peace Congress remained in session till 2 o'clock this morning.

The determined manner of Mr. Guthrie and the border State men carried the vote of Ohio, Pennsylvania, Rhode Island and New Jersey, and secured the adoption in committee of the whole of the amended Franklin proposition, which is virtually that of Guthrie.

NEW YORK, Feb. 26.— The Times' Washington correspondent says that information has been laid before the proper authorities that an organized band of five hundred men have sworn that Mr. Lincoln shall never sleep in the White House.—The band will occupy a position near Mr. Lincoln on the inauguration day. One of them will shoot him with an air gun, when the crowd around will render detection impossible.

☞ At Charleston, S. C., a white woman named Hertzer, convicted of causing the death of a slave by severe whipping, has been fined $500 and imprisoned eighteen months.

There is no greater obstacle to success, than trusting in something to turn up, instead of going to work to turn up something.

FINANCIAL ITEM.—The Snow Banks are going into liquidation.

PRESIDENT BUCHANAN'S LIBRARY.—A portion of President Buchanan's library has been forwarded to his residence at Wheatland. The President expects to arrive home about the 6th of March, and will receive a warm welcome from his old neighbors and friends. It is stated that he will be accompanied home by Gen. Cass.—*Reading Gazette.*

MASON AND DIXON'S LINE, the parallel of lat. 39 deg., 43 min., 26 sec., which separates Pennsylvania from Maryland, was drawn by Charles Mason and Jeremiah Dixon, two distinguished English astronomers. It forms the dividing between the free and the slave States of the original confederation.

"Well, Jane, this is a queer world," said Edward to his wife; "a sect of woman philosophers has just sprung up." "Indeed," said Jane; "and what do they hold?" "The strangest thing in nature," said he—"their tongues!"

Would you have sweet and healthy Bread, Biscuit, Cakes and Puddings? Use Herrick Allen's Gold Medal Saleratus. It takes less in quantity, will not make your Biscuit or Bread yellow, is a sure preventive to the decay of teeth, is perfectly healthy, and makes one-fifth more Bread and Biscuit from a barrel of flour. Never use soda if you can procure this article. Try it. Most all good Grocers sell it.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

WANTED.

Agents wanted in every Town in New Hampshire to sell the

NEW ENGLAND
FAMILY SEWING MACHINE.

This little Machine stands confessedly at the head of everything now offered to the public.

In Cheapness, Simplicity, Compactness, Durability & Beauty,

IT HAS NO RIVAL!

There is no complicated machinery to get out of order or perplex the operator.

It is made with special reference to the wants of a family; simple in its arrangements, perfect in its motion, and durable in its parts. Any one can understand and work it with perfect success; doing all kinds of work, from the finest muslin to the coarsest fabric. It gives the best satisfaction where it is sold; and all who see or examine it, pronounce it better adapted to meet the wants of EVERY FAMILY than any other machine now offered to the public.

Good, smart Agents can earn from $6 to $12 per day by selling the above Sewing Machines.—Address the Manufacturer,

JOHN G. FOLSOM,
feb26 2w DaW Winchendon, Mass.

THE FAMINE IN KANSAS.

Appeal for the Destitute, from the New York City Committee.

WM. C. BRYANT, Chairman. J. E. WILLIAMS, Treasurer.

Chas. H. Marshall, Seth B. Hunt, R H. McCurdy, Morris Ketchum, G. C. Bronson, Chas W. Elliott, Daniel Lord, Daniel Drew, J S. Wadsworth.

It has become our imperative duty to urge upon the public attention the fact that over 40,000 of our fellow citizens in Kansas are now in imminent danger of starving. We have evidence from all sources—from Gen. Pomeroy, Chairman of the Territorial Relief Committee,—from the columns of nearly every newspaper, of all shades of politics—from our own reliable agent, who has just returned. There was no doubt of the misery, terrible, wide-spread, destructive.

We have evidence that whole families have already died of starvation; and that thousands more must die down discouraged, and die of want or disease consequent upon it, unless prompt and thorough relief is at once applied. Congress is now attempting to sustain the starving Indians, but our 40,000 fellow countrymen—men, women and children—can neither get away from their desolation, nor borrow, nor beg. Their only dependence is upon us, who have never known hunger.

THEY MUST BE SUSTAINED. Will you help us to help them?

To assure you that whatever you do will reach them, we state that in every destitute township is a Relief Committee—these are all represented by the Territorial Committee, as follows:

TERRITORIAL COMMITTEE.

S. C. Pomeroy, Atchison; W. W Guthrie, Brown County; J. L. McDowell, Leavenworth; Rev. C. Reynolds, Lawrence; Rev. L. Bodwell, Topeka; Dr. S. Ayers, Linn County; F U Blake, Junction City; C. B. Lines, Wabaunsee; F. B. Baker, Centralia; Rev. Wm. Bishop, Salina.—Judge A. Spaulding, Jefferson County; J. C. Burnett, Bourbon County; J. C. Lamboin, Butler County; Geo. M. Russell, Wyandotte.

EXECUTIVE COMMITTEE.

S. C. Pomeroy, Chairman; J. L. McDowell, Rev. C. Reynolds, Rev. L. Bodwell, F. P. Baker.

S. C. POMEROY, Corresponding Secretary.

G. H. FAIRCHILD, Treasurer.

Gen. Pomeroy is Chairman, and at ATCHISON devotes his whole time and energy, with assistants, to the receipt of food and clothing, all of which are delivered upon requisitions of Town Committees, and are distributed through them.—This organization is prompt, thorough and effective, and we advise the sending of supplies through it. Money and clothing are needed from us;—food can be got in the West.

The names of our committee appear at the head of this appeal, and we hope will be sufficient to induce co-operation. Our Treasurer is JOHN E. WILLIAMS, *President of the Metropolitan Bank*, New York City. All money sent to him will be applied to the payment of Gen. Pomeroy's drafts on account of freights and sacks. We appeal to you all, by every dictate of humanity, of honor, and of public good, to unite with us in alleviating this great calamity. There is no time to be lost.

FIRST—We ask individuals everywhere to contribute at once, and to urge it upon their friends and neighbors.

SECOND—We appeal to all churches and organized bodies to act promptly, generously and efficiently.

THIRD—We urge upon EVERY GOVERNOR OF EVERY STATE immediately to bring this matter to the attention of their Legislatures and people. Our last statistics show that nearly $200,000 is needed within the coming fortnight, to supply this people with seed for Spring planting. It can only be furnished by State action. Every consideration of interest also demands that this new State should be enabled to become self-sustaining, productive, and eventually rich—thus to fulfill her destiny, and to help others, as we are now helping her.

We ask, therefore, every Legislature to do as they would have others do to them in like distress, and at once to grant ample supplies.

All money sent to our Treasurer, JOHN E. WILLIAMS, *Metropolitan Bank*, New York City, will be gratefully acknowledged and effectively used.

All Clothing should be sent to "GEN. POMEROY, Atchison, Kansas," and freight should be prepaid. DaWlm

DO YOU WANT A MUSTACHE?

BELLINGHAM'S

Celebrated Stimulating Onguent!

For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT

is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect,) will be sent to any one who desires it, by mail (direct,) securely packed, on receipt of price and postage, $1.18. Apply to or address

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,

—FOR—

RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA

COMPOUND;

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum; his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 20 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

AYER'S
Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Goitre, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

Oazland, Ind., 6th June, 1859.

J. C. Ayer & Co. Gentlemen: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous affection, I have suffered from it in various ways for years. Sometimes it breaks out in blotches on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I have no more feelings that the disease has gone from my system. You may well believe that I feel what I am saying when I tell you, that I hold you to be one of the agents of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 15th Sept., 1858, that he has cured an inveterate case of the *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* in large habit, with great success; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a disease which was a loathsome swelling on the neck, which I had suffered from our two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhoea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured by it. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous cancerous tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physicians thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

New Orleans, 25th August, 1859.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have used it in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had been salivated given in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach the brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, yet of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that she a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which you agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, O. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

Independence, Preston Co., Va., 6th July, 1859.

Dr. J. C. Ayer: *Sir*, I have been afflicted with a painful chronic *Rheumatism* for many years, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in the spring, and restored my general health so much that I am far better than I have for years past. I think it a wonderful medicine. J. FREAM.

John V. Getchell, of St. Louis, writes: "I have been afflicted for years with an enlarged *Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for years from my inability to perform my duties. The *Liver* My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and new thing you made was good. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best thanks he could give to God I give in your behalf."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cure of these formidable complaints has resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it seems here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. For sale the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass

DR. SWETT'S

COUGH DROPS

— FOR—

Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable, by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above named complaints.

Appended are some of the certificates and recommendations of these Drops. The first is from one respected brother, Elder Dennett, of Vt.:

Canaan, Sept. 4, 1848.—"Dear Br. Swett, I consider it a duty I owe to the public, as well as to yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and Physicians called a violent cold in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your invaluable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to perfect health. And I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."

SAMUEL R. DENNETT.

New Castle, Jan. 10, 1841.—"Elder Swett—Sir, Your Cough Drops have fully cured me of a distressing cough, which has so long afflicted me; and judging from their effect on others of my acquaintance, as well as on myself, I think they must be the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.

Exeter, Feb. 12, 1848.—"I have been recently cured of a very hard and dangerous cough, in the space of four days, by taking Dr Swett's Cough Drops." J. BATCHELDER.

Newton, N.H., May 7, 1841.—"I feel it my duty to make that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew their value as well as I do. I speak from experience. I have sold $200 worth of his medicines; and I have known them to remove many diseases that really resembled the power of all other medicines. I have been cured of a bad cough in four days by his Drops, and I am confident that they have saved the lives of several children in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines, and then bring his Drops." DAVID CAMPBELL.

Exeter, May 12, 1844.—"I hereby certify that this spring my daughter had a severe fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until her bowels swelled, and she was so pressed at the lungs that she groaned at every breath; and thou who saw her thought that without some speedy remedy she could live but a few days. At this stage of the disease, we obtained some of Dr Swett's Cough Drops, and administered them in teaspoonful every half hour, and dispensed with giving her any other medicine. It relieved the pain in her lungs, and she began to sweat, and phlegm she has been entirely cured."

DAVID LANG.

Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from the whooping cough of late, and I would advise all who have it to think that they will be benefited by to use them freely." MARY N. RICKER.

I know the above testimony of my wife will testify to the salutary effects of Dr. Swett's Cough Drops.

CHARLES C. RICKER.

Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." JOHN MINER.

"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge."

ELIZABETH CURRIER.

Canaan, Aug. 29, 1850.—"This certifies that we have found great relief from the use of Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than all other medicines put together." SALLY CURRIER.

Exeter, July 30, 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for coughs that I ever made use of, particularly in the lungs, with which I am acquainted."

NANCY F JONES.

Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I would say that last winter I was attended by a severe cough and spitting of blood, which much alarmed my friends, and that I found a full and speedy cure by the use of only two or three bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town."

I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the use of the Liniment and Vegetable Stimulating Liniment, prepared by Dr Swett."

J. C. BURNHAM.

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

Dyspepsia remedy

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Hearthurn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupify.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

As a Nervous wh.: from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and life rendered a burden, a curse to humanity, the *Delirious Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.

One dose will remove all Low Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take this invigorating Spirit, three times a day, it will make them strong, healthy, and happy, remove all obstructions and irregularities from the monthly organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

St. Louis July 10, 1860.

O. J. WOOD, Esq.—*Dear Sir*:—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and bidging from the effect of age. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been any to the time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, free from dandruff, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or confer any benefit on the public, but, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, not exhibiting the facts of my own case. In several instances I have met with people who pronounced it a humbug; saying they had used everything, and all to no avail

DR. SWETT'S
COUGH DROPS
—FOR—
Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.
☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable by a timely use of the innocent but effectual vegetable from which this mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above named complaints.
Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:
Canaan, Sept. 4, 1848.—"Dear Dr. Swett, I consider it a duty I owe to the public, as well as to you, to freely state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast sinking under the pressure of this fatal disease, when I obtained some of your valuable Cough Drops, and after using your three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."
SAMUEL R. DENNETT.
New Castle, Jan. 10, 1847.—"Elder Swett:—Sir, your Cough Drops have fully cured the distressing cough, which has so long afflicted me; and judging from its effect on others of my acquaintance, as well as my own, I feel confident that it is the best medicine now known for coughs and other lung complaints." WESLEY BURNHAM.
Exeter, Feb. 12, 1858.—"I have been recently cured of a very hard and dangerous cough, in the space of four days, by taking Dr Swett's Cough Drops." J. BATCHELDER.
Nashua, N. H., May 7, 1841.—"I am confident that no family would be willing to be without an assortment of Dr. Swett's medicines, if they knew what they are worth as I do. Within the last year I have sold $200 worth of his medicines; and I have known them to remove many diseases that have resisted the power of all other medicines. I have known several of a very tough lung trouble by his Drops, and I am confident that they have saved the lives of several children in this vicinity. I have known many, who were sick, to recover by using some of his physical medicines, and then using his Finances." DAVID CAMPBELL.
Boston, May 19, 1845.—"I hereby certify that the Spring my daughter had never fit of sickness, and was attended by an eminent physician, who pronounced it lung fever. She grew worse until she was given up as a hopeless case. Her cough and lungs that she groaned at every breath; and those who saw her thought that without some speedy relief she could live but a few days. At this stage of the disease, we obtained some of Dr Swett's Cough Drops, and commenced giving a teaspoonful every half hour, and persevered, with giving her any other medicine. It relieved the cough and distress of the lungs, and by using two pints she has been entirely cured."
DAVID LANG.
Lawrence, July 27, 1854.—"I hereby testify that the Cough Drops prepared by Dr. Simeon Swett have given me very great relief from Dr. Swett's troubling cough of late, and I would advise all who have a visit from that distressing complaint, to use them freely." REV. N. RICKER.
I know the above testimony of my wife with regard to the salutary effects of Dr. Swett's Cough Drops, to be correct.
CHARLES C. RICKER.
Canaan, Dec. 11, 1841.—"I have been troubled with Phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many." FANNY MINER.
"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge."
ELIZABETH CURRIER.
Canaan, Aug. 29, 1850.—"The certificates that we have read, of great relief from Dr. Swett's Pills and Cough Drops, in very bad cases of phthisic in our family, than all other medicines put together." THOMAS CURRIER,
SALLY CURRIER.
Exeter, July 30, 1841.—"I have found Dr. Swett's Cough Drops to be the most effectual remedy for Coughs, and for any other complaint of the lungs, with which I am acquainted."
NANCY F. JONES.
Exeter, Jan. 10, 1851.—"As a debt due to the suffering, I would say that last winter I was cured by a severe cough and spitting of blood, which much alarmed my friends, and that I found a full and speedy cure by the use of four or five bottles of Cough Drops, and two of Col. Moses Jewett's Cough and Consumption Liniment, prepared by Dr. Simeon Swett, of this town."
I have also experienced a remarkably quick cure of a severe attack of the rheumatism of late, by the application of one bottle of Jewett's Stimulating Liniment, prepared by Dr Swett."
J. C. BURNHAM.
These, with other of
DR. SIMEON SWETT'S MEDICINES
constantly for sale at his residence in

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, FEBRUARY 28, 1861.

THE PRESIDENTIAL FLIGHTS.—The Portland Argus says:—

Upon what hypothesis, military or otherwise, Mr. Lincoln could consent to avoid danger by flight, and yet allow his wife and children to incur the risks that filled him with terror, we know not. It is usual among the brave, we believe, in cases of danger, to send the women and children off out of harm's way by special train, and for the men to remain and receive the threatened attack. Mr. Lincoln and mite reversed this rule, it would seem. They fled and left the women and children to the enemy.

He followed in the footsteps of his illustrious predecessors, says "Uncle Toby,—Messrs. Madison, Monroe and others, very wisely saved their official persons by flight; while Mrs. Madison staid in the city of Washington, and saved some pictures from the president's house, while the British soldiers were on hand to burn it down, as they did.

OBTAINING GOODS BY FALSE PRETENCES IN NEW YORK UNDER A NEW DODGE.—Last week a New York firm made inquiry by telegraph at the Manufacturers and Traders Bank, Portland, as to the responsibility of Mr. Bryce M. Edwards, of Saccarappa; stating that he wished to obtain credit for about $800, and referred to that Bank. The Cashier answered that Mr. Edwards *was perfectly reliable*. Having some suspicion, however, as to his wish to obtain credit in that manner, he cautioned the parties to beware of *imposition*, and gave a brief description of Mr. Edwards, his age, &c. It turns out the pretended Bryce is a 'genteel chap of about 25 years,' who would have succeeded in his swindle but for the telegraphic *caution*.

An inquiry came on last Monday, from another firm as to the standing of Samuel Hanson, of Buxton, for $2,000. A similar answer was returned. It was soon ascertained that Mr. Hanson had been in Portland all day, and had made no proposals to purchase in New York. This information was immediately forwarded, and the arrest of the impostor recommended.—*Advertiser.*

☞ Governor Brown of Georgia is determined to ruin the commerce of the principal seaports of his State. Instead of seeking the legal remedy which exists, for what may possibly be considered an unauthorized detention of arms in New York, he has again made outrageous reprisals, and seized several vessels in the harbor of Savannah which are owned in New York.—This blind, blundering retaliation does not incommode those whose acts he resents; it falls heavily upon inoffensive parties, but its chief feature is that it will quite ruin the trade of Savannah.

THE EIGHT MILLION LOAN.—The award for the new loan is from 90.15 to 96, averaging a little over 90 3 8, and not including quite all the offers at 90.15, so that bidders who bid 90 will not obtain any of the loan. There is reported to be a great demand for this loan in Wall street. Sales have been made at 93 and 93 1 2 per cent. and the principal holders are now asking 94 a 95 per cent. Whatever partisan politicians and presses may say, this fact shows that capitalists do not believe the Republicans will ruin the country. Indeed, it shows that there has been a great increase of confidence as the time for the new Administration to assume the reins of government has approached.—*Boston Journal.*

☞ No less an authority than Gen. Morris, of the N. Y. Home Journal, says "The Star Spangled Banner" is adapted to an old English melody — "Anacreon in Heaven"—and is *not* a national air, as many suppose, except by adoption. The words commemorate an event in the war of 1812, and are not applicable to the present condition of our country.

☞ The House bill, authorizing the Postmaster-General to suspend the postal service in the seceding States, passed the Senate, Tuesday, by a vote of thirty-four yeas to twelve nays. The bill now goes to the President for his signature. It is rumored that a veto may be expected.

☞ A little son of Mr. Charles Kendall of Franconia, N. H., fell into a well head foremost on the 19th inst., and was found soon afterwards, drowned. The well was iced over, with an aperture barely sufficient to admit a pail.

☞ The Hon. David Hubbard of Lawrence, Ala., said in a speech in the Alabama Legislature, advocating the enactment of a stay law: "The means of my people are exhausted."

☞ The dry house and peg factory of Ladd, Gordon & Co., at Holderness, N. H., caught fire on Wednesday of last week, but the citizens *buried the building in snow*, and saved it.

☞ The Austin (Texas) State Gazette warns every opponent of slavery, whether "secret or avowed," against being "so rash as to continue his residence in Texas."

☞ A State census of Missouri, taken two months after that of the general government, made the population about 53,000 less.

☞ The amount of Northern manufactures sold to the South in 1859 is estimated at $240,000,000.

WASHINGTON NEWS.

In the House, Tuesday, Feb. 26, on motion of Mr. Corwin, the Volunteer Bill, so called, was postponed to Thursday, by a vote of 100 to 74. This is considered a defeat of the bill, and shows that one kind of coercion will not be resorted to. The bill, however, has passed the Senate, which authorizes the Postmaster General to stop postal services in States where the mails are obstructed. This measure will have the effect of checking up the *secessionists* suddenly, and of notifying them that unless the laws are complied with, their communication would be cut off. It is more efficient than any other remedy.

The Senate portion of the committee of conference on the tea and coffee amendment to the tariff bill have agreed to recede, and will recommend concurrent action with the House, which will probably result in passing the whole bill.

Messrs. Trumbull on the part of the Senate, and Washburn of Illinois and Burlingame on the part of the House, waited on Mr. Lincoln and Mr. Hamlin, Wednesday evening, and furnished them with certificates from Vice President Breckinridge and Speaker Pennington, of their election. They were formally accepted.

The first proposition voted on in the House on Wednesday, was that of Messrs. Burch of California and Stout of Oregon recommending a National Convention.

The Peace Conference in voting down Mr. Franklin's substitute, is in the same position it was a week ago. Some of the southern commissioners are much discouraged, but are comforted by the assurance of those from other sections, that they will endeavor to reconcile conflicting views on the slavery question to-morrow.

To guard against the possibility of the intrusion of improper persons at the inauguration, the Capitol police will admit no strangers, except ladies, to the building on Monday, and no gentlemen except those having cards of admission from Senator Foot, Chairman of the Committee on Preparations.

The lawless and insulting demonstration made on the arrival of the train at Baltimore, by which Mr. Lincoln was expected, is regarded here as a sufficient justification of the course taken by his friends in bringing him to Washington unknown to the rowdies and rioters of that city.

Dispatches reached the War Department this (Tuesday) morning, announcing that Gen. Twiggs had dismissed and disbanded his whole force in Texas, consisting of nearly 2500 men, and left them unprovided with means of transportation. Several officers had started for home with nothing but their side arms.

It is not probable that any new U. S. Army will be sent out there, at present.—Texas has always been a bill of cost.

FINE HORSES.—Among other good things, Mr. Rarey has exhibited Mr. Seward's Arabian Stallions, Flora Temple, and some Shetland Ponies of his own, in New York.

Flora, the Queen of the turf, the American favorite, never looked more beautiful, and was most enthusiastically received. If she had been the private property of each man present, he could not have been more proud of her. Mr. Rarey did not degrade Flora by attempting to experiment upon her, but much to the delight of the audience, allowed her to stand quietly by him, while he remarked that in trotting, America holds the belt; and next to America comes Russia. He has seen some very good trotting upon the frozen Neva, during his visit to Russia; but the Russians were satisfied with a mile in three minutes; Flora had recorded 2:19 3-4. (Applause.) The French Emperor drives only American trotters, and rides only English thoroughbreds. In England, they know comparatively nothing of trotters. No animal he had ever seen had such an eye as Flora. (Applause.) The eye was a great indicator of speed and endurance, and he need not say how much of both, this great favorite had.

The Shetland ponies were then led and carried into the ring. Mr. Rarey said that three of the Shetland families (so poor were they all) had owned shares in one of his ponies. This seemed hardly credible, if be referred to the smallest pony, which the negro attendant took in his arms and carried off the stage! He only weighs 77 pounds!

GEN. JACKSON URGED THE YOUNG TO STAND BY THE EAGLE.—When President Jackson visited Concord, N. H., in 1833, he saw the legislature then in session, and was introduced to the multitude. Two fine boys were presented to him, each about seven years old, named Isaac Andrew Hill, (son of Gov. Hill,) and Andrew Jackson Symonds. The old hero took each of them kindly by the hand, and drew from his purse two half-dollars, saying: "My sons, I am glad to see you, and I make you the same legacy that I make to all my children. Here (presenting each with a coin,) is the Eagle of your country, which during my life I have endeavored to honor and defend. Keep it in remembrance of me; and if it should ever be assailed by a foreign or domestic foe, rally under its pinions, and defend it to the last."

John Mitchell, in Paris, has heard that the Southern States will take some youngster of a royal line to make a king of him, and writes—"Don't you do it; if you do you will often wish you were back again under the *regime* of what Mr. Stephens calls the 'corner groceries.'"

A NEW HAMPSHIRE MAN HUNG.

Correspondence of N. Y. Tribune.

ABBEVILLE, Ala., Feb. 13.

The following slip appeared in the Eufaula (Ala.) Express:

"A SUSPICIOUS INDIVIDUAL.—The worthy captain of the Home Guards arrested a man last Tuesday, upon complaint made by one or two of our citizens. The charge was the use of improper language in regard to the acts and position of the Southern people at this time. Some of the expressions used by this travelling Yankee were, that Bob Toombs is a traitor, that the secessionists are thieves and robbers, and that he fully endorsed everything contained in the Knoxville Whig in regard to coercion, &c. After the examination, which brought out the foregoing facts, the committee of five members of the Home Guards, appointed to investigate this matter, announced that as the individual under arrest was only guilty of using improper language, they would set him at liberty, with a request to settle his business and leave as soon as possible. The man's name is M. A. Smith. He is travelling agent for Scovil & Mead, druggists, of New Orleans. He will bear watching. Pass him round."

Mr. Smith is the travelling agent of Scovil & Mead of New Orleans, but a New Hampshire man by birth. Mr. Smith arrived in Abbeville on Saturday last. He was identified, and did not deny his opinions. He was then taken about half a mile from town, and there and then *deliberately hung*. Now, I am a secessionist myself;—but I utterly object to any such proceedings; but I am afraid to say so in this place. Mr. Smith's horse and buggy are still here. He also had $356 in money, which is now in the hands of the Vigilance Committee.—What they will do with it, remains to be seen. Some of them have suggested that it should be spent for arms.

☞ A contribution was taken up a short time since at Plymouth Church, Brooklyn, for the benefit of the soldiers' wives and children from Fort Sumter, now at Governor's Island. On Sunday morning Rev. Henry Ward Beecher read to his congregation a letter from Major Anderson, giving thanks for the donation, but suggesting that the people could not be in want, as government had provided for them; and advising a return of the money.

Mr. Beecher remarked that Major Anderson was misinformed; for, although *rations* had been supplied for the women, there were more than twenty children for whom no preparation had been made, and that all were in want of clothing adapted to our severer climate. These facts were derived from Capt. Stringham, who is perfectly informed, and has charge of the money received for their benefit. About $700 has been collected and placed in Capt. String ham's hands.

PARTISAN.—It is refreshing to hear those rabid fanatics, whose viperous tongues have lashed our country into commotion, charge Democrats with being in sympathy with secessionists because they oppose war and favor an adjustment of troubles acceptable to the true Union men of the slave States! The impudence of these fellows is refreshing, we say; for what is their record? They oppose all compromise; so do the secessionists. They say no compromise will satisfy the cotton States; so do the secessionists, and the day of reconciliation is past. They invoke war; so do the secessionists, and try to provoke it by the most lawless outrages. They fear an adjustment will be made, satisfactory to the border States, and try to prevent it; so do the secessionists. As Mr. Douglas says, they both labor for the same end—the disruption of the Union—and often act together, whether by concert or not.

Just let the adjustment be made which all Democrats and true Union men pray for and labor to effect, and the days of both Northern and Southern disunionists will speedily be numbered. Heaven hasten a patriotic consummation so devoutly to be wished.—*Portland Argus.*

VIRGINIA.—*Richmond, Va., Feb. 26.*—In the convention to-day Mr. Goode finished his speech, affirming that it is the duty of Virginia to go with the South.

Mr. Goggin offered a resolution that it is the duty of Virginia to invoke the co-operation of the border States, and to provide measures for the concurrent action hereafter; that Virginia is attached to the Union as it was, but as it is it does not protect her rights, and in the event of a failure to obtain relief it will be her duty to provide for the future relation she is to occupy as one of the southern States. Mr. Goggin made a long speech denying the constitutional right of secession, but said it was a revolutionary remedy for wrongs. He wanted consultation with the border States in order to form a confederacy and invite others to join them. He believed Virginia would be insecure in a southern confederacy. Adjourned.

☞ The Albany Evening Journal gives returns of the New York town meetings, showing that, in fourteen counties, 171 Republican and 68 Democratic Supervisors have been elected—a gain of *four* to the Republicans over last year.

☞ The Kennebec, Maine, Journal says the $30,000 loan advertised for by the State Treasurer, has been taken at an average of 6 3-5 per cent. The offers of forty-seven bidders amounted to $442,000.

The Crittenden compromise Republicans appear to be in the same predicament an Irish politician was in the old Irish House of Commons, who, in addressing the House, said: "Mr. Speaker, it is our duty to sacrifice all our liberties, in order to preserve *the remainder.*"—*Greenfield Gazette.*

☞ Near St. Paul, Minn., on the 5th inst., six horses were frozen to death in one stable.

POLITICAL MATTERS IN NEW HAMPSHIRE.—The 'Traveller makes the following extracts from the letter of a correspondent at Concord, N. H.:—

The Republicans have opened the annual State political campaign in a handsome manner. The regular club holds meetings weekly. One was held Monday night and was addressed for an hour by Dr. Frank Fuller of Portsmouth, with his usual eloquence and clearness of argument. Some of his best points were greeted with loud applause, and some of his witty comparisons brought down the house with shouts of laughter. The meeting adjourned with three cheers for the speaker, till Tuesday evening next. This club is an efficient one; N. G. Ordway is President, and in Wide Awake times secured a discipline which will be retained while the Republicans of Concord have any battle to fight.

DEATHS.

In Kingston, Feb. 3, Mrs. PLOOMY P. SANBORN, aged 60, wife of Deo. Isaac Sanborn.—Feb. 10th, Mrs. MARY WINSLOW, aged 83 years, 3 months, relict of Mr. John Winslow, and daughter of the late Capt. Jacob Webster, who commanded a company in the revolutionary war, and who was at the battle of Ticonderoga.

WANTED.

Agents wanted in every Town in New Hampshire to sell the

NEW ENGLAND

FAMILY SEWING MACHINE.

This little Machine stands confessedly at the head of everything now offered to the public.

In Cheapness, Simplicity, Compactness, Durability & Beauty,

IT HAS NO RIVAL!

There is no complicated machinery to get out of order or perplex the operator

It is made with special reference to the wants of a family; simple in its arrangements, perfect in its motion, and durable in its parts. Any one can understand and work it with perfect success; doing all kinds of work, from the finest muslin to the coarsest fabric. It gives the best satisfaction where it is sold; and all who use or examine it, pronounce it better adapted to meet the wants of EVERY FAMILY than any other machine now offered to the public.

Good, smart Agents can earn from $6 to $12 per day by selling the above Sewing Machines.—

Address the Manufacturer,

JOHN G. FOLSOM,
feb26 2w DaW Winchendon, Mass.

Special Notice.

We call the attention of those suffering from Inflammation of the Throat or DIPTHERIA, to the HAMMOND LINIMENT. It has done wonders. Sold by W. R. PRESTON.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

If you have a Sore Throat, go to WM. R. PRESTON, Druggist, Portsmouth, N. H., and get the HAMMOND LINIMENT, which is sure to cure. G. L. BEAN & CO., Proprietors.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one grains he retains. To all those, then who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

Bryan's Pulmonic Wafers!

This extraordinary preparation has been for many years the most certain and speedy remedy for Coughs, Colds, Asthma, Bronchitis, Influenza, and Diseases of the Chest and Lungs. To those suffering from obstinate and confirmed Coughs, they give the most immediate and perfect relief; and when great liability to take cold exists, and a troublesome Cough succeeds the slightest exposure, these Wafers produce the most marked results. They at once relieve the Cough and other symptoms, and entirely remove that morbid irritability and weakness of the Lungs which give rise to the complaint. The medical properties are combined in an agreeable form and are pleasant to the taste, so that any child will readily take them; and they are warranted to give relief in ten minutes after use in all cases.

☞ Price 25 cents per box. Sold by W. R. PRESTON and all druggists. feb28 dawâm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. feb28 dawâm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY.

In the whole history of medical discoveries, NO REMEDY has performed so many or such remarkable cures of the *Throat, Lungs and Chest,—of Coughs, Colds, Bronchitis, Influenza, Whooping Cough, Croup, Asthma*, or of *Consumption* itself, as this far-famed, long-tried and justly celebrated *Balsam*. So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it at hand, as a speedy and certain cure for sudden attacks of *Cold*—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

George W. Millet, Esq.

Editor of the Norway Advertiser, gives his opinion of this great remedy substantially as follows:

NORWAY VILLAGE, Me., Aug 4, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—For a remedy of such undoubted merit as Dr. WISTAR'S BALSAM OF WILD CHERRY, I cheerfully give you my testimony, and trust that others may be induced thereby to give it a trial and be relieved. Several years since I first became acquainted with this Balsam at a time of distressing cough and cold, which had reduced my lungs so to render me unfit for business, and its operation produced a speedy and permanent cure, after trying various other remedies in vain

In our town this remedy is a great favorite with many, and if all who suffer will but give it a fair trial, I think they will find it to be of more service in pulmonary affections than any other remedy of this class before the public.

Yours respectfully. GEO. W. MILLET.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES P. PACKER, Greenland; S. HANSON, Jr., New Market; PORTER & THING and WM. B. SAWYER, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. e25 4w

STRONG TESTIMONY.

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

The following is a sample of many letters daily received by W. E. HAGAN & CO., Troy, N. Y., who are the Manufacturers and Proprietors of "HEIMSTREET'S HAIR RESTORATIVE," an article of which many of our first citizens speak as being the *cheapest and best* Hair Preparation which has ever been introduced in our market. A combination of Stimulating Spirits and Oil, affording an agreeable *Hair Dressing*, leaving the scalp perfectly free from dandruff, and causing the Hair to have a *rich glossy appearance*. Two articles in one. A fine "*Hair Dressing*," and a never-failing Restorative for the *Bald* and *Gray*.—Read the following letter:

ST. LOUIS, MO., June, 1859.

MR. HENRY REYNOLDS,—*Dear Sir*:—I hereby certify that my hair having become *gray*, I used, at your request, HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, (prepared by W. E. HAGAN & CO., Troy, N. Y.,) for several weeks. My hair was in that time restored to its original color, with all its luxuriance and beauty; and I will be much pleased to recommend the article, personally, on any and every occasion, as I know it is a merits that the Proprietors do not claim for it in their circulars. Respectfully yours,

G. W. WALLACE,
USE NO OTHER. *Missouri Glass Co.*

Sold everywhere; price 50 cts. and $1 per bottle.

W. E. HAGAN & CO., Proprietors, Troy, N.Y.

Sold by PRESTON and THACHER.

feb21 L. LAIGHTON.

Local.

☞ The Dramatic Company now performing at the Temple, though not numerous, embraces performers of rare talent and great reputation in their line; and their mirth-provoking exhibitions are as complete as any such travelling troupe can present.—If the man who excites a laugh, is a benefactor, as some great writer has said—then are Locke and Fiske great blessings to the world. At all events, after the dearth of amusements the public have suffered of late, it is no wonder this Company draw full houses wherever they go. To-night, they advertise their last performance here.

EXAMINATIONS SCH. DIST. NO. 1.

Thursday, Feb. 28, A. M., Mr. Demeritt's, School street.
Thursday, Feb. 28, P. M., Mr. Shannon's, North street.
Friday, March 1, P. M., Miss Mason's, Hanover st.

Parents and friends of the scholars are respectfully invited to attend.

JOHN S. HARVEY,
feb25 Secretary of School Committee.

☞ The Funeral of Boatswain WM. HART will take place at his late residence, No. 59 Daniel street, this (Thursday) afternoon, at 3 o'clock. Relatives and friends are invited to attend, without other notice.

☞ Don't forget that Mr. Tilton's Singing School opens, at his room, on Market street, this (Thursday) evening.

THE POEMS OF A YEAR.—One of the most dainty little volumes that we have seen for many a day, is "Pampinea and other Poems, by Thomas Bailey Aldrich," just published by Rudd & Carleton, New York. The introductory poem, which gives the title to the volume, and also "Pythagoras," which follows it, have previously been published in the Atlantic Monthly, and the statement of this fact alone is equivalent to a favorable criticism. There are others also, which have become familiar, found, as they often have been, in the corners of newspapers, sometimes with, and sometimes without, the owner's name; but that which has pleased us most, in a somewhat hurried survey of the volume, has been one, long since a favorite with us. This is "Kathie Morris, an Idyl," which, one might think, suggested to the poet the idea of writing an article which he contributed to the February number of the Knickerbocker. It is true it contains here and there what the critical might object to, as a "hard, rough line," yet the poem, as a whole, combines a fascinating simplicity with exquisite sweetness, and the most tender sentiment. "The Crescent and the Cross" differs essentially in character from many of Mr. Aldrich's previous productions; and it will be noticed that this volume is almost entirely free from that peculiar sentiment which has rendered some of his former poems objectionable to many persons who, while they had a high appreciation of his genius, feared it was tending in a wrong direction. Whatever blemishes there may be in this volume, they are certainly few, and are occasioned rather by what appears to be a want of care, than by a lack of good taste.

The volume may be obtained in this city, at Mr. Shores' bookstore, and, perhaps, we shall be pardoned if we whisper in the ear of each of our readers, that as one of our own poets, he deserves at least some slight acknowledgement at the hands of those among whom he passed his early years, and whose fame is in part ours.

FIRE IN EXETER.—About 2 o'clock on Wednesday morning, fire was discovered in the parlor of the house occupied by Robert Mann, Esq., on Spring st., Exeter. The fire department were promptly on hand, and the damage was confined to the interior of the house, which was badly burned throughout. Most of the furniture was saved. There was about $800 in-urance, we are informed, on the house and furniture.

NEW YORK, Feb. 26.—Washington special dispatches state that the resolution offered by Mr. Somes, of Maine, in the Peace Conference, to protect free speech and freedom of press in the Territories was rejected by a small majority.

It is understood that the administration intends to institute proceedings immediately in the Twiggs treason case.

Secretary Holt addressed a letter to the Governor of Louisiana, demanding the restoration of the government property in New Orleans, denouncing it as a flagrant and atrocious spoliation. Gov. Moore has returned the letter, endorsed—when addressed in the usual language of official intercourse he will consider the matter.

Major Anderson writes that no unusual preparations have recently been made against him, and some works are apparently abandoned.

Secretary Floyd recently boasted that so distributed was the army, no considerable force could be collected against the secessionists in less than two months.

☞ A schooner sailed from Boston, on Tuesday, for Hayti, with about fifty colored emigrants, who are to be settled under the direction of Mr. James Redpath. The government of that island offers great inducements to emigrants in the way of grants of land. Most of these fifty propose to go into the cotton cultivation. They have had experience, and the country is adapted to cotton; and is rising in importance. Hayti, as it now, is the best, as it is the nearest, home for the colored emigrant from the United States; and many will go thither.

THE BEST WAY TO AID THE POOR.—The French mode of helping the poor, is to grant them facilities for helping themselves. In the season a bad one, and are crops short, the government immediately takes measures to supply the deficiency. Exportation of corn is forbidden. Duties on wheat, rice, flour and other food are reduced. If worst comes to worst, the government orders bread sold at a given price, —less than cost—and the government pays the difference. If there comes a stagnation in business, and men are thrown out of employ, the government begins itself, seeks out some great public improvement that is needed—a canal—a public dock, or something that must be done at some time, and takes hold and does it *then*. Public works are there delayed purposely, in good times, so that they may be the means of employment in bad times. The hand of government is seen in a thousand ways, providing facilities for the poor and industrious, and particularly in the way of loans on personal and real estate to help along the poor artisan and mechanic. There are ten holders of real estate in France to one in England.

How different the English system.—There nothing whatever is done to facilitate the business of the poor man. He is left to help himself, if help himself he can.—Not one facility or support does the Government vouchsafe to him. It takes no notice of him whatever until he falls completely prostrate at its feet and *begs for bread!* And then it will do nothing to lift him up and set him to work. It simply feeds him while he continues down, and then only with water gruel. In France, under her system, there are but few paupers. In England, nearly one-fourth part of the population are, one time and another, quartered on Government charity.

It would be well for America if she would study these two systems, and the practical working of them, and be wise in time.—*Boston Transcript.*

WASHINGTON, Feb. 27.—It is the general belief that the Southern Commissioners to the Peace Conference, whose votes defeated the Franklin proposition, did so as a stratagem, either to procure more Northern votes for it, or to obtain something nearer the Crittenden proposition.

If they succeed, what is passed in the Peace Congress will be taken to the House, where it may be passed as a substitute for Corwin's committee propositions. The Senate is doubtful.

Although the Peace Congress has failed to accomplish its specific purpose, it has had the effect of preserving peace, and thus promoting the chances for a harmonious settlement of our national difficulties.

Mr. Lincoln and the border States will doubtless adjust the difficulties.—*Bos. Jour.*

☞ Rev. Mr. Swan's Society, Kennebunk, (Unitarian) contributed on Sunday last, $116 for the benefit of the Kansas sufferers.

More than one-half the diseases of the human system are caused by the use of impure Breadstuffs; and as Saleratus and Soda are the essential qualities for using, it becomes doubly necessary to be watchful. Herrick Allen's Gold Medal Saleratus is the only perfectly healthy article to be relied upon. Try one paper, and you will be convinced that what we say is true. Never use Soda if you can procure this article.—Go to your grocer and get a paper.

Sold at wholesale, by Israel Nash & Co., Boston; and Sumner, Swasey & Currier, Newburyport.

A Distressing Cough, causes the friends of the sufferer as much pain as the sufferer himself. *Dr. Wistar's Balsam of Wild Cherry* will certainly cure coughs, colds, arrest consumption, and that speedily. When did it ever fail?

has removed his

Harness, Saddlery and Trunk Store

—TO—

No. 32 1-2 Congress Street,

Same Building with WILLIAM BODGE, and nearly opposite the Old Stand,

Where he is ready to attend to all business in his line as usual—in the best manner and at the lowest rates.

Grateful for long and liberal past patronage, he would solicit a continuance in his new and improved quarters.

Portsmouth, Nov. 27, 1860.

THE FAMINE IN KANSAS.

Appeal for the Destitute, from the New York City Committee.

WM. C. BRYANT, Chairman. J. E. WILLIAMS, Treasurer.

Chas. H. Marshall, Seth B. Hunt, R. H. McCurdy, Morris Ketchum, G. C. Bronson, Chas. W. Elliott, Daniel Lord, Daniel Drew, J. S. Wadsworth.

It has become our imperative duty to urge upon the public attention the fact that over 40,000 of our fellow citizens in Kansas are now in imminent danger of starving. We have evidence from all sources—from Gen. Pomeroy, Chairman of the Territorial Relief Committee,—from the columns of nearly every newspaper, of all shades of politics—from our own reliable agent, who has just returned. There was no doubt of the misery, terrible, wide-spread, destructive.

We have evidence that whole families have already died of starvation; and that thousands more must lie down discouraged, and die of want or disease consequent upon it, unless prompt and thorough relief is at once applied. Congress is now attempting to sustain the starving Indians, but our 40,000 fellow countrymen—men, women and children—can neither get away from their desolation, nor borrow, nor beg. Their only dependence is upon us, who have never known hunger.

THEY MUST BE SUSTAINED. Will you help us to help them?

To assure you that whatever you do will reach them, we state that in every destitute township is a Relief Committee—these are all represented by the Territorial Committee, as follows:

TERRITORIAL COMMITTEE.

S. C. Pomeroy, Atchison; W. W. Guthrie, Brown County; J. L. McDowell, Leavenworth; Rev. C. Reynolds, Lawrence; Rev. L. Bodwell, Topeka; Dr. S. Ayers, Linn County; F. U. Baker, Junction City; C. B. Lines, Wabaunsee; F. B. Baker, Centralia; Rev. Wm. Bishop, Salina;—Judge A. Spalding, Jefferson County; J. C. Burnett, Bourbon County; J. C. Lambdin, Butler County; Geo. M. Russell, Wyandotte.

EXECUTIVE COMMITTEE.

S. C. Pomeroy, Chairman; J. L. McDowell, Rev. C. Reynolds, Rev. L. Bodwell, F. U. Baker.

S. C. POMEROY, Corresponding Secretary.
G. H. FAIRCHILD, Treasurer.

Gen. Pomeroy is Chairman, and at ATCHISON devotes his whole time and energy, with assistants, to the receipt of food and clothing, all of which are delivered upon requisitions of Town Committees, and are distributed through them.—This organization is prompt, thorough and effective, and we advise the sending of supplies through it. Money and clothing are needed from us;—food can be got in the West.

The names of our committee appear at the head of this appeal, and we hope will be sufficient to induce co-operation. Our Treasurer is JOHN E. WILLIAMS, *President of the Metropolitan Bank*, New York City. All money sent to him will be applied to the payment of Gen. Pomeroy's drafts on account of freights and sacks. We appeal to you all, by every dictate of humanity, of honor, and of public good, to unite with us in alleviating this great calamity. There is no time to be lost.

FIRST—We ask individuals everywhere to contribute at once, and to urge it upon their friends and neighbors.

SECOND—We appeal to all churches and organized bodies to act promptly, generously and efficiently.

THIRD—We urge upon EVERY GOVERNOR OF EVERY STATE immediately to bring this matter to the attention of their Legislatures and people. Our last statistics show that nearly $200,000 is needed within the coming fortnight, to supply this people with seed for Spring planting. It can only be furnished by State action. Every consideration of interest also demands that this new State should be enabled to become self-sustaining, productive, and eventually rich—thus to fulfill her destiny, and to help others, as we are now helping her.

We ask, therefore, every Legislature to do as they would have others do to them in like distress, and at once to grant ample supplies.

All money sent to our Treasurer, JOHN E. WILLIAMS, *Metropolitan Bank*, New York City, will be gratefully acknowledged and effectively used.

All Clothing should be sent to "GEN. POMEROY, Atchison, KANSAS," and freight should be prepaid. DaWlm

DO YOU WANT A MUSTACHE?

BELLINGHAM'S

Celebrated Stimulating Onguent!

For the Whiskers and Hair.

The subscribers take pleasure in announcing to the citizens of the United States, that they have obtained the Agency for, and are now enabled to offer to the American people, the above justly celebrated and world-renowned article.

THE STIMULATING ONGUENT

is prepared by DR. C. P. BELLINGHAM, an eminent physician of London, and is warranted to bring out a thick set of

WHISKERS OR A MUSTACHE

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is in universal use.

It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp, it will cure BALDNESS, and cause to spring up in place of the bald spots a fine growth of new hair. Applied according to directions, it will turn RED or TOWY hair DARK, and restore GRAY hair to its original color, leaving it soft, smooth and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it.

The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price One Dollar a box—for sale by all druggists and Dealers; or a box of the "Onguent," (warranted to have the desired effect), will be sent to any one who desires it, by mail (direct), securely packed, on receipt of price and postage, $1.13. Apply to or address

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.

GARDINER'S

RHEUMATIC AND NEURALGIA

COMPOUND;

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driving excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well."—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 4 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

MOTHERS

CONSUMPTIVES.

"As equal and normal circulation of the blood is health." As the reverse of that is to say, excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz: Impure Blood. Circulation, and from the same cause spring all the minor forms of disease. To discover a certain cure, then, for these diseases, the first great inquiry is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the inquiry, it has been left to this century, amongst its other wonderful discoveries, to have the first grand discovery also.

Acknowledging that life is the gift of the Creator and that in Him we live and move and have our being," we still venture the remark that, as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removes or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorous.

The air we breathe we know to contain a very large proportion of *oxygen*.

Oxygen, brought in contact with metal, evolves or *emits electricity*.

Electricity, brought in contact with a muscular fibre, causes contraction.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart, viz: Impure Venous Blood, coming in contact with the iron in the red corpuscles of blood, emits electricity, which, coming in contact with the heart, (a muscle,) instantly, combining the power which expels the blood, and sends it tingling through the smallest arteries. What, then, are the causes of DISEASE? Want of Pure Air, DYSPEPSIA, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, EPILEPSY, FEVER & AGUE, &c.—a deficiency of the red corpuscles containing the iron, sulphur and phosphorous, which causes a deficiency of electricity, and consequently an attenuated circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys follow, in short almost every type of disease but virulent fevers are subject to this deficiency in the blood, or the corpuscles giving it life.

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the elixir of life, we say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the blood globules and the normal circulation. Consumptives! friends of consumptives! Sufferers from any organic disease! Infirmities have reached an excess of the body or mind, reduce the standard of the blood and diminished the red globules! Ladies suffering any of the diseases peculiar to your sex! Be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up by the medical profession! Do not throw away your only hope. The "Blood Food" is an unfailing remedy, give it a trial.

An enfeebled constitution, worn out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two postage stamps. Blood Food is sold by all druggists; or, if you cannot find it handy, I will send 6 bottles, free of expense, for $5. Address, Dr. J. Bell, 813 Broadway, N. Y. It is put up in 8 oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers, having been done away with; and bears the fac-simile signature of Church & Dupont upon the back of the wrapper. Beware of Counterfeits.

C. T. DUPONT, Sole Proprietor,
feb14 839 Broadway, New York.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL.

Dyspepsia Remedy

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for five years, with increasing favor, and is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Bloated Bowels, Headache, Drowsiness, Loss of Appetite, Low Spirits, Delirium Tremens, Inflammation in Stomach, or Bowels, Excitability, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other Diseases arising from the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and depressed spirits, and restore the weak nervous and shattered to their strength and vigor.

All persons who, from the injudicious use of liquors, have become dejected, weak, nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the Delirium Tremens, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Indigestion.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable feelings of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will clear the obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney or Urinary Complaint, will speedily relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much overnight, and feel the effects of indigestion, or languor, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong and healthy, and will remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and a healthy complexion to the face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents per bottle.

A Distinguished St. Louis Physician Writes:

ST. LOUIS July 10, 1860.

O. J. WOOD, Esq.:—*Dear Sir:*—Allow me the pleasure and satisfaction of transmitting to you the benefical effects of your hair restorative, after a trial of 8 years. I commenced using your Restorative in January, 1852, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, with good growth and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, as even during your early trials of the art, as I am well aware they are all well known already, and even more wonderful ones through out the Union, have been accepted during this traveling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying subject to rheumatic pains and neuralgia—complaints of the liver and kidneys, &c., in short almost every type of disease but virulent fevers are subject to this deficiency in the blood, or the corpuscles giving it life.

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the elixir of life, we say that life can be materially prolonged by the use of the

"BLOOD FOOD,"

which restores the blood globules and the normal circulation. Consumptives! friends of consumptives! Sufferers from any organic disease! Infirmities have reached an excess of the body or mind, reduce the standard of the blood and diminished the red globules! Ladies suffering any of the diseases peculiar to your sex! Be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope had been given up by the medical profession! Do not throw away your only hope. The "Blood Food" is an unfailing remedy, give it a trial.

An enfeebled constitution, worn out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two postage stamps. Blood Food is sold by all druggists; or, if you cannot find it handy, I will send 6 bottles, free of expense, for $5. Address, Dr. J. Bell, 813 Broadway, N. Y. It is put up in 8 oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers, having been done away with; and bears the fac-simile signature of Church & Dupont upon the back of the wrapper. Beware of Counterfeits.

C. T. DUPONT, Sole Proprietor,
feb14 839 Broadway, New York.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL.

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for five years, with increasing favor, and is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Bloated Bowels, Headache, Drowsiness, Loss of Appetite, Low Spirits, Delirium Tremens, Inflammation in Stomach, or Bowels, Excitability, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other Diseases arising from the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and depressed spirits, and restore the weak nervous and shattered to their strength and vigor.

All persons who, from the injudicious use of liquors, have become dejected, weak, nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the Delirium Tremens, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Indigestion.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable feelings of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will clear the obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney or Urinary Complaint, will speedily relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much overnight, and feel the effects of indigestion, or languor, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong and healthy, and will remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and a healthy complexion to the face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents per bottle.

BININGER'S OLD DOMINION WHEAT-TONIC

—FOR—

FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself to invalids, as it contrasted form the *nutritive* properties of *Wheat*, and has received the highest encomiums from eminent medicinal authorities, possessing qualities that are absolutely PATTAKING this *deodorantum* renders it invaluable to those who are suffering from *Consumption*, *Dyspepsia*, *Impaired Strength*, *Lack of Vital Energy*, and all diseases which, in their incipient stages, require only a nutrious diet, and an invigorating, nourishing stimulant

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

A. M. BININGER & CO.,

SOLE PROPRIETORS,

No. 19 Broad Street, ... New York.

For sale in Boston by M. S. BURR & CO., SETH E. PECKER, WEEKS & POTTER, D. GOODLOW & CO., C. G. GOODWIN & CO., REED, CUTLER & CO., T. L. SMITH, S. PIERCE & CO., STEPHEN WEEKS, C. S. DAVIS & CO., 14 TuThsS1y

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for use with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruit and strengthen*, whilst its mellowing influence is genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to health, preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

(Established 1778.)

DR. SWETT'S
COUGH DROPS
—FOR—
Phthisic, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the lungs.

☞ The proprietor and inventor of this valuable Medicine, being confident that his life has not only been protracted many years, but made comfortable by a timely use of the innocent but effectual vegetable from which the mixture is extracted, therefore earnestly recommends it to all who are afflicted with any of the above named complaints.
Appended are some of the certificates and recommendations of these Drops. The first is from our respected brother, Elder Dennett, of Vt.:
Canaan, Sept. 4, 1848.—"Dear Dr. Swett, I consider it a duty I owe to the public as well as to yourself, briefly to state my opinion in regard to your excellent medicine. About six years ago I was taken sick with an affection of the lungs, or what my friends and I thought would terminate in consumption. Indeed I thought myself fast coming under the power of the final disease, when I obtained some of your valuable Cough Drops, and after using two or three bottles, in the course of six or seven weeks, I found myself restored to usual health; and I have no reason to doubt but that your invaluable Cough Drops were the means of saving my life."
SAMUEL R. DENNETT.
